SERVICES Outreach, Case Management, Mental Health, and Supportive Housing Services

TARGET POPULATION

Adults (18 years and older) living in metro, rural, or unincorporated areas in Fresno County who are experiencing serious mental illness and/or co-occurring substance use disorders and are homeless or at imminent risk of becoming homeless. Participation in the PATH Program is voluntary.

PROJECT DESCRIPTION

The Stewart B McKinney Homeless Assistance Amendments Act of 1990 authorizes a federal grant program, Projects for Assistance in Transition from Homelessness (PATH). This funding source is used to address the needs of the target population through a PATH Program operated by Kings View. A primary goal is to reduce and end chronic homelessness and enable persons served to live in the community and to avoid homelessness, hospitalization, and/or jail detention. It is a vital resource to the community, serving as a front door for persons served into continuum of care services and mainstream mental health, primary healthcare, and the substance abuse services system.

The PATH Program is comprised of two main components:

- 1. Outreach, Engagement, and Linkage (OEL)
- 2. Specialty Mental Health Services (SMHS)

Through PATH-OEL, Kings View will provide services to at least three hundred-fifty (350) persons per year, at least two hundred (200) of which will be enrolled into HMIS and be linked to the appropriate services or referred to PATH-SMHS. They will receive case management, linkage, consultation, peer support services, and supportive interim or bridge housing services as needed. As necessary, Kings View will implement COVID-19 screening, education, assessment, and linkage capabilities in the field.

Up to thirty-six (36) persons at a given time will be enrolled in PATH-SMHS where they will receive intensive mental health treatment, case management, linkage, consultation, peer support services, and supportive housing services; up to ten (10) individuals at a given time will receive housing support). Service goals are to help stabilize and transition persons served into other County or community mental health programs.

A third component, Mobile Outreach Project (MOP), is to operate from July 1, 2021 through June 30, 2022. Through PATH-MOP, Kings View will dedicate an outreach team for rural and unincorporated areas of Fresno County for the provision of outreach, engagement, and linkage services to persons served akin to those provided in PATH-OEL. As necessary, Kings View will implement COVID-19 screening, education, assessment, and linkage capabilities in the field. From FY 2022-23 through FY 2023-24, this component will transition to Street Outreach Team and Rural Support (STARS), offering the same services at an expanded capacity.

Kings View will commit to "meet persons where they are" and collaborate with other agencies across the system of care to assist persons served in achieving their personal recovery and wellness goals. Services will incorporate safety, emergency, and crisis procedures in the field and in the organization's offices, personal services coordination, psychiatric services in the areas of medication, prescription, administration, monitoring and documentation, mental health services, linkage services, supportive housing services, and mobile outreach services.

COUNTY'S administrative staff shall monitor and oversee program outcomes and coordinate reporting requirements.

Fresno County Department of Behavioral Health Guiding Principles of Care Delivery

DBH VISION:

Health and well-being for our community.

DBH MISSION:

DBH, in partnership with our diverse community, is dedicated to providing quality, culturally responsive, behavioral health services to promote wellness, recovery, and resiliency for individuals and families in our community.

DBH GOALS:

Quadruple Aim

- Deliver quality care
- Maximize resources while focusing on efficiency
- Provide an excellent care experience
- Promote workforce well-being

GUIDING PRINCIPLES OF CARE DELIVERY:

The DBH 11 principles of care delivery define and guide a system that strives for excellence in the provision of behavioral health services where the values of wellness, resiliency, and recovery are central to the development of programs, services, and workforce. The principles provide the clinical framework that influences decision-making on all aspects of care delivery including program design and implementation, service delivery, training of the workforce, allocation of resources, and measurement of outcomes.

1. Principle One - Timely Access & Integrated Services

- Individuals and families are connected with services in a manner that is streamlined, effective, and seamless
- Collaborative care coordination occurs across agencies, plans for care are integrated, and whole person care considers all life domains such as health, education, employment, housing, and spirituality
- o Barriers to access and treatment are identified and addressed

• Excellent customer service ensures individuals and families are transitioned from one point of care to another without disruption of care

2. Principle Two - Strengths-based

- Positive change occurs within the context of genuine trusting relationships
- Individuals, families, and communities are resourceful and resilient in the way they solve problems
- Hope and optimism is created through identification of, and focus on, the unique abilities of individuals and families

3. <u>Principle Three - Person-driven and Family-driven</u>

- Self-determination and self-direction are the foundations for recovery
- o Individuals and families optimize their autonomy and independence by leading the process, including the identification of strengths, needs, and preferences
- Providers contribute clinical expertise, provide options, and support individuals and families in informed decision making, developing goals and objectives, and identifying pathways to recovery
- o Individuals and families partner with their provider in determining the services and supports that would be most effective and helpful and they exercise choice in the services and supports they receive

4. Principle Four - Inclusive of Natural Supports

- The person served identifies and defines family and other natural supports to be included in care
- Individuals and families speak for themselves
- Natural support systems are vital to successful recovery and the maintaining of ongoing wellness; these supports include personal associations and relationships typically developed in the community that enhance a person's quality of life
- o Providers assist individuals and families in developing and utilizing natural supports.

