Subject: Urgent Community Concern: Oppose Policy No. 80 & "In God We Trust" Signage

CAUTION!!! - EXTERNAL EMAIL - THINK BEFORE YOU CLICK

[Report Suspicious](#)

Dear Members of the Board,

I am writing to voice my strong opposition to two items currently before the Board: the proposed installation of "In God We Trust" signage in the Board chambers and the adoption of Administrative Policy No. 80.

Regarding the signage: While I understand that the phrase "In God We Trust" is the national motto, incorporating overtly religious language into government spaces is exclusionary. Our chambers should reflect the full diversity of Fresno County's population, including people of many faiths and those of no religious affiliation. Public institutions should represent all constituents equally and remain secular in order to uphold the First Amendment and foster an inclusive environment.

I am also deeply concerned about the adoption of Administrative Policy No. 80. This policy, as proposed, would require Board approval for any departmental spending on community events, regardless of amount, and would impose prohibitions on the types of events or programs the County may participate in or fund. This is a direct response to Supervisor Garry Bredefeld's expressed opposition to the Department of Public Health's participation in Pride events — events where vital outreach services, including access to health resources and prophylactics, are provided to vulnerable communities.

The policy's vague language and the fact that the process details will be developed through an internal administrative directive — which will not be available to the public — are troubling. This lack of transparency raises serious concerns about accountability and public oversight.

If implemented, Policy No. 80 could significantly disrupt the delivery of essential services and outreach by adding unnecessary bureaucracy, delaying action, and enabling the Board to block participation in events based on political or ideological bias — even when such participation is aligned with department missions and public health mandates. It could also result in higher costs to the County due to increased staff time and administrative burdens.

I urge you to reject both the proposed signage and Administrative Policy No. 80. These actions would undermine the County's commitment to equity, transparency, and efficient governance.

Thank you for your time and attention to these important matters.

Subject: Opposition to "In God We Trust" Resolution

CAUTION!!! - EXTERNAL EMAIL - THINK BEFORE YOU CLICK

[Report Suspicious](#)

Dear Clerk of the Board,

I'm writing to oppose this resolution, which would display "In God We Trust" in the Fresno County Board of Supervisors Chambers.

While this phrase is the national motto, placing it in our government chambers risks suggesting a religious preference, undermining the constitutional principle of religious neutrality. Fresno County is home to people of many faiths and those with none, and our public spaces should reflect inclusivity for all residents.

Symbolic gestures like this can divide rather than unite. I respectfully urge the Board to reject the resolution and choose the alternative action of not approving the display.

Thank you for considering my comment.

Sincerely,

Angelia Quirk

Subject: Opposition to Aug 19 Agenda Item 6
To: Magsig, Nathan <nmagsig@fresnocountyca.gov>, BOSComments <BOsComments@fresnocountyca.gov>

Supervisor Magsig:

I'm writing as your constituent regarding the proposed installation of a religious sign inside the BOS meeting chamber (Aug 19 2025, Agenda Item 6).

As yet another solution in search of a problem, it is unnecessary in every way. I strongly oppose the unwarranted expense, particularly considering the current county budget deficit, not to speak of the already surplus religious sentiment of the fervent evangelical invocations which precede every meeting.

National motto or not, many find it objectionable, and no sufficient justification has been made for plastering it on the chamber wall, other than "it's the national motto," "it's not illegal," and "others have done it."

[Report Suspicious](#)

Greetings,

We are a group of mostly retired professionals and life-long Fresno County residents. We participate in a variety of groups with other professionals doing good works for the community at large. We do this in our city, for our city, for all its people.

We are deeply concerned with an item on your agenda that is coming up which, many of us believe, is antithetical to the spirit of community as well as divisive.

The vote we refer to is on the upcoming Aug. 19th agenda. We are strongly encouraging our elected board members to vote NO on Item #6.

We strongly believe that Garry Bredefeld's reason for introducing this item is not about displaying the motto:

"serve as a unifying statement, expressing trust in higher ideals and reinforcing the County's commitment to foundational principles such as justice, liberty, and service to the people."

