3	Rentas y precios de casas para comprar aumentan y si somos bajos ingresos no es posible ser asequible	1/14/2025 9:45 AM
4	I don't see those options helping bring the price of housing down. 20% of \$450K is \$90K. That's not a realistic figure for people making \$50K a year. When renting an apartment is well over 40% of your gross income, home ownership is not a goal you can have.	1/3/2025 12:12 PM
5	Create housing for middle income individuals such as apartments or condos. All available are dilapidated or overpriced making them unaffordable. My adult kids with full time jobs can't afford to move out on their own.	1/3/2025 11:49 AM
6	more affordable housing is the greatest need. of course money to hire individuals and having the proper oversight to execute a good plan for all is necessary. I think different types of housing according to levels of income is needed except for the wealthy. from homeless, to low income to middle class individuals. I don't support developments by habitat for humanity building homes with the new potential homeowners because I personally saw situations fail. leave the building of the homes to professionals.	1/3/2025 11:19 AM
7	The problem with low-income apartments is that they lower property value around them, and unfortunately bring crime to neighborhoods.	1/3/2025 10:48 AM

20	Allowing person to gain access to more stable housing like a home or condo rather then temp housing like a shelter, halfway home or apartment.	12/13/2024 8:26 AM

With cost of electricity and gas at \$500 a month, solar panels would be helpful if they did cost so much, nor is adding anoth monthly payment worth the financing.

5	I live in a neighborhood near the Golden State freeway and the gate is along the highway that separates between the neighborhood and the freeway is always broken and wide open. Kids and transient people get on the highway from the neighborhood. It is a safety issue and several deaths have occurred from people crossing the freeway. It is sad because this is preventable if only there was a gate or wall that would be sufficient enough to keep people from walking on to the freeway. It seems like no one cares!! I see other parts of Fresno County getting repairs but none in West Fresno. It is truly unfair.	1/3/2025 1:50 PM
6	Almost all roads with homes are considered private roads (not county roads) and those are some of the WORST roads in the county. Every time it rains, it's a danger to drive. I know this isn't considered a county responsibility, but I don't think that's right.	1/3/2025 12:24 PM

28	Coming into town on Academy Avenue. The road is too narrow. Especially with all the semi-trucks using it. I was driving into Kingsburg and there were oncoming cars one after the other which obstructed my vision since it was dark, and some had their bright lights on. The street is so narrow, and the edge of the road is not level which has potholes or missing pavement. Because of the hazards I damaged the two rims on the passenger side of my car hitting holes on the edge of the road. My rims had to be repaired because they were bent out of shape causing loss of air in my tires. It cost me over \$450.00 of repairs to my rims. I should be reimbursed for the damaged caused since it was a road hazard due to poor management of the road.	12/13/2024 1:10 PM

## Q10 What went well?

Answered: 5   Skipped: 37

#	RESPONSES	DATE
1	GOOD COMMUNICATION	2/3/2025 2:48 PM
2	Process of notification and and proposal went very well, clear communication of needs and involvement within the conversation of how to deliver and what may work best for doing so.	2/3/2025 10:41 AM
3	Fresno County has been a wonderful partner in serving the community. Staff have made themselves available to answer any questions regarding NOFAs/RFPs. They have been collaborative when working through agreement development and transition to service implementation. If there have been any communication concerns we have been able to address them openly.	1/29/2025 12:58 PM
4	All steps or the Medi-Cal Outreach and Enrollment program went well with regular updates and communication from DSS.	1/28/2025 11:57 AM
5	Ongoing service activity delivery, the multi-year approach to funding allowing us to establish and maintain a critical service need, partnership with the Child Welfare Agency to improve and enhance service delivery to families experiencing disparities in services and disproportionality represented in the system	1/27/2025 7:47 PM

## Q11 How could it be better?

Answered: 4   Skipped: 38

#	RESPONSES	DATE
1	TIMING OF SERVICES	2/3/2025 2:48 PM
2	More follow up after data collection for what resources are available in a real time capacity. So those details can be directly shared with those in need as we engage in street contacts.	2/3/2025 10:41 AM
3	Unfortunately, when funding was discontinued in the second year of the contract the program was closed very quickly with few resources made available to continue support for the communities we serve.	1/28/2025 11:57 AM
4	Support with data tracking to support movement to evidenced based status outcomes of families served for the most part is limited to the data we maintain internally which limits our ability to do longitudinal outcomes, comparisons etc.	1/27/2025 7:47 PM

