

BEFORE THE BOARD OF SUPERVISORS  
OF THE COUNTY OF FRESNO  
STATE OF CALIFORNIA

IN THE MATTER OF: AMENDING )  
ESTABLISHED DRAINAGE COSTS AND ) RESOLUTION  
FEES FOR THE LOCAL DRAINAGE AND )  
FLOOD CONTROL MASTER PLAN )

WHEREAS, the Board of Supervisors ("Board") of the County of Fresno ("County") has enacted Chapter 17.64, Title 17 of the Fresno County Ordinance Code, which ordinance is hereby incorporated herein by this reference, creating and establishing the authority for imposing and charging fees for the construction of planned local storm drainage facilities pursuant to the adopted Storm Drainage and Flood Control Master Plan; and

WHEREAS, an amended Storm Drainage and Flood Control Master Plan Map (Exhibit "A" hereto) specifying public facilities and improvements, existing and proposed, which are necessary to provide drainage service and flood control within the respective local drainage areas specified therein has been presented to the Board; and

WHEREAS, a fee study entitled "2025 Drainage Fee Schedule" ("Fee Study") has been conducted of the impacts of contemplated future development on the existing storm drainage services and facilities in the local drainage areas of the Fresno Metropolitan Flood Control District ("District") and the County listed in Exhibit "B" attached hereto, along with an analysis of new, improved or expanded public facilities, the estimated costs of those improvements, and the schedule of per gross acre fees calculated to raise the sum of money necessary to pay the estimated total cost of local drainage facilities in said local drainage areas; and

WHEREAS, the District complied with the requirements of AB 602 and Government Code section 66016.5, which requires an agency conducting a nexus fee study (i.e., the District) to compute fees for residential housing by square footage of the building structure, which is inconsistent with the District's

1 method of calculating fees, or alternatively to make specified findings explaining why square footage is  
2 not an appropriate metric to calculate the fees; and

3 WHEREAS, the District made these findings on December 11, 2024, to adopt fees not based on  
4 building square footage because (1) the District's method of computing drainage fees using percent  
5 imperviousness of a project is a more equitable method of computing drainage fees and calculating a  
6 fee based upon square footage does not capture impervious surfaces outside of the footprint of the  
7 structure; (2) the fees rates used are based on land use as determined by the Cities of Fresno and Clovis  
8 and the County of Fresno's General Plan; and (3) District does not collect fees for smaller residential  
9 improvements under 1,000 square feet on developed or partially developed property, 'tiny homes' under  
10 750 square feet, and development with additional improvements that are equal or more than 25% of  
11 property developed prior to March 15, 1969; and

12 WHEREAS, the Fee Study was available at the District's office for public inspection and review  
13 ten (10) days prior to this public hearing and notice was given in compliance with the requirements  
14 therefor; and

15 WHEREAS, a public hearing was held pursuant to the public notice cited herein at a regularly  
16 scheduled meeting of the Board; and

17 WHEREAS, after considering Storm Drainage and Flood Control Master Plan Map attached  
18 hereto as Exhibit "A" and the Fee Study and analysis prepared by the District, in addition to the "Storm  
19 Drainage and Flood Control Master Plan," the "Fresno County General Plan," and the various community  
20 and specific plans, and the information and testimony received at this public hearing, this Board finds as  
21 follows:

22 A. The Storm Drainage and Flood Control Master Plan Map attached hereto as Exhibit "A"  
23 and the storm drainage fees set forth in Exhibit "B", as adopted by Paragraphs 2 and 3 herein below,  
24 revise the Storm Drainage and Flood Control Master Plan, are in conformity with the County's General  
25 Plan and are in compliance with Section 66483 of the California Government Code;

26 B. The fees collected pursuant to Chapter 17.64, Title 17 of the Fresno County Code and  
27 this Resolution shall be used to finance only the public facilities described or identified in Exhibit "A,"  
28 attached hereto;

1 C. District's findings supporting the adoption of fees not based on building square footage  
2 are sufficient to satisfy section 66016.5 of the Government Code,

3 D. The purpose of this fee is to finance facilities within the County and District required for  
4 the removal of surface and storm water; attributable to development; to obviate the menace to the public  
5 health, safety and welfare arising from inadequate provision for removal of surface and storm waters  
6 occurring as the result of development of property; to prevent deterioration of property values and  
7 impairment of conditions making for desirable residential, commercial or industrial development, as the  
8 case may be, which would result from the failure to construct planned local drainage facilities relative to  
9 development of property; and to prevent deterioration of public streets and other public facilities which  
10 would result from failure to construct planned local drainage facilities concurrently with development;

11 E. Development in the subject area, identified in the Map and Fee Study, will generate the  
12 need for storm drainage facilities, as described in Exhibit "A," which have not been constructed or have  
13 been constructed, and development will contribute its fair share towards these facility costs through this  
14 fee, and said fee shall be used to address this need by (1) paying costs related to the design,  
15 administration and construction of the described public storm water facilities, (2) reimbursing the District  
16 for the development's fair share of those capital improvements constructed by the District, or (3)  
17 reimbursing developers who have constructed public facilities in each service area where those facilities  
18 were beyond that needed to mitigate the impacts of the other developers' project or projects and where  
19 reimbursement is provided for under the Drainage Fee Ordinance or the Fresno County Ordinance;

20 F. The facts and evidence presented establish that (1) there is a reasonable relationship  
21 between the fee's use and the development of the lands in the service area for which the fee is charged,  
22 and (2) there is a reasonable relationship between the need for the described public facilities and the  
23 impacts of the types of development as described in Exhibit "A" and Exhibit "B" for which the  
24 corresponding fee set forth in Exhibit "B" is charged, as these reasonable relationships or nexuses are  
25 described in more detail in the Fee Study and Map referred to above;

26 G. The cost estimates set forth in Exhibit "B" are reasonable cost estimates for constructing  
27 these facilities, the fee amounts in the fee schedule, which are predicated on said estimates, bear  
28 reasonable relationships to the costs of the portions of the storm drainage facilities attributable to the

1 types of development upon which they are to be imposed, and the fees generated by development are  
2 both roughly proportional to and will not exceed the total of these costs;

3 H. Based on the District's Map and Fee Study and accompanying analysis, as presented by  
4 County staff, this Board concludes that the fees meet the essential nexus and rough proportionality  
5 requirements of *Sheetz v. County of El Dorado* (2024) 601 U.S. 267; and

6 I. After considering said Map and Fee Study and analysis prepared by the District, in  
7 addition to the "Storm Drainage and Flood Control Master Plan," the "Fresno County General Plan," and  
8 the various community and specific plans, and the information and testimony received at this public  
9 hearing, this Board approves said Map and said study, and incorporates such herein.

