

When injustice becomes law
Resistance becomes duty.
Thomas Jefferson

100 days of illegal " State of Emergency " in California.
Governor Newsom declared " State of Emergency " on March 4th, 2020.
He invoked Section 8558 (b) of Government Code and Article XIII B,
section 3, subdivision (c), paragraph (2) of the California Constitution.
12 days later, on March 16th, 2020, he sent " Message from the Governor"
to the State Assembly informing the Legislative Branch that he did so.
Meaning of Section 8558 (b) is, that he can amend or suspend the Laws of
the State as he pleases. Meaning of Article XIII B, section 3 is, that he can
spend State money as he pleases without asking the Legislature.
Governor Newsom conveniently did not look further to Section 8627.5 (b) of
Government code, which states :
The Governor proclaims the termination of the " State of Emergency " ,
or for the period of 60 days, whichever occurs first.
Exactly the same legal vocabulary is pertinent to Counties of California,
since they have to conform to the laws of the State.
Under the Laws of the Constitution of California " State of Emergency "
expired on May 3rd, 2020.
There is nowhere in the legal code provision of indefinite or permanent
" State of Emergency " , unless we take under consideration some
oppressive regimes in far away countries.
It is sad and dangerous that those who were supposed to know the basics
of the Constitutional Law, do not know or do not care about legality of their
actions, or intentionally abuse the Law to benefit personally from
unrestricted legislative and fiscal power.
Legislators of the State Assembly who were supposed to know and care,
abandoned their posts and constitutional duty to supervise and guide
legally the Executive Branch of State Government.

Andrew F. Krolikiewicz, MD

The United States of America, contrary to popular belief, is not a democracy. It is the constitutional republic.

United we stand because we all pledged to uphold the Constitution.

Divided we fall when we break this pledge.

Regarding so popular lately orders and executive orders, those are pertinent to employees. Executive order of the President to employees of the US Government. Executive order of the Governor to employees of the State, etc. Finally, order of the Health Officer to employees of the Health Department.

For example : President Trump can not send an executive order to Governor Newsom - not in his chain of command, also Governor Newsom can not send an executive order to the Board of Supervisors - not in his chain of command.

“ Local State of Emergency “ in County of Fresno invoked on March 15th, 2020 expired on May 14th, 2020.

Language “ I , as Interim Health Officer for the County of Fresno, encourage voluntary compliance with this Health Officer’s Order. However, violation of this order is subject to fine, imprisonments or both “

Is no longer acceptable and lost its teeth about 100 days ago.

During 168 days of the “ state of emergency “ about 4200 people died in Fresno County from all causes and about 200 of those with Covid diagnosis attached to them - less than 5 % of total deaths. During the same time 168000 deaths happened in California and about 10500 with Covid diagnosis attached - about 6 % of all deaths. Covid mortality rate in Fresno County is about 0.02 % and in the State 0.025 % , both below those of ordinary seasonal flu.

Morbidity of seasonal flu (being physically sick) is often 10 % of the population or 100000 people in Fresno County, not 18000 “ cases “.

Death rate from seasonal flu is 0.03 % or 300 people in the County.

And I am using here official (stretched to the limit of belief) government data.

I am sure, that no more than 10 % of sick die from Covid infection by itself

And remaining 90 % of sick die with Covid positive test or just presumption of Covid for numerous other reasons like : being shot, MVA, cancer, various pneumonias, “ordinary” influenza, suicide, drug overdose, heart, respiratory or kidney failure, etc.

When, in the history of the County of Fresno, the Board of Supervisors declared a “ state of emergency “ because of the seasonal flu epidemic ? I do not want to discuss here scientific basis for Covid related orders albeit there is little scientific evidence that they work but there is substantial scientific evidence that they do not.

Mantra of the epidemiology of the past century was to protect sick and vulnerable and let the rest take care of necessities of daily life.

This was set upside down by powers that be for Covid epidemic, who failed to read “ Epidemiology for Dummies “.

Classic example : orders by Governor Cuomo of N.Y. who forced convalescent hospitals and nursing homes to admit Covid sick patients and wreak havoc there (thousands of patients died unnecessarily). At the same time ordered healthy citizens to “ shelter at home “. 60 % of those tested positive for Covid in the aftermath. Where is sense and logic?

What do we want to accomplish by imposed restrictions ?

To prevent all sickness ? - Proved impossible.

To prevent all deaths ? - Proved impossible.

What is the full cost of restrictions ?

Do we consider - suicides of despair ?

- death from drug overdoses and alcoholism ?
- death from depression and loneliness ?
- abuse of children left at home with abusers ?
- loss of wages and employment ?
- unpaid mortgages and other obligations ?
- loss of education ?
- loss of small businesses ?
- loss of social interaction among humans ?
- loss of spiritual guidance ?

