**Revised Exhibit A**

**HHW Transporter's Price List: Part 1 of 3 Parts**

**Part 1: Residential HHW Transport and Disposal Costs**

- A. For each waste category listed below, indicate the total cost of the various sizes of packing units, packing options and management options  
 B. Us N/A (not applicable) to indicate an alternative which is not available or not appropriate.  
 C. Clearly indicate any item(s) subject to a minimum charge and when a charge per unit is applicable (e.g., per lamp or propane tank.)  
 D. See the key below for descriptions of the various management and packing options.

**Notes:**

- Prices must include all costs related to the removal of the HHW from the site, getting it to its final destination and then properly managing it, including but not limited to removing the HHW from its location on the site, providing appropriate transport vehicles, loading HHW into the transport vehicles, all transport-related cost (such as driver, fuel, tolls, vehicle licensing, insurance), shipping supplies (such as pallets, tie-downs, required placards), maintenance including clean-up of spills and equipment, all paperwork and related materials, (labels, manifests, reports, notifications, signage, authorizations, releases) , all disposal-related costs (e.g., assessments, gate, surcharge, management and disposal fees, permits, facility surcharge, taxes) and all HHW transporter administrative and overhead costs (e.g., insurance, postage, office staff, contract preparation and monitoring licenses and permits).

- Facility staff will be responsible for the proper packing, labeling, tracking and storing of the HHW until it is collected by the HHW Transporter

-As of August 1, 2020, the cumulative COLA charge has increased 9.9%
