10 performed by other contractors.

11 (B) The Contractor shall assume all liability, financial or otherwise, in connection with
12 this Agreement, and shall protect and hold harmless the County from any and all damages or

16 responsibility for all Work not completed or accepted because of the presence and operations of
17 other contractors.

18 (C) The Contractor shall arrange the Work and placement and disposal of the
19 materials being used, so as not to interfere with the operations of other contractors within or

22 **1.15 Temporary Facilities.**

23 (A) **Water and Electricity:** The Contractor may connect to existing water and
24 electricity available on the site, provided it is suitable to the Contractor's requirements. Water
25 and electricity costs shall be paid by the County. The Contractor shall bear all expenses for
26 carrying the water or electricity to the appropriate locations, and for connecting or tapping into
27 existing lines. The Contractor shall furnish fuel and other power for the operation of the heavy
28 equipment, pneumatic tools, and compressors.

1 (B) Toilet Facilities may be available on the site to the workers engaged in the
2 performance of this Agreement. The use of such facilities may be revoked in the event of
3 excess janitorial requirements, or at the discretion of County.

5 hazardous operation adjacent to combustible materials. Any fire hazardous operation shall have
6 proper fire extinguishers close by, and the adjacent area shall be policed before stopping work
7 for the day.

8 The Contractor shall provide not less than one OSHA / NFPA Class 10-ABC fire
9 extinguisher for each 9,000 square feet of project area or fraction thereof.

10 1.17 **Dust Separation and Protective Barricades.** When directed as part of an individual
11 Job Order, the Contractor shall erect temporary dust separation partitions and floor mats as
12 necessary to confine dust and debris within the area of Work. The Contractor shall post signs,

14 Contractor and County personnel.

15 The Contractor shall provide adequate protection for all parts of the present buildings and its
16 contents and occupants wherever Work under this Agreement is to be performed. The
17 Contractor shall observe that the health and welfare of occupants of the existing buildings may
18 be affected by noises and fumes produced by the construction. The Contractor shall avoid
19 creating loud and unnecessary noise, and noise-producing Work shall be performed as far away
20 from occupied areas as is consistent with the efficient conduct of the Work.

21 1.18 **Damage to Existing Work.** Damage to existing construction, equipment, and
22 planting by the Contractor in the performance of the Work shall be replaced or repaired and
23 restored to original condition by the Contractor at the Contractor's expense.

24 1.19 **Protection of Alarms, Security, Communications, and Computer Systems.** The
25 Contractor shall be responsible for all costs incurred by the County on these systems as a
26 result of Work by the Contractor or damage caused by the Contractor's operations, including
27 costs associated with false fire alarms caused by Contractor operations.

1 1.20 **Parking.** The County will provide parking spaces at the project site when parking is
2 available. However, the Contractor shall not rely on the County to provide parking.

3 1.21 **Record Drawings.** The Contractor shall be provided with xerox bond prints at no
4 cost, upon which a record of all changes to the project plans shall be made. As the Work
5 progresses, the Contractor shall be responsible for and shall maintain a record of all deviations
6 in the mechanical, electrical, plumbing, and other Work from that indicated on the plans. As a
7 condition for considering the project complete, the record drawings must be delivered to the
8 Engineer, and deemed acceptable.

9 1.22 **Warranty Response.** In lieu of any time limits imposed or implied by the above-
10 referenced Agreement Documents or stated in standard product warranties or special
11 warranties, the Contractor shall respond within 24 hours' notice from the County that repairs or
12 changes are required in connection with guaranteed Work, or equipment within the guarantee
13 period.

14 1.23 **Asbestos Containing Material (ACM).** When the Job Order requires the Contractor
15 not to remove ACM, the Contractor shall exercise caution when working around ACM to prevent
16 the release of ACM into the atmosphere. If damage to ACM results in release of airborne
17 asbestos fibers to the atmosphere, then control measures required by Federal and State
18 regulations must be instituted at the Contractor's expense. Any ACM damaged by the
19 Contractor's operations shall be repaired at the Contractor's expense in accordance with
20 applicable Federal, State, and local laws and regulations. When the Job Order requires the
21 removal of ACM, the Contractor shall remove, transport, and dispose of either non-friable ACM
22 or less than 100 square feet of friable ACM in accordance with Federal, State, and local statutes
23 and regulations. The Contractor shall furnish project notification documents, employee
24 information, equipment certifications, material specifications and samples, project work plan and
25 air monitoring plan, and other project submittals or documentation as required by statute or
26 regulation.

27 (A) The methods for removal and disposal of either non-friable ACM or friable ACM
28 selected by the Contractor shall be approved by the County before commencing removal

1 operations. If, during the course of removal operations, the County determines that removal
2 methods used by the Contractor result or may result in releasing airborne asbestos fibers to the
3 atmosphere, the Contractor shall immediately cease the Contractor's current ACM removal
4 operations, and propose a new method for removal of ACM for the approval of the County.

5 (B) If removal of ACM results in release of airborne asbestos fibers to the
6 atmosphere, then control measures required by Federal and State regulations must be instituted
7 at the Contractor's expense.

8 (C) Work area air monitoring may be required for individual Job Orders, at the
9 discretion of the County. Work area air monitoring shall be paid for by the Contractor. The
10 Engineer reserves the right to require the Contractor, at the Contractor's expense, to utilize a
11 contractor certified by the Contractors State License Board and registered with the Division of
12 Occupational Safety and Health to remove and dispose of ACM, if, in the opinion of the
13 Engineer based on the Contractor's performance of ACM removal, only a certified and
14 registered contractor would possess the technical skills and resources required to remove the
15 ACM.

16 (D) At the Contractor's option, removal and disposal of non-friable ACM or friable
17 ACM where removal and disposal may result in release of airborne asbestos fibers to the
18 atmosphere may be subcontracted to a contractor certified by the Contractors State License
19 Board and registered with the Division of Occupational Safety and Health.

20 1.24 **Security.** Security is of great concern to the County. Failure to comply with the
21 security requirements listed below will be considered a breach of contract, and may result in
22 termination of this Agreement and any Job Order for default. The Contractor's personnel shall
23 cooperate with all County security personnel at all times, and shall be subject to and conform to
24 County security rules and regulations, including, but not limited to County security rules and
25 procedures, as detailed in Exhibits D through G. Any violations or disregard of these rules may
26 be cause for denial of access to County property. The background checks required, and policies
27 listed below, may change throughout the life of this Agreement. It is the Contractor's
28

1 responsibility to request updates from the County. All of the Contractor's employees, agents,
2 and subcontractors must read the policies listed below. Please see the following Exhibits:

- 3 • Exhibit D – Probation Juvenile Detention Facilities – No Hostage Policy.

8 (A) Security provisions will be strictly enforced. All parties who are required to
9 perform their individual services at the site shall be limited to the area required to complete the
10 Work. Such access shall be obtained by notification to the Facility Services Manager or his
11 designee, of the time and place, prior to commencing the Work.

12 (B) All keys used during construction shall be numbered. Each key issued shall be
13 recorded, and its prompt return shall be strictly enforced. Duplication of any keys issued is
14 strictly prohibited. These keys shall be returned to the County's representative at the end of
15 each working day, when required.

16 (C) Some of the Projects to be done under this Agreement may be in secured facilities
17 such as jails. Prior to commencement of Work, the Contractor, including all subcontractor and
18 contractors, shall obtain security clearances for all employees that will be working or making
19 deliveries to the sites.

20 (D) When Work is performed in secured facilities, it is incumbent upon the Contractor to
21 alert all workmen of the necessity for extreme care in accounting for, and keeping all areas free
22 of any and all types of hand tools, power tools, small parts, scrap material, and all other
23 materials which might be concealed upon the person of an inmate/ward/patient, at all times
24 when such tools and materials are not used for the task at hand.

25 (E) Each Work area shall be kept clean and in order both during working hours and at
26 the completion of the working day.

1 1.25 **Trenching and Excavation.** In accordance with section 7104 of the California Public
2 Contract Code, the following provisions shall apply to any contract involving digging of trenches
3 or other excavations that extend deeper than four feet below the surface:

4 (A) The Contractor shall promptly, and before the following conditions are disturbed,
5 notify the County, in writing, of any:

6 (i) Material that the Contractor believes may be material that is hazardous waste,
7 as defined in section 25117 of the Health and Safety Code that is required to be removed to a
8 Class I, Class II, or Class III disposal site in accordance with provisions of existing law.

9 (ii) Subsurface or latent physical conditions at the site differing from those indicated.

10 (iii) Unknown physical conditions at the site of any unusual nature, different
11 materially from those ordinarily encountered and generally recognized as inherent in work of the
12 character provided for in the Job Order.

13 (B) The County shall promptly investigate the conditions, and if it finds that the
14 conditions do materially so differ, or do involve hazardous waste, and cause a decrease or
15 increase in the Contractor's cost of, or the time required for, performance of any part of the
16 work, shall issue an additional Job Order.

17 (C) In the event that a dispute arises between the County and the Contractor
18 whether the conditions materially differ, or involve hazardous waste, or cause a decrease or
19 increase in the Contractor's cost of, or time required for, performance of any part of the Work,
20 the Contractor shall not be excused from any scheduled completion date provided for by the
21 Agreement but shall proceed with all Work to be performed under the Agreement. The
22 Contractor shall retain any and all rights provided either by contract or by law which pertain to
23 the resolution of disputes and protests between the contracting parties.

