

Board Agenda Item 6

DATE: June 21, 2022

TO: Board of Supervisors

SUBMITTED BY: Paul Nerland, County Administrative Officer

SUBJECT: Recommended Budget for FY 2022-23

RECOMMENDED ACTION(S):

Approve a Recommended Budget (including Capital Projects budgets) for the period between July 1, 2022, and the adoption of the FY 2022-23 Final Recommended Budget.

ALTERNATIVE ACTION(S):

There are no viable options available. Without a recommended budget, the County would not be able to conduct day-to-day operations.

FISCAL IMPACT:

This item will provide the mechanism for departments to continue to operate until the Final Recommended Budget is adopted in September 2022. The fiscal impacts will be addressed in the Final Recommended Budget.

DISCUSSION:

Prior to FY 2018-19, budget hearings and subsequent budget adoptions occurred in June of each year. Beginning with FY 2018-19, the County Administrative Office (CAO) recommended a new process that allows for adoption of the Final Recommended Budget in September instead of the traditional June adoption. With this process, current year information for General Fund revenue estimates are available prior to budget hearings in September. This is a crucial piece of the budget process as the tax roll is needed to verify property tax and Motor Vehicle In-Lieu revenue estimates, which comprise over 75% of countywide revenues.

Adoption of the Final Recommended Budget in September provides the mechanism for a more accurate estimate of year-end fund balance and the impact of the State of California's Budget on Fresno County. It is anticipated that most of the information will be available prior to the completion of the Final Recommended Budget. Fresno County budget hearings are scheduled to commence September 12, 2022.

The CAO recommends that the Board adopt the Recommended Budget for the period beginning July 1, 2022 and concluding with the adoption of the FY 2022-23 Final Recommended Budget. This approach gives departments the necessary appropriations to operate during these two and a half months.

This process includes the rebudgeting of unexpended appropriations for individual capital projects that are not completed at year-end. The Recommended Budget does not include additional positions or new capital asset purchases outside of the Capital Projects Fund. These items will be included in the Final

Recommended Budget to be brought to your Board during the September budget hearings.