10 NOW, THEREFORE, it is hereby resolved by the Board of Supervisors of the County of Fresno  
11 that:

12 1. The above recitals are true and correct, and this Board of Supervisors so finds and  
13 determines.

14 2. The Storm Drainage and Flood Control Master Plan is hereby amended to include that  
15 Storm Drain and Flood Control Master Plan Map attached hereto as Exhibit "A" as supported by Exhibit  
16 "B".

17 3. The schedule of drainage fees for those respective local drainage areas listed in Exhibit  
18 "B" hereto is hereby amended as set forth in said Exhibit "B". The District shall prepare, and provide to  
19 the County, a 2025 schedule of drainage fees for each of its local drainage areas, which shall include  
20 the amendments adopted hereby. Fees shall be paid in accordance with the Drainage Fee Ordinances  
21 according to said 2025 drainage fee schedule.

22 4. The fee shall be solely used by: (a) paying costs related to the design, administration and  
23 construction of the described public storm water facilities, (b) reimbursing the District for the  
24 development's fair share of those capital improvements constructed by the District, or (c) reimbursing  
25 other developers who have constructed public facilities in each service area where those facilities were  
26 beyond that needed to mitigate the impacts of the other developers' project or projects and where  
27 reimbursement is provided for under the Drainage Fee Ordinance or the Fresno County Ordinance.  
28

1           5.       The District, pursuant to Chapter 17.64 of Title 17 of the Fresno County Ordinance Code,  
2 shall review the estimated cost of the described capital improvements for which this fee is charged, the  
3 continued or expanded need therefore, and the reasonable relationship between such facility needs and  
4 the varying types and development. The Manager shall report the findings to the Board of Supervisors  
5 and recommend any adjustment to this fee or other action as may be needed.

6           6.       Pursuant to California Government Code 66022, any judicial action or proceeding to  
7 attack, review, set aside, void or annul this Resolution shall be brought within 120 days of the effective  
8 date hereof, which shall be 60 days after the date of adoption hereof.

9           7.       The Ordinances of the County of Fresno has an administrative mechanism whereby a  
10 property owner who seeks to develop property within the boundaries of the County of Fresno and the  
11 Fresno Metropolitan Flood Control District can challenge the fees imposed thereunder only by first paying  
12 said fees under protest. Developers of property within the Fresno Metropolitan Flood Control District  
13 shall adhere to the applicable ordinance of the County of Fresno under which it is required that drainage  
14 fees must be paid before development is allowed, and such fee may be paid under protest.

**EXHIBIT B**

**FRESNO METROPOLITAN FLOOD CONTROL DISTRICT  
2025 DRAINAGE FEE SCHEDULE PUBLIC HEARING MEMORANDUM**

# MEMORANDUM

File 140.3123, 140.3133, 140.3143

**BOARD MEETING:** December 11, 2024  
**AGENDA ITEM NO.:** 7.A.  
**FROM:**  
**SUBJECT:** **Storm Drainage Master Plan and Drainage Fee Schedule Update: Adoption of Resolution Amending the Storm Drainage and Flood Control Master Plan and Amending the Schedule of Drainage Fees, Surcharges, and Costs for Local Drainage Areas (2025 Rate Schedule)**

## Summary

Urban storm drainage systems are funded by the payment of drainage fees at the time of development. Fees in the original area of the District or core area of the City of Fresno (Zone 2) are calculated at a uniform rate by spreading the aggregate of each system's total cost to the entire original area. The core area of the City of Clovis (Zone 3) utilizes the same approach. Zone 2 is unique in that the aggregate approach was intended to distribute the benefits of the long-term tax payments and early formation and subsidies via assessment districts. All other areas referred to as the "Full Cost" zone (Zone 1) are funded by spreading the individual system cost to its respective local drainage area. The zones are shown on the attached Exhibit No. 1.

Exhibit No. 2 depicts the proposed amendments to certain drainage and surcharge fee schedules for March 1, 2025 through February 28, 2026. Adoption of the attached resolution amending the Master Plan and amending the fee schedule in certain drainage areas is necessary to formally make changes to those drainage areas and increase the fee rate. The updated Storm Drainage and Flood Control Master Plan Map (Exhibit A) is also attached for review and reference. A Public Hearing is required to increase drainage fee rates and the appropriate public notice regarding this Hearing was published in the Fresno Bee pursuant to the Government Code. Fee schedules are updated annually to become effective not less than sixty (60) days after adoption.

## Zone 1

With respect to Zone 1, seventy-seven (77) drainage areas warrant a fee amendment. Modification of system costs significant enough to justify a revision to the drainage fee schedules include increased unit prices for the following: (i) Master Plan pipe facilities - pipelines (including jacked pipe), manholes, inlets, outfalls; and (ii) Master Plan basin facilities - basin excavation, final grading, street paving arterial & local, reclaimed pump, sprinkler & turf, CEQA, and water capacity fee (Fresno). The drainage areas affected by the modifications are set forth in Exhibit No. 2, and list land use of the greatest acreage in each of the respective local drainage areas as representative of the adjustments or rate change. The comment column indicates the type of adjustment associated with the 2025 Drainage Fee Amendments.

Also, this year's study indicated that drainage fee rates for twenty-two (22) Zone 1 drainage areas remain the same or showed a slight decrease. Based upon previous staff reviews, it is normally recommended that downward adjustments not be made due to the anticipated drainage

**BOARD MEETING:** December 11, 2024

**AGENDA ITEM NO.:** 7.A.

fee revenue falling short of the total system costs within many of the full cost drainage areas. A decrease in the fee rate for Zone 1 areas must be supported by a fee audit for the specific area. The audit is necessary to evaluate the outcome of the total system costs to determine, ultimately, if the funding collected will be less or more than the cost to complete the full cost Zone 1 drainage systems. This year's audit does not support a decrease in the remaining Zone 1 areas. Staff will continually monitor these areas and report its findings to the Board should a decrease in fees be warranted in the future.