It is more about him pushing his religious and political beliefs onto a heterogeneous body of people's, as evidenced by his obsession with

Pride Month and limiting which holidays county employees can and cannot celebrate, amongst a litany of other things.

Our groups come from many faiths and some with none, but each individuals belief system is personal and woven together into the fabric of this city, strengthening our community.

We ask, which God does Mr. Bredefeld want us to put our trust in? His God we presume.

There are just too many Gods involved in this community and we wonder if they will all have a say at this meeting and whether their creed will also be written for all to see and read.

We still have freedom of religion and, freedom from religions. We have no problem with people praying to their own God in their home or Church. But we cannot tolerate one man's attempt to force a singular religion down our community's throats. Much blood was shed and lives lost in the pursuit of our rights to be free of tyrants, even at the local level of governance.

We urge the esteemed board members to vote a resounding NO on Item 6. To spend district money on an obvious political play would be a gross miscarriage.

Let sense and reason carry the day. Not theatre and grandstanding.

Thank you,

Concerned Citizens of Fresno

Public comment in regards to agenda item #6...

I am writing in response to Supervisor Bredefeld's proposal. Adding "In God We Trust" to government signage sends a message that favors one religious worldview and risks excluding members of our diverse community, including those of minority faiths or no faith. Public institutions like council and board chambers belong equally to all of us, and no one should feel like an outsider because of their beliefs. Our government should foster inclusion and equal belonging, not division. Thank you.

CAUTION!!! - EXTERNAL EMAIL - THINK BEFORE YOU CLICK

Report Suspicious

I ask you to consider the whole of our community and oppose this item.

Fresno County is a richly culturally diverse area, with many ethnic groups represented, and that a point of pride and something that the board should demonstrate intentional respect.

Within our county there are people from multiple faith traditions that are monotheistic while there are also many of those who don't hold a monotheistic religious belief, from a wide array of cultures, who are equal as constituents and leaders. Council and board chambers are public institutions that belong equally to all members of the community, regardless of religion or creed.

As well, There is diversity among people of faith and there are different views regarding this item; including those who don't agree with the placement of this signage in the chambers, for a variety of reasons.

This, being a permanent sign in the chambers asserting a particular religious statement and belief, however broad, would show that the county is choosing not to represent or recognize all constituents and decision makers in this space.

What is notable to this item from the previous BOS meeting is that Bredefeld and Magsig referred to the county's flag policy, which was created to limit the display of flags to only represent our national, state, and veterans, with the idea of not representing any other groups and that these flags are the most inclusive. This signage seems to go against this perspective. It seems to also not be reflective of the Fresno County Guidelines and Mission.

The different facets of diversity in community can be shown through the many celebrations and acknowledgements that happen throughout the year that represent a diverse community, which do not assert a county wide identification with what is celebrated, such as various cultural celebrations.

Like the items regarding celebrations, this is an opportunity and a necessity of the board to show that you and the county represent all constituents.

Items #6 and #8
8/19/25 BOS Meeting

To: Clerk/BOS
Subject: 08/19 BOS Meeting - Public Comment - Item #6 & Item #8

CAUTION!!! - EXTERNAL EMAIL - THINK BEFORE YOU CLICK

Report Suspicious

Hello,

I am unable to make it in person to this board meeting and would like to comment on item #6 "National Motto" and on item #8 "Whole Person Harm Reduction Program".

Item #6 **should not** be approved as written. Much like the Board did with Item #6 on 07/08/25 to declare support of the Second Amendment, I believe they can declare their support for the National Motto, but I do not believe it should be displayed in the Board's chambers.