## Q12 What are the main barriers to partnering with the County?

Answered: 11   Skipped: 31

#	RESPONSES	DATE
1	The regulations and reporting that is required to receive county funds. Organizations like HIP who have not received county dollars, need more support in understanding how to navigate the county funding system, process and reporting.	4/18/2025 11:18 AM
2	Funding opportunities	2/6/2025 11:30 AM
3	SPEED OF SERVICE	2/3/2025 2:49 PM
4	Limited opportunities based on our organization's size and capacity.	2/3/2025 10:47 AM
5	Partnering with the County offers tremendous potential for collaboration and resource sharing, and there's a shared commitment to the community's well-being. One of the main challenges we've encountered, however, is the difficulty in coordinating schedules across busy teams with varying availability.	2/3/2025 9:40 AM
6	The main barriers in partnering with the county are finding land and projects to work on together. We have a number in the cue but would like to do more.	1/29/2025 1:01 PM
7	Fresno-Madera Area Agency on Aging partners with the County to provide Senior Nutrition Services and collaborates with case management programs like IHSS, Adult Protective Services, etc.	1/29/2025 9:35 AM
8	Lack of resources obtaining	1/29/2025 9:30 AM
9	None	1/28/2025 12:02 PM
10	We are a religious corporation and hope to one day be included for those requesting faith based services in compliance with charitable choice without forfeiting our religious exemptions.	1/28/2025 10:17 AM
11	The funding can be limited and doesn't adapt very well/keep pace with the unanticipated rate of inflation, increased cost of living which limits the ability to provide competitive wages for staff.	1/27/2025 7:51 PM

## Q13 What would make it easier to partner with the County?

Answered: 9   Skipped: 33

#	RESPONSES	DATE
1	Being able to have a better understanding of County funds and operations.	4/18/2025 11:18 AM
2	We are a smaller entity and it appears that the larger well known entities are preferred. Not giving opportunity to us smaller entities that can do just as well a job with less overhead.	2/6/2025 11:30 AM
3	SPEED OF SERVICE	2/3/2025 2:49 PM
4	If the County had consistent street outreach presence within Downtown we could assist as a liaison between the team those that need services and property / business owners.	2/3/2025 10:47 AM
5	What would make it easier to partner with the County would be ongoing meetings with the local Jurisdictions. These meetings would be beneficial to the jurisdictions to discuss the different projects that could benefit the community.	2/3/2025 9:40 AM
6	No known barriers.	1/29/2025 9:35 AM
7	The County has always been a strong partner with AMOR	1/28/2025 12:02 PM
8	An MOU and referrals of those struggling with substance abuse/dual diagnosis. Meanwhile, DBH working closer with our Tx facility to assess and medicate those with mental health barriers that we have referred prior to receiving services from our organization. This, has been a barrier to seamlessly intake those who report as ready for recovery.	1/28/2025 10:17 AM
9	Monthly activity reporting that is automated and can be entered in virtually via spread sheet or whatever and can give us the ability to track long- and short-term outcomes.	1/27/2025 7:51 PM

## Q15 How can the County better coordinate with your entity to help get resources and information to low-income and underserved populations?

Answered: 28 Skipped: 14

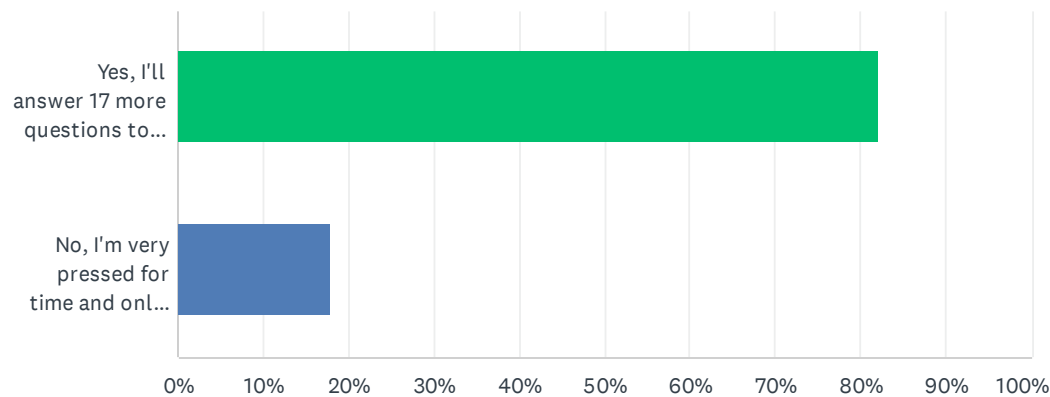

#	RESPONSES	DATE
1	Provide training and services to our organizational staff so they can help our low-income youth navigate county programs, services and resources. Build a trusted relationship with our organization so we can create a pathway for warm-hand offs when our youth are needing country services and programs.	4/18/2025 11:24 AM
2	Providing funding and providers that are accessible.	2/6/2025 11:33 AM
3	Give more time to understand the Guests that we serve.	2/4/2025 2:17 PM
4	COMMUNICATE OPPORTUNITIES WE CAN USE AND SUPPORT THE COMMUNITY	2/3/2025 2:49 PM
5	Invest in street outreach staff within a concentrated area (PBID) and coordinate with Ambassadors and DFP staff as we naturally have many connections and relationships with those underserved populations and the affected business / property owners.	2/3/2025 11:00 AM
6	The County can provide more transparency to the community. Provide additional information via social media to market the services and resources that they have available.	2/3/2025 9:41 AM

