

Inter Office Memo

ATTENTION: FOR FINAL ACTION OR MODIFICATION TO OR ADDITION OF CONDITIONS, SEE FINAL BOARD OF SUPERVISORS' ACTION SUMMARY MINUTES

DATE: August 12, 2021

TO: Board of Supervisors

FROM: Planning Commission

SUBJECT: RESOLUTION NO. 12897 - VARIANCE APPLICATION NO. 4106

APPLICANT: CVEAS, Inc.

OWNER: Harpreet Singh

REQUEST: Allow a 75-foot-tall sign, 300 square feet in area, where a maximum height of 35 feet and 150 square feet in area are allowed, on a 3.97- acre parcel in the C-2 (Community Shopping Center) Zone District.

LOCATION: The subject parcel is located on the east side of N. McCall Avenue, between E. Kings Canyon Road (State Route 180) and E. Tulare Avenue, northeast of the intersection of E. Kings Canyon Road and McCall Avenue, and approximately two miles northeast of the City of Sanger (APN 314-120-66) (10070 E. Kings Canyon Road) (Sup. Dist. 5)

PLANNING COMMISSION ACTION:

At its hearing of August 12, 2021, the Commission considered the Staff Report and testimony (summarized in Exhibit A).

A motion was made by Commissioner Carver and seconded by Commissioner Woolf to deny Variance No. 4106 in accordance with staff's recommendation, citing that Finding 1 could not be made because there are no exceptional circumstances on the property to merit an increased height and sign area, and Finding 2 could not be made because there is not a substantial property right at issue that could be enjoyed by other owners in the vicinity under the same zoning.

EXHIBIT A

Variance Application No. 4106

- Staff: The Fresno County Planning Commission considered the Staff Report dated August 12, 2021 and heard a summary presentation by staff.
- Applicant: The Applicant's representative disagreed with Staff's recommendation. He described the project and offered the following information to clarify the intended use:
- The project is a convenience store and gas station that is currently under construction.
 - Due to the location of the project site in relation to State Route 180, a 75-foot tall sign is necessary to make it more visible to passing traffic.
 - The sign would not obstruct any views from surrounding properties, roads, or the adjacent highway.
 - The commercial property is approximately 500 feet north of State Route 180 which makes it difficult to see from the highway; the additional sign height is needed to increase its visibility.
 - The reason other businesses in the area do not request taller signs is due to the cost.
 - While we do seek to attract local business, we also recognize that the highway serves other travelers on their way to the National Parks.
- Others: No other individuals presented information in support of the project.
- Correspondence: No letters were presented to the Commission, in support or opposition to the application.

DEPARTMENT OF PUBLIC WORKS AND PLANNING
STEVEN E. WHITE, DIRECTOR

Planning Commission Staff Report Agenda Item No. 3 August 12, 2021

SUBJECT: Variance Application No. 4106

Allow a 75-foot-tall sign, 300 square feet in area, where a maximum height of 35 feet and 150 square feet in area are allowed, on a 3.97-acre parcel in the C-2 (Community Shopping Center) Zone District.

LOCATION: The subject parcel is located on the East side of N. McCall Ave between E. Kings Canyon Road and E. Tulare Avenue, northerly adjacent to E. Kings Canyon Road (State Route 180), and approximately two miles northeast of the City of Sanger (APN 314-120-66) (10070 E. Kings Canyon Road, Sanger) (Sup. Dist. 5)

OWNER: Harpreet Singh

APPLICANT: CVEAS, Inc.

STAFF CONTACT: Jeremy Shaw, Planner
(559) 600-4207

David Randall, Senior Planner
(559) 600-4052

RECOMMENDATION:

- Deny Variance No. 4106; and
- Direct the Secretary to prepare a Resolution documenting the Commission's action.