1. First, displaying the national motto on the walls of the chamber is an inappropriate use of District 2's public funding. This is waste, fraud, and abuse. Funding spent on this useless sign could go towards improving County island roads, sidewalks, green space, etc. within District 2 and go towards the constituents of the district.
2. Second, this wasteful display would not be a "unifying statement" as the agenda item claims. The County serves a wide variety of religions and the motto would be inadvertently excluding people who are polytheist, atheist, or omnist and display a religious preference to monotheism. As a Christian, I suggest the person who submitted this board agenda item read Matthew 6:5-6.
3. Third, if the Board truly wants to go through with wasting District 2 funds and excluding people of other religious backgrounds to displaying the motto on their chamber walls as "it will align with the long-standing national tradition and mirrors similar actions taken by local cities", then I believe the Board should wait until the remaining 5 of the 15 incorporated cities within Fresno County (Clovis, Firebaugh, Kingsburg, Mendota, and San Joaquin), who have yet to adopted the motto, have voted to also adopt to display the motto in their chambers. It wouldn't be very unifying if the County steps over the cities heads in adopting this before they have a chance to.

Item #8 **should** be approved as written. I saw the story on the Whole Person Harm Reduction Program and this item on the news yesterday and I do not approve of Mr. Bredefeld taking such a negative viewpoint on this matter that would greatly benefit the community. As a public figure, I expected him to have more decorum when being interviewed. He should be listening to the experts and what the community wants and not preemptively judging the program before it even begins. We should let this pilot program run and, when the time for renewal comes up, we can let the results tell us if the program is working in our community or not.

Thank you for your time.

Sincerely,
Jessica

[Report Suspicious](#)

Good morning-

I am writing in today to give my comment on item 6 on today's agenda 8/19/25- I wish I was able to attend in person to say my comments publicly but I work 8-5pm and am unable to attend.

I **strongly oppose** Fresno BOS adding 'in god we trust' signage for the board chambers. First and foremost it goes against the county of Fresno Mission and Guidelines, and our constitution. A reminder that under the first amendment we have freedom of religion and the US constitution prohibits the government from establishing a religion. The slogan 'in god we trust' conveys a preference for a religious worldview, whether that was the intention or not. Such messaging risks marginalizing members of our community with different beliefs, including those of minority faiths or no faith. Council and board chambers are public institutions that belong equally to ALL members of the community, regardless of religion or creed. No one should be made to feel like an outsider in these spaces simply because they do not share the majority's religious views. Government institutions should foster a sense of equal belonging, not exclusion. Our communities are religiously diverse, encompassing many different faiths as well as non-faith traditions. Please do not add 'in god we trust' to the board chambers.

[Report Suspicious](#)

Mr. Magsig,

I saw that a recent agenda item includes adding "In God We Trust" to the council chambers above where to Board sits. I am opposed to this item because this violates the Board's own guidelines. Under "Respecting Diversity," the Board commits to "[acknowledging] the rich cultural and ethnic communities of our region". By placing "God" above all else in the council chamber, the Board is placing an emphasis on Christianity above all other cultures and not "Respecting and embracing ethnic and cultural diversity" that make up our great county.

There are so many other religions and even non-religious folks whom the Board are elected to serve, and placing one religion above all others is disrespectful and harmful to the communities that make our county so amazing.

Lastly, there are many very pressing issues that need the Supervisors' attention, and this topic is not something I expect my tax dollars to be used in debate. We have real issues and real problems that need to be solved, and this is a waste of time and resources. Please spend your valuable time working on issues that actually impact the citizens you are elected to serve instead of on frivolous "beautification" issues that don't positively impact the lives of the people you are there to serve.

Regards,
Sara Smith

Please vote against the resolution to include "In God We Trust" in the county chambers. The principle of separation of Church and State demands that our governance be free from religion. In a very concrete way, putting this phrase in our governing chambers effectively excludes some of our county residents. Our country was founded on freedom of thought, belief, and religion. Please don't make our little part patently Christian. I must also point out another problem with passage of this resolution. It appears to narrow "God" to the Judeo-Christian concept as evidenced by the historical references Bredefeld is relying upon. The resolution has excluded Buddha, Allah, Vishnu, Nzame, Inyan, Ame-no-Minakanushi, and so on. As many cultures we have in Fresno County, is as many Gods our peoples worship. I would encourage inclusion instead of exclusion. Vote no on this resolution.

Michelle R. DeLaBarre,
District 5 Resident
