CUSTOMER SUPPORT PLAN

MAINTENANCE AND SUPPORT AGREEMENT 361**TERM: 9/1/2018-8/31/2023 (5 years)****CUSTOMER: County of Fresno on behalf of Fresno County Sheriff's Office****Introduction**

Welcome to Motorola Customer Support. We appreciate your business and look forward to serving your needs on your Public Safety Applications (PSA) system.

The Customer Support Plan is designed to provide Motorola customers the details necessary for understanding Motorola overall support processes and policies as a compliment to the Motorola Maintenance and Support Agreement.

The Motorola Maintenance and Support Agreement is the legal and binding contractual terms for which services are provided under. Questions or concerns regarding your support plan can be directed to your Support Manager.

Below are the topics outlined in this Customer Support Plan:

- I. Service Offerings**
- II. Accessing Customer Support**
- III. Severity Levels and Case Management**
- IV. Responsibilities**
- V. Customer Call Flow**
- VI. Contacts**

I. Service Offerings

Motorola Customer Support organization includes a staff of Support Analysts who are managed by Motorola Customer Support Managers and are chartered with the direct front-line support of Motorola Customers. A Support Analyst is a system technologist responsible for providing direct or escalation support. A Support Analyst is sometimes referred to as a Customer Support Analyst ("CSA") or Technical Support Analyst ("TSA") or Technical Support Representative.

Motorola Support Organization offers a multi-layered approach to a total service solution. Levels of support are defined as follows:

Service Levels

Level 0	Logging, dispatching and tracking service requests
Level 1	Selected 1 st call support, triage and resolution
Level 2	Telephone and/or on-site support for normal technical requirements
Level 3	High-level technical support prior to Engineering escalation
Level 4	Engineering software code fixes and changes

Motorola provides to customers on an active Maintenance and Support Agreement defined services and Software Releases. Specific support definitions, offerings and customer responsibilities are detailed in Section 3 of the main body of the Maintenance and Support Agreement.

II. Accessing Customer Support

The Motorola Solutions System Support Center Operations

Motorola Public Safety Applications Technical Support personnel in cooperation with Motorola System Support Center ("SSC") provide the gateway to technical support for all of Motorola Public Safety Application systems. Accessing support through Motorola toll free 800 number, web ticketing or email ticketing ensures accurate case handling and tracking. The goal of the Support team and SSC is to make certain systems are restored and running at peak levels as quickly as possible. This is accomplished by obtaining accurate customer and problem details and by directing requests to the right support team in a timely manner.

The System Support Center offers total call management including:

- Single point of contact for Motorola service requests
- Logging, dispatching and tracking of service requests
- System capabilities to identify pending cases and automatically escalate to management
- Database and customer profile management
- Standard reports with on-demand distribution
- Case notification

Motorola System Support Center operates 24 hours a day, 7 days a week, 365 days a year. That means you can call us anytime. Support Center personnel enter requests for service, technical assistance, or telephone messages into a database system. Every time you call us, we log information about your request into the tracking system so that the information is available for reference and analysis to better serve your future service needs. Another benefit of logging every service request is that Motorola and customers can track the progress from initial contact to final resolution.

There are three options for accessing Support at Motorola:

Option 3 - Submit a ticket via Email Case Management

An alternative Customer Support tool is available for PSA customers. Along with the toll-free phone number and Motorola Online, customers can request technical support by email. For many customers who use their PDA as a means to open cases, email ticketing provides additional flexibility for initiating cases.

To ensure proper case management and contractual response, email ticketing is only available for severity levels three and four. In order to properly process a ticket via email, the message must be formatted exactly as described below:

