CAUTION!!! - EXTERNAL EMAIL - THINK BEFORE YOU CLICK

Given the dire need for housing and the number of those experiencing homelessness, more funding towards homelessness prevention, including protections, are very important. Please consider adding funding towards eviction protection, rental assistance, affordable housing, and increase shelters in high opportunity areas, near resources. INcrease funding to special services, like domestic violence resources, including those towards men. As we experience a housing crisis, funding needs to focus on meeting the needs surrounding it.
