CAUTION!!! - EXTERNAL EMAIL - THINK BEFORE YOU CLICK

Board of Supervisors,

I am grateful that these items are coming up. ARPA needs to go to the most effected and most in need of resources among those affected by COVID-19.

I support the use of Kings View to provide outreach through those who are trained in mental health. I am glad that the trailers used originally to house those who contracted COVID-19 will be used towards housing and I want to ask the county that RV villages be built as well. We have those who are unhoused because they cannot afford rent who have RVs and trailers and they should not have to choose between getting shelter and losing their RV or having no place to go. I ask for funding towards assistance with registration and other fees that would allow their vehicles to be updated. Regarding the prefabricated housing- This is absolutely what we need and whatever investment can be made into it will help. The company has built these all around the Valley and I'm glad it's finally being used in Fresno County.

My one ask on that item is that Fresno Mission makes any programs voluntary to get this housing. I am aware of mothers who have had to participate in the drug program as part of Rescue the Children who weren't dealing with addiction. Those who do not have need of such programs should not have to be required to participate in a housing program, as they need the time to focus on other necessities. This may not be an element of the program at all, but please ensure that the program matches the need.

Thank you

Item #32

Well the ADU's be large enough for the families to transition to? I only see one that could quite possibly fit a small family?

Thank you