24 1.26 **Rights and Remedies of County for Default.** In case of default by the Contractor,
25 the County may procure the articles or service from another source and may recover the cost
26 difference and related expenses from any unpaid balance due to the Contractor or by
27 proceeding against performance bond of the Contractor, if any, or by suit against the Contractor.
28

1 The prices paid by the County shall be considered the prevailing market price at the time such
2 purchase is made.

3 (A) Articles or services, which upon delivery inspection do not meet specifications,
4 shall be rejected, and the Contractor will be considered in default. The Contractor shall
5 reimburse the County for expenses related to delivery of non-specified goods or services.

6 (B) Regardless of F.O.B. point, the Contractor agrees to bear all risks of loss, injury
7 or destruction to goods and materials ordered herein which occur prior to delivery; loss,
8 injury, or destruction shall not release the Contractor from any obligation hereunder.

9 1.27 **Assignment of Moneys.** The Contractor agrees to furnish all labor and materials,
10 including tools, implements, and appliances required, and to perform all the Work in a good and
11 workmanlike manner, free from any and all liens and claims of mechanics, material-men,
12 subcontractors, artisans, machinists, teamsters, day-men, and laborers required for completing
13 specific Job Orders, as directed by the County.

14 1.28 **Inspection.** All material and workmanship (if not otherwise designated by the
15 Agreement Documents) shall be subject to inspection, examination, and test by the Director of
16 the specific project or designated County official (hereinafter "Director") at any and all times
17 during manufacture and/or construction, and at any and all places where such manufacture
18 and/or construction are carried on. The Director shall have the right to reject defective material
19 and workmanship or require its correction.

20 The Contractor shall furnish promptly without additional charge, all reasonable facilities,
21 labor, and materials necessary for the safe and convenient inspection and tests that may be
22 required by the Director.

23 If considered necessary or advisable by the Director at any time either before
24 acceptance of the entire Work, or after acceptance and within the guaranty period, to make an
25 examination of Work already completed, by removing or tearing out same, the Contractor shall,
26 on request, promptly furnish all necessary facilities, labor, and material. If such Work is found to
27 be defective in any material respect, due to the fault of the Contractor or his/her subcontractors,
28 he shall defray all the expenses of such examination and of satisfactory reconstruction. If,

1 however, such Work is found to meet the requirements of this Agreement, the Contractor's
2 costs necessarily incurred in the examination and replacement, as determined by use of the
3 Construction Task Catalog®, shall be reimbursed to the Contractor and the Contractor shall, in
4 addition, if completion of the Work has been delayed thereby, be granted a suitable extension of
5 time on account of the additional Work involved.

6 When the Work is completed, the Contractor shall notify the County in writing that the
7 Work shall be ready for final inspection and test on a definite date, which shall be stated in
8 such notice.

9 1.29 The Contractor shall not assign moneys due or to become due to the Contractor
10 under the Agreement without the written consent of the County's Auditor-Controller/Treasurer-
11 Tax Collector. Any assignment of moneys shall be subject to all proper set-offs in favor of the
12 County, and to all deductions provided for in the Agreement, and particularly all money withheld,
13 whether assigned or not, shall be subject to being used by the County for the completion of the
14 Work in the event that the Contractor defaults under this Agreement.

15 1.30 The Contractor shall use The Gordian Group, Inc.'s Job Order Contracting System
16 for its JOC program. The Gordian Group, Inc.'s Job Order Contracting System includes
17 proprietary JOC applications that shall be used by the Contractor to prepare and submit JOC
18 proposals, subcontractor lists, and other requirements as specified by the County. The
19 Contractor shall be assessed a Contractor license fee by The Gordian Group, Inc. of one
20 percent (1%) of the value of construction of each project awarded by the County ("Contractor
21 License Fee"). Such Contractor License Fee shall be billable by The Gordian Group, Inc., and is
22 payable to The Gordian Group, Inc.

23 1.31 In accordance with Labor Code section 1770, et seq., the Director of the Department
24 of Industrial Relations of the State of California has determined the general prevailing wage
25 rates and employer payments for health and welfare, pension, vacation, travel time and
26 subsistence pay as provided for in section 1773.1, apprenticeship or other training programs
27 authorized by section 3093, and similar purposes applicable to the work to be done.

7 It shall be mandatory upon the Contractor and upon any subcontractor to pay not less
8 than the prevailing wage rates, including overtime and holiday rates, to all workers, laborers, or
9 mechanics employed on this public work project, including those workers employed as
10 apprentices. Further, the Contractor and each subcontractor shall comply with Labor Code
11 sections 1777.5 and 1777.6 concerning the employment of apprentices. A copy of the above-
12 mentioned prevailing wage rates shall be posted by the Contractor at the job site where it will be
13 available to any interested party.

14 The Contractor shall comply with Labor Code section 1775, and shall forfeit as a penalty
15 to the County \$200.00 for each calendar day or portions thereof, for each worker paid less than
16 the prevailing wage rates for the work or craft in which the worker is employed for any work
17 done under this project by the Contractor or by any subcontractor under the Contractor in
18 violation of Labor Code section 1770, et seq. In addition to the penalty, the difference between
19 the prevailing wage rates and amount paid to each worker for each calendar day or portion
20 thereof for which each worker was paid less than the prevailing wage rate shall be paid to each
21 worker by the Contractor or subcontractor.

22 The Contractor and each of its subcontractors shall keep a log showing the name,
23 address, social security number, work classification, straight time and overtime hours worked
24 each day and week, and the actual per diem wages paid to each journeyman, apprentice,
25 worker, or other employee employed by him or her in connection with this public work project. In
26 accordance with Labor Code section 1776, each payroll record shall be certified and verified by
27 a written declaration under penalty of perjury stating that the information within the payroll
28 record is true and correct, and that the Contractor or subcontractor has complied with the

1 requirements of Labor Code sections 1771, 1811 and 1815 for any work performed by its
2 employees on this public work project. These records shall be open at all reasonable hours to

4 California – Department of Industrial Relations, including but not limited to the Division of Labor
5 Standards Enforcement.

8 diligence for which the Contractor is compensated in the Agreement Adjustment Factors. The
9 Contractor shall carefully inspect the site, and study and compare all Agreement Documents
10 and other instructions, as ignorance of any phase of any of the features or conditions affecting
11 the Agreement shall not excuse the Contractor from carrying out its provisions to its full intent.

12 (B) The Contractor shall employ a competent superintendent and necessary
13 assistants who shall attend the project site during the progress of the Work. The superintendent
14 shall represent the Contractor, and all communications given to the superintendent shall be as

23 anyone not skilled in that person's task.

24 (E) The Contractor shall not be relieved from the Contractor's obligations to perform
25 the Work in accordance with the Agreement Documents, either by the activities or duties of the
26 Director in his/her administration of the Agreement, or by inspections, tests or approvals
27 required or performed by persons other than the Contractor.

28 **1.33 Construction Procedures.**

5 or recyclable products/materials which meet stated specifications per Job Order.

6 1.34 The Contractor shall bind every subcontractor to the terms of this Agreement to carry
7 out its provisions insofar as applicable to their work, and the Contractor further agrees to pay to
8 each subcontractor his/her or their due portion promptly upon issuance of certificate of payment.

9 (A) Neither the acceptance of the name of a subcontractor, the suggestion of such
10 name, any other act of the County, nor anything contained in the Agreement, shall be
11 construed as creating any contractual relationship between the County and any subcontractor.

12 (B) The County reserves the right to reject any proposed subcontractor, installer, or
13 supplier who cannot show satisfactory evidence of meeting the qualifications required by this
14 Agreement. In the event of such rejection, the Contractor shall, within the time frame listed for

18 made in the event of such replacement.

19 (C) This Agreement is subject to nondiscrimination requirements, including, but not
20 limited to, compliance by the Contractor and its subcontractors with the provisions of
21 Government Code section 12940.

22 (D) When an individual Job Order utilizes Federal Funds, and the Contractor elects
23 to require Disadvantaged Business Enterprise (DBE) participation, the Contractor shall follow
24 the Federal Good Faith Effort requirements for inclusion of DBE subcontractors and suppliers.

25 **Article 2**

26 **County’s Responsibilities**

27 2.1 The Work to be performed pursuant to this Agreement includes a comprehensive
28 listing of detailed repair, remodeling, and other repetitive tasks and specifications that have

1 preestablished units of measure and unit prices listed in The Gordian Group, Inc.'s proprietary
2 Construction Task Catalog®. The Work performed under this Agreement shall be carried out
3 pursuant to individual tasks or job orders, and shall involve repair, remodeling, or other
4 repetitive work for public buildings, streets, utilities, and other public works ("Job Order(s)").

5 2.2 The County shall identify projects, as well as the County's intended results for each
6 project, and may, at the County's discretion, work with the Contractor to develop a scope and
7 specifications.

8 2.3 The County shall issue a Notice to Proceed for each Job Order and shall issue any
9 required subsequent Job Order for each project.

10 2.4 The County shall provide inspection and written acceptance of the Work.

11 2.5 The County shall provide a County representative ("County Representative") to
12 represent the County, who will work with the Contractor to carry out the Contractor's obligations
13 under this Agreement. The County Representative will be the County's Facility Services
14 Manager, or his or her designees. The Contractor shall provide a contact person to the County
15 Representative upon execution of this Agreement and is responsible for informing the County as
16 changes in personnel occur.

