Notes

1. Organic Rates that are effective July 1, 2022 are applicable to **commercial customers only who are required to comply with AB 1826 (Mandatory Organics Recycling, or MORE)**. Pursuant to the implementation action plan outlined in the County's Notification of Intent to Comply with SB 1383 Regulations (NOIC), approved by the Board on February 22, 2022 and submitted to CalRecycle on February 25, 2022, it is anticipated that on or before January 1, 2023, organic waste collection will be fully implemented in the County of Fresno. Upon full implementation, ALL customers, including residential customers, will need to comply with SB 1383 organic waste recycling mandates. Indicated Organic Rates may change through negotiation with ESAP Haulers and/or established rate adjustment processes. All changes or adjustments are subject to Board of Supervisors approval.

2. Organic Rate calculated based on the prescribed methodology outlined in Section 4.2.E of the Exclusive Service Area Program Agreements. The rate is computed at 60 percent of the base level solid waste rate ("New Rate") plus a processing cost per ton. Processing rates and rate assumptions are as follows:

Assumptions

300 lbs per cubic yard
201.974 gallons per cubic yard
1.485339697 lbs per gallon
4.333333333 weeks per month

Processing Rates

Zone 1 - \$36.00
Zone 2a - \$37.00
Zone 2b - \$36.00
Zone 3 - \$42.00

3. CalRecycle approved a "Low Population Waiver for Unincorporated Portions of Counties" application submitted by the County of Fresno on March 3, 2022. This waiver applies to all census tracts with a population density of 75 or less persons per square mile on March 3, 2022. All census tracts falling within Zone 3 service territories meet this criteria, and are therefore exempted from organic waste collection regulations.

4. Recycling Surcharge to be implemented effective January 1, 2020 through and including June 30, 2025. Surcharge rate calculated based on recyclable commodity market value data for Mixed Paper (MP) and Old Corrugated Containers (OCC) obtained from the RISI Fastmarkets* Pulp and Paper Index (PPI) recycled fiber market index for the Los Angeles and/or San Francisco/Oakland port regions, as well as quarterly ESAP tonnage and revenue data. Surcharge is adjusted on a quarterly basis, not to exceed 5 percent for the term of the surcharge. Haulers are to apply the Surcharge as an overlay; haulers will add the Recycling Surcharge amount to the "New Rate" for base level solid waste service. If a hauler's rate is lower than the "New Rate," the Surcharge amount will be added to the hauler's rate.

5. SER Rate is only applicable to Customers within the SER Territory. To Calculate the SER rate, a hauler will need to add the SER Overlay to the "new rate." SER Overlay rates are not subject to CPI Increases.

Notes

1. Any bin service provided to residences (including 1, 2, and 3 cy Bins) will be reported as commercial service for reporting purposes only.

2. Organics Rates that are effective July 1, 2022 are applicable to commercial customers only who are required to comply with AB 1826 (Mandatory Organics Recycling, or MORE). Pursuant to the implementation action plan outlined in the County's Notification of Intent to Comply with SB 1383 Regulations (NOIC), approved by the Board on February 22, 2022 and submitted to CalRecycle on February 25, 2022, it is anticipated that on or before January 1, 2023, organic waste collection will be fully implemented in the County of Fresno. Upon full implementation, ALL customers, including residential customers, will need to comply with SB 1383 organic waste recycling mandates. Indicated Organics Rates may change through negotiation with ESAP Haulers and/or established rate adjustment processes. All changes or adjustments are subject to Board of Supervisors approval.

3. Organics Rate calculated based on the prescribed methodology outlined in Section 4.2.E of the Exclusive Service Area Program Agreements. The rate is computed at 60 percent of the base level solid waste rate ("New Rate") plus a processing cost per ton. Processing rates and rate assumptions are as follows:

Assumptions

- 300 lbs per cubic yard
201.974 gallons per cubic yard
1.485339697 lbs per gallon
4.333333333 weeks per month

Processing Rates

- Zone 1 - \$36.00
Zone 2a - \$37.00
Zone 2b - \$36.00
Zone 3 - \$42.00

4. CalRecycle approved a "Low Population Waiver for Unincorporated Portions of Counties" application submitted by the County of Fresno on March 3, 2022. This waiver applies to all census tracts with a population density of 75 or less persons per square mile on March 3, 2022. All census tracts falling within Zone 3 service territories meet this criteria, and are therefore exempted from organic waste collection regulations.

5. Recycling Surcharge to be implemented effective January 1, 2020 through and including June 30, 2025. Surcharge rate calculated based on recyclable commodity market value data for Mixed Paper (MP) and Old Corrugated Containers (OCC) obtained from the RISI Fastmarkets* Pulp and Paper Index (PPI) recycled fiber market index for the Los Angeles and/or San Francisco/Oakland port regions, as well as quarterly ESAP tonnage and revenue data. Surcharge is adjusted on a quarterly basis, not to exceed 5 percent for the term of the surcharge. Haulers are to apply the Surcharge as an overlay; haulers will add the Recycling Surcharge amount to the "Net Rate" for base level solid waste service. If a hauler's rate is lower than the "Net Rate," the Surcharge amount will be added to the hauler's rate.

6. SER Rate is only applicable to Customers within the SER Territory. To Calculate the SER rate, a hauler will need to add the SER Overlay to the "new rate." SER Overlay rates are not subject to CPI increases.

7. 1.5 and 5 cubic yard bins are provided at the discretion of the hauler. None of the Zone 3 service rate area haulers have proposed to provide these odd-sized containers, therefore, no rate is proposed in the Zone 3 service rate area.
