Upon annual consultation with the Fresno Madera Continuum of Care and evaluation of services available in our community, the activities that were funded with the Emergency Solutions Grant (ESG), provided by the Department of Housing and Urban Development in the 2012, 2013, 2014, 2015, 2016, and 2018 Program Years differed from those presented in the Annual Action Plans. Below is the correct representation of the activities that were funded by the County of Fresno and their respective amounts. For Program Year (PY) 2018, the funded amounts exceed the grant amount due to the County reallocating unexpended funds from PY 2012-2016 to fund additional homeless services in the community.