- disrupted families ?
- disrupted communities ?

Just a few days ago, the National Institute of Health voiced the concern that currently they observe more suicides than “ Covid “ deaths.

Gentlemen of the Board,

You are having a historic opportunity today to do “ the right thing “ for the residents of the County of Fresno. Covid epidemic burnt itself out already. What still is, is a remnant of epidemic - lots of “ cases “ because people develop so-called “ herd immunity “ and very few deaths. And you are unable to change this natural process by continuation of restrictions which did not work in the past five months.

I suggest a declaration that the state of epidemic in the County of Fresno ended but there is endemic disease present still.

I suggest to leave current recommendations in place for the time being but to stop enforcing “ orders”.

In other words to return personal freedom of choice to the citizens of the County to work slowly through people’s hearts and minds.

You want to continue to wear a mask - fine

You do not want to wear a mask - that is fine too.

You want to shelter in place - fine.

You want to go to the beach with a dozen of your friends - that is fine too.

You want to keep your business closed - fine.

You want to reopen it - that is fine too.

This was done in a small country of Slovenia (two millions inhabitants).

And what happened ? Nothing worth mentioning.

They re-started the normal life.

Item #10
8-18-2020

If the nation expects to be ignorant and free,
In the state of civilization,
It expects what never was and never will be
- Thomas Jefferson

WHAT I THINK, I KNOW.
(Do not be scared, it is only business.)

Research on chimera viruses (two or more viruses made into one) and a gain of function (how to modify a benign virus to create a deadly one) was started in a military lab in Ft. Dietrich S.C. not later than in 2008.

This field of research was a brainchild of Dr Fauci .

Because of obvious inherent dangers, US Congress prohibited this type of research in 2016 (in 2019 the ban was miraculously lifted) .

The experiments were moved briefly to Toronto but because of Canadians' concerns were further outsourced to Wuhan, China.

Dr Fauci spent 3.7 mln dollars to support this research from the budget of the National Institute of Allergy and Infectious Diseases, which he heads. Wuhan University also received funds from Bill and Melinda " charitable " Foundation (which doubled its assets between 2008 and 2018 despite its " charitable " contributions.

Why Wuhan, one of 20000 institutions of higher education on the Earth, specifically deserved money from Mr Gates ?

In 2017, publicly and on camera, ^{DR FAUCI} stated that " It will be a surprise global epidemic event during this presidency. How did he know ?

In 2019 the WHO changed the definition of pandemia from qualitative (more than 1 bln people are sick) to qualitative (disease which spreads rapidly around the globe). Also , in November 2019, took place in one of Ivy League universities so-called Event 201 with Mr Gates and Mr Fauci in attendance regarding the preparedness for " surprise coronavirus pandemic".

Totally by accident, Wuhan virus was released from Wuhan's University Virology Laboratory in the same November of 2019.

Epidemic viruses are scientifically named by the place of the origin; Covid-19 name was created because of the sensitivities of their Chinese friends. Uncle Sam was paying to the WHO close to 500 mln dollars per year because of the goodness of American heart; the second largest donor and currently the largest with around 350 million dollars is ...

You guessed right - Mr Gates (but not without some strings attached). Therefore, the WHO promptly announced a pandemic.

By the way, why Chinese authorities suspended domestic flights from Wuhan on January 5th, 2020, but international flights from Wuhan were departing uninterrupted for another two months ?

Why Moderna (Gates' subsidiary) was promptly given by US Congress 30 billion dollars to develop a vaccine (or 35 mln dollars per employee incl. janitors), while, so far, Moderna never developed any working vaccine.

Moderna vaccine is based on patents from the CDC and the NIAID (privately held by Mr Fauci and others), but conceived on government's salaries while using taxpayer's funded laboratories. Those

“ private individuals “ have got a profit sharing agreement with Moderna.

Ferguson model of Imperial College G.B. supposed to be the right one (lots of mortality), but Wuhan virus appeared to be much less deadly than predicted.

The WHO made sets of recommendations for the national CDCs to follow and make things worse to justify the above mentioned model and to keep the narrative going.

The CDC, from the very beginning, successfully suppressed any empirical treatment against Wuhan virus, but: 1. Remdesivir - failed HIV drug, which works not better than cherry sirup (expensive one; received an emergency FDA approval in days), 2. Ventilator, which causes 90 % mortality rate by blowing sick patients' lungs away.

Suppressed treatments :

1. Hydroxychloroquine + Azithromycin + Zinc
 - 40 to 100 % cure rate depending on severity of symptoms.
2. Ivermectin + Doxycycline + Zinc - ditto.
3. Inhalable steroids (decrease of inflammation in lungs),

4. Inhalable anticholinergics (decrease of phlegm production in lungs)
5. Mucomyst (inhalable enzyme which breaks down glycoproteins in phlegm),
6. Bi - PAP and C - PAP devices, which support respirations without damaging lungs.