EXHIBITS:

1. Conditions of Approval and Project Notes
2. Location Map
3. Zoning Map
4. Land Use Map
5. Site Plan
6. Elevations
7. Findings

SITE DEVELOPMENT AND OPERATIONAL INFORMATION:

Criteria	Existing	Proposed
General Plan Designation	Agriculture	No change
Zoning	C-2 (Community Shopping Center) Zone District	No change
Parcel Size	3.97-acres	No change
Project Site	See above	No change
Structural Improvements	Existing (under construction) Commercial Center consisting of a convenience market, and gas station, within a 4,950 square foot building, a proposed 3,000 square-foot building and 4,500 square foot building for tenant space	Proposed 75-foot-tall freestanding advertising sign to be located in the southeast corner of the project site adjacent to the convenience market
Nearest Residence	525 feet south	No change

EXISTING VIOLATION (Y/N) AND NATURE OF VIOLATION: N

ENVIRONMENTAL ANALYSIS:

It has been determined pursuant to Section 15305 (a) of the California Environmental Quality Act (CEQA) guidelines: *Minor Alterations in Land Use Limitations*, that the proposed project will not have a significant effect on the environment and is not subject to CEQA.

PUBLIC NOTICE:

Notices were sent to 12 property owners within 1320 feet of the subject parcel, exceeding the minimum notification requirements prescribed by the California Government Code and County Zoning Ordinance.

PROCEDURAL CONSIDERATIONS:

A Variance (VA) may be approved only if four Findings specified in the Fresno County Zoning Ordinance, Section 877 are made by the Planning Commission.

The decision of the Planning Commission on a Variance Application is final, unless appealed to the Board of Supervisors within 15 days of the Commission’s action.

BACKGROUND INFORMATION:

The Board of Supervisors approved Amendment Application No. 3799, and General Plan Amendment No. 537 on September 30, 2014, which rezoned a 5.22-acre portion of the formerly 13.06-acre subject parcel from Exclusive Agricultural to the C-2 (Community Shopping Center, Conditional) and changed the underlying land use designation from Agriculture to Community Commercial. The project site is occupied by an existing (under construction) gas station and convenience market comprised of three separate buildings and fuel pump island and canopy.

No other Variances pertaining to building height have been processed within a mile of the subject property.

ANALYSIS/DISCUSSION:

Finding 1: *There are exceptional or extraordinary circumstances or conditions applicable to the property involved which do not apply generally to other property in the vicinity having the identical zoning classification.*

	Current Standard:	Proposed Configuration (sign):	Is Standard Met (y/n):
Setbacks	C-2 Zone District: No requirements, except where a C-2 District abuts or is across the street from any residential district, the requirements of the C-1 District shall apply.	Front (west): 20.0 feet Rear (east): 57.6 feet Side (north): 525 feet (approximate) Side (south): 24.5 feet	Yes
Parking	C-2 Zone District: Minimum of three (3) square-feet of parking area for everyone (1) square-foot of gross floor area except that the number of spaces need not exceed six (6) parking spaces per one thousand (1,000) square feet of gross floor area	Parking requirements not applicable to this Variance proposal	N/A
Lot Coverage	Thirty-three (33) percent	N/A	N/A
Separation Between Buildings	No requirements	N/A	N/A
Wall Requirements	No requirements	N/A	N/A
Septic Replacement Area	100 percent	No change	N/A

Reviewing Agencies/Department Comments:

There were no relevant comments from reviewing agencies or County Departments regarding the project other than advisory statements about required regulations that have been noted under the Project Notes section of Exhibit 1.

Analysis Finding 1:

In support of Finding 1, the Applicant’s justification states that the subject property is unique in that it is the only one Zoned Community Shopping Center and as such, the Variance to allow for the maximum height for buildings and/ or structures to be raised from (35’) thirty-five feet to allow for a 75’ (seventy-five foot) sign allowing for a higher sign will grant visibility at an adequate distance to attract clients.

The Zoning Designation does not make it exceptional; it simply fulfills the specific purpose of the property's intended commercial use. Staff was unable to identify any unique physical attribute of the property that would warrant the increased sign height.

Recommended Conditions of Approval: *None*

Conclusion Finding 1:

Due to the lack of an identifiable extraordinary or exceptional circumstance or condition applicable to the subject property, Finding 1 cannot be made for the allowance of the increased building (sign) height.