11	We need to get more MCO5's to connect with low-income veterans to get them VA benefits. Many county departments do not know Fresno County has a Veteran Service Office.	1/30/2025 4:00 PM
12	Develop joint outreach initiatives that utilize both organizations' resources and networks. This could include community events, workshops, and informational sessions held in easily accessible locations. Offer training sessions for Goodwill staff on available county resources and how to effectively connect clients with these services. This ensures that frontline workers are knowledgeable and can provide accurate information. Implement a referral system where county agencies and Goodwill can refer clients to each other for specific services. This ensures that individuals receive comprehensive support tailored to their needs.	1/30/2025 1:32 PM
13	?	1/29/2025 3:58 PM
14	Outreach to various County agencies about housing resources; Trainings to explain the various housing assistance programs available; Literature available with housing resources and eligibility requirements to provide clients; Network opportunities between our office and housing programs	1/29/2025 3:45 PM
15	If the county would like to send information regarding programs through our homebuyer network or interest forms we are able to do so electronically.	1/29/2025 1:03 PM
16	Coordination has been positive and effective. Continued collaboration and networking remain valuable.	1/29/2025 9:37 AM

## ConPlan 2025 - Community Partners Survey - Housing & Supportive Services

20	SHARE INFORMATION!!, make resource info available, easily accessible and not so cumbersome for families to access, if they apply somewhere the information should be shared in a universal way to other providers so they don't have to complete numerous applications to receive services. Universal intake form	1/27/2025 7:55 PM
21	Provide informational materials that can be posted at local government buildings and made available on the agencies website. Make presentations at local governing body meetings to inform leaders of the resources available to the low-income and underserved population.	1/27/2025 2:33 PM
22	More of an update as to the current housing stock that IS available and mental health services that are available so that referral processes are smoother and people don't waste time calling for services that aren't available.	1/24/2025 1:59 PM
23	Representation for disabled individuals and seniors in getting disability benefits is extremely low. Legal Services organizations can assist by representing these individuals in gaining federal permanent benefits. The Counties should contract with Legal Aid organizations to assist those in need.	1/24/2025 12:21 PM
24	Outreach to provide trainings and opportunities for clients to sign up for services.	1/22/2025 10:11 PM
25	Provide information on available resources.	1/22/2025 3:16 PM
26	More available/affordable housing for individual's who receive social security as their main source of income.	1/22/2025 8:36 AM

Q16 The County has 16 questions we would greatly appreciate your feedback on (most are skippable), including: How best to use of HOME funds for affordable housing, Fair Housing needs, How best to use ESG funds for homeless services, Whether the County's ESG funds should support rural activities or add to what's available in the Fresno Metro Area, Local barriers to finding and keeping housing, and How best to use CDBG funds for public services. But we understand that your time may be short. How would you like to proceed?

1	Victims of violent crime are very often unable to find affordable housing due to low inventory, or extreme wait lists. Those that have housing that may have been damaged as a result of a crime ( home burglary, home invasion, drive by shootings, interior damage due to violence occurring within the home), have limited resources to repair them. Clients that need to re-locate due to their victimization/safety issues have a difficult time finding affordable housing again, due to low inventory/wait lists/program eligibility requirements.	1/29/2025 3:59 PM
2	Rural affordable housing is extreamly needed	1/28/2025 12:20 PM
3	We can't build our way out of our housing crisis, we have to help people get into permanent homes that don't keep them in poverty to be able to qualify to live there.	1/24/2025 2:02 PM

I know clients who applied and are on a waiting list or are still waiting for assistance for approvals. It seems to be a very long process.

1	Permanent structures are highest priority, structure within them with qualified staff and incentive based movement through program's is important. Street teams connecting with those that are unhoused is vital to interrupt the chronic element of homelessness. The longer people are out in the streets the more they adapt to the lifestyle the longer they are vulnerable to trauma and less likely to be able to make positive choices after the fact.	2/3/2025 11:17 AM
2	A homeless person first needs to feel listened to and connect on an emotional level.	1/30/2025 4:20 PM
3	Specifically when it comes to victims of violent crime, ex. Domestic Violence, without the resources available (ex. affordable housing) to leave an unsafe environment, they often stay.	1/29/2025 4:26 PM
4	We need more of all of the above it just not enough	1/27/2025 8:06 PM
5	We need to get the people that are way beyond recognizing their own name out of the streets into mental health housing/healthcare. Tranq is making people be gone in a way that they can't help themselves even with all of the resources in front of them. Transitional housing that is caring for people's basic needs like having a consistent phone to make phone calls for basic things like appointments, consistent transportation to get to appointments.	1/24/2025 2:57 PM
6	Let's flip Trump's drill, baby, drill to house, baby, house. Now that homelessness and poverty has been made a crime, we should be obligated to build and acquire housing for the homeless, even in a conservative political environment.	1/21/2025 4:51 PM