17 2.6 The County may perform or employ others to undertake any portions of Work
18 persistently neglected by the Contractor, provided that, after three days' written notice to the
19 Contractor, such Work is still not completed to the County's satisfaction. In such case, the Work
20 shall be completed under direction of the Director or designated County Official or designee,
21 and the cost deducted from the amount of next payment falling due to the Contractor. Such
22 action shall, in no way, affect the status of either party under this Agreement, nor be held as a
23 basis of any claim by the Contractor for damages or extension of time.

24 2.7 **Changes to the Job Order.** Changes Requested by the County. The County may,
25 without invalidating the Job Order, order changes, modifications, deletions, and extra work by
26 issuing additional written Job Orders during the progress of the Work. The Contractor shall not
27 be entitled to compensation for any extra Work performed, unless the Director has issued an
28 additional written Job Order designating (i) the extra Work to be performed, (ii) the price of the

1 extra Work, and (iii) the time for completion of the extra Work. If the County orders Work added
2 or deleted from the Job Order, the price for the additional Job Order shall be determined using
3 the Procedure for Ordering Work set forth in Exhibit A. Credits for Pre-priced and Non Pre-
4 priced Tasks shall be calculated at the pre-set Unit Prices, and multiplied by the appropriate
5 Adjustment Factors. Credits for Tasks that have been deleted from the Detailed Scope of Work
6 will be given at 100% of the value at which they were included in the original Job Order Price
7 Proposal.

8 Changes in the Work Claimed by the Contractor – the Contractor may request a change in
9 the Job Order Price, or an extension of time for completion of the Job Order due to changes in
10 the Work that are not within the scope of the Job Order. The request must be in writing, and
11 must be submitted to the County prior to beginning the extra work. Furthermore, the Contractor
12 shall not be entitled to compensation for any extra work performed unless the Director has
13 issued an additional written Job Order designating (i) the extra work to be performed, (ii) the
14 price of the extra work, and (iii) the time for completion of the extra work. If the County agrees
15 that work is added to or deleted from the Job Order, the price for the additional Job Order shall
16 be determined using the Procedure for Ordering Work set forth in Exhibit A.

17 Where the Contractor and the County disagree on the scope, price, and/or time for
18 changes in the Detailed Scope of Work, the County may require the Contractor to perform such
19 Work under a written protest, pursuant to the Resolution of Contract Claims in Article 13, herein.
20 The Contractor’s failure to submit a written protest to the Director within five days of beginning
21 such Work constitutes a waiver of any claim.

22 2.8 Discrepancies. Should the Contractor, at any time, discover a mistake in any of the
23 Agreement Documents or any discrepancy therein, or any variation between dimensions on the
24 Agreement Documents and measurements at site, or any missing dimensions or other
25 information, the Contractor shall report at once to the Director for correction, and shall not
26 proceed with the affected Work until such correction has been made.

27 2.9 Resolving Conflicts
28

1 (A) In resolving conflicts resulting from errors or discrepancies pursuant to this
2 Agreement, the order of precedence shall be as follows:

- 3 (i) Permits from other agencies as may be required by law
- 4 (ii) Permits issued by the County
- 5 (iii) Changes to Job Orders
- 6 (iv) Job Orders
- 7 (v) This Agreement
- 8 (vi) Addenda
- 9 (vii) Scope of Work
- 10 (viii) Technical Specifications
- 11 (ix) Construction Task Catalog®
- 12 (x) Reference Specifications

13 (B) Division of Contract Documents - For convenience of reference and to facilitate
14 the letting of independent contracts, the Agreement Documents may be separated into certain
15 sections; such separation shall not operate to oblige the Director only or designee to establish
16 the limits of any contract between the Contractor and subcontractor, each of whom shall
17 depend upon his/her own contract stipulations. This Agreement shall apply with equal force to
18 all Work, including extra Work.

19 (C) Shop Drawings - Mill drawings, shop drawings, setting diagrams, schedules,
20 maker's specifications, and illustrations requisite for the various parts of the Work shall be
21 provided, and promptly submitted by the Contractor. These shall be submitted in duplicate or
22 as directed, shall be corrected if necessary, and resubmitted until review by the Director is
23 complete, after which corrected copies of each shall be filed with him and the necessary
24 additional copies supplied for use in connection with the Work. Corrections or comments made
25 on the shop drawings during this review do not relieve the Contractor of his/her responsibility to
26 comply with the requirements of the drawings and specifications. This review is only to check
27 for general conformance with the design concept of the project and general compliance with
28 the Agreement Documents. The Contractor remains responsible for: confirming and correlating

1 all dimensions and quantities; selecting fabrication processes and techniques of construction;
2 coordinating the work of the trades; and performing the work in a safe and satisfactory manner.

3 (D) Trade Names and Alternatives - The intent of the specifications is to specify high-
4 grade standard equipment, and it is not the intent of these specifications to exclude or omit the
5 products of any responsible manufacturer, if such products are equal in every respect to those
6 mentioned herein. Wherever an article, or any class of materials, is specified by the trade name
7 or by the name of any particular patentee, manufacturer, or dealer, it shall be taken as
8 intending to mean and specify the article of material described or any other equal thereto in
9 quality, finish, and durability, and equally as serviceable for the purpose for which it is, or they
10 are intended.

11 (E) Materials - All materials, unless otherwise specified, shall be new and of good
12 quality, proof of which shall be furnished by the Contractor; in case of doubt as to kind or
13 quality required, samples shall be submitted to the Director who will specify the kind and use of
14 the material appropriate to the location and the function of the item in question, and the
15 Contractor shall furnish such accordingly.

16 2.10 **Liquidated Damages.** It is understood and agreed by both parties to this Agreement
17 that if all the work specified or indicated in the Job Order is not completed within the specified
18 time frames set forth in the Job Order, or within such time limits as extended, damages will be
19 sustained by the County in the event of and by reason of such delay. It is, and will be,
20 impractical and extremely difficult to determine the actual damage which the County will sustain
21 by reason of the delay. It is therefore agreed that the Contractor will pay, at a minimum, to the
22 County the sum of money stipulated per day in the Job Order for each day's delay in completing
23 the work beyond the time prescribed.

24 The County shall determine the application of liquidated damages, and the value of
25 liquidated damages. Each Job Order shall state whether liquidated damages will be applied.
26 The County may withhold liquidated damages from payments to the Contractor as such
27 damages accrue, or, at the County's discretion, withhold liquidated damages from any
28 payments due or that become due pursuant to a Job Order, including Retention and final

1 payment (pursuant to Government Code §53069.85). The County shall execute a credit Job
2 Order to assess liquidated damages against the Contractor.

3 **2.11 Control of the Work.** The Parties agree that the Director shall be the arbiter
4 between parties thereto, and the entire Work is under the Director's jurisdiction to such end. It is
5 the Director's function to interpret the Agreement Documents; pass upon merits of materials and
6 workmanship, compute amounts of and issue certificates for all payments to which the
7 Contractor may be entitled; decide upon all deductions from and additions to the Job Order
8 Price resulting from alterations after letting of Job Order; determine amount of damages
9 accruing to either Party from any cause; or conferences at any time during the progress of the
10 Work, and such order shall require the Contractor and any or all subcontractors or other
11 contractors to attend; and perform any other required duties.

12 It shall be the responsibility of the Director or designee to make written decisions in regard
13 to all claims of the County or the Contractor, and to interpret the Agreement Documents in
14 regard to all questions arising in connection with the execution of the Work.

15 Orders from the Director shall be in writing only, and properly signed; no oral orders from
16 the Director, nor from anyone acting for him, shall be considered binding in case of dispute, and
17 no one, other than the County, or the Director acting for him, has authority to order changes
18 involving extra expenditures or deductions. Superintendents or Inspectors may be assigned by
19 the County and/or Engineer to assist them in the conduct of the Work, and these persons shall
20 be entitled to the same free access to all parts of Work, and the degree of authority of such
21 employees to act for the Engineer is as prescribed for the Engineer, such employees acting
22 within the scope of the particular duties entrusted to them.

23 Authority to stop the Work is vested in the Director, and may be involved whenever the
24 Director deems such action necessary to ensure proper execution of the Agreement, and Work
25 may not thereafter be resumed until the Director has given written consent.

1 **Article 3**

2 **Compensation, Invoices, and Payments**

3 3.1 The County agrees to pay, and the Contractor agrees to receive, compensation for
4 each Job Order in accordance with the Contractor's Adjustment Factors stated on the Bid.

5 3.2 Schedule as set forth in the Contractor's Response to the RFQ, which are as follows:

6 Non-Federally Funded Normal Working Hours	0.7046
7 Adjustment Factor	
9 Non-Federally Funded Other than Normal Working Hours	0.2195
10 Adjustment Factor	
12 Federally Funded Normal Working Hours	0.0940
13 Adjustment Factor	
15 Federally Funded Other than Normal Working Hours	0.0473
16 Adjustment Factor	

19 At no time shall the total sum of the outstanding Job Orders exceed the amount of the
20 Contractor's Payment Bond and Performance Bond. A Job Order is outstanding until the County
21 has accepted the Work described in the Job Order by execution of a written notice of
22 completion. The Contractor shall not be issued Job Orders with compensation amounts that in
23 total exceed the Maximum Agreement Value. The County makes no guarantee that the
24 Contractor will receive Job Orders totaling the Maximum Agreement Value.

