(Standard Agreement)

STATEMENT OF WORK (SOW)

County of Fresno, herein called (Contractor) is entering into this agreement with the California Complete Count Census 2020 (CCC Office), hereinafter referred to as “State or CCC Office” to provide marketing and outreach services on behalf of the State as described herein.

1. BACKGROUND

The California Complete Count Census 2020 effort is a statewide outreach and awareness campaign designed to ensure an accurate and complete count of all Californians in the upcoming 2020 United States Census. The 2020 Census is the decennial census, mandated by Article 1, Section 2 of the United States Constitution. The results are used to allocate Congressional seats, electoral votes, and government program funding to state and local governments. Just based on the funding component, a census that undercounts Californians could cost the state billions of dollars. For every Californian missed during the Census 2020 count, the State is expected to lose approximately \$1,950 per person, per year, for 10 years, in federal program funding.

In preparation for the 2020 census, Governor Brown issued an Executive Order (B-49-18) describing California’s Census 2020 initiative. The Executive Order established a California Complete Count Committee to develop, recommend, and assist in the administration of a census outreach strategy to encourage full participation in the 2020 Census. The California Complete Count outreach strategy is funded by a Budget Bill, which allocated \$90.3 million in the state budget for efforts related to the upcoming 2020 Census. The State has authorized \$26.5 million of those funds to be directed towards county-based outreach efforts.

2. PURPOSE

The State’s 2020 Complete Count Census outreach campaign will focus on both the geographic areas and demographic populations who are “least likely to respond”. These areas and populations are commonly referred to as “hard-to-count (HTC).” The terms “least likely to respond” and “HTC” are often used interchangeably.

This program aims to address the following goals:

Increase awareness and knowledge about the 2020 Census in HTC communities and populations;

Deliver focused messages via trusted messengers in trusted environments about the 2020 Census process to HTC areas and populations concentrated in Census tracts that are least likely to respond.

Ensure that all outreach, messaging and publicity is culturally relevant and linguistically appropriate;

Support the California Complete Count statewide community outreach and media relations efforts through a strategy that is focused, timely, cost-effective and tailored to addressing barriers that prevent HTC communities and populations from completing and returning their forms;

Complement as well as add value to the outreach, messaging and advertising provided by the U.S. Census Bureau;

Work collaboratively with a network of community-based organizations, other local governments and others across sectors; and

The ultimate goal is to ensure that HTC/least likely to respond communities and populations in California are accurately counted in the 2020 Census, thereby achieving the highest self-response rate possible for California.

3. OBJECTIVES

The local county office (herein called Contractor) will collaborate and work with other contracted community-based-organizations (CBOs) and State media contractor(s) to inform the general public of the importance of completing the census questionnaire. The goal is to avoid duplication, identify outreach gaps and fill them accordingly. Contractor will implement outreach to encourage full participation and avoid an undercount as stated in the Governor's Executive Order B-49-18.

A. THE STATE'S OUTREACH OBJECTIVES ARE:

1. To further promote awareness about the census, the process, its pre-notice advisory, the questionnaire and the key deadlines.
2. To publicize locations where the public may receive information regarding the census in their native language and assistance completing the census questionnaire. Locations may include neighborhood Questionnaire Assistance Centers (QACs), Questionnaire Action Kiosks (QAKs), and other venues. A QAC can be established at a public venue such as a library, school, or post office staffed with knowledgeable personnel that can assist the public with completing the census questionnaire, and answer questions related to the Census 2020.

3. To motivate all Californians to complete and return their questionnaires by explaining in ways that are relevant to them what the census means to California, and when possible, to their counties and cities.
4. To focus funding and efforts in geographic areas and demographic populations who are least likely to respond including, but not limited to:
 - Latinos
 - African-Americans
 - Native Americans and Tribal Communities
 - Asian-Americans/Pacific Islanders
 - Middle-Eastern North Africans
 - Immigrants and Refugees
 - Farm-workers
 - People with Disabilities
 - Seniors
 - Homeless Individuals and Families
 - Children Ages 0-5
 - Veterans
 - Areas with low broadband subscription rates and limited or no access
 - Households with limited English proficiency

B. THE CONTRACTOR SHALL ACHIEVE THE FOLLOWING OBJECTIVES:

EDUCATE

1. Inform the public about the census process, purpose and timeline.
2. Inform the public of the importance of the census. The State will receive billions of dollars of federal funds for education, health care, job training, transportation and other vital services based on the census numbers. The federal government also uses census data to determine how to apportion the House of Representatives seats among states.
3. Inform the public that the census data is confidential. No one except sworn U.S. Census Bureau ("Census Bureau") employees can see the complete census questionnaire forms or link names to responses. The Census Bureau requires that any individuals with access to census materials adhere to strict confidentiality and security guidelines. The law, Section 214 of Title 13, "Wrongful Disclosure of Information," sets forth severe penalties applicable to federal government officials and local government census liaisons if they misuse information they receive from the census responses. These penalties include fines up to \$5,000, 5 years in prison, or both. The Census Bureau's dedication to confidentiality plays an important role in everything it does. All employees must pass a security and employment reference check, swear they are not employed as tax collectors or assessors or law enforcement officials and establish they have no felony convictions as adults. The

Census Bureau employs a host of safeguards, such as electronic barriers and secure telephone lines, to block outside access to any confidential information in Census Bureau computers.

4. Identify areas and populations within Contractor's local jurisdiction that are least likely to respond, as identified in Task 1.2.
5. To establish, manage, and announce locations where the public may receive information regarding the census in their native language and assistance completing the census questionnaire. Locations may include neighborhood QAC's and QAK's

MOTIVATE

6. Eliminate the fear of completing the census questionnaire. Instill trust that the government will not use this data in a negative way. No one outside the Census Bureau can ever be given any information to link names to addresses on the census questionnaire. Not even the President of the United States is permitted to look at individual census records.
7. Utilize trusted messengers and sources to encourage members of the public to participate in the census by completing their census questionnaire.
8. Establish comfortable environment(s) and settings early on and leading to the Census 2020 to encourage the public to participate in the census, following the education phase. Continue to educate and inform on the importance of the census as a motivator.
9. Where possible, Contractor should assess messaging efforts, outreach and tools.

ACTIVATE

10. Engage trusted messengers in trusted environments to help the public participate in the census.
11. Conduct and participate in community gatherings and other forums to rally the public to participate in the census.
12. Collaborate with other stakeholders and across sectors to activate the public to participate in the census process by filling out the census questionnaire.

4. STRATEGIC OUTREACH DEVELOPMENT AND IMPLEMENTATION

Contractor shall design and implement a multi-faceted, multi-channel, multi-lingual cohesive strategic outreach plan to reach all census audiences in California. The overarching strategic plan should address broad census goals and objectives and specific