1	I believe it should be located where it would be most convenient for them to receive mental and health care. Social services and job training. Parlier is near the highway 99 so that transportation would be convenient for the clients to travel to get the services needed. There would also be space for new construction to meet their needs as they progress up the socioeconomic ladder.	2/6/2025 11:53 AM
2	It hard to say where the best place for a shelter outside of Fresno. It might be better to create the shelter here in Fresno and bring the county homeless individuals to the city of Fresno.	2/4/2025 2:38 PM
3	I don't believe it would be a bad thing but there are also places within the Fresno ' Clovis metro area that could serve as emergency housing shelter with investment. (311 N Fulton) as an example.	2/3/2025 11:17 AM
4	The location of the emergency shelter should be in the location where the highest total of unhoused are located in the County.	2/3/2025 9:49 AM
5	It needs to be located near grocery stores, medical & mental health facilities, services that assist the homeless.	1/30/2025 4:20 PM
6	West County- Coalinga. Limited available resources and is a prohibitive distance to metro-Fresno.	1/29/2025 4:26 PM
7	This is a fantastic question, but would require some additional research.	1/29/2025 9:51 AM
8	Coalinga	1/29/2025 9:13 AM
9	Mendota or Firebaugh where there is a high need, no shelters and transportation is a big problem	1/28/2025 12:24 PM
10	This would be a bad thing if you did provide the resources and supports that they need to be connected to you would be placing them to far from accessing the other resources and services that they need	1/27/2025 8:06 PM
11	We need to stop blocking housing. There needs to be housing for families that are homeless and that should be anywhere close to services like schools and grocery stores.	1/24/2025 2:57 PM
12	A shelter needs to be where there are resources and services are nearby. Biggest hurdle is transportation, if you build it far from services, it will make it harder to receive services and support. Need access to public transportation, health care, mental health, food.	1/22/2025 10:29 PM

## Q29 In your opinion, once connected to services, what is most likely to cause an individual to experience repeated instances of homelessness or become chronically homeless in your community?

Answered: 21 Skipped: 21

#	RESPONSES	DATE
1	It is hard and challenging to maintain housing in our economy coupled with societal pressure and what is happening in our country. There is a lot weighing down on persons who are unhoused/homeless. They need and deserve more support than being handed housing. We need to create communities that care for humans and their dignity regardless of their housing and mental state. Once a person is housed, making sure they have a secure job that will guarantee not just their rent, but their ability to afford utilities, medical insurance, reliable transportation, getting them incorporated/integrated into community, invest in their skills and their wellness.	4/18/2025 11:45 AM
2	Unable to stay on their medications for them to remain stable and the continued support, encouragement, and attention.	2/6/2025 12:00 PM
3	Drug addiction issues.	2/4/2025 2:47 PM
4	Addiction, disconnection from case worker, no physical address to receive paperwork / documents, no cell phone for consistent communication.	2/3/2025 11:25 AM
5	Failure for the services to stay connected to the individual.	2/3/2025 10:00 AM
6	Lack of help due to judgement	2/1/2025 1:35 AM
7	Mental health disabilities and substance use Rapid rehousing programs often don't set clients up for success after Many PSH programs are not available to people who are not chronically homeless despite their level of need and ones who do only except clients from DBH excluding people who receive services from other agencies	1/31/2025 5:08 PM
8	Drug use.	1/30/2025 4:25 PM
9	repeated victimization; lack of employment; lack of social support	1/29/2025 4:35 PM
10	People become homeless for a wide variety of reasons but in our experience drugs can lead to chronic homelessness.	1/29/2025 1:17 PM
11	For the population we serve: elder abuse, financial fraud, inability to make rent, inability to afford housing upkeep.	1/29/2025 9:58 AM
12	They're kicked out of programs or leave because they don't get the help they need to address their traumas and/or mental health, and they're expected to be healthy and productive immediately just because there is a roof over their head. They're expected to drop the trauma responses they've learned probably over decades in a 6-month period.	1/29/2025 9:24 AM

**Q30 Do individuals or households who have experienced domestic violence, sexual assault, or trafficking face any unique challenges or have specific needs? Are there disparities between services available to this population in the Fresno Metro Area and those experiencing these challenges in the rural area outside of the metro area?**

1	It is probably more relevant than realized and would need attention.	2/6/2025 12:00 PM
2	Yes, one issue that comes along with this population is that they have trust issues and can be difficult to work with. they are also in need of protection from the abusers or traffickers. If there is a disparity I am not sure what it would be.	2/4/2025 2:47 PM
3	I'm not in a position to comment other than the higher the trauma experienced the more likely someone is going to abuse drugs to escape processing. More trauma based therapy and safe space is needed to work with them.	2/3/2025 11:25 AM
4	Not too many help they make it impossible to get help	2/1/2025 1:35 AM
5	Both metro and rural areas could use additional shelter beds and supportive housing programs for DV, SA, and HT survivors	1/31/2025 5:08 PM
6	Yes, they need mental health counseling, access to low-cost legal help. In rural areas, mental health counseling and low-cost legal help are less likely to be available.	1/30/2025 4:25 PM
7	There is far fewer services available in rural communities for victims, making it more difficult for them to receive assistance and/or leave. Many times, with survivors of DV and HT, their abuser, if not in custody, will pursue them, making it difficult to relocate safely.	1/29/2025 4:35 PM
8	Yes, the mental health support services are extremely important as well as finding shelter to exit any difficult situations.	1/29/2025 1:17 PM
9	Unknown.	1/29/2025 9:58 AM
10	For victims of trafficking yes. My response to the previous question answers this.	1/29/2025 9:24 AM
11	We don't think so. We find that most have trauma which results in substance abuse/mental health issues which escalate to homelessness.	1/28/2025 10:47 AM
12	They are stuck in horrible situations and no way to get out rely on the abuser for financial support etc	1/27/2025 8:10 PM
13	Minimal services in rural areas.	1/27/2025 2:40 PM
14	Yes, especially those that are of different cultures like Punjabi or Hmong	1/24/2025 2:58 PM
15	Services are limited in Fresno and less available in rural areas	1/22/2025 10:39 PM
16	Yes	1/22/2025 3:22 PM
17	Yes they definitely need therapy for sure often they experience traumatic brain injury.	1/22/2025 6:38 AM