Zone 2 and Zone 3

Zone 2 and 3 areas warrant a fee adjustment due to unit cost updates and the percentage increase is shown in Exhibit No. 2.

Surcharge Areas

Review of the fee rates identified five (5) existing surcharge areas, Drainage Areas "7D" (RT Park), "BX" (RT Park), "DO" (Southeast Urban), "DO" (Loma Vista Community South), and "DN" (Copper River Ranch), that warranted fee adjustments (Exhibit No. 3). The fee increases in these areas resulted from unit cost updates and contract adjustments. Exhibit No. 3 also shows the per acre costs resulting from these surcharge fee adjustments.

The City of Clovis recently adopted their Master Development Fee Schedule amending certain provisions regarding District basins. The revision to the ordinance exempts District basins from fee obligations related to the water line, water grid main charge, and well charge. Staff has removed these items from the 2025 fee update for Clovis Zone 1 and Zone 3 drainage fee amendments.

Staff posted the 2025 Drainage Fee Amendments to the fee schedule on the District's website, circulated the proposed changes to the Building Industry Association (BIA) for comment, and informed the BIA of the public hearing date. Pipe and basin facilities unit cost changes to the fee schedule were also presented to the BIA at a regularly scheduled BIA/District liaison meeting on Thursday, November 21, 2024. It was requested that the BIA make formal comments on the proposal for this year's adjustments prior to the public hearing. No comments have been received at the writing of this memorandum. In the past, BIA has been non-committal and taken no position regarding drainage fee adjustments. Following the District's adoption of the 2025 amendments to the Drainage Fee Schedule, staff will request each of the local jurisdictional agencies adopt the amendments.

The adoption of fees is considered a project under the California Environmental Quality Act (CEQA). Staff has evaluated the potential environmental impact of the adoption of these fees and has determined that the action is exempt from CEQA pursuant to Public Resources Code Section 21080(b)(8)(D). This section exempts the modification of fees collected by public agencies for the purpose of obtaining funds for capital projects necessary to maintain service within existing service areas. Pursuant to Section 21080(b)(8)(D), staff recommends the Board incorporate findings in the record that the proposed amendments to the drainage fees are exempt from CEQA.

As part of the resolution adopting the fee schedule, staff has included specific findings in accordance with the Mitigation Fee Act, California State Assembly Bill 602 - Section 66016.5(a)(5)(B) of the Government Code. These findings affirm that the fees are equitably distributed, considering the requirement to capture, manage, and store stormwater runoff based

**BOARD MEETING:** December 11, 2024

**AGENDA ITEM NO.:** 7.A.

on land use and anticipated impervious area. Recognizing that the benefit received is directly proportional to the quantity of runoff generated rather than the square footage or number of dwelling units, it is prudent for the District to maintain the existing method of fee calculation.

Recommendation

Staff recommends that the Board of Directors adopt the following:

1. Adopt the attached Resolution updating the Storm Drainage and Flood Control Master Plan Map and amend the proposed cost and fee schedules as set forth therein.
2. Direct staff to transmit the map and fee schedule amendments to the City of Fresno, City of Clovis, and the County of Fresno for adoption.
3. Find that adoption of said Resolution that adopts fees are exempt from further CEQA assessment per provisions of Public Resources Code Section 21080(b)(8)(D).
4. Find that adoption of said Resolution that adopts fees are in compliance with California State Assembly Bill 602 - Section 66016.5(a)(5)(B) of the Government Code.

Discussion

The proposed drainage fee amendments, shown in Exhibit No. 2, comply with the Government Code that requires the local agency to determine that the fees are fairly apportioned within the local drainage areas either on the basis of benefits conferred on the property proposed for subdivision or on the need for such facilities created by the proposed subdivision and development of other property within such areas. In Zones 1 through 3, fees are fairly apportioned based on the need to capture, manage, and store stormwater runoff as determined by land use and anticipated impervious area.

California State Assembly Bill 602 implies that agencies conduct an impact fee nexus study to base residential impact fees on the square footage of the proposed residential units or make specific findings to explain why other metrics are appropriate. Staff makes the following findings to use another measure instead of square footage as a basis to charge a fee: (1) the use of developed interior square footage to calculate the fee does not capture the impacts from impervious surfaces outside of the footprint of development, (2) the fee rate applied is based on the land use as determined by the City of Fresno, City of Clovis, and County of Fresno General Plans and such land used is associated with percent impervious, and (3) the District doesn't collect a fee for improvements under 1,000 square feet on developed or partially developed property, 'tiny homes' under 750 square feet, and development with additional improvements that are less than 25% of property developed prior to March 15, 1969.

Staff continually monitors system costs as improvements are constructed yearly. By monitoring system costs, staff can make the necessary adjustments to the drainage fee automation program, which immediately re-calculates the drainage fee schedules when new information is input into the accounting data and/or modifications are made to the GIS system. This process requires comparing actual contract unit costs with the current fee study unit costs and insight from building contractors within the metropolitan area. With the use of actual costs, the District can ensure the unit costs are current with the market and better re-coup funding for updated system costs without relying on the use of the General fund. While adjustments to drainage fees are generally considered only once each year pursuant to the Drainage Fee Ordinance, the automated program allows for staff to view the effect on the future drainage fee rate schedule after any system modification.

**BOARD MEETING:** December 11, 2024

**AGENDA ITEM NO.:** 7.A.

To keep current with facility unit costs, the adjustments warranted for 2025 include an increase in the following: pipe with and without trench resurfacing (7%), jacked pipe (averaged 1%), manholes (34.1%), inlets (5.1%), outfalls (80.2%), basin excavation (10%), final grading (11.1%), street paving arterial (2.5%), street paving local (3.6%), proposed reclaimed pump (5%), existing reclaimed pump (5%), sprinkler and turf (31.2%), and City of Fresno water capacity fee (-1.1%).