25 In no event shall compensation paid for services performed under this Agreement
26 exceed the Maximum Agreement Value during the term of this Agreement. All expenses
27 incidental to the Contractor's performance of services under this Agreement shall be borne by
28 the Contractor.

1 3.3 **Maximum Compensation.** The maximum compensation payable to the Contractor
2 under this Agreement is for all Job Orders (“Maximum Agreement Value”) performed by the
3 Contractor shall not exceed \$2,000,000.00. There is no Minimum Contract Value.

4 3.4 The Contractor acknowledges that the County is a local government entity, and does
5 so with notice that the County’s powers are limited by the California Constitution and by State
6 law, and with notice that the Contractor may receive compensation under this Agreement only
7 for services performed according to the terms of this Agreement and while this Agreement is in
8 effect, and subject to the maximum amount payable under this section. The Contractor further
9 acknowledges that County employees have no authority to pay the Contractor except as
10 expressly provided in this Agreement.

11 3.5 **Invoices.** The Contractor shall submit invoices on the first day of the month in
12 accordance with the charges agreed upon by the Contractor for the services provided to the
13 County during the previous monthly billing period. Each invoice shall reference this agreement
14 number, the FAMIS (the County’s computerized maintenance management system) work order
15 number, the date and name of the facility where the services were performed, and a clear
16 itemization of services performed, to the County of Fresno, Internal Services Department,
17 Attention: Business Office, (A/P Division), 333 W. Pontiac Way, Clovis, CA 93612, [isdap-](mailto:isdap-ar@fresnocountyca.gov)
18 ar@fresnocountyca.gov. The Contractor shall submit each invoice within 60 days after the
19 month in which the Contractor performs services and in any case within 60 days after the end of
20 the term or termination of this Agreement.

21 3.6 **Payment.** The County shall pay each correctly completed and timely submitted
22 invoice within 45 days after receipt and approval of each invoice, which shall be given upon
23 verification of satisfactory performance. The County shall remit any payment to the Contractor’s
24 address specified in the invoice. Payments shall be made for inspected and approved Work
25 only. If an individual Job Order requires 45 days or less for completion, the County will normally
26 make one payment to the Contractor after the Notice of Completion, if required by the County,
27 and retention shall be paid after final acceptance of all Work contained under the Job Order and
28 all Agreement requirements for final payment have been satisfied. For Job Orders requiring

1 greater than 45 days performance period, the County shall consider a request for partial
2 payments to the Contractor, which shall not occur more often than monthly. The County will
3 make progress payments to the Contractor upon completion of portions of the Work, as covered
4 by the Agreement, in accordance with established County procedures:

5 (A) Before payment is made, the Contractor shall prepare for the Director's approval
6 a statement covering the actual Work completed under the terms of the Job Order. A schedule
7 of values listed by "CSI" or "Category" from the Contractor's Job Order Price Proposal may be
8 utilized for this schedule of values.

9 (B) In making such payment, there shall be a retention of 5% of the payment
10 requested. If, after 50% of the Work of the Job Order has been completed, the Director finds
11 that satisfactory progress is being made, the Director may reduce the retention to 2½% of the
12 amount requested. In addition, after 97.5% of the Work has been completed, the Director may
13 reduce the amount withheld to such lesser amount as the Director determines to be adequate
14 security for the fulfillment of the balance of the Work, and other requirements of this
15 Agreement. In no event shall this amount be reduced to less than 125% percent of the
16 estimated value of the Work yet to be completed, as determined by the Director. Such
17 reduction shall only be made upon the written request of the Contractor, and shall be approved
18 in writing by the surety upon the Performance Bond and the surety upon the Payment Bond.
19 The signature of persons executing the approval for the surety shall be properly acknowledged,
20 and the power of attorney authorizing those persons to give such consent must accompany the
21 approval document.

- 22 i. Substitution of securities for any moneys withheld by the County to
23 ensure performance under this Agreement shall be permitted, provided
24 that substitution of securities provisions shall not apply to contracts in
25 which there will be financing provided by the Farmers Home
26 Administration of the United States Department of Agriculture pursuant to
27 the Consolidated Farm and Rural Development Act (7 U.S.C. Sec. 1921
28

1 et seq.), and where federal regulations or policies, or both, do not allow
2 the substitution of securities.

- 3 ii. At the request and expense of the Contractor, and in compliance with
4 Public Contract Code section 22300, securities equivalent to the amount
5 withheld pursuant to these specifications shall be deposited by the
6 Contractor with the County, or with a state or federally chartered bank as
7 the escrow agent, who shall then pay such withheld amounts to the
8 Contractor upon written authorization of the County.
- 9 iii. Securities eligible for investment under this section shall include those
10 listed in section 16430 of the Government Code, bank or savings and
11 loans certificates of deposit, interest bearing demand deposit accounts,
12 standby letters of credit, or any other security mutually agreed to by the
13 Contractor and the County.
- 14 iv. Securities to be placed in escrow shall be of a value at least equivalent to
15 the amounts of retention to be paid to the Contractor.
- 16 v. The Contractor shall be beneficial owner of any securities substituted for
17 moneys withheld and shall receive any interest thereon.
- 18 vi. The Contractor shall enter into an escrow agreement satisfactory to the
19 County, which agreement shall substantially comply with Public Contract
20 Code section 22300.
- 21 vii. The Contractor shall obtain the written consent of the surety to such
22 escrow agreement.

23 C. All material and Work covered by progress payments made shall thereupon
24 become the sole property of the County, but this provision shall not be construed as relieving
25 the Contractor from the sole responsibility for all materials and work upon which payments
26 have been made or the restoration of any damaged Work, or as a waiver of the right of the
27 County to require the fulfillment of all of the terms of the Agreement.
28

1 D. Upon completion and acceptance of all Work whatsoever required, and the
2 release of all claims against the County as specified, the Director shall file a written Notice of
3 Completion, if required by the County, with the County Recorder as to the entire amount of
4 Work performed.

5 E. Forty-five days after the filing of such Notice of Completion, if required by the
6 County, the County shall pay to the Contractor the amount therein stated, except as provided
7 in, Article 3.6, G, less all prior payment and advances whatsoever to or for the account of the
8 Contractor, and less material and labor claims duly filed with the County on account of this
9 Agreement. All prior estimates and payments, including those relating to extra work, shall be
10 subject to correction by this final payment, which is referred to throughout this Agreement as
11 the Final Payment.

12 F. The acceptance by the Contractor of the Final Payment shall be, and shall
13 operate as a release to the County of all claims and of all liability to the Contractor for all things
14 done or furnished in connection with this Work, and for every act and neglect of the County and
15 others relating to or arising out of this Work, excepting the Contractor's claims for interest upon
16 final payment, if this payment be improperly delayed. No payments, however, final, or
17 otherwise, shall operate to release the Contractor or his/her sureties from any obligations under
18 this Agreement or the Performance and Payment Bonds.

19 G. Payments may be withheld in the whole or in part, if deemed necessary to
20 protect the County from loss on account of the failure of the Contractor to (1) meet the
21 Contractor's obligations, (2) expedite the Work, (3) correct rejected Work, (4) settle damages
22 as herein provided, (5) produce substantial evidence that no claims will be or have been filed,
23 or (6) that unpaid balances may be insufficient to complete the Work.

24 H. The Contractor shall pay:

- 25 i. For all transportation and utility services not later than the 20th day of the
26 calendar month following that in which such services are rendered.
- 27 ii. For all materials, tools, and other expendable equipment to the extent of
28 90% of the cost thereof, not later than the 20th day of the calendar month

1 following that in which such materials, tools, and equipment are delivered
2 at the site of the project, and the balance of the cost thereof not later than
3 the 30th day following the completion of that part of the Work in or on
4 which such materials, tools, and equipment are incorporated or used.

5 iii. To each of the Contractor's subcontractors, not later than the tenth day
6 following each payment to the Contractor, the respective amounts
7 allowed the Contractor on account of the Work performed by the
8 Contractor's subcontractors, including that Work performed and paid for
9 under a Change to the Job Order as provided in Article 2, section 2.7 to
10 the extent of each subcontractor's interest therein.

11 **3.7 Incidental Expenses.** The Contractor is solely responsible for all of its costs and
12 expenses that are not specified as payable by the County under this Agreement.

13 **Article 4**

14 **Term of Agreement**

15 **4.1 Term.** This Agreement is effective upon execution and terminates one year from the
16 Effective Date, or when all issued Job Orders totaling the Maximum Agreement Value, as
17 defined in section, herein, have been completed, whichever occurs first. All Job Orders must be
18 issued, but not necessarily completed, within one calendar year of the Effective Date of this
19 Agreement. All Job Orders for which a Notice to Proceed is issued by the County during the
20 term of this Agreement shall be valid and in effect, notwithstanding that the Detailed Scope of
21 Work may be performed, payments may be made, and the guarantee period may continue, after
22 the Agreement term has expired. All terms and conditions of the Agreement apply to each Job
23 Order, except as provided in Article 6, "Termination and Suspension," below.

