

1-29-16

To: Fresno County Board of Supervisors  
Fresno, California

Regarding: Application for Change to Liquor License ABC-21

1. The issuance of a license would not tend to create a law enforcement problem and increase the level of crime activities because the property is located in an agricultural area in which the population that we will provide service to will be mostly farmers. Since the area is not densely populated, there is minimal crime. We will have an alarm system and camera system 24 hours a day. The business will be family operated and two people will be working in every shift.
2. There are no liquor license in the vicinity of the requested location; providing us one will service the needs of the surrounding community. In fact, many customer have asked us to obtain a liquor license to better service their needs.
3. The issuance of a liquor license will have a positive impact on the local economy including the creation of new jobs because most of the jobs available now are agriculture related. With no other convenient stores nearby the area, in addition to liquor, we will provide groceries, dairy products, health and beauty supplies and other miscellaneous items to the community. In addition, we would install pumps and tanks to service the community further. Therefore, this business venture would generate significant revenue ensuring more taxes for the county.
