Scope of Work

Scope of Work

The Fresno County Department of Public Health acting as the Central California Emergency Medical Services Agency (CEMSA) is the designated local EMS Agency for the Counties of Fresno, Kings, Madera and Tulare Counties. Through specific agreements between each County, this integrated EMS system provides 100% paramedic coverage with consolidated resources of both public and private provider agencies. The development of regional policies and procedures assures that out of hospital care and procedures are consistent and that patients throughout the region are receiving quality patient care.

Significant changes are occurring in healthcare and the Emergency Medical Services has an increasing role in the delivery of prehospital and "out-of-hospital" care. As "mobile integrated healthcare" expands the EMS systems of today continue to find themselves in an awkward position of developing changes in the delivery model of prehospital care that must occur, while at the same time trying to protect the EMS system from expansion of traditional services and roles that are no longer needed. EMS systems are looking towards healthcare models that further decrease the number of patients accessing emergency departments. The CCEMSA has implemented several changes this past year with the sole focus of trying to keep paramedic ambulances available to the EMS system. This includes increasing the use of Basic Life Support ambulances to handle prehospital requests for behavioral health incidents (i.e. 5150) and many non-emergency requests for ambulance service that data has shown not to require the use of a paramedic ambulance. The EMS Agency also reduced code 3 responses by nearly 30% by conducting an in-depth study of responses, which resulted in reducing many lights and sirens responses to non-lights and sirens responses.

The EMS agency's continuing challenge is to assure that the integrity of the EMS System remains intact. The EMS system continues to move forward and ideas are in place to further enhance the quality level of care provided throughout the EMS region. The funding provided by the State of California assists the EMS Agency in maintaining this level of commitment to each of these counties and provides a standard level of care that may not be possible without this assistance.

The CCEMSA is prepared to meet the challenges of the coming year. With the challenges come opportunities and the CCEMSA will be aggressively pursuing any changes that will continue to protect the citizens, continue the provision of excellent prehospital care, and expand the development of out-of-hospital care.

While we acknowledge the changing dynamics in today's healthcare systems, we remain confident in our ability to execute and look forward to the year ahead for Emergency Medical Services.

Special Terms and Conditions

Special Terms and Conditions**1. Amendments**

This agreement allows for amendments to add time for completion of specified deliverables and/or to increase funding. Should either party, during the term of this agreement, desire a change or amendment to the terms of this Agreement, such changes or amendments shall be proposed in writing to the other party, who will respond in writing as to whether the proposed changes/amendments are accepted or rejected. If accepted and after negotiations are concluded, the agreed upon changes shall be made through the State's official agreement amendment process. No amendment will be considered binding on either party until it is formally approved by both parties and the Department of General Services, if such approval is required.

2. Excise Tax

The State of California is exempt from federal excise taxes, and no payment will be made for any taxes levied on employees' wages. The State will pay for any applicable State of California or local sales or use taxes on the services rendered or equipment or parts supplied pursuant to this Agreement. California may pay any applicable sales and use tax imposed by another state.

3. Force Majeure

Neither party shall be liable to the other for any delay in or failure of performance, nor shall any such delay in or failures of performance constitute default, if such delay or failure is caused by "Force Majeure." As used in this section, "Force Majeure" is defined as follows: unforeseen circumstances that make performance of the agreement impossible such as acts of war, civil unrest, acts of governments (such as changes in law) and acts of God such as earthquakes, floods, and other natural disasters such that performance is impossible.

- A. If you are a Contractor located within the State of California, a business license from the city/county in which you are headquartered is necessary; however, if you are a corporation, a copy of your incorporation documents/letter from the Secretary of State's Office can be submitted. If you are a Contractor outside the State of California, you will need to submit

to the Emergency Medical Services Authority (EMSA) a copy of your business license or incorporation papers for your respective State showing that your company is in good standing in that state.

- B. In the event, any license(s) and/or permit(s) expire at any time during the term of this contract; Contractor agrees to provide EMSA with a copy of the renewed license(s) and/or permit(s) within 30 days following the expiration date. In the event the Contractor fails to keep in effect at all times all required license(s) and permit(s), the State may, in addition to any other remedies it may have, terminate this contract upon occurrence of such event.

5. Inspection of Services

Services performed by Contractor under this Agreement shall be subject to inspection by EMSA at any and all times during the performance thereof.

If EMSA official conducting the inspection determines that the services performed by Contractor (and/or materials furnished in connection therewith) are not in accordance with the specification, EMSA may, at its option, have the work performed by an alternate provider, charging the Contractor with any excess cost occasioned thereby.

6. Liability for Loss and Damages

Any damages by the contractor to the State's facility including equipment, furniture, materials or other State property will be repaired or replaced by the contractor to the satisfaction of the State at no cost to the State. The State may, at its option, repair any such damage and deduct the cost thereof from any sum due contractor under this Agreement.

7. Cancellation / Termination (SCM 7.85)

- A. This agreement may be cancelled or terminated without cause by the State by giving thirty (30) calendar days advance written notice to the Contractor. Such notification shall state the effective date of termination or cancellation and include any final performance and/or payment/invoicing instructions/requirements. Contractor may submit a written request to terminate this Agreement only if the State should substantially fail to perform its responsibilities as provided herein.

- C. Contractor shall be entitled to payment for all allowable costs authorized under this agreement, including authorized non-cancelable obligations incurred up to the date of termination or cancellation, provided such expenses do not exceed the stated maximum amounts payable.
- D. However, the agreement may be immediately terminated without advance notice for cause. In this instance, the contract termination shall be effective as of the date indicated on the State's notification to the Contractor. (Refer to GC, Exhibit C, Item 7. Termination for cause.)
- E. This agreement may be suspended or cancelled without notice, at the option of the Contractor, if the Contractor or State's premises or equipment are destroyed by fire or other catastrophe, or so substantially damaged that it is impractical to continue service, or in the event the Contractor is unable to render service as a result of any action by any governmental authority.

8. Disputes

Any dispute concerning a question of fact arising under this contract that is not disposed of by agreement shall be decided by the Director of EMSA, who may consider written or verbal evidence submitted by the Contractor. The decision of the Director of EMSA, issued in writing, shall be conclusive and binding on both parties to the contract on all questions of fact considered and determined by the Director of EMSA.

All work products, intellectual property or otherwise, developed under this contract shall become the property of EMSA.