24 **4.2 Extension.** The term of this Agreement may be extended for no more than two, one-
25 year periods only upon written approval of both parties at least 30 days before the first day of
26 the next one-year extension period. The Director of Internal Services/Chief Information Officer
27 or his or her designee is authorized to sign the written approval on behalf of the County based
28 on the Contractor's satisfactory performance. The extension of this Agreement by the County is

1 not a waiver or compromise of any default or breach of this Agreement by the Contractor
2 existing at the time of the extension whether or not known to the County.

3 **Article 5**

4 **Notices**

5 5.1 **Contact Information.** The persons and their addresses having authority to give and
6 receive notices provided for or permitted under this Agreement include the following:

20 5.1 by giving notice as provided in section 5.3.

21 5.3 **Method of Delivery.** Each notice between the County and the Contractor provided
22 for or permitted under this Agreement must be in writing, state that it is a notice provided under
23 this Agreement, and be delivered either by personal service, by first-class United States mail, by
24 an overnight commercial courier service, or by Portable Document Format (PDF) document
25 attached to an email.

26 (A) A notice delivered by personal service is effective upon service to the recipient.

1 (D) A notice delivered by PDF document attached to an email is effective when
2 transmission to the recipient is completed (but, if such transmission is completed outside of
3 County business hours, then such delivery is deemed to be effective at the next beginning of a
4 County business day), provided that the sender maintains a machine record of the completed
5 transmission.

6 5.4 **Claims Presentation.** For all claims arising from or related to this Agreement,
7 nothing in this Agreement establishes, waives, or modifies any claims presentation
8 requirements or procedures provided by law, including the Government Claims Act (Division 3.6
9 of Title 1 of the Government Code, beginning with section 810).

10 **Article 6**

11 **Termination and Suspension**

12 6.1 **Termination for Non-Allocation of Funds.** The terms of this Agreement are
13 contingent on the approval of funds by the appropriating government agency. If sufficient funds
14 are not allocated, then the County, upon at least 30 days' advance written notice to the
15 Contractor, may:

16 (A) Modify the services provided by the Contractor under this Agreement; or

17 (B) Terminate this Agreement.

18 6.2 **Termination for Breach.**

19 (A) Upon determining that a breach (as defined in paragraph (C) below) has
20 occurred, the County may give written notice of the breach to the Contractor. The written notice
21 may suspend performance under this Agreement, and must provide at least 30 days for the
22 Contractor to cure the breach.

23 (B) If the Contractor fails to cure the breach to the County's satisfaction within the
24 time stated in the written notice, the County may terminate this Agreement immediately.

25 (C) For purposes of this section, a breach occurs when, in the determination of the
26 County, the Contractor has:

27 (1) Obtained or used funds illegally or improperly;

28 (2) Failed to comply with any part of this Agreement;

- 1 (3) Submitted a substantially incorrect or incomplete report to the County; or
2 (4) Improperly performed any of its obligations under this Agreement.

3 **6.3 Termination without Cause.** In circumstances other than those set forth above, the
4 County may terminate this Agreement by giving at least 30 days advance written notice to the
5 Contractor.

6 **6.4 No Penalty or Further Obligation.** Any termination of this Agreement by the County
7 under this Article 6 is without penalty to or further obligation of the County.

8 **6.5 County's Rights upon Termination.** Upon termination for breach under this Article
9 6, the County may demand repayment by the Contractor of any monies disbursed to the
10 Contractor under this Agreement that, in the County's sole judgment, were not expended in
11 compliance with this Agreement. The Contractor shall promptly refund all such monies upon
12 demand. This section survives the termination of this Agreement.

13 **Article 7**

14 **Taxes, Permits, Fees, and Indemnification for Patent Infringement Claim**

15 7.1 Taxes, permits, fees and indemnification for patent infringement claim. The
16 Contractor shall pay for and include all Federal, State, and local taxes, direct or indirect, upon all
17 materials, and take out and pay all fees and charges for permits and licenses, unless otherwise
18 specified in the Job Order or Technical Specifications.

19 7.2 Royalty and license fees incidental to the use of any patented material, device or
20 process shall be paid by the Contractor, and in the event of a claim or alleged infringement of
21 patent copyright, or Trade Secrete rights, the Contractor shall indemnify, save the County free
22 and harmless, and defend, at the Contractor's own expense, any and all suits that may be
23 brought in connection with such royalty and license fees.

24 **Article 8**

25 **Independent Contractor**

26 8.1 **Status.** In performing under this Agreement, the Contractor, including its officers,
27 agents, employees, and volunteers, is at all times acting and performing as an independent
28

1 contractor, in an independent capacity, and not as an officer, agent, servant, employee, joint
2 venturer, partner, or associate of the County.

3 8.2 **Verifying Performance.** The County has no right to control, supervise, or direct the
4 manner or method of the Contractor's performance under this Agreement, but the County may
5 verify that the Contractor is performing according to the terms of this Agreement.

6 8.3 **Benefits.** Because of its status as an independent contractor, the Contractor has no
7 right to employment rights or benefits available to County employees. The Contractor is solely
8 responsible for providing to its own employees all employee benefits required by law. The
9 Contractor shall save the County harmless from all matters relating to the payment of the
10 Contractor's employees, including compliance with Social Security withholding and all related
11 regulations.

12 8.4 **Services to Others.** The parties acknowledge that, during the term of this
13 Agreement, the Contractor may provide services to others unrelated to the County.

14 **Article 9**

15 **Indemnity and Defense**

16 9.1 **Indemnity.** The Contractor shall indemnify and hold harmless and defend the
17 County (including its officers, agents, employees, and volunteers) against all claims, demands,
18 injuries, damages, costs, expenses (including attorney fees and costs), fines, penalties, and
19 liabilities of any kind to the County, the Contractor, or any third party that arise from or relate to
20 the performance or failure to perform by the Contractor (or any of its officers, agents,
21 subcontractors, or employees) under this Agreement. The County may conduct or participate in
22 its own defense without affecting the Contractor's obligation to indemnify and hold harmless or
23 defend the County.

8 ensure the Contractor's compliance with the terms of this Agreement.

9 11.2 **State Audit Requirements.** If the compensation to be paid by the County under this
10 Agreement exceeds \$10,000, the Contractor is subject to the examination and audit of the
11 California State Auditor, as provided in Government Code section 8546.7, for a period of three
12 years after final payment under this Agreement. This section survives the termination of this
13 Agreement.

14 11.3 **Public Records.** The County is not limited in any manner with respect to its public
15 disclosure of this Agreement or any record or data that the Contractor may provide to the
16 County. The County's public disclosure of this Agreement or any record or data that the
17 Contractor may provide to the County may include but is not limited to the following:

13 **11.4 Public Records Act Requests.** If the County receives a written or oral request
14 under the CPRA to publicly disclose any record that is in the Contractor's possession or control,
15 and which the County has a right, under any provision of this Agreement or applicable law, to

24 cooperate with the County with respect to any County demand for such records. If the

26 CPRA or other applicable law, it must deliver the record or data to the County and assert the
27 exemption by citation to specific legal authority within the written statement that it provides to
28 the County under this section. The Contractor's assertion of any exemption from disclosure is

1 not binding on the County, but the County will give at least 10 days' advance written notice to
2 the Contractor before disclosing any record subject to the Contractor's assertion of exemption
3 from disclosure. The Contractor shall indemnify the County for any court-ordered award of costs
4 or attorney's fees under the CPRA that results from the Contractor's delay, claim of exemption,
5 failure to produce any such records, or failure to cooperate with the County with respect to any

22 (b)(1) For claims of less than fifty thousand dollars (\$50,000), the local agency shall
23 respond in writing to any written claim within 45 days of receipt of the claim, or may request, in

2 subject to this article:

3 (a) Within 60 days, but no earlier than 30 days, following the filing or responsive pleadings,
4 the court shall submit the matter to nonbinding mediation unless waived by the mutual
5 stipulation of both parties. The mediation process shall provide for the selection within 15 days
6 by both parties of disinterested third person as mediator, shall be commenced within 30 days of
7 the submittal, and shall be concluded within 15 days from the commencement of the mediation
8 unless a time requirement is extended upon a good cause showing to the court or by stipulation
9 of both parties. If the parties fail to select a mediator within the 15-day period, any party may
10 petition the court to appoint the mediator.

11 (b)(1) If the matter remains in dispute, the case shall be submitted to the judicial arbitration

18 appointed for purposes of this article shall be experienced in construction law, and, upon
19 stipulation of the parties, mediators and arbitrators shall be paid necessary and reasonable
20 hourly rates of pay not to exceed their customary rate, and such fees and expenses shall be
21 paid equally by the parties, except in the case of arbitration where the arbitrator, for good cause,
22 determines a different division. In no event shall these fees or expenses be paid by state or
23 county funds.

24 (3)In addition to Chapter 2.5 (commencing with Section 1141.10) of Title 3 of Part 3 of the
25 Code of Civil Procedure, any party who after receiving an arbitration award requests a trial de
26 novo but does not obtain a more favorable judgment shall, in addition to payment of costs and
27 fees under that chapter, pay the attorney's fees of the other party arising out of the trial de
28 novo.

1 (c) The court may, upon request by any party, order any witnesses to participate in the
2 mediation or arbitration process. Arbitrators shall be experienced in construction law.

3 20104.6 (a) No local agency shall fail to pay money as to any portion of a claim which is
4 undisputed except as otherwise provided in the contract.

5 (b) In any suit filed under Section 20104.4, the local agency shall pay interest at the legal

7 is filed in a court of law.

