

BOS Agenda Item 3

Proposed Property Tax Rebates for Darling Ingredients, Inc.

I would like to propose giving staff direction to develop an economic development incentive program that could be used to fulfill the City of Fresno request to participate in providing incentives for the move of the Darling Facility.

Further, I would like us to direct staff to develop in this incentive program the ability to limit amounts and the number of years for which the incentives would be active, 5, 10, 20, 30, years for this project and future possible economic development projects.

Finally, I would propose as part of the partnership with the City of Fresno on this Darling project that the City take on all roads maintenance of W. Central Avenue, S. Chateau Fresno Avenue, W. North Avenue and S. Cornelia Avenue that are currently in County jurisdiction surrounding the plant.

That said I make a motion to direct staff to develop the economic development incentive program and make as a condition that the City of Fresno take on the maintenance of the previously stated roads.
