**FISCAL IMPACT:**

There is no additional Net County Cost associated with the recommended actions.

**DISCUSSION:**

The State Legislative Platform is used by County officials and staff as policy guidelines for legislative action and to facilitate timely responses to requests from the County's State Legislative Delegation, the County's State lobbyists, and interested citizens. Your Board last updated the State Legislative Platform on March 5, 2024. This is the annual update to the Legislative Platform.

For letters of support or opposition, the platform serves as a guide for departments to easily identify if State issues they are working on fall within the County's State Platform. Consistent with Administrative Policy 21,

any specific State issues falling outside of the platform and any letter requesting the signature of all five Board members would require an agenda item for presentation to your Board. It should be noted, if an individual Board member wishes to submit a letter of support or opposition that is consistent with the Platform, they may do so under their Office; however, they may also utilize your Board's letterhead.

The proposed platform contains three sections:

- I. Introduction** - an explanation of the purpose of the legislative platform.
- II. Major Legislative Issues** - identifies significant issues for the County.
- III. General Principles** - provides positions that will guide County actions and advocacy efforts in specified categories of Agriculture; Child Support Services; Criminal Justice and Public Protection; Economic Development and Workforce Investment; Elections; Energy/Air Quality; Environmental Quality/Natural Resources; General Government and Finance; Labor Relations and Employee Benefits; Land Use; Library; Public Health, Mental Health, and Health Care Services; Social Services; Transportation; Water; and Specific 2023 Legislation.