- 1 6. The Contractor shall maintain accurate and complete records, files, and libraries of
2 documents, to include federal, state, and local regulations, codes, applicable laws
3 listed herein, and manufacturers' instructions and recommendations, which are
4 necessary and related to the Work to be performed.
- 5 7. The Contractor shall prepare and submit required reports, maintain current record
6 drawings, and submit required information. The Contractor shall provide: materials
7 lists to include trade names and brand names, and model materials lists to include
8 trade names, brand names, model number, and ratings (if appropriate) for all
9 materials necessary for a complete job.
- 10 8. All Work will be ordered and funded when needed in accordance with the procedures
11 contained in the Contract Documents.
- 12 9. All Work will be controlled and monitored by the County or designated
13 representative.
- 14 10. The design of architectural, structural, mechanical, electrical, civil, or other
15 engineering features of the Work required by the Agreement shall be accomplished
16 or reviewed and approved by architects or engineers registered in the State of
17 California to practice in the particular professional field involved.
- 18 11. In addition to the Work unit requirements in the General Requirements, Contract
19 Technical Specifications, Volume 3, and the Construction Task Catalog® (CTC),
20 Volume 4, the County may, from time to time, require Non Pre-priced (NPP) Tasks.
21 The parties shall proceed with these requirements in accordance with the Procedure
22 for Ordering Work contained in Section (b), herein. These NPP Work unit
23 requirements will be incorporated in individual Job Orders, and the Contractor shall
24 accomplish those requirements with the same diligence as those Work units
25 incorporated in this Agreement in the Construction Task Catalog® and Technical
26 Specifications.

Procedure for Ordering Work

Exhibit A

- 1 1. As the need for Work arises, the County will notify the Contractor in writing of the
2 Work.
- 3 2. Upon receipt of this notification, the Contractor shall respond within one working day
4 by:
 - 5 (A) Establishing verbal contact with the County to further define the scope of the
6 requirement, and;
 - 7 (B) Visiting the proposed Work site in the company of the County, and participating
8 in the conduct of a Joint Scope Meeting, which will include discussion and
9 establishment of the following:
 - 10 i. Project number and title
 - 11 ii. Existing site conditions
 - 12 iii. Methods and alternatives for accomplishing Work
 - 13 iv. Definition and refinement of requirements
 - 14 v. Detailed Scope of Work
 - 15 vi. Requirements for design drawings, sketches, shop drawings, submittals,
16 etc.
 - 17 vii. Tentative construction schedule
 - 18 viii. Preliminary quantity estimates
 - 19 ix. Access to the site and protocol for admission
 - 20 x. Hours of operation
 - 21 xi. Staging area
 - 22 xii. Liquidated damages
 - 23 xiii. Presence of hazardous materials
 - 24 xiv. Proposal due date
- 25 3. Upon completion of the Joint Scope Meeting, the County will prepare a draft Detailed
26 Scope of Work referencing any sketches, drawings, photographs, and specifications
27 required to document accurately the Work to be accomplished. The Contractor shall
28 review the Detailed Scope of Work, and request any required changes or

Exhibit A

1 modifications. When an acceptable Detailed Scope of Work has been prepared, the
2 County will issue a Request for Job Order Proposal (RFJOP) and Detailed Scope of
3 Work, which requires that the Contractor prepare a Proposal for the Work under
4 consideration. The Detailed Scope of Work, unless modified by both the Contractor
5 and the County, will be the basis on which the Contractor will develop its Job Order
6 Proposal, and the County will evaluate the same. The Contractor does not have the
7 right to refuse to perform any task or any Work in connection with a particular
8 Project.

9 4. The County may, at its option, include quantities in the Detailed Scope of Work if it
10 helps to define the Detailed Scope of Work, if the actual quantities required are not
11 known or cannot be determined at the time the Detailed Scope of Work is prepared,
12 if the Contractor and the County cannot agree on the quantities required, or for any
13 other reason as determined by the County. In all such cases, the County shall issue
14 a Supplemental Job Order adjusting the quantities appearing in the Detailed Scope
15 of work to the actual quantities.

16 5. The Contractor will prepare the Job Order Price Proposal in accordance with the
17 following:

18 (A) Pre-priced Work requirements. A Pre-priced Task is a task described and for
19 which a Unit Price is set forth in the Construction Task Catalog®. Pre-priced
20 Work requirements will identify the type and number of Work units required from
21 the Construction Task Catalog® (CTC). The price per unit set forth in the CTC
22 shall serve as the base price for the purpose of the operation of this provision.
23 The total of the Job Order Price Proposal shall be the sum of the cost of each
24 applicable CTC task, which is calculated according to the following formula: $A \times B$
25 $\times C$, where:

26 A= Number of Units Required for CTC Task

27 B= Applicable Adjustment Factor

28 C= CTC Price per Unit Cost of CTC Task

Exhibit A

1 (B) The Contractor's Job Order Proposal shall include support documentation to
2 indicate that adequate engineering and planning for the requirement have been
3 done, and that the Work units and quantities proposed are reasonable for the
4 tasks to be performed. Documentation to be submitted with the Job Order
5 Proposal shall include, but not be limited to, the Job Order Price Proposal, design
6 drawings, calculations, catalog cuts, specifications, and architectural renderings,
7 subcontractor list, and construction schedule. Any Job Order Proposal lacking
8 the required items will be considered incomplete, and shall be returned and
9 treated as if never received. Job Order Proposals submitted to the County are
10 valid for the duration of the Agreement.

11 (C) Non Pre-priced Work Requirements: Non Pre-priced Work shall be separately
12 identified and submitted in the Job Order Price Proposal. Information submitted
13 in support of Non Pre-priced Work shall include, but not be limited to, the
14 following:

- 15 i. Complete specifications and technical data, including Work unit content,
16 support drawings, Work unit costs data, quality control and inspection
17 requirements.
- 18 ii. Work schedule in written form.
- 19 iii. Pricing data submitted in support of Non Pre-priced work units shall
20 include a cost or price analysis report, establishing the basis for selecting
21 the approach proposed to accomplish the requirements. Unless otherwise
22 directed by the County, costing data will be submitted, demonstrating that
23 the Contractor sought and received three quotes. The Contractor shall
24 provide an installed unit price (or demolition price if appropriate), which
25 shall include all costs required to accomplish the Non Pre-priced Task.
- 26 iv. If the Contractor will perform the work with its own forces, it shall submit
27 three independent quotes for all material to be installed and shall, to the
28 extent possible, use Pre-Priced Tasks for labor and equipment from the

Exhibit A

1 Construction Task Catalog®. If the work is to be subcontracted, the
2 Contractor shall submit three independent quotes from subcontractors.
3 The Contractor shall not submit a quote from any subcontractor or
4 materialman that the Contractor is not prepared to use. The County may
5 require additional quotes if the subcontractors or materialmen are not
6 acceptable, or if the prices are not reasonable. If three quotes cannot be
7 obtained, the Contractor shall provide the County with a written
8 explanation. If the explanation is accepted by the County, the Contractor
9 may provide less than three quotes.

- 10 v. The final price submitted for Non Pre-priced (NPP) Tasks shall be
11 according to the following formula:

12 Contractor Performed Duties

13 A= The number of hours for each labor classification and hourly rates

14 B=Equipment costs (other than small tools)

15 C= Lowest of three independent quotes for all materials

16 **Total Cost for self-performed work = (A+B+C) x 15% (Only if A & B cannot be**
17 **priced out of the CTC) For Work performed by Subcontractors:**

18 If the Work is to be subcontracted, the Contractor must submit three independent bids
19 from subcontractors. If three quotes or bids cannot be obtained, the Contractor will
20 provide the reason in writing for the County's approval as to why three quotes cannot
21 be submitted.

22 D = Subcontractor Costs (supported by three quotes)

23 **Total Costs of Non-Pre-Priced Task = D x 15%**

- 24 vi. The County will evaluate the entire Proposal and proposed Work units, and compare
25 these with the County's estimate of the Detailed Scope of Work to determine the
26 reasonableness of approach, including the nature and number of Work units
27 proposed. The County will determine whether the Contractor's Job Order Price
28 Proposal is in line with its own estimate.

Exhibit A

1 vii. After using a Non Pre-priced item on three separate Job Orders, the unit price for the
2 work item will be established, following approval by the County, and fixed as a
3 permanent pre-priced item, which will no longer require price justification.

4 viii. The County's determination as to whether an item is a Pre-priced Task or a Non Pre-
5 priced Task shall be final, binding and conclusive as to the Contractor.

6 ix. Whenever, because of trade jurisdiction rules or small quantities, the cost of a minor task
7 in the Job Order Price Proposal is less than the cost of the actual labor and materials
8 to perform such task, the County may permit the Contractor to be paid for such task
9 as a Non Pre-priced Task, or use Pre-priced labor tasks and material component
10 pricing to cover the actual costs incurred. Provided, however, that there is no other
11 Work for that trade on the project or other Work for that trade cannot be scheduled at
12 the same time, and the final charge does not exceed \$1,000.00.

13 d. Processing Time Limits

14 i. Request for Proposal Submittal. The Contractor shall submit the Job Order Proposal to
15 the County on or before the due date stated in the RFJOP (14 days maximum unless
16 otherwise specified).