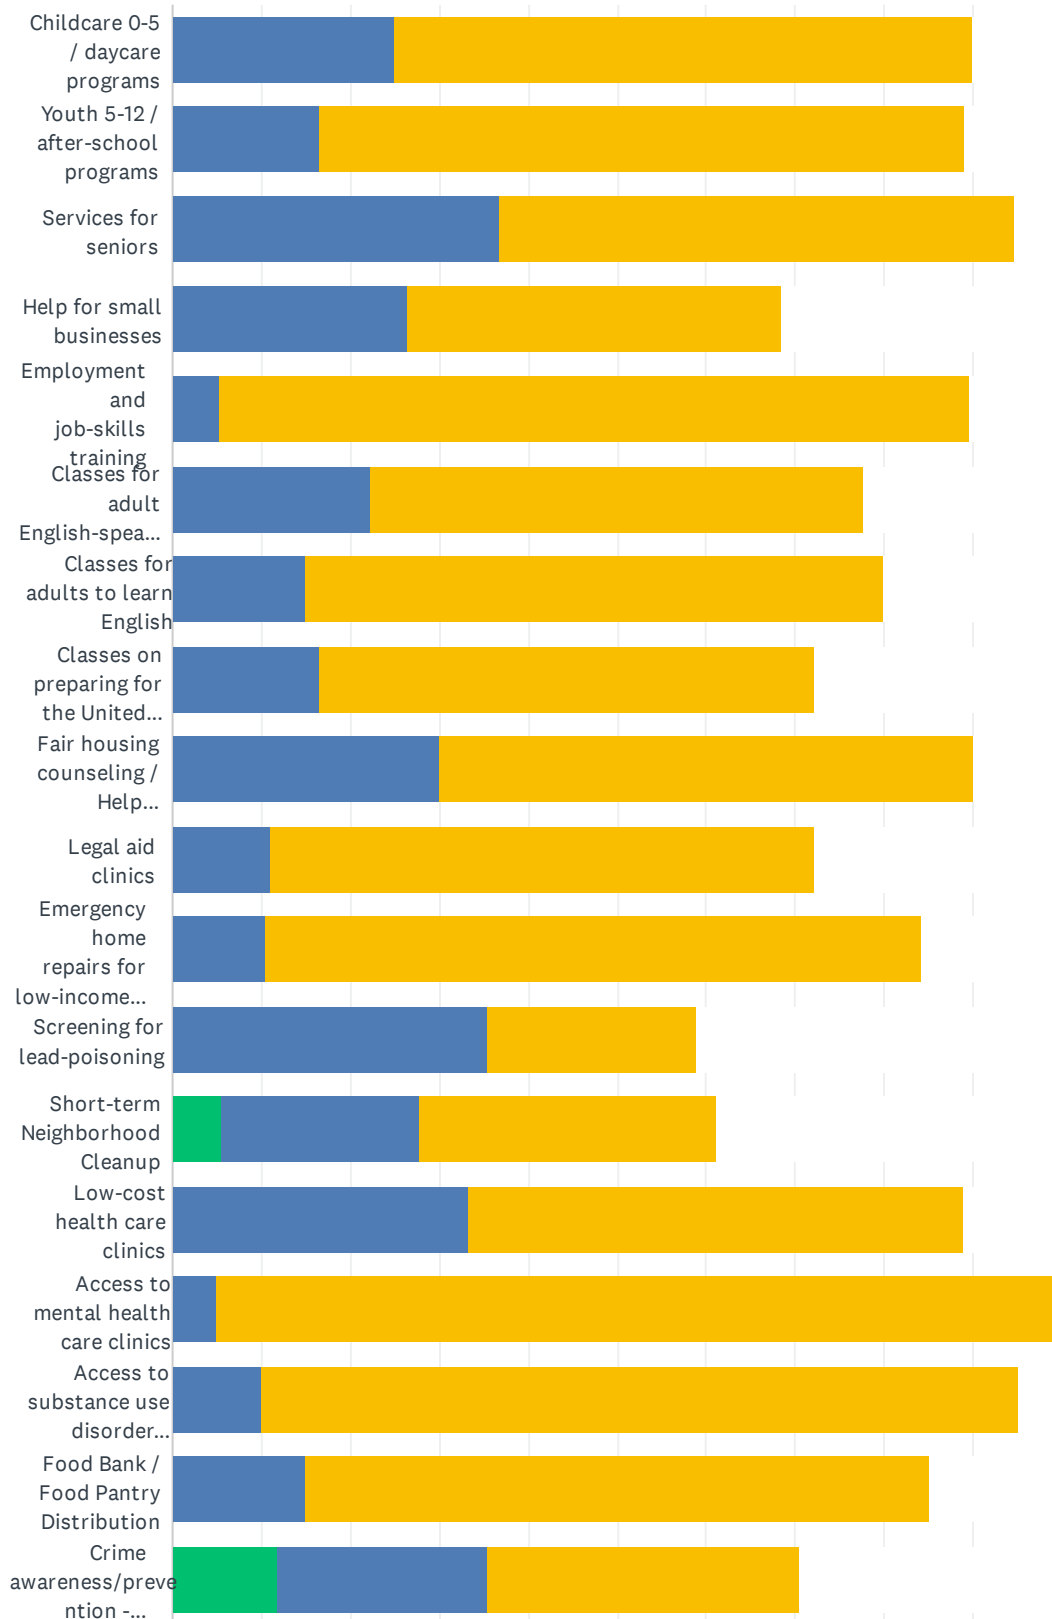

**Q31 Have you encountered any situations where lack of infrastructure (roads, water, grocery stores, medical centers, public transportation, senior center, broadband internet, etc.) impacted your ability to provide services? 7	In general lack of infrastructure can be difficult for any developer. Some areas of the county around Firebaugh, Kerman, and Mendota have lack of infrastructure that makes the cost to develop much needed housing difficult. Funding is difficult to come by for infrastructure costs related to housing development, however some communities like Firebaugh are doing their best to keep up.	1/29/2025 1:17 PM

1	Affordable housing	2/6/2025 12:11 PM
2	The Homeless population needs more services on site. Like Addiction help, Mental health, job skills/ training, financial literacy, and Life skills classes. If they had these extra services, they might be more successful.	2/4/2025 3:06 PM
3	Small secure space goes a long way. Designs with community in mind are important.	2/3/2025 11:30 AM
4	Currently serve individuals with chronic homelessness and TAY aged youth. These groups of individuals are in need of housing with support services. To help them maintain their housing.	2/3/2025 11:24 AM
5	I work specifically with Transition Age Youth. Rapid Rehousing with intensive support, low cost housing options, and PSH programs are greatly needed. Families receiving only cash aid do not qualify for most low income units because they don't meet minimum income requirements	1/31/2025 5:13 PM
6	There need to be programs for young families and family's with older teenagers. For young adults, there needs to be on-site staff and life skills and job training requirements. They are expected to know how to be self sufficient without any guidance.	1/29/2025 9:38 AM
7	Homeless and homeless with children should be a first priority.	1/21/2025 5:01 PM

3	Safe and secure sites, location is key, qualified staff on site is important.	2/3/2025 11:30 AM
4	The population that I serve needs supportive services. Public Housing needs to focus on providing services to individuals that are continuing to be chronic homelessness. The support of services should focus on assisting individuals with keeping their housing.	2/3/2025 11:24 AM