Finding 2: *Such Variance is necessary for the preservation and enjoyment of a substantial property right of the applicant, which right is possessed by other property owners under like conditions in the vicinity having the identical zoning classification.*

Reviewing Agencies/Department Comments:

None

Analysis Finding 2:

In support of Finding 2, the Applicant's justification states the pole sign adjusted height will allow for better visibility, and subsequently display the services the applicant wishes to show. Staff identified only two other properties with a half-mile of the subject property with commercial zoning, not identical to the subject property but similar; one is zoned Agricultural Commercial located approximately 650 feet southwest, on the south side of State Route 180, and the other Zoned C-6 (General Commercial) located approximately one-half mile west. Those other commercial properties would be subject to the development standards of their respective zone districts, both of which in this case, have the same building height limitation of 35 feet, as the subject property does. Hence, the property is not at a disadvantage as there is no substantial property right which the business is denied that is being enjoyed by other properties.

Recommended Conditions of Approval:

None

Conclusion Finding 2:

Finding 2 cannot be made, as no deficit of a substantial property right enjoyed by others in the area with the same zoning was identified.

Finding 3: *The granting of a variance will not be materially detrimental to the public welfare or injurious to property and improvement in the vicinity in which the property is located.*

r

Surrounding Parcels				
	Size:	Use:	Zoning :	Nearest Residence*:
North	1.25 acres	Commercial	AE-20	Approximately 535

Surrounding Parcels				
South	1.77 acres	Single-Family Residential (south side of SR 180)	AE-20	Approximately 525 feet
East	22.30 acres	Field Crops/ Single-Family Residential	AE-20	Approximately One-third mile
West	31.17 acres	Field Crops	AE-20	Approximately one mile

*Distances are approximate and measured from the proposed parcel boundaries using a web based aerial imagery application.

Reviewing Agencies/Department Comments:

None

Analysis Finding 3:

In support of Finding 3, the Applicant’s Findings state that there are no features of the proposed sign that would negatively affect surrounding property nor obstruct views therefrom. The sign and base will be static and be lit at night via automatic timer.

The increase in the size and height while not consistent with the Zoning Ordinance would not be significantly materially detrimental or injurious to surrounding properties.

Recommended Conditions of Approval:

None

Conclusion Finding 3:

Finding 3 can be made, as the Variance, if approved, would not have any identifiable detrimental impacts to surrounding property.

Finding 4: *The granting of such a variance will not be contrary to the objectives of the General Plan.*

Relevant Policies:	Consistency/Considerations:
No applicable General Plan Policies were identified.	N/A

Reviewing Agencies/Department Comments:

Policy Planning Section of the Fresno County Department of Public Works and Planning: The subject parcel is designated Agriculture in the County’s General Plan. There are no General Plan issues, and the subject parcel is not subject to a Williamson Act Contract.

Analysis Finding 4:

In support of Finding 4, the Applicant’s findings assert that the granting of this Variance is not contrary to the objectives of the General Plan, in that the sign is consistent with the commercial use of the property. Staff has no concerns relative to General Plan Policies.

Recommended Conditions of Approval:

None.

Conclusion Finding 4:

Finding 4 can be made as there are no General Plan Policies or Objectives pertaining to building height.

PUBLIC COMMENT:

None.

SUMMARY ANALYSIS / CONCLUSION:

Based on the factors cited in the analysis above, Staff cannot make the four required Findings necessary for granting the Variance and recommends denial of Variance Application No. 4106.

PLANNING COMMISSION MOTIONS:

Recommended Motion (Denial Action)

- Move to determine the required Findings cannot be made, in accordance with Staff’s recommendation and move to deny Variance No. 4106; and
- Direct the Secretary to prepare a Resolution documenting the Commission’s action.

Alternative Motion (Approval Action)

- Move to determine that the required Findings can be made (state basis for making the findings) and move to approve Variance No. 4106, subject to the Conditions and Project Notes attached as Exhibit 1; and
- Direct the Secretary to prepare a Resolution documenting the Commission's action.

Recommended Conditions of Approval and Project Notes:

See attached Exhibit 1.

**Variance Application (VA) No. 4106
Conditions of Approval and Project Notes**

Conditions of Approval	
1.	<p>Variance No. 4106 shall become void if the construction of the sign authorized by said Variance is not commenced within one (1) year after the granting of said Variance or is not pursued diligently to completion, or there is a cessation in the occupancy or use of land or buildings authorized by such Variance for a period in excess of one (1) year.</p> <p>Where circumstances beyond the control of the applicant cause delays, which do not permit compliance with the time limitation established in Section 877-D.2, the Commission may grant an extension of time for a period not to exceed an additional one (1) year period. Applications for such extension of time must set forth in writing the reasons for the extension and must be filed with the Development Services Division, Department of Public Works and Planning.</p>

Conditions of Approval reference recommended Conditions for the project.