17 ii. Request for Information Submittal. The Contractor shall make a thorough analysis of
18 each Job Order, and submit all Requests For Information (RFI's) within seven days
19 after issuance of any RFJOP. Submission of RFI's shall in no way extend the
20 proposal due date unless deemed necessary by the County.

21 iii. Job Order Price Proposal Review. The Contractor's Project Manager or agent shall be
22 available for Job Order Price Proposal review meetings within 24 hours of being
23 notified by the County (via fax, e-mail, or telephone). After review of the Job Order
24 Price Proposal, the Contractor shall remove all inappropriate line items and adjust
25 quantities as directed by the County. Job Order Price Proposal Modification. Only on
26 the Contractor's second Job Order Price Proposal shall he/she be granted the
27 opportunity to add new valid line items that may have been omitted from the first Job
28 Order Price Proposal. The Contractor shall submit a revised Job Order Price

Exhibit A

1 Proposal within 24 hours of Job Order Price Proposal review meeting (unless
2 otherwise specified). Upon review of revised Job Order Price Proposal, the
3 Contractor shall remove all line items or adjust quantities deemed inappropriate by
4 the County, and re-submit the Job Order Price Proposal within 24 hours. No new line
5 items may be added to the Job Order Price Proposal. No quantity increases or
6 added modifiers will be accepted unless agreed to in writing by the County during the
7 second Job Order Price Proposal review meeting.

8 iv. The County reserves the right to reject the Contractor's Job Order Proposal or cancel a
9 project for any reason. The County reserves the right to issue a Notice to Proceed to
10 the Contractor without having a mutual agreement on a final Job Order Price, and
11 that the Contractor will be paid by multiplying the actual quantities used by the
12 appropriate Construction Task Catalog® Unit Price and the applicable Adjustment
13 Factors. Non Pre-priced (NPP) Tasks will be priced according to the formula set forth
14 in Section 1.22 b 4 (c) of these General Conditions. The County also reserves the
15 right to not award a Job Order if it is determined to be in the best interests of the
16 County, or the proposed cost exceeds the County's estimate. The County may
17 perform such work by other means. In these instances, the Contractor has no right of
18 claim to recoup Job Order Proposal expenses, including but not limited to, the costs
19 to attend the Joint Scope Meeting, review the Detailed Scope of Work, prepare a Job
20 Order Proposal (including incidental architectural and engineering services),
21 subcontractor costs, and the costs to review the Job Order Proposal with the
22 County.

23 v. Unilateral Job Order – The County reserves the right to issue Job Orders based on the
24 County's Job Order Price Proposal for a specified Detailed Scope of Work (DSOW).

25 vi. By submitting a signed Job Order Proposal to the County, the Contractor is agreeing to
26 accomplish the Work outlined in the Detailed Scope of Work in accordance with the
27 RFJOP at the lump sum price submitted for that particular Job Order. The Contractor
28 shall include the necessary tasks and quantities in the Job Order Price Proposal and

Exhibit A

1 apply the appropriate Adjustment Factor(s) prior to delivering it to the County. The
2 value of the Job Order Price Proposal shall be calculated by summing the total of the
3 calculations for each Pre-priced Task (Unit Price x quantity x Adjustment Factor) plus
4 the value of all Non Pre-priced Tasks. The Job Order Price shall be the value of the
5 approved Job Order Price Proposal.

6 vii. The County will evaluate the entire Job Order Priced Proposal and compare these with
7 the County's estimate of the Detailed Scope of Work to determine the
8 reasonableness of approach, including the appropriateness of the tasks and
9 quantities proposed.

10 viii. The Contractor may choose the means and methods of construction; subject however,
11 to the County's right to reject any means and methods proposed by the Contractor
12 that:

- 13 • Will constitute or create a hazard to the work, or to persons or property;
- 14 • Will not produce finished Work in accordance with the terms of the Agreement; or
- 15 • Unnecessarily increases the price of the Job Order when alternative means and
16 methods are available.

17 ix. Each Job Order provided to the Contractor shall reference the Detailed Scope of Work,
18 and set forth the Job Order Price and the Job Order Completion Time. All clauses of
19 this Agreement shall be applicable to any Job Orders issued under this clause. Job
20 Orders will be written on an appropriate form. The Job Order, which must be signed
21 by the County, constitutes the County's acceptance of the Contractor's Proposal. A
22 signed copy will be provided to the Contractor.

23 x. Except in an "emergency response" the Contractor is not to proceed with any Job Order
24 without having required permits and a Notice to Proceed (NTP) signed by the
25 County.

26 xi. In the event that "immediate emergency response" is necessary, the County may elect to
27 use an alternative procedure for such type of Job Orders, as long as the alternative
28

Exhibit A

1 procedure is not substantially more burdensome to the Contractor than the
2 procedure described in this section.

3 xii.All Proposals submitted by the Contractor are valid for the duration of the Agreement.

4 e. Measurements to be Verified. Before ordering any material or doing any Work, the
5 Contractor shall verify all measurements at the site of a specific Job Order, and shall
6 be responsible for the correctness of the measurements. No extra charge or
7 compensation will be allowed based on the difference between actual dimensions
8 and the measurements indicated in the Request for Proposal

9 f. Contractor's Responsibility. It is the Contractors' responsibility to verify any and all
10 such items prior to submission of the Job Order Proposal. Any Job Order awarded is
11 for all services or Work, as necessary, to repair, and construct the facilities covered
12 by the Agreement in accordance with all Agreement terms and conditions. It shall
13 also be the duty and responsibility of the Contractor to manage and conduct the
14 required Work in the most effective and efficient manner possible and meet or
15 exceed minimum critical rates or standards.

16 In addition, the County will not entertain claims for additional money, when such claim is
17 based upon a contention the Agreement fails to mention a specific item or
18 component of facility covered by the Job Order and the Work is required in the
19 normal course of operations. For example, surfaced area repair statements may not
20 mention culverts. However, culverts are a normal component of roads, streets, or
21 erosion controls and are shown on plots or maps provided. As culverts are a normal
22 component of the system, the Contractor shall be responsible for providing all
23 necessary repair, or replacement Work or service.

24 g. Pre-Construction Conference. Before the issuance of the first Job Order under this
25 Agreement, a conference will be conducted by the County to acquaint the Contractor
26 with the County's procedures that are to be observed during the execution of the
27 Work, and to develop mutual understanding relative to the administration of the
28 Agreement.

2 maintain at its office for its use a computer with, at a minimum, a 1 GHz processor
3 and an internet connection. The Contractor shall maintain individual email accounts
4 for each of its project managers.
- 5 i. Job Order Contracting Software and License Fee JOC Software and System License

7 system for their JOC program. The Gordian JOC Solution™ includes Gordian's
8 proprietary eGordian®, JOC Software, JOC applications, construction cost data, and
9 Construction Task Catalog® which shall be used by the Contractor solely for the
10 purpose of fulfilling its obligations under this Agreement, including the preparation
11 and submission of Job Order Proposals, subcontractor lists, and other requirements
12 specified in the general conditions and as may be requested by the County. The
13 Contractor shall be required to execute Gordian's JOC System License and Fee
14 Agreement, and shall pay a 1% JOC System License Fee on all Work awarded to
15 Contractor by the County for access to the Gordian JOC Solution™.

Exhibit C

Contract Code section 20129 and Civil Code section 9554; all bonds shall be submitted in triplicate.

2. Additional Requirements

(A) **Verification of Coverage.** Within 30 days after the Contractor signs this Agreement, and at any time during the term of this Agreement as requested by the County's Risk Manager or the County Administrative Office, the Contractor shall deliver, or cause its broker or producer to deliver, to the County Risk Manager, at 2220 Tulare Street, 16th Floor, Fresno, California 93721, or HRRiskManagement@fresnocountyca.gov, and by mail or email to the person identified to receive notices under this Agreement, certificates of insurance and endorsements for all of the coverages required under this Agreement.

- (i) Each insurance certificate must state that: (1) the insurance coverage has been obtained and is in full force; (2) the County, its officers, agents, employees, and volunteers are not responsible for any premiums on the policy; and (3) the Contractor has waived its right to recover from the County, its officers, agents, employees, and volunteers any amounts paid under any insurance policy required by this Agreement and that waiver does not invalidate the insurance policy.
- (ii) The commercial general liability insurance certificate must also state, and include an endorsement, that the County of Fresno, its officers, agents, employees, and volunteers, individually and collectively, are additional insureds insofar as the operations under this Agreement are concerned. The commercial general liability insurance certificate must also state that the coverage shall apply as primary insurance and any other insurance, or self-insurance, maintained by the County shall be excess only and not contributing with insurance provided under the Contractor's policy.
- (iii) The automobile liability insurance certificate must state that the policy covers any auto used in connection with this Agreement.
- (iv) The professional liability insurance certificate, if it is a claims-made policy, must also state the retroactive date of the policy, which must be prior to the date on which services began under this Agreement.

(B) **Acceptability of Insurers.** All insurance policies required under this Agreement must be issued by admitted insurers licensed to do business in the State of California and possessing at all times during the term of this Agreement an A.M. Best, Inc. rating of no less than A: VII.

