FISCAL IMPACT:

There is no fiscal impact associated with the recommended action.

DISCUSSION:

On September 2, 2025, the Salt 14-2 Fire ignited in western Fresno County and rapidly expanded, creating conditions of extreme peril to public safety and necessitating the proclamation of a local emergency by the Emergency Services Director on September 4, 2025, pursuant to Government Code section 8630 and Fresno County Ordinance Code, Chapter 2.44. The Board subsequently ratified this proclamation and adopted Resolution No. 25-285 on September 9, 2025.

Since that time, firefighting efforts have achieved full containment of the Salt 14-2 Fire, evacuations have been lifted, and emergency operations have been demobilized. Conditions no longer warrant the exercise of extraordinary emergency powers.

Approval of the recommended Resolution will officially terminate the local emergency declaration effective October 21, 2025, consistent with Government Code section 8630(d), which requires termination at the earliest possible date.