5. Principle Five - Clinical Significance and Evidence Based Practices (EBP)

- Services are effective, resulting in a noticeable change in daily life that is measurable.
- Clinical practice is informed by best available research evidence, best clinical expertise, and values and preferences of those we serve

 Other clinically significant interventions such as innovative, promising, and emerging practices are embraced

6. Principle Six - Culturally Responsive

- Values, traditions, and beliefs specific to an individual's or family's culture(s) are valued and referenced in the path of wellness, resilience, and recovery
- Services are culturally grounded, congruent, and personalized to reflect the unique cultural experience of each individual and family
- Providers exhibit the highest level of cultural humility and sensitivity to the selfidentified culture(s) of the person or family served in striving to achieve the greatest competency in care delivery

7. Principle Seven - Trauma-informed and Trauma-responsive

- The widespread impacts of all types of trauma are recognized and the various potential paths for recovery from trauma are understood
- Signs and symptoms of trauma in individuals, families, staff, and others are recognized and persons receive trauma-informed responses
- Physical, psychological and emotional safety for individuals, families, and providers is emphasized

8. Principle Eight - Co-occurring Capable

- Services are reflective of whole-person care; providers understand the influence of bio-psycho-social factors and the interactions between physical health, mental health, and substance use disorders
- Treatment of substance use disorders and mental health disorders are integrated; a provider or team may deliver treatment for mental health and substance use disorders at the same time

9. Principle Nine - Stages of Change, Motivation, and Harm Reduction

- o Interventions are motivation-based and adapted to the person's stage of change
- Progression though stages of change are supported through positive working relationships and alliances that are motivating
- Providers support individuals and families to develop strategies aimed at reducing negative outcomes of substance misuse though a harm reduction approach

 Each individual defines their own recovery and recovers at their own pace when provided with sufficient time and support

10. Principle Ten - Continuous Quality Improvement and Outcomes-Driven

- o Individual and program outcomes are collected and evaluated for quality and efficacy
- Strategies are implemented to achieve a system of continuous quality improvement and improved performance outcomes
- Providers participate in ongoing professional development activities needed for proficiency in practice and implementation of treatment models

11. <u>Principle Eleven - Health and Wellness Promotion, Illness and Harm Prevention, and Stigma</u> Reduction

- The rights of all people are respected
- o Behavioral health is recognized as integral to individual and community well-being
- o Promotion of health and wellness is interwoven throughout all aspects of DBH services
- Specific strategies to prevent illness and harm are implemented at the individual, family, program, and community levels
- Stigma is actively reduced by promoting awareness, accountability, and positive change in attitudes, beliefs, practices, and policies within all systems
- The vision of health and well-being for our community is continually addressed through collaborations between providers, individuals, families, and community members

FRESNO COUNTY MENTAL HEALTH PLAN

Grievances

Fresno County Mental Health Plan (MHP) provides beneficiaries with a grievance and appeal process and an expedited appeal process to resolve grievances and disputes at the earliest and the lowest possible level.

Title 9 of the California Code of Regulations requires that the MHP and its fee-for-service providers give verbal and written information to Medi-Cal beneficiaries regarding the following:

- How to access specialty mental health services
- How to file a grievance about services
- How to file for a State Fair Hearing

The MHP has developed a Consumer Guide, a beneficiary rights poster, a grievance form, an appeal form, and Request for Change of Provider Form. All of these beneficiary materials must be posted in prominent locations where Medi-Cal beneficiaries receive outpatient specialty mental health services, including the waiting rooms of providers' offices of service.

Please note that all fee-for-service providers and contract agencies are required to give the individuals served copies of all current beneficiary information annually at the time their treatment plans are updated and at intake.

Beneficiaries have the right to use the grievance and/or appeal process without any penalty, change in mental health services, or any form of retaliation. All Medi-Cal beneficiaries can file an appeal or state hearing.

Grievances and appeals forms and self addressed envelopes must be available for beneficiaries to pick up at all provider sites without having to make a verbal or written request. Forms can be sent to the following address:

Fresno County Mental Health Plan P.O. Box 45003 Fresno, CA 93718-9886 (800) 654-3937 (for more information) (559) 488-3055 (TTY)

Provider Problem Resolution and Appeals Process

The MHP uses a simple, informal procedure in identifying and resolving provider concerns and problems regarding payment authorization issues, other complaints and concerns.

