

## **Written Statement to the Board of Supervisors**

To the Honorable Members of the Board of Supervisors:

I respectfully submit this statement in support of the issuance of a license for my business. In accordance with county policy, I would like to address the required criteria for determining public convenience and necessity:

**1. The issuance of a license would not tend to create a law enforcement problem and increase the level of crime activity.**

- My business is committed to operating responsibly and in full compliance with all County and state regulations.
- Security cameras, strong lighting, and trained staff will be in place to ensure a safe environment.
- Our company has a track record of maintaining order and cooperating with law enforcement, and we will continue to work closely with local agencies to ensure public safety.

**2. The issuance of a license would provide a needed service to the community and that without this use there would be an inconvenience to the community.**

- Although there are other license holders in the area, our business will distinguish itself through responsible operations and a higher standard of accountability.
- We will maintain a clean, safe, and welcoming environment for customers and the surrounding neighborhood.
- Our team will be trained to follow all laws and procedures to prevent misuse, loitering, or disturbance.
- By setting higher standards, we will help raise the overall quality of business practices in the area and reduce community concerns.

**3. The issuance of a license will have a positive impact on the local economy including the creation of new jobs.**

The issuance of this license will bring significant economic benefits to the local community and county as a whole:

**Job Creation & Stability:** The business will generate new employment opportunities, including full-time and part-time positions for local residents. These jobs will provide stable income and growth opportunities for families in the community.

**Support for Local Suppliers & Contractors:** We will prioritize working with local vendors, service providers, and contractors, which keeps money circulating within the county. This creates a multiplier effect that supports other small businesses.

**Increased Tax Revenue:** Sales generated from this business will directly increase tax contributions to the County. This revenue supports essential public services such as schools, law enforcement, infrastructure, and community programs.

**Long-Term Investment:** Our business represents not just a short-term operation but a long-term investment in the county's economic health. By establishing and maintaining a reputable business, we will contribute to sustained growth and stability in the local market.

**Community Development:** With our presence, the immediate area will see improvement through better property maintenance, enhanced security, and greater consumer activity. This helps uplift nearby businesses and adds to the vibrancy of the local economy.

## **Conclusion**

For these reasons, I respectfully request approval of this license application. I am confident that my business will operate responsibly, uphold community standards, and provide meaningful contributions to the local economy through job creation, tax revenue, and reinvestment into the community.

Thank you for your time and consideration.

Respectfully submitted,