For unclear reasons, Medicare created financial incentives for hospitals: \$ 9000 for every " covid " admission , and \$ 39000 for every " covid " patient put on a ventilator.

Governor Cuomo of N.Y. was particularly creative giving " executive order" to nursing homes to admit " covid " patients there. Many thousands of deaths are attributed to this criminal insanity.

The epidemic (extended by " flattening the curve ") died by itself of natural causes - very little deaths. By far not enough to scare anyone to death to do anything.

Actually, the Secretary of Health voiced a concern a few days ago that currently, there are much more suicides than " covid " deaths.

And now, we have got " cases " to worry about and keep narrative alive and well - post epidemic remnants of any epidemic event, which do not carry any scientific meaning in the science of epidemiology - just is.

Initially, I thought that we are going to face a " second wave " of epidemic with new and improved version of Wuhan virus, perhaps ✦ Covid-20 , but, since I learned that Wuhan lab destroyed each and every culture in their possession and wiped out their research database clean. Today, I believe that a " second wave" will not have real teeth, just usual seasonal variation of colds and flus along with smoke and mirrors plus usual propaganda campaigns.

Let us go to the business model.

Players are many, mostly CEOs of giant pharmaceutical corporations of medical - industrial complex, also known as " big pharma " , who make money on people's misery. And a " front man " , unorthodox Bill Gates. Mr Gates is " the One " , who is going to save the human race by worldwide vaccination programs.

He has been dealing with viruses throughout his life, but the electronic ones, hence he developed an idea that he is an expert in biological viruses as well. Believing that his technocratic model is going to solve his problems and make him the richest and the most powerful man on the planet Earth. This is his destiny, after all.

I would like to suggest delicately, that Mr Gates' understanding of saving the human race is not necessarily what the common man understands under this term, since he is " the One " .

Step 1. - Creating the virus suitable to cause pandemic - done.

Step 2. - Influencing the WHO to declare pandemic - done.

Step 3. - Influencing the CDCs of great majority of countries to follow the same protocol - done. (subsequently, to subdue medical professionals to accept upside down epidemiology as a new reality and under severe consequences to never question any CDC commands).

Step 4. - Propaganda campaign, that the virus will kill us all, unless we submit to masks, social distancing, sheltering in place and host of other unscientific orders to mentally prepare us that Mr Gates' solution is the only solution - compulsory vaccination program of the entire human race - - done.

Step 5. - Propaganda campaign that whoever refuses vaccination is a " bioweapon " and as such should be isolated from the general populace, And that vaccination program to be well done, requires tracing of the entire population in real time by electronic means - in progress.

Step 6. - Development of a " novel" (such a nice word) vaccine against " novel " coronavirus.

Vaccine supposes to work on a principle that synthetic messenger RNA introduced to the body hijacks human cells to produce viral proteins, which in turn incite a kind of autoimmune process in the body causing production of antibodies.

Question 1. - Are those antibodies to synthetic proteins are able to protect a human from a real virus ? - Unknown , since vaccine testing does not include introduction of real Wuhan virus to " healthy volunteers".

Question 2. - What are the long term consequences of meddling with a human's genetic apparatus ? - Unknown, since vaccine safety study lasts 5 (five) days . An adverse reaction, if developed on the day 6 is not included in the safety study. - in progress.

Mr Gates himself stated that he accepts that the immunization process may maim or kill 700000 people worldwide, but he feels that this is a fair price for protection (especially, that this is not the price that he will pay himself).

Step 7. - Influence the governments worldwide that mass and compulsory vaccinations is the only way of survival of the human race to introduce laws that force compulsory vaccinations. (There are 300 " big pharma " lobbyists per each US Senator in Washington alone). - In progress.

Step 8. - Vaccinations of the entire world population.

Mr Gates expects a set of two shots two months apart, from now to eternity. \$ 20 a pop x 14 billion doses - 280 billions of dollars / year. Also boon for healthcare - 650 mln doses in the US alone x \$ 10 administration fee - 6.5 billion, treatment of 35000 victims of adverse reactions (by Mr Gates' standard rate) - costs unknown.

- In the nearest future.

Dream of Mr Gates (he already ran the field tests in Africa) is to connect vaccination records with other personal records with electronic identification with a cashless banking system (and shopping - we were prepped for this already), with GPS positioning in real time on a single implantable device. In short words - no vaccine, no existence.

But perhaps, the reverse is an actual truth.

Above is just a compilation of information , I found on the " open net " and which I personally believe, is true and correct. I concentrated mainly on medical information, since this is my field of expertise. I am not forcing anyone to accept my truth, there is more than one, usually. Do your own research. What I found , you can find, and more.
