Child Abuse Prevention & Intervention Continuum

Services directed to families where abuse has already occurred (mental health services, anger management classes, substance abuse treatment parent education and parent support groups)

Services directed to families with risk factors for child abuse (parent education, linkage to community resources, youth development, home visiting programs)

Services directed at General Public (Public Service Announcements, public awareness campaigns, flyers and informational efforts)

Strategies for Increasing Family Stability and Preventing Abuse and Neglect

- ❖ Implementation of Differential Response (DR)
- ❖ Creation of broad network of Neighborhood Resource Centers (NRC)

Differential Response

Differential Response (DR) allows Child Welfare agencies to respond to more reports of child abuse or neglect to better meet individual family needs.

- * Target Population:

- * Family that did not reach the threshold for traditional CWS involvement

- * Services include:

- * Home Based/Case Management
 - * Intense short term services for at-risk families
 - * Links to DSS & community resources
 - * Assist with Immediate needs

Neighborhood Resource Centers

- * NRCs - community hubs that provide access to a broad range of services that support family functioning and promote connections. May include:
 - * Parenting
 - * Youth Development
 - * Resource and Referral
 - * Fatherhood Programs
 - * Peer to Peer Supports
 - * Tutoring & Education Support
 - * Family Literacy Programs
- * CWS Referral, other referral source or walk-in
- * School-based or community-based