1. Address your email to PSACASE@motorolasolutions.com
2. Type **PSA Service Request** and a brief description of the system issue in the Subject line of the e-mail message. This will become the case title
3. Type **Site ID** = followed by the site identification number of the system location
4. Type **Product Type**= followed by the product family type. Choose from the following list:
 - CAD (OR FRIENDS OF CAD, such as AWW, ATM, AVL and UDT)
 - CSR (CUSTOMER SERVICE REQUEST)
 - INFOTRAK, LRMS
 - JAIL MANAGEMENT (OFFENDERTRAK)
 - MOBILE APPLICATIONS (PMD, AIRMOBILE, TXMESSENGER)
 - NETRMS
5. Type **Contact First Name** = followed by your first name or the name of the person you would like support personnel to contact
6. Type **Contact Last Name** = followed by your last name or the name of the person you would like support personnel to contact.
7. Type **Phone Number** = followed by the area code and phone number where the contact person may be reached
8. Type **Severity Level** = followed by either severity level 3 or 4. All severity level one or two cases must be opened via the toll-free PSA customer support number
9. Type **Problem Description** = followed by a comprehensive description of the problem
10. Send the message to us. You will receive an email with your case number for future reference.

If an email response is not received, or if you need to open a severity level one or two case, please contact the PSA Customer Support at 1 800-323-9949 for further assistance.

SAMPLE Email Ticket Formatting:

The screenshot shows an email composition window. The 'To' field contains 'PSACASE'. The 'Subject' field contains 'PSA Service Request: NetRMS Reports Not Functioning'. The email body contains the following text:

 Product type: NetRMS (Specific product such as LRMS, NetRMS, PremierMDC, etc.)
 Contact first name: John
 Contact last name: Doe
 Phone number: 303-123-4567

 Problem description: NetRMS does not allow for the creation of manual-case reports which is affecting the generation of daily reports (Include a comprehensive description of the problem)

III. Severity Levels and Case Management

Motorola services and response times are based on the severity levels of the error a customer is experiencing as defined below. This method of response allows Motorola to prioritize its resources for availability on our customer's more severe service needs. Severity level response time defines the actions that will be taken by Motorola Support and Engineering teams. Due to the urgency involved in some service cases, Motorola will make every reasonable effort to provide a temporary or work around solution (On Demand). When a permanent solution is developed and certified through testing, it will be incorporated into the applicable On Demand, Cumulative Update, Supplemental, or Standard Release.

SEVERITY LEVEL	DEFINITION	RESPONSE TIME
1	Total System Failure - occurs when the System is not functioning and there is no workaround; such as a Central Server is down or when the workflow of an entire agency is not functioning. This level is meant to represent a major issue that results in an unusable System, Subsystem, Product, or critical features. No work around or immediate solution is available.	Telephone conference within 1 Hour of initial voice notification
2	Critical Failure - Critical process failure occurs when a crucial element in the System that does not prohibit continuance of basic operations is not functioning and there is usually no suitable work-around. Note that this may not be applicable to intermittent problems. This level is meant to represent a moderate issue that limits a Customer's normal use of the System, Subsystem, Product or major non-critical features.	Telephone conference within 3 Business Hours of initial voice notification during normal business hours
3	Non-Critical Failure - Non-Critical part or component failure occurs when a System component is not functioning, but the System is still useable for its intended purpose, or there is a reasonable workaround. This level is meant to represent a minor issue that does not preclude use of the System, Subsystem, Product, or critical features.	Telephone conference within 6 Business Hours of initial notification during normal business hours
4	Inconvenience - An inconvenience occurs when System causes a minor disruption in the way tasks are performed but does not stop workflow. This level is meant to represent very minor issues, such as cosmetic issues, documentation errors, general usage questions, and product or System Update requests.	Telephone conference within 2 Standard Business Days of initial notification

*Incoming cases are automatically assigned an initial **Severity Level** of 3, unless otherwise indicated or determined at the time the case is logged. When escalation is required, Motorola adheres to strict policy dictated by the level of problem severity.*

Severity Level One Escalation

Once an issue is escalated to Engineering, the following table is used as an Engineering resolution guideline for standard product problems.