<u>Informal provider problem resolution process</u> – the provider may first speak to a Provider Relations Specialist (PRS) regarding his or her complaint or concern.

The PRS will attempt to settle the complaint or concern with the provider. If the attempt is unsuccessful and the provider chooses to forego the informal grievance process, the provider will be advised to file a written complaint to the MHP address (listed above).

<u>Formal provider appeal process</u> – the provider has the right to access the provider appeal process at any time before, during, or after the provider problem resolution process has begun, when the complaint concerns a denied or modified request for MHP payment authorization, or the process or payment of a provider's claim to the MHP.

<u>Payment authorization issues</u> – the provider may appeal a denied or modified request for payment authorization or a dispute with the MHP regarding the processing or payment of a provider's claim to the MHP. The written appeal must be submitted to the MHP within 90 calendar days of the date of the receipt of the non-approval of payment.

The MHP shall have 60 calendar days from its receipt of the appeal to inform the provider in writing of the decision, including a statement of the reasons for the decision that addresses each issue raised by the provider, and any action required by the provider to implement the decision.

If the appeal concerns a denial or modification of payment authorization request, the MHP utilizes a Managed Care staff who was not involved in the initial denial or modification decision to determine the appeal decision.

If the Managed Care staff reverses the appealed decision, the provider will be asked to submit a revised request for payment within 30 calendar days of receipt of the decision

<u>Other complaints</u> – if there are other issues or complaints, which are not related to payment authorization issues, providers are encouraged to send a letter of complaint to the MHP. The provider will receive a written response from the MHP within 60 calendar days of receipt of the complaint. The decision rendered buy the MHP is final.

INCIDENT REVIEWER ROLE – User Guide

Fresno County Department of Behavioral Health (DBH) requires all of its county-operated and contracted providers (through the Mental Health Plan (MHP) and Substance Use Disorder (SUD) services) to complete a written report of any incidents compromising the health and safety of persons served, employees, or community members.

Yes! Incident reports will now be made through an on online reporting portal hosted by Logic Manager. It's an easier way for any employee to report an incident at any time. A few highlights:

- No supervisor signature is immediately required.
- Additional information can be added to the report by the program supervisor/manager without having to resubmit the incident.
- When an incident is submitted, the assigned contract analyst, program supervisor/manager, clinical supervisor and the DBHIncidentReporting mailbox automatically receives an email notification of a new incident and can log in any time to review the incident. Everything that was on the original paper/electronic form matches the online form.
- Do away with submitting a paper version with a signature.
- This online submission allows for timely action for the health and safety of the persons-served, as well as compliance with state reporting timelines when necessary.

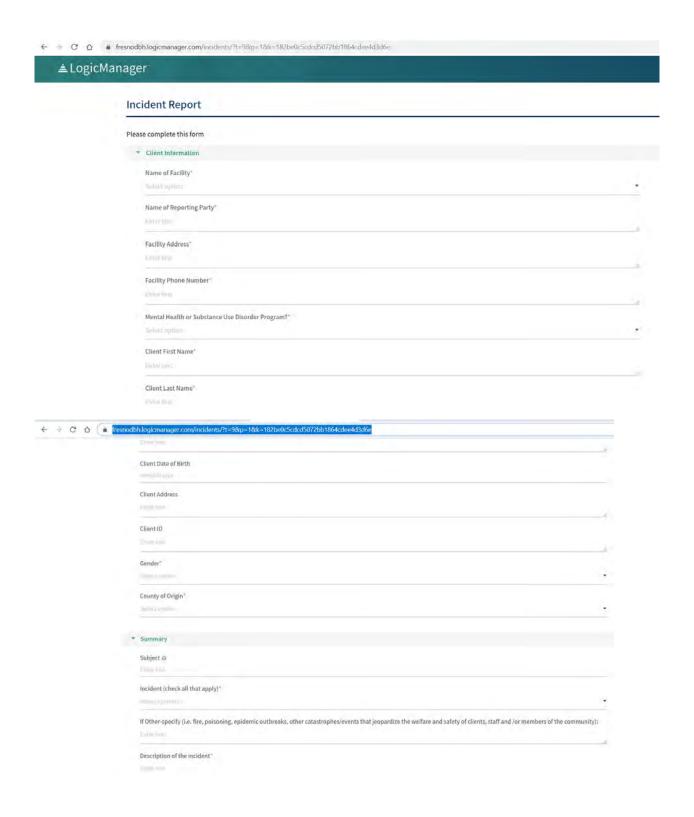

As an Incident Reviewer, the responsibility is to:

- Log in to Logic Manager and review incident submitted within 48 hours of notification of incident.
- Review incident for clarity, missing information and add in additional information deemed appropriate.
- Notify <u>DBHIncidentReporting@fresnocountyca.gov</u> if there is additional information to be report after initial submission
- Contact DBHIncidentReporting@fresnocountyca.gov if there are any concerns, questions or comments with Logic Manager or incident reporting.

