

Item #10  
6-23-2020

County of Fresno  
BOS Dais Area  
Measurements are Chair Edge to Chair Edge

Not to Scale  
Measurements were actually measured

**No Gallery seating meets the 6' or 72" guideline except for the one seat in the back row marked in yellow with an "O"**

I only bring this to your attention out of concern for the Supervisors and Staff well being. I am concerned for my colleagues and staff as our Coronavirus numbers continue to climb.

If we cannot provide adequate separation on the Dais I would recommend sneeze guards made of Plexiglass be installed between and in front of all who sit in this area.

Additionally only one seat in our gallery meets the recommended 6' or 72"  
I have concerns for those in the public and staff who attend and are seated in our gallery as well.