Review of the fee rates identified five (5) existing surcharge areas in Drainage Areas "7D", "BX", "DO", and "DN" that warranted fee adjustments. The fee rate increases in these areas resulted from unit cost updates and contract adjustments.

The City of Clovis has adopted revisions to its development code that now considers storm drain basins owned by the District as public infrastructure. Therefore, basins are exempted from payment of Clovis Development Impact Fees for water lines, water grid main charges, and well charges. Staff has excluded these items from the drainage fee related to basin costs for all drainage areas located within Clovis Zone 1 and 3. The drainage areas impacted by the removal of the fees benefiting a cost savings are noted in Exhibit No. 2 as Clovis DIF Adjustment.

The 2025 drainage fee rate study reviews all drainage areas utilizing the adjusted unit costs and accounting data for existing facilities. The existing drainage ordinances require annual updating of the drainage system cost schedules. This process assures fees are based on actual costs, ensures equity among all fee payers, assures reimbursement of those incurring construction costs in excess of their proportionate cost share, and protects the general taxpayer from the need to pay development subsidies.

Pursuant to the Government Code, the fee increases become effective not less than sixty (60) days following adoption. Therefore, if adopted, the effective date of the drainage fee rate schedule would be March 1, 2025 in accordance with the Drainage Fee Ordinance.

Respectfully submitted by:

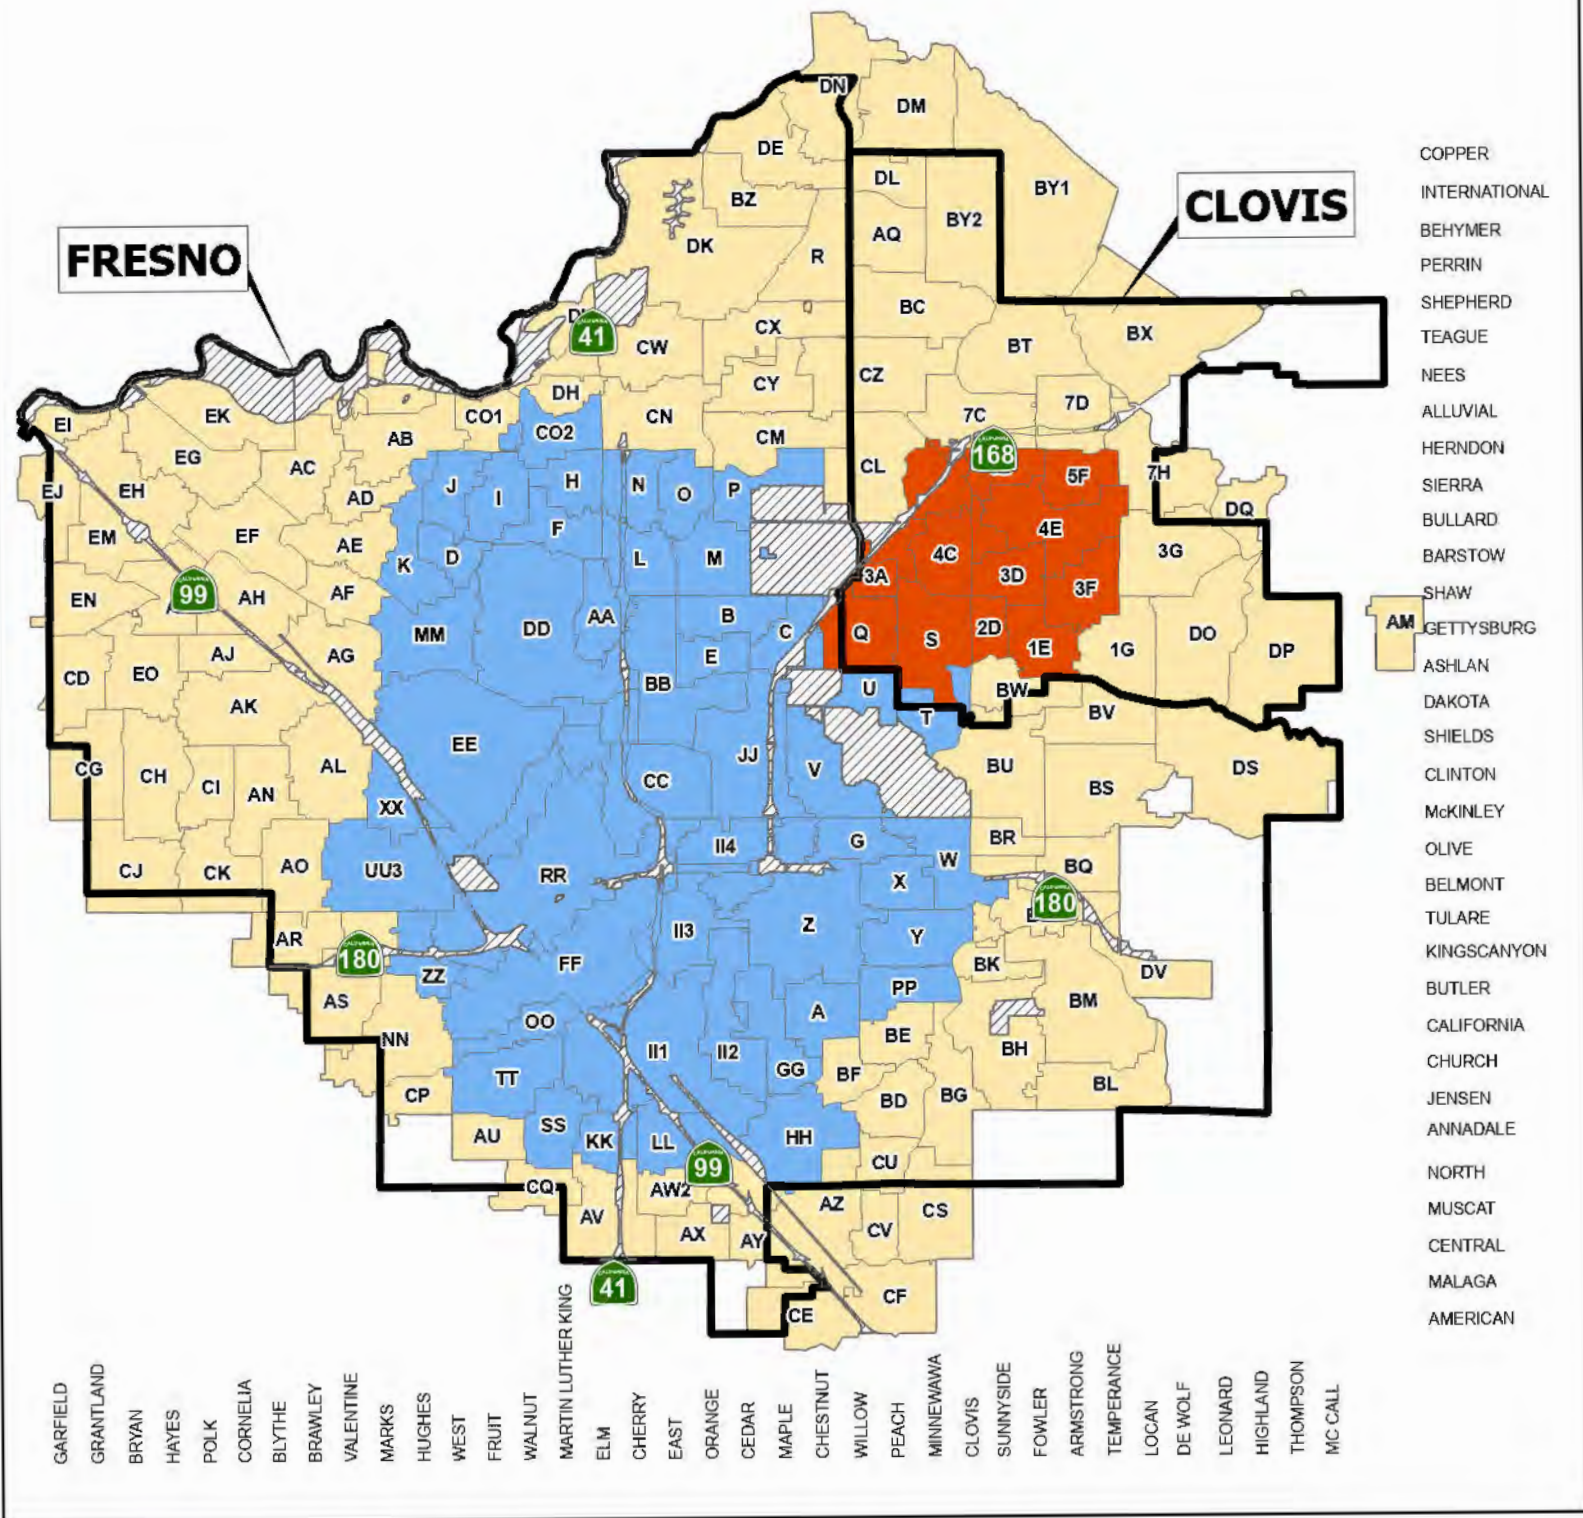

*Denise Wade, Master Plan Special Projects Manager*

**RESOLUTION NO. 2024-1047**

**BEFORE THE BOARD OF DIRECTORS OF THE  
FRESNO METROPOLITAN FLOOD CONTROL DISTRICT**

**RESOLUTION AMENDING THE STORM DRAINAGE AND FLOOD CONTROL  
MASTER PLAN AND AMENDING THE SCHEDULE  
OF DRAINAGE FEES, SURCHARGES AND COSTS ESTABLISHING SUCH  
COSTS AND FEES FOR LOCAL DRAINAGE AREAS  
(2025-2026)**

---

WHEREAS, the Board of Directors enacted Resolution No. 1412 on February 9, 1988, establishing a schedule of drainage system costs and fees pursuant to the adopted Storm Drainage and Flood Control Master Plan, said schedule being an element of the drainage fee ordinances of the Fresno Metropolitan Flood Control District, Cities of Clovis and Fresno, and the County of Fresno, which ordinances are incorporated herein by this reference; and

WHEREAS, the Board of Directors enacted resolutions from time to time, amending said schedule, the last District-wide amendment being Resolution No. 2023-1026 adopted on December 13, 2023; and

WHEREAS, an amended Storm Drainage and Flood Control Master Plan Map, attached as Exhibit “A” hereto, specifying public facilities and improvements, existing and proposed, which are necessary to provide drainage service and flood control within the respective local drainage areas specified therein, has been presented to the Board of Directors; and

## EXHIBIT B

WHEREAS, the District's Storm Drainage and Flood Control Master Plan includes a study of the impacts of contemplated future development on the District's existing storm drainage services and facilities in the local drainage areas of the Fresno Metropolitan Flood Control District listed in Exhibit "B" attached hereto, along with an analysis of new, improved or expanded public facilities and improvements required or appropriate to serve development in said local drainage areas; and

WHEREAS, as to each of said local drainage areas, said Map, said Plan and said study set forth the relationship between development and said services or facilities; the estimated cost thereof; and the schedule of per gross acre fees calculated to raise the sum of money necessary to pay the estimated total cost of local drainage facilities therein; and

WHEREAS, AB 602 - Section 66016.5(a)(5) of the California Government Code requirement to compute fees for residential housing by square footage of the building structure is inconsistent with the District's method of calculating fees and does not affect the drainage fee rates as long as the necessary findings required by Section 66016.5(a)(5)(B) for using an alternative basis for calculating fees are made and adopted as follows: (1) the District's method of computing drainage fees using percent imperviousness of a project is a more equitable method of computing drainage fees and calculating a fee based upon square footage does not capture impervious surfaces outside of the footprint of the structure; (2) the fees rates used are based on land use as determined by the Cities of Fresno and Clovis and the County of Fresno's General Plan; and

## EXHIBIT B

(3) District does not collect fees for smaller residential improvements under 1,000 square feet on developed or partially developed property, 'tiny homes' under 750 square feet, and development with additional improvements that are not equal or more than 25% of property developed prior to March 15, 1969; and

WHEREAS, said Map and said study were available at the District's office for public inspection and review ten (10) days prior to this public hearing, and notice was given in compliance with the requirements therefor; and

WHEREAS, a public hearing was held pursuant to the public notice cited herein at a regularly scheduled meeting of the Board of Directors of the Fresno Metropolitan Flood Control District; and

WHEREAS, the Board of Directors finds as follows:

A. That the purpose of said fees is to finance facilities within the District required for the removal of surface and storm waters attributable to development; to obviate the menace to the public health, safety and welfare arising from inadequate provision for removal of surface and storm waters occurring as the result of development of property; to prevent deterioration of property values and impairment of conditions making for desirable residential, commercial or industrial development, as the case may be, which would result from the failure to construct planned local drainage facilities relative to development of property; and to prevent deterioration of public streets and other public facilities which would result from failure to construct planned local drainage facilities concurrently with development.