Notes	
The following Notes reference mandatory requirements of Fresno County or other Agencies and are provided as information to the project Applicant.	
1.	<ul style="list-style-type: none"> o The sign shall contain only the name of the building(s), occupants or groups thereof. Time, temperature and weather information may also be included. o When the bottom of the sign is sixteen feet or more above the ground, projection over the property line shall not exceed five (5) feet. o No sign shall endanger the health and safety of operators of motor vehicles on the streets or highways. o No sign shall be erected at the intersection of any streets in such a manner as to obstruct free and clear vision of operators of motor vehicles. o No sign shall be located where, by reason of the position, shape or color, it may interfere with any authorized traffic sign, signal or device. o No sign may make use of the words "Stop", "Danger", or any other word, phrase, symbol or character in such a manner as to interfere with, mislead or confuse traffic. o Blinkers, flashing, unusual lighting or other means of animation which may cause unsafe distractions shall not be permitted on any sign.
2.	<p>The sign area shall be calculated by multiplying its maximum vertical dimension by its maximum horizontal dimension. Whenever the area of the sign is limited by this division, a double faced sign may be erected having the allowed sign area on each side of the sign; provided, the maximum dimension between the two faces of the double faced sign shall not exceed twenty-four (24) inches or ten (10) percent of the maximum dimension of the face of the sign whichever is the lesser.</p>

Notes	
3.	Where circumstances beyond the control of the applicant cause delays, which do not permit compliance with the time limitation established in Section 877-D.2 (one year), the Commission may grant an extension of time for a period not to exceed an additional one (1) year period. Application for such extension of time must be set forth in writing the reasons for the extension and must be filed with the Department of Public Works and Planning, Development Services and Capital Projects Division before the expiration of the Variance.
4.	An encroachment permit from the Fresno County Road Maintenance and Operations Division will be required for any work proposed within the County road right-of-way.
5.	As a measure to protect ground water, all water wells and/or septic systems that exist or have been abandoned within the project area should be properly destroyed by an appropriately licensed contractor.
6.	Should any underground storage tank(s) be found during the project, the applicant shall apply for and secure an Underground Storage Tank Removal Permit from the Fresno County Department of Public Health, Environmental Health Division.

EXHIBIT 7

Pre-application Review No: 21-002653

APN: 314-120-66

Project Address: 10070 E. Kings Canyon Road, Sanger, CA 93657

This property in specific is located next to the 180 freeway. Most of the clientele will be from people driving the 180 and the need of a 75'-foot pole sign is to give visibility at an adequate distance for clients to slow down and stop by.

Variance Findings:

1. There are exceptional or extraordinary circumstances or conditions applicable to the property involved which do not apply generally to other property in the vicinity having the identical zoning classification.

This property in specific is zoned Community Shopping Center and it's the only one within the vicinity with such zoning designation. The property will be providing NEW services, different from the ones already found within the vicinity.

2. Such variance is necessary for the preservation and enjoyment of a substantial property right of the applicant, which right is possessed by other property owners under like conditions in the vicinity having the identical zoning classification.

There are no other properties within the vicinity with the identical zoning classification. C2 zoning allows shopping centers to be built, thus the need of the sign to display the services provided.

3. The granting of a variance will not be materially detrimental to the public welfare or injurious to property and improvement in the vicinity in which the property is located.

The granting of the variance will not affect its surroundings. The height of the pole sign will not block any view; it will be visible from about 1.5 miles away. It will be a static pole, with an automatic timer to light it up during night time. It will be made of mostly metal with some aluminum and flexy glass.

4. The granting of such variance will not be contrary to the objectives of the General Plan.

The sign will be in a commercial zone displaying the commercial services provided.

ATTACHMENT C

CVEAS, INC./ Harpreet Singh
2511 Logan St.
Selma, CA 93662

To whom it may concern,

On August 12, 2021 Variance application No. 4106 was presented to the planning commission meeting by the owner Harpreet Singh and his representative CVEAS. The variance to allow a 75'-tall sign, 300 S.F. in area, where a maximum height of 35' and 150 S.F. in area are allowed, was denied by the planning commission.

