

Written Statement to the Board of Supervisors

To the Honorable Members of the Board of Supervisors:

I respectfully submit this statement in support of the issuance of a license for my business. In accordance with county policy, I would like to address the required criteria for determining public convenience and necessity:

1) “The issuance of a license would not tend to create a law-enforcement problem or increase crime activity.”

Our business is committed to maintaining a safe environment and preventing any increase in crime or law-enforcement issues. We will implement strict ID-checking procedures, limit sales to responsible customers, and ensure full compliance with all ABC regulations. Our store already has high-quality security cameras, adequate lighting, and trained staff who monitor activity closely. Because of these measures, the issuance of this license will not create law-enforcement problems or increase crime in the area. Instead, it will allow us to operate in an orderly, well-regulated, and responsible manner.

2) “The issuance of a license would provide a needed service to the community and that without this use there would be an inconvenience.”

Our market provides essential goods and daily convenience items to the community. Many residents in this area lack nearby options for purchasing groceries and household necessities. Adding legal alcohol sales at our location allows customers to purchase everything they need in one stop, instead of traveling long distances to other towns or stores. This is especially helpful for elderly residents, people with limited transportation, and families doing their weekly shopping. Without this license, the community loses the convenience of a complete, full-service neighborhood market.

3) “The issuance of a license will have a positive impact on the local economy.”

Approving this license will directly support the local economy. Increased sales will allow us to create additional jobs, expand services, and invest more into the store. We purchase from local suppliers when possible and contribute to county tax revenues. A stronger business means more employment opportunities and a more vibrant commercial area. The license will help our store grow and continue serving the community while supporting economic development in the county.

For these reasons, I respectfully request approval of this license application. I am confident that my business will operate responsibly, uphold community standards, and provide meaningful contributions to the local economy through job creation, tax revenue, and reinvestment into the community.

Thank you for your time and consideration.

Respectfully submitted,