5	Many housing assistance programs are set up as if all teenage boys and young men are predators. Family programs are just for moms and children 12 and younger. Co-parents can't qualify unless they are married, etc. Programs also restrict adult children. Programs should include all types of family makeups.	1/29/2025 9:38 AM

5	More work training and job placement programs to increase income RRH programs that prepare them to take over their rent PSH programs that do not require chronicity Transitional housing programs Low income housing for single parents that they can qualify for with the amount they receive from Cash Aid Shared housing programs that are not outrageously expensive. The main shared housing provider in our community, ILA, charges \$800 plus for a bed in a bedroom. This is a huge financial strain and prevents people from being able to save money and get on their feet to move into more permanent housing	1/31/2025 5:28 PM
6	Again, this population is homeless because they had extreme instability as children, and lack trust in adults. On Site staff should be part of these programs, including Mentors to guide young adults who still need to learn basic life skills. Having a job is not enough. They need to learn how to do laundry, cook, shop, sign up for health insurance, understand taxes, and so many more things. Young adults also should have opportunities to live with their children and coparents. In these programs, lifeskills geared toward parenting and coparenting are also critical.	1/29/2025 9:49 AM

1	They need to have the mental and emotional support to be able to get back on their feet	2/6/2025 12:16 PM
2	The community should have a mixture of housing programs that require income and that don't. By getting people with an income into shorter term assistance with titrating rental assistance we can leave space in programs for people without income that need longer term assistance. Additionally storage facilities for people's belongings would be very beneficial since many of our unhoused population are street homeless or in shelters with limited space. ## Q44 What strategies should the County consider utilizing when addressing homelessness? What is important to the groups that you serve? What do those populations need?