We are asking to appeal their decision, and to the Board of Supervisors to reconsider the variance.

The planning commission denied the variance because of several reasons, here are some of them. They said the sign was going to affect the visibility for the neighbors, it would bring issues to aircrafts, future developments will request the same type of variance, and they also mentioned they didn't see the need for such a tall sign, but they did mention a sign lower than 75' would maybe work in their own discussion.

We want to appeal because we strongly believe the decision was incorrect. This vicinity is mainly agricultural land so there's hardly any neighbors close by. There are existing PG&E towers and lines about 85' high running along McCall Ave. near this site and they don't represent any issue to the aircrafts. Future developments might request the same type of variance, but there are hardly any sites with the same zone classification within the vicinity; it's important to mention the site's location, this site is not located directly at the intersection, thus the need of a higher pole sign. In addition to this, we did take into consideration the comments from the planning commission so we are open to lower the height, but the owner wants to bring new businesses to this site and help them succeed, thus the request for reconsidering the variance for the sign.

Sincerely,

CVEAS/Harpreet Singh

**Variance Application (VA) No. 4106
Conditions of Approval and Project Notes**

Conditions of Approval

1.	<p>Variance No. 4106 shall become void if the construction of the sign authorized by said Variance is not commenced within one (1) year after the granting of said Variance or is not pursued diligently to completion, or there is a cessation in the occupancy or use of land or buildings authorized by such Variance for a period in excess of one (1) year.</p> <p>Where circumstances beyond the control of the applicant cause delays, which do not permit compliance with the time limitation established in Section 877-D.2, the Commission may grant an extension of time for a period not to exceed an additional one (1) year period. Applications for such extension of time must set forth in writing the reasons for the extension and must be filed with the Development Services Division, Department of Public Works and Planning.</p>
----	--

Conditions of Approval reference recommended Conditions for the project.

Notes

The following Notes reference mandatory requirements of Fresno County or other Agencies and are provided as information to the project Applicant.	
1.	<ul style="list-style-type: none"> o The sign shall contain only the name of the building(s), occupants or groups thereof. Time, temperature and weather information ma also be included. o When the bottom of the sign is sixteen feet or more above the ground, projection over the property line shall not exceed five (5) feet. o No sign shall endanger the health and safety of operators of motor vehicles on the streets or highways. o No sign shall be erected at the intersection of any streets in such a manner as to obstruct free and clear vision of operators of motor vehicles. o No sign shall be located where, by reason of the position, shape or color, it may interfere with any authorized traffic sign, signal or device. o No sign may make use of the words "Stop", "Danger", or any other word, phrase, symbol or character in such a manner as to interfere with, mislead or confuse traffic. o Blinkers, flashing, unusual lighting or other means of animation which may cause unsafe distractions shall not be permitted on any sign.
2.	<p>The sign area shall be calculated by multiplying its maximum vertical dimension by its maximum horizontal dimension. Whenever the area of the sign is limited by this division, a double faced sign may be erected having the allowed sign area on each side of the sign; provided, the maximum dimension between the two faces of the double faced sign shall not exceed twenty-four (24) inches or ten (10) percent of the maximum dimension of the face of the sign whichever is the lesser.</p>

Notes

3.	<p>Where circumstances beyond the control of the applicant cause delays, which do not permit compliance with the time limitation established in Section 877-D.2 (one year), the Commission may grant an extension of time for a period not to exceed an additional one (1) year period. Application for such extension of time must be set forth in writing the reasons for the extension and must be filed with the Department of Public Works and Planning, Development Services and Capital Projects Division before the expiration of the Variance.</p>
4.	<p>An encroachment permit from the Fresno County Road Maintenance and Operations Division will be required for any work proposed within the County road right-of-way.</p>
5.	<p>As a measure to protect ground water, all water wells and/or septic systems that exist or have been abandoned within the project area should be properly destroyed by an appropriately licensed contractor.</p>
6.	<p>Should any underground storage tank(s) be found during the project, the applicant shall apply for and secure an Underground Storage Tank Removal Permit from the Fresno County Department of Public Health, Environmental Health Division.</p>