## EXHIBIT B

B. The fees adopted and collected pursuant to the drainage fee ordinances and this Resolution are to be used to finance only the public facilities shown on Exhibit “A”, within each of the respective local drainage areas identified in Exhibit “B” hereto.

C. After considering said Map and said study and the analysis prepared by the District; the respective General Plans and community and specific plans prepared by the Development Departments of said County and Cities; and the information and testimony received at this public hearing, the Board of Directors approves said Map and said study, and incorporates such herein. The Board further finds that all new development in the subject area will generate the need for storm drainage facilities therein, and generates an unmet need for storm drainage facilities and services in said area.

D. There is a need in local drainage areas for storm drainage facilities which have not been constructed or have been constructed; said facilities have been called for in, or are consistent with, the General Plans. Development will contribute its fair share toward the facility costs in those local drainage areas listed in Exhibit “B” through payment of the respective drainage fees set forth therein.

E. The facts and evidence presented establish that there is a reasonable relationship between the need for the described public facilities and the impacts of the types of development as described in Exhibits “A” and “B” for which the corresponding fee set forth in Exhibit “B” is charged. There is a reasonable relationship between the use of said fee and development of the lands in the service area for which the fee is charged, as these reasonable

## EXHIBIT B

relationships or nexuses are described in more detail in the study and Map referred to above.

F. The Storm Drainage and Flood Control Master Plan Map attached hereto as Exhibit “A” and the storm drainage fee rate schedule set forth in Exhibit “B”, as adopted by Paragraphs 2 and 3 herein, revise the District’s Storm Drainage and Flood Control Master Plan, to conform to its General Plan and comply with Section 66483 of the California Government Code.

G. The cost estimates set forth in Exhibit “B” are reasonable cost estimates for constructing these facilities, and the fee schedule set forth therein is based on said estimates and is to generate fees from development which will not exceed the total of these costs.

NOW THEREFORE, it is hereby resolved by the Board of Directors of the Fresno Metropolitan Flood Control District that:

1. The above recitals are true and correct, and this Board so finds and determines.
2. This Resolution is exempt from further California Environmental Quality Act (CEQA) assessment per the provisions of Public Resources Code Section 21080(b)(8)(D).
3. This Resolution is in compliance with California State Assembly Bill (AB) 602 – Section 66016.5(a)(5)(B) of the Government Code.

## EXHIBIT B

4. The Storm Drainage and Flood Control Master Plan is hereby amended to include that Storm Drain and Flood Control Master Plan Map attached hereto as Exhibit “A” and as supported by Exhibit “B”.

5. The schedule of drainage fees for those respective local drainage areas listed in Exhibit “B” hereto is hereby adopted as set forth in said Exhibit “B”. The District shall prepare a 2025-2026 schedule of drainage fees for each of its local drainage areas, which shall include the amendments adopted herein. Pursuant to California Government Code Section 66017, said schedule of drainage fees shall become effective no sooner than sixty (60) days from the date of adoption of this Resolution. In compliance with California Government Code Section 66017, the District's 2025-2026 schedule of drainage fees shall be effective as of March 1, 2025, in accordance with the drainage fee ordinances. Fees shall be paid in accordance with the drainage fee ordinances and as specified in said 2025-2026 drainage fee schedule.

6. The fee shall be used solely to pay: (a) costs related to the design, administration and construction of the described public storm water facilities; (b) for reimbursing the District for the development's fair share of those costs incurred by the District in the design and construction of the described public storm water facilities; or (c) to reimburse other developers who have constructed public facilities in each service area where those facilities were beyond that needed to mitigate the impacts of the other developers' project or projects and where reimbursement is provided for in the applicable Drainage Fee Ordinance.

## EXHIBIT B

7. The District, pursuant to the Drainage Fee Ordinance, shall analyze and review the estimated cost of the described capital improvements for which this fee is charged, the continued or expanded need therefor, and the reasonable relationship between such facility needs and the varying types of development. The General Manager-Secretary shall report the findings to the Board of Directors and recommend any adjustment to this fee or other action as may be needed.

8. Pursuant to California Government Code Section 66022, any judicial action or proceeding to attack, review, set aside, void or annul this Resolution shall be brought within one hundred twenty (120) days of the adoption of this Resolution. Pursuant to California Government Code Section 66022, any judicial action or proceeding to attack, review, set aside, void, or annul the fee increase shall commence within one hundred twenty (120) days of the effective date of the increase, which is identified in Paragraph No. 5 hereinabove. Administrative appeal is a mandatory prerequisite to any such judicial action or proceeding. Such appeal shall be made in writing to the Director of Development of Public Works of the political subdivision in which the property subjected hereto is located (i.e., the City of Fresno, the City of Clovis or the County of Fresno). Such appeal must be made within sixty (60) days after the effective date hereof. The Director shall set the matter for hearing, conduct the hearing and render a decision within forty (40) days after such appeal is filed.

## EXHIBIT B

9. The Ordinances of the City of Fresno, City of Clovis, and the County of Fresno have an administrative mechanism whereby a property owner who seeks to develop property within the boundaries of the Fresno Metropolitan Flood Control District can challenge the fees imposed thereunder only by first paying said fees under protest. Developers of property within the Fresno Metropolitan Flood Control District shall adhere to the applicable ordinance of the City of Fresno, City of Clovis or the County of Fresno under which it is required that drainage fees must be paid before development is allowed, and that such fee may be paid under protest.

