DISCUSSION:

The Special Investigations Division (SID) Narcotic Detection K-9 Program was established around 2000 with one Labrador retriever named Cowboy. Since the program's inception, the Fresno County Sheriff's Office has added dogs to the program as funding becomes available. The Department's drug detection dogs have been involved in numerous Asset Forfeiture cases since the program began. The Sheriff's Office currently

uses the canines in many different capacities to help locate the presence of illicit drugs that could not otherwise be detected. These resources are available to our local, state, and federal law enforcement agency partners on a regular basis.

It should be noted that pursuant to Administrative Policy 30, donations of \$7,500 or less may be accepted by the Auditor-Controller/Treasurer-Tax Collector. However, this item was brought to your Board for acceptance of the donation due to the need for approval of the budget transfer and budget resolution to allow for the purchase of the canine.