(C) **Notice of Cancellation or Change.** For each insurance policy required under this Agreement, the Contractor shall provide to the County, or ensure that the policy requires the insurer to provide to the County, written notice of any cancellation or change in the policy as required in this paragraph. For cancellation of the policy for nonpayment of premium, the Contractor shall, or shall cause the insurer to, provide written notice to the County not less than 10 days in advance of cancellation. For cancellation of the policy for any other reason, and for any other change to the policy, the Contractor shall, or shall

Exhibit C

cause the insurer to, provide written notice to the County not less than 30 days in advance of cancellation or change. The County in its sole discretion may determine that the failure of the Contractor or its insurer to timely provide a written notice required by this paragraph is a breach of this Agreement.

- (D) **County's Entitlement to Greater Coverage.** If the Contractor has or obtains insurance with broader coverage, higher limits, or both, than what is required under this Agreement, then the County requires and is entitled to the broader coverage, higher limits, or both. To that end, the Contractor shall deliver, or cause its broker or producer to deliver, to the County's Risk Manager certificates of insurance and endorsements for all of the coverages that have such broader coverage, higher limits, or both, as required under this Agreement.
- (E) **Waiver of Subrogation.** The Contractor waives any right to recover from the County, its officers, agents, employees, and volunteers any amounts paid under the policy of worker's compensation insurance required by this Agreement. The Contractor is solely responsible to obtain any policy endorsement that may be necessary to accomplish that waiver, but the Contractor's waiver of subrogation under this paragraph is effective whether or not the Contractor obtains such an endorsement.
- (F) **County's Remedy for Contractor's Failure to Maintain.** If the Contractor fails to keep in effect at all times any insurance coverage required under this Agreement, the County may, in addition to any other remedies it may have, suspend or terminate this Agreement upon the occurrence of that failure, or purchase such insurance coverage, and charge the cost of that coverage to the Contractor. The County may offset such charges against any amounts owed by the County to the Contractor under this Agreement.
- (G) **Subcontractors.** The Contractor shall require and verify that all subcontractors used by the Contractor to provide services under this Agreement maintain insurance meeting all insurance requirements provided in this Agreement. This paragraph does not authorize the Contractor to provide services under this Agreement using subcontractors.

**Authority: Title 15; Section 1327;
California Code of Regulations**

It is imperative for the safety and security of all persons within Juvenile Justice Campus (JJC) facilities, as well as for those in the community, that minors are not allowed to leave the secure confines of the facilities by the taking of a hostage(s). If successful in securing a release through these means minors would be much more likely in the future to use this practice again in an attempt to escape the confines of the facilities. This would put those visiting and working at the JJC at higher level of risk and would jeopardize the safety of the community if the minor was in fact successful in securing his/her release.

The JJC is a "no-hostage" facility. This means that minors will not be released from custody under any circumstances due to the taking of a hostage(s). Any staff person taken hostage, no matter what their rank or status, immediately loses their authority and any orders issued by that person will not be followed.

I. HOSTAGE SITUATION PROCEDURES

- A. If any minor(s) and/or other person(s) in the facility attempt to hold any person hostage, and they do not respond to verbal commands to stop staff will immediately notify the Watch Commander. He/she will respond to the location and assess the situation. If a hostage situation is in progress the Watch Commander will:
1. Summon assistance from other officers as required.
 2. Establish a secure perimeter around the hostage takers and allow no one to pass into it for any reason without authorization. Risks should not be taken that might allow the taking of additional hostages.
 3. Evacuate all non-essential persons at the scene to a safe location or any housing pod that is not directly involved in the incident.
 4. Direct officers to place minors in uninvolved housing pods in their rooms and have them remain there until directed otherwise. Minors outside of housing pods will remain in place under officer supervision until it is safe to return to their respective housing pods or any housing pod that is not directly involved in the incident.
 5. Immediately notify the Director or the Probation Services Manager/Assistant Director in his/her absence and confer with higher authority as to action to be taken. Administration in turn will notify the Chief.
- B. The Fresno Sheriff's Dispatch Center (488-3111) will be notified immediately and a request for a trained hostage negotiator and other emergency personnel will be made as needed. Prior to the arrival of the Sheriff Department's hostage negotiator the Watch Commander will attempt to ascertain:

Subject: Hostage Situation
Policy #: 326.0

1. The number and identity of both the hostages and hostage takers;
 2. Any known weapons possessed by the hostage takers;
 3. The demands of the hostage takers.
- C. The Watch Commander will retain and direct departing custody officers, as well as, available Probation peace officer staff to assist with security and safety needs, as necessary. Additional Juvenile Correctional Officers should be called in as may be needed to insure the safe and secure operation of the facility.
- D. The Watch Commander will coordinate with the Sheriff's Department all activities taken to resolve the hostage situation, including the use of appropriate force, and will maintain control of the facility until relieved of that duty by the presence of a Probation Services Manager/Assistant Director, Director, or the Chief Probation Officer.
- E. Once the hostage situation has been resolved the minors involved should be housed in the most secure setting available and all appropriate charges should be filed.
- F. Each officer and/or non-sworn staff member who was involved or observed the incident will complete an incident report and if required, the appropriate critical incident evaluation report(s) regarding the details of the incident prior to the end of his/her shift. (See Incident Report, located in JAS Probation View, under "Word Templates".)
- G. The Watch Commander will prepare a Critical Incident Investigation Report, using the Critical Incident Evaluation Report - Page 2 report form and the critical incident evaluation report(s) completed by the reporting persons at the time of the incident.

II. PARENTAL AND MEDIA INFORMATION

- A. Attempts will be made at the direction of Administration to reach the families of the hostages to advise them of the situation. Notification will also be made to the parents of the hostage takers as deemed appropriate.
- B. All media inquiries will be referred to the Chief's office per departmental policy.

III. SECURITY AND OPERATIONAL REVIEW

- A. Once the incident has been resolved a team will be established to conduct a security and operational review of the incident. The review will be conducted within 2 days of the resolution of the incident. The review team will be comprised of the facility administrator and/or facility Director, Probation Services Manager/Assistant Director and Supervising Juvenile Correctional Officers who are relevant to the incident. The team will review the circumstances leading up to the incident and any necessary corrective action necessary to insure that such an incident does not repeat itself.

BACKGROUND INVESTIGATIONS AND IDENTIFICATION (ID) BADGES

Background Investigations

Prior to the beginning of any services, one (1) background check may be required for every member of the Contractor's personnel providing services to a building location for the life of the agreement. The background check may be required before access is given to any County facility/property. Clearance will only be granted after a successful background check, completed by the County of Fresno Sheriff's Department. Background checks provided by any agency other than the County of Fresno Sheriff's Department will not be accepted.

The current cost of a background check is \$52 per person. This cost will be incurred by the successful Bidder. One check covering the cost of background checks for all employees shall be made payable to: Sheriff, County of Fresno. The successful bidder will be notified regarding the result of background checks. Those that are accepted will report to County of Fresno Security to have their photo taken and ID badge issued.

Background checks are done on a first-come, first serve basis between the hours of 7:00 a.m and 12:00 noon. Monday through Friday. The process takes approximately 20 minutes time. The amount of time it takes to receive the result of background checks varies from one day to a month (or longer), dependent upon the individual's history.

Individuals who are cleared through this process are entered into the Department of Justice database. Their records are flagged and the County of Fresno Sheriff's Department is notified if the person is ever arrested in the future.

When required by County, applicants' background checks must be approved prior to entering any County facility. Approval will not be granted to any individual possessing any of the following circumstances:

1. They have been convicted of a felony, or any crime involving moral turpitude, or carrying or possessing a dangerous weapon.
2. They have ever been charged with a felony or are currently under investigation for a felony.
3. They are charged with or convicted of any crime committed in or at a correctional institution.
4. They are currently on parole or probation or are a sentenced inmate at any correctional facility.
5. They have been refused a license as a private investigator or had such license revoked.
6. They have fraudulently represented themselves, their credentials, their employment or their criminal or arrest record on their application.
7. Make omissions or false statements on their application.
8. They have no valid reason for entering a facility.
9. Their admission into a facility could represent a threat to security, staff or inmate safety.
10. Further information regarding the criteria for background check clearance, including an appeal for process for someone who may be denied clearance is available upon request.

Exhibit F

Identification (ID) Badges

The successful bidder's employees will be issued a badge that must be worn and be visible at all times during performance of work in any County building to identify the wearer as an individual who is authorized to enter County facilities.

1. ID badges will be given only after successfully completing the background investigation. ID badges will be issued when the photo is taken. If electronic access to any County facility is required, activation of the badge may take an additional 48 hours to complete.
2. Costs for ID badges are established by County Auditor and fluctuate annually, therefore the cost of obtaining a new ID badge for a Bidder's new employee may not remain the same throughout the contract term.
3. The wearer will not escort or bring any other individuals into any County facilities. County issued ID badges are for the exclusive use of the individual named and pictured on the badge.
4. All ID badges will remain the property of the County and are returnable upon demand or upon the expiration of the contract. The successful Bidder will be responsible for collecting all ID badges issued and turning them in to the County Security Office when a contract ends or when an employee leaves employment. The Bidder will assume all responsibility for their employee's use of and the return of the County ID badges.
5. The ID badges will only be issued to individuals passing the Background check. Each individual will need to present themselves in person with a valid, clean, and legible copy of a Driver's license or State issued Identification Card to receive an ID badge.

Vendors, volunteers and student interns working this type of assignment shall receive training in data practices and shall be required to sign a CLETS Employee/Volunteer Statement before being given an assignment with the Department.