Escalation Policy- Severity Level 1		
CRITICAL	ACTION	RESPONSIBILITY
0 Hours	Initial service request is placed. Support Analyst begins working on problem and verifies / determines severity level.	Support Analyst
2 Hours	If a resolution is not identified within this timeframe, SA escalates to the Customer Support Manager who assigns additional resources. Email notification to Director of Customer Support and Director of System Integration.	Support Analyst Support Manager
4 Hours	If a resolution is not identified within this timeframe, Customer Support Manager escalates to the Director of Customer Support and Director of System Integration to assign additional resources. Email notification to Vice President of System Integration and Vice President Customer Support.	Support Manager Director of Customer Support Director of Systems Integration
8 Hours	If a resolution is not identified within this timeframe, Director of Customer Support escalates to Vice President of System Integration, Vice President of Support, and Account Team.	Support Manager Director of Customer Support Director of Systems Integration VP of System Integration VP of Customer Support
12 Hours	If a resolution is not identified within this timeframe, Director of Customer Support escalates to Vice President of System Integration, Vice President of Support, and Account Team, Senior Vice President of Operations, System Integration, Customer Support and Engineering.	Senior Management Support Operations Systems Integration Engineering

All **Severity Level 1** problems will be transferred or dispatched immediately to the assigned Motorola technical support representative, to include notification to Motorola management 24x7. All other severity level problems logged after business hours will be dispatched the next business morning.

- 3.1 **Reporting a Problem.** Customer will assign an initial Severity Level for each error reported, either verbally or in writing, based upon the definitions listed above. Because of the urgency involved, Severity Level 1 or 2 problems must be reported verbally to the Motorola call incoming center. Motorola will notify the Customer if Motorola makes any changes in Severity Level (up or down) of any Customer-reported problem.
- 3.2 Motorola will use best efforts to provide Customer with a resolution for Severity 1 and Severity 2 issues within a reasonable time and in accordance with the assigned Severity Level when Customer allows timely access to the System and Motorola diagnostics indicate that a Residual Error is present in the Software. Should Customer report an error that Motorola cannot reproduce, Motorola may enable a detailed error capture/logging process to monitor the System. If Motorola is unable to correct the reported Residual Error within a reasonable time, Motorola will escalate its procedure and assign such personnel or designee to correct such Residual Error promptly. Should Motorola, in its sole discretion, determine that such Residual Error is not present in its Release, Motorola will verify: (a) the Software operates in conformity to the System Specifications, (b) the Software is being used in a manner for which it was intended or designed, and (c) the Software is used only with approved hardware or software.
- 3.3 **Error Correction Status Report.** Motorola will provide verbal status reports on Severity Level 1 and 2 Residual Errors. Written status reports on outstanding Residual Errors will be provided to System Administrator on a monthly basis.

CUSTOMER: County of Fresno on behalf of Fresno County Sheriff's Office

The following are Motorola's current labor rates, subject to an annual change.

The following rates apply to Customers with a current, active Maintenance and Support Agreement. Billable rates apply to services provided outside of the scope of the Maintenance and Support Agreement and outside the selected Service Level PPM:

SERVICE HOURS	LABOR RATES
8 a.m.-5 p.m. M-F (local time)	\$223 per hour, 2 hours minimum
After 5 p.m., Saturday, Sunday, Motorola Holidays	\$334 per hour, 2 hours minimum

The following rates apply to Customers without a current, active Maintenance and Support Agreement and apply to services available on a Time and Material basis:

SERVICE HOURS	LABOR RATES
8 a.m.-5 p.m. M-F (local time)	\$446 per hour, 2 hours minimum
After 5 p.m., Saturday, Sunday, Motorola Holidays	\$668 per hour, 2 hours minimum

Above rates reflect labor rate only. Additional fees for on-site travel expenses, third party expenses and /or materials will be quoted at the time of customer request for services.

Fresno will provide an open Purchase Order in the amount of \$50,000.00 which Motorola will bill against when Time and Materials services are requested. Motorola will follow its standard Time and Materials process when Fresno opens a case for support on these products. The process is that Motorola will create a simple quote that outlines the requested services, the estimated amount of time to deliver and the cost that will then be billed against the Fresno Purchase Order number provided once the services are delivered. Fresno will agree to the time and services before the work begins. If time to deliver is lower than expected, Motorola will bill only for hours used. If time to deliver is greater than estimated, Motorola will submit a new quote for T&M services for Fresno's agreement prior to extending the work on the case.