Answered: 5   Skipped: 37

#	RESPONSES	DATE
1	They have trust issues and the feeling of hopelessness	2/6/2025 12:21 PM
2	I think we need to eliminate the Housing Frist Model. We need to address the issues like drug addiction, mental health, and unemployment. this way when they do go into housing they will be better prepared to sustain themselves.	2/4/2025 3:14 PM
3	Meet people where they are, street outreach. Focus on concentrated areas at first, Identify when people are in need of emergency mental health services and need placement within appropriate facilities.	2/3/2025 11:47 AM
4	We need additional funds for homeless prevention and diversion	1/31/2025 5:37 PM
5	Having long term vision is needed in addition to addressing the immediate needs we face today. How are neighborhoods involved in supporting housing projects? What efforts are made to support neighborhoods to support themselves and prevent homelessness in their areas? How do we connect volunteer opportunities to support the homeless in ways other than serving food during a holiday?	1/29/2025 9:58 AM

## Q45 What else do you want to say about Homelessness Strategy?

#	RESPONSES	DATE
1	Just be friends with them, gain their trust and then introduce them to the facilities that meets their specific needs. One on one and on to group.	2/6/2025 12:21 PM
2	The Fresno Madera Continuum of Care is not a great space for newcomers to get involved and help find solutions. It's impossible to understand unless you're funded by HUD. Perhaps something can be done to address this so new ideas can be brought to the table without offending any existing programs or threatening anyone's funding. Everyone is doing the best they can, but something has to change if we're going to see our dollars actually get used 100% and used for actual progress on this issue.	1/29/2025 9:58 AM

4	In this country no one should be hungry or without housing.	1/30/2025 4:31 PM
5	Victims needs are multi-faceted and victimization can make it more difficult to access available resources. Housing has been a continuous unmet need. Lack of inventory for affordable housing needs to be addressed.	1/29/2025 4:42 PM
6	We have appreciated Fresno County and their dedication to serving this community in partnership.	1/29/2025 1:21 PM
7	Age/Disability-friendly affordable housing is a significant need in our county. FMAAA offers to partner with Fresno County to understand/prioritize the housing needs of older adults.	1/29/2025 10:05 AM
8	Thanks for the survey, I would appreciate being contacted for follow up and the opportunity for AMOR staff who serve and live in west Fresno County to have their expertise utilized by the County to inform decisions.	1/28/2025 12:37 PM
9	With prop 36 we're hoping to see substance abuse decline and have a positive impact in reducing our homeless population stats when these individuals receive substance abuse tx services however, our mental health services need a better/quicker service process. Clients sent by treatment providers with a plan to enter treatment should not be sent away before assessed for medication for stabilization.	1/28/2025 10:53 AM
10	We can't build our way out of our issues. We need to have sound comprehensive policies across communities where we are not just building more 300k+ housing units for outside people to come into rural communities because it's more affordable. We need to keep communities intact as much as possible, that's why helping them with rent, helping people with buy their homes is the best long term investment and short term, we need mental health facilities for those who the new drugs on the street like tranq has deemed them completely unable to function.	1/24/2025 3:02 PM
11	Providing legal representation for those at risk for homelessness who suffer from a disability or are aged is extremely important. Intervening before the most vulnerable populations are homeless is essential.	1/24/2025 12:32 PM
12	The needs are high and I appreciate the opportunity to give feedback on the process.	1/22/2025 10:43 PM
13	Having available and affordable housing for individual's who receive social security as their main source of income is very important for the individual's that we serve as an agency. Sometimes independent living options can be hard to come by just based on the income that most of our individual's receive.	1/22/2025 8:38 AM
14	Don't forget our veterans are on the streets please house them first thank you.	1/22/2025 6:41 AM

7	slow and spotty internet	3/5/2025 2:40 PM
8	Terry Elementary, a school within the Selma Unified School District, struggles with poor internet connectivity, and many of its students also face significant connectivity challenges at home. The school is located outside the City of Selma's limits and beyond our Sphere of Influence (SOI). Is there any opportunity for the county to help bridge the digital divide for schools and community centers in unincorporated areas? There is no existing mapping of broadband assets, and the FCC's data on connectivity is inaccurate. Additionally, with the Affordable Connectivity Program ending, many families can no longer afford internet access.	3/4/2025 4:09 PM

## Q28 Any final thoughts you'd like to share with us on CDBG, your community/city, or things you'd like the County to consider when developing the 5-Year Consolidated Plan?

1	Thank you.	3/18/2025 9:01 PM
2	As the City Engineer I'm familiar with the CIP needs of the City. The affordable housing component would be best address by the City Planning Department, Mr. Shun Patlan.	3/17/2025 11:51 AM
3	It is a pleasure working with the County CDBG staff. Thanks for all your hard work and support.	3/16/2025 10:46 PM
4	I would like to see interest from the county to provide more green areas, walk pats, and a community hall with a library for the students to have a safe place to do homework and other activities.	3/14/2025 9:35 AM
5	We have benefited from CDBG Funding and would like to see the plan include more funding for emergency services.	3/13/2025 6:46 PM
6	Funding for fiber expansion would be welcome. We have an existing backbone in place - continuing to build upon that would be vital.	3/13/2025 5:42 PM
7	Prioritize infill projects, green spaces, heat island reduction.	3/4/2025 4:09 PM

<b>#</b>	<b>OTHER (PLEASE SPECIFY)</b>	
1	Impact fees are a big impact on cost. Zoning districts and NIMBYism is an issue that can block development. Minimum site requirements are less of an issue than maximum site requirement limits especially around unit density.	
2	When undergoing local planning and permitting reviews, we have often seem our construction costs tick upwards. Most recently, we have been faced with a \$400k increase during the plan check process, and often this number can be higher, especially when disrectionary conditions of approval are imposed. This places cost sensitive projects in a very precarious financial position.

