Raw Gas SCFt/day		3,024,000		
Methane Content SCFt/day	45%	1,360,800		
Biomethane Production (CH4 recovery)	94%	1,279,152		888
RNG Available (MMBtu)	95%	1,279	443,546	

^{*} This is a Pro-Forma Summary based on current information available from Toro

^{*} Revenue estimates based on the sale of federal Renewable Identity Number ("RIN") generated for each equivalent gallon of LFG sold as CNG for fuel used in heavy duty vehicles.

^{*} Revenue estimates based on the sale of California Low Carbon Fuel Standard ("LCFS") credits generated from LFG sold as CNG for fuel used in heavy duty vehicles.
