CSA 31 receives a unique benefit from the services provided by the Civic League because the services are provided at cost with all of the participants acting as volunteers. The Civic League has diverse assets and abilities which are crucial to the well-being of CSA 31; these assets and abilities include property, equipment, personnel, training, and finance management. The Citizens Advisory Committee representing CSA 31 has strongly voiced their support of having the Civic League continue to provide these services at a known cost benefit.

The Civic League has provided these services even before the creation of CSA 31. CSA 31 was created to fund the Civic League who provides recreational and fire services to the residents of the Shaver Lake Area. There is no other Organization who can provide these services for CSA 31.