National Standards for Culturally and Linguistically Appropriate Services (CLAS) in Health and Health Care

The National CLAS Standards are intended to advance health equity, improve quality, and help eliminate health care disparities by establishing a blueprint for health and health care organizations to:

Principal Standard:

1. Provide effective, equitable, understandable, and respectful quality care and services that are responsive to diverse cultural health beliefs and practices, preferred languages, health literacy, and other communication needs.

Governance, Leadership, and Workforce:

- Advance and sustain organizational governance and leadership that promotes CLAS and health equity through policy, practices, and allocated resources.
- 3. Recruit, promote, and support a culturally and linguistically diverse governance, leadership, and workforce that are responsive to the population in the service area.
- 4. Educate and train governance, leadership, and workforce in culturally and linguistically appropriate policies and practices on an ongoing basis.

Communication and Language Assistance:

- 5. Offer language assistance to individuals who have limited English proficiency and/or other communication needs, at no cost to them, to facilitate timely access to all health care and services.
- 6. Inform all individuals of the availability of language assistance services clearly and in their preferred language, verbally and in writing.
- Ensure the competence of individuals providing language assistance, recognizing that the use of untrained individuals and/or minors as interpreters should be avoided.
- 8. Provide easy-to-understand print and multimedia materials and signage in the languages commonly used by the populations in the service area.

Engagement, Continuous Improvement, and Accountability:

- Establish culturally and linguistically appropriate goals, policies, and management accountability, and infuse them throughout the organization's planning and operations.
- Conduct ongoing assessments of the organization's CLAS-related activities and integrate CLAS-related measures into measurement and continuous quality improvement activities.
- 11. Collect and maintain accurate and reliable demographic data to monitor and evaluate the impact of CLAS on health equity and outcomes and to inform service delivery.
- 12. Conduct regular assessments of community health assets and needs and use the results to plan and implement services that respond to the cultural and linguistic diversity of populations in the service area.
- 13. Partner with the community to design, implement, and evaluate policies, practices, and services to ensure cultural and linguistic appropriateness.
- 14. Create conflict and grievance resolution processes that are culturally and linguistically appropriate to identify, prevent, and resolve conflicts or complaints
- 15. Communicate the organization's progress in implementing and sustaining CLAS to all stakeholders, constituents, and the general public.

The Case for the National CLAS Standards

Health equity is the attainment of the highest level of health for all people. 1 Currently, individuals across the United States from various cultural backgrounds are unable to attain their highest level of health for several reasons, including the social determinants of health, or those conditions in which individuals are born, grow, live, work, and age,2 such as socioeconomic status, education level, and the availability of health services.3

Though health inequities are directly related to the existence of historical and current discrimination and social injustice, one of the most modifiable factors is the lack of culturally and linguistically appropriate services, broadly defined as care and services that are respectful of and responsive to the cultural and linguistic needs of all individuals.

Health inequities result in disparities that directly affect the quality of life for all individuals. Health disparities adversely affect neighborhoods, communities, and the broader society, thus making the issue not only an individual concern but also a public health concern. In the United States, it has been estimated that the combined cost of health disparities and subsequent deaths due to inadequate and/or inequitable care is \$1.24 trillion.4

Culturally and linguistically appropriate services are increasingly recognized as effective in improving the quality of care and services.^{5,6} By providing a structure to implement culturally and linguistically appropriate services, the National CLAS Standards will improve an organization's ability to address health care disparities.

Of all the forms of inequality, injustice in health care is the most shocking and inhumane.

— Dr. Martin Luther King, Jr.

The National CLAS Standards align with the HHS Action Plan to Reduce Racial and Ethnic Health Disparities⁷ and the National Stakeholder Strategy for Achieving Health Equity,8 which aim to promote health equity through providing clear plans and strategies to guide collaborative efforts that address racial and ethnic health disparities across the country.

Similar to these initiatives, the National CLAS Standards are intended to advance health equity, improve quality, and help eliminate health care disparities by providing a blueprint for individuals and health and health care organizations to implement culturally and linguistically appropriate services. Adoption of these Standards will help advance better health and health care in the United States.

INSTRUCTIONS FOR CERTIFICATION

- 1. By signing and submitting this proposal, the prospective primary participant is providing the certification set out below.
- 2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. The prospective participant shall submit an explanation of why it cannot provide the certification set out below. The certification or explanation will be considered in connection with the department or agency's determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.

- 4. The prospective primary participant shall provide immediate written notice to the department or agency to which this proposal is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

You may contact the department or agency to which this proposal is being submitted for assistance in obtaining a copy of those regulations.
- 6. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.