## Q16 What's going well?

Answered: 5   Skipped: 7

#	RESPONSES
1	Once the right staff member is connected with us and understands our projects, they are willing and happy to work with us and meet our deadlines.
2	We appreciate funding support from the County.
3	The Homekey program has generally limited discretionary approvals and aided in curbing costs across our Homekey portfolio— wherein most of our experience lies. However, we continue to face delays in the permitting process which costs our projects valuable time.
4	small cites usually seem to be more "motivated" to move projects through the various processes
5	The need for affordable housing is becoming more of a priority

## Q17 What could be better?

Answered: 7   Skipped: 5

#	RESPONSES
1	The amount of money to make a deal work in the counties we have need to be higher. Rental subsidy such as serna and usda are required to make an affordable deal pencil out.
2	City of Fresno used have an affordable housing liaison really helped with the development process. Having a staff person in this role again would be a huge help. The length of time it takes to pass resolutions really slows applications with the state. Spending up this process would help developers with HCD funded projects.
3	The loan closing process could be improved and inspections coordinated with other lenders.
4	meet in person to clear correction
5	In other jurisdictions, we have been able to work with liaisons, who have the capacity to intervene on behalf of jurisdiction- funded projects when delays occur or when there are challenges in communicating with planning staff. We find a third party employed by the jurisdiction to represent their projects is often very effective in ensuring these projects are not faced with costly delays.
6	Statutory CEQA exemptions / maximum processing times / face to face meetings with City of Fresno
7	The cost of construction is increasing which makes building more difficult

## Q25 What could the County/City do that would encourage more building and construction of units targeted to low-income households?

Answered: 9 Skipped: 3

#	RESPONSES	DATE
1	Increase soft debt. Make it available at closing.	
2	Waive impact fees, provide low interest deferred secondary financing	
3	More soft funding to leverage with state and federal resources allowing Fresno to be more competitive vis-a-vis other municipalities competing for the same funds.	
4	Provide funding assistance, waive impact fees, help identify sites	
5	charge cheaper on fees	
6	One of the current challenges in developing additional ELI units is the lack of subsidy available via the Fresno Housing Authority. Local rental support, even if temporary, can sometimes be used to leverage state funded capitalized operating support for a project long term. Additionally, zoning is often a challenge. Rezones can be timely, uncertain, and costly. Rezoning more sites in rural Fresno would be ideal, particularly for the development of multifamily housing, as this has been harder to identify within the unincorporated areas of Fresno and rural towns:	
7	As a for-profit company, we're used to a certain level of profitability and processes normally required to design and build a new residential development. For us to be interested in building for low-income households, we must be able to justify the profitability of the project compared to a market rate project. Also, having someone who is familiar with steps a for-profit/market rate developer/builder typically goes through walk the developer/builder through the process would be a good idea because in my limited experience exploring these kinds of projects it's been pretty confusing.	
8	see above - CEQA exemptions	
9	Make it a priority in the County	

## Q26 What could the State do that would encourage more building and construction of units targeted to low-income households?

Answered: 8   Skipped: 4

#	RESPONSES	STATUS
1	Public land and increased subsidy.	
2	Continue by-right permitting, waive CEQA	
3	Streamlined allocation of funding between TCAC and HCD.	
4	charge cheaper feed	
5	We would like to see the state provide, not just funding for the development of affordable units, but operating or rental subsidy as well. Some programs like HOME and Homkey have incorporated this already.	
6	All the same comments as the last answer.	
7	see 25 above	
8	Limit impact fees and expedite the approval process in the State	

## Q27 What types of information or resources could the County/City provide to you as a builder/developer that would make it easier for you to build more residential housing?

Answered: 7   Skipped: 5

#	RESPONSES	0/100
1	Provide funding	
2	N/A	
3	Site information -- owners that are interested in selling	
4	It would be very helpful to know when new lots have been rezoning to permit housing, which would help us focus our attention on those lots where the County would like to see housing.	
5	The variables that impact a builder/developer's decision to build most are profit and time to market. If a project can yield more profit in a shorter period of time than other deals, that will move more builder/developers in that direction. Show them how they can earn a higher profit and move through entitlements faster in their County/City and you'll see more activity.	
6	do a quick analysis of the infrastructure deficiencies and create a map identifying these areas	
7	Help educate the cities on the need for low-income housing and the need to support it construction.

2	Thank you for the ongoing partnership. Also we do need to County to be available to partner on Homekey+ as needed.	
3	Thank you for taking the time to review our feedback!	
4	Things have gotten a lot harder to process since COVID, since a lot of staff people don't want to meet in person.	
5	Construction costs are increasing and the pricing for tax credits is decreasing. The County needs to push cities to make affordable housing more of a priority. Reduced impact fees, city's providing city-owned land, deferral of fees (paid after construction is complete) or waived fees, financial help.