PASSED AND ADOPTED this 11<sup>th</sup> day of December, 2024, by the following vote to wit:

AYES: Directors Fowler, Green, Auston, Busani, Mendes, and Allen Rojas

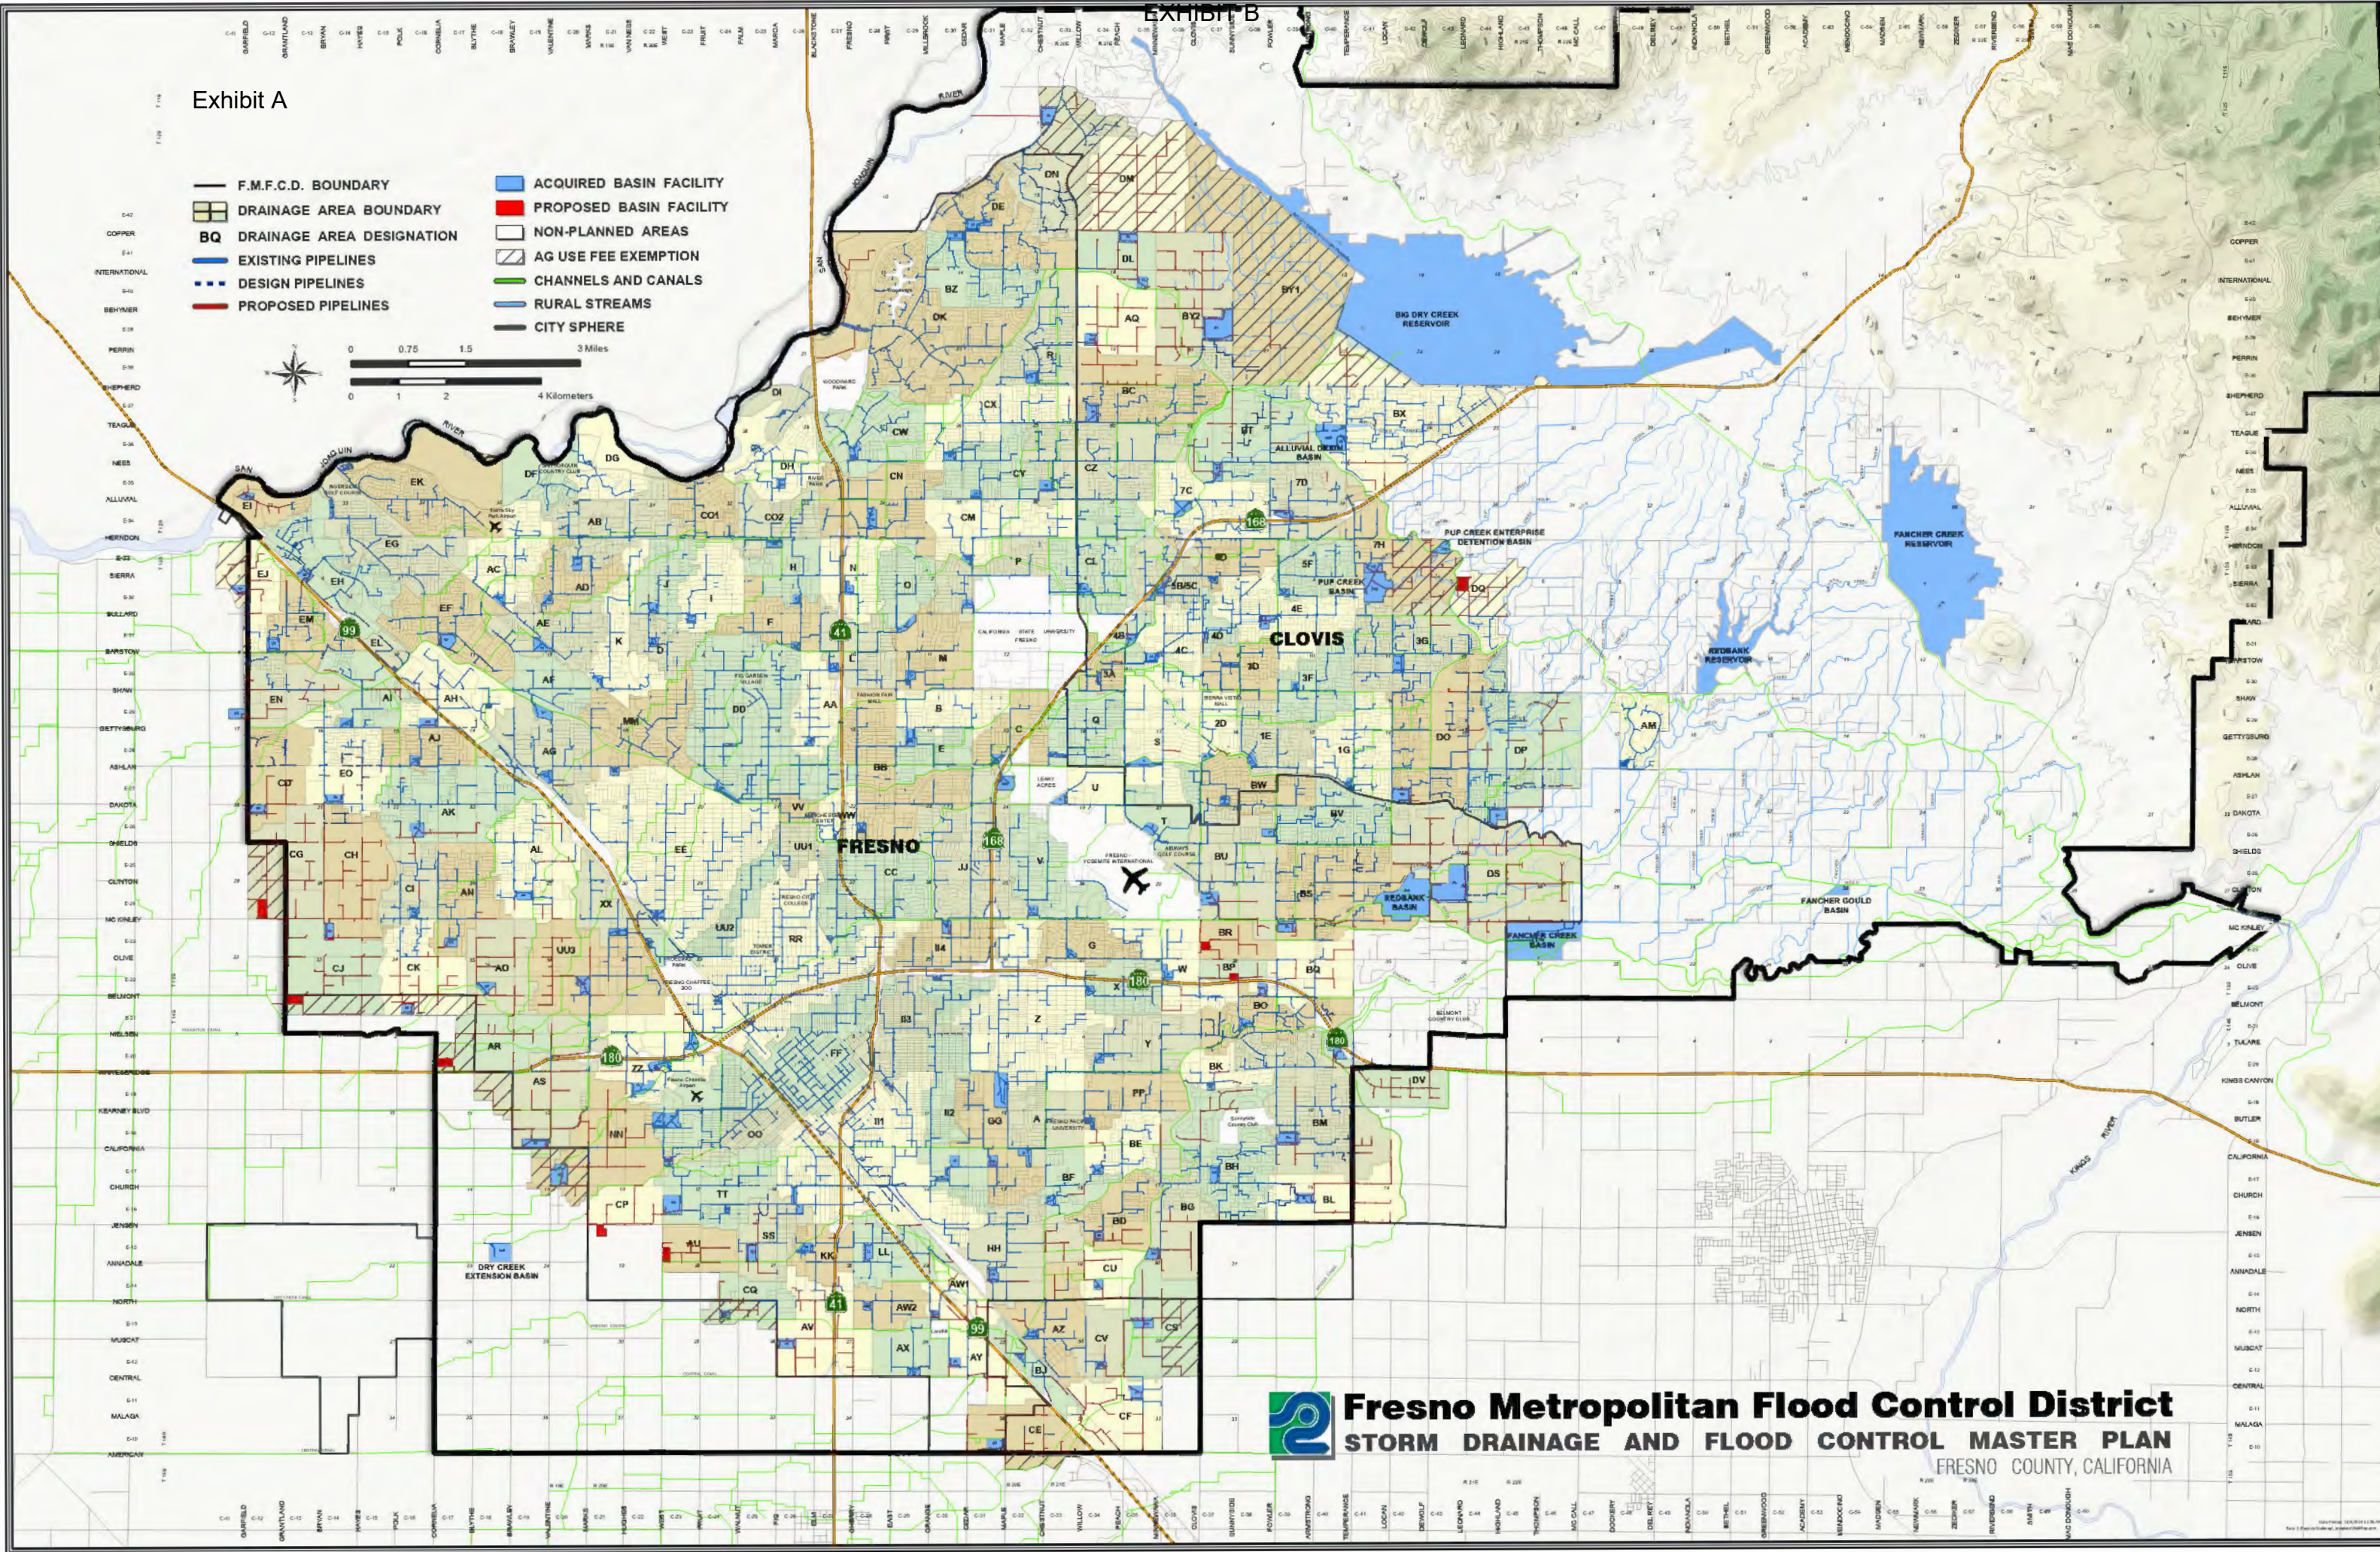

NOES: None

ABSENT: Director Garcia

ABSTAIN: None
