NOTES:

Information Security Policy

Memo Number: 17-008

Date Issued: 1/1/17

Supersedes: 15-001

Effective Date: Immediately

Expires: Indefinite

Issued By: Information Technology Division

Purpose

The Victim Compensation Board's (CalVCB) Information Security Policy defines the rules for information security that apply to our business activities. This Policy also provides a foundation for additional practices and standards that will more specifically communicate CalVCB rules related to information security.

Information Security Program

The CalVCB has established an Information Security Program to protect the confidentiality, availability, integrity, and privacy of CalVCB information and supporting assets. The Information Security Program provides an integrated set of requirements that complement the CalVCB strategic goals and securely achieves its objectives and priorities.

Responsibility

The Information Security Officer (ISO) is responsible for developing, implementing, and operating the Information Security Program. The ISO reports directly to the CalVCB ITD Chief Information Officer.

The ISO will develop and implement policies, practices, and guidelines that protect the confidentiality, availability, and integrity of all CalVCB information and supporting assets. The ISO also promotes information security awareness, measures adherence to information security policies, and coordinates the response to information security incidents.

The ISO chairs the Information Security Advisory Committee that includes members representing all CalVCB divisions. The Information Security Advisory Committee is responsible

for reviewing, advising, and recommending approval of information security practices and standards.

The Information Technology Division is responsible for the implementation and administration of CalVCB information security policies, practices, and guidelines for all CalVCB information systems and networks.

All CalVCB employees, consultants, and contractors are responsible for protecting CalVCB information assets and complying with CalVCB information security policies, practices, and guidelines. All CalVCB employees, consultants, and contractors are also responsible for reporting any suspected or known security violations or vulnerabilities to the ISO.

Compliance

All CalVCB employees, consultants, and contractors must comply with CalVCB information security policies, practices, and guidelines.

Failure to comply with CalVCB information security policies, practices, and guidelines by State employees may result in disciplinary action up to, and including, termination of State employment.

Failure to comply with CalVCB information security policies, practices, and guidelines by consultants or contractors may result in punitive action up to, and including, termination of their contract.

In some cases, the failure to comply with CalVCB information security policies, practices, and guidelines may result in additional civil and criminal penalties.

Compliance of CalVCB divisions and offices with CalVCB information security policies, practices, and guidelines must be enforced by the supervisors and managers of these divisions and offices. The CalVCB overall compliance with information security policies, practices, and guidelines will be monitored by the ISO.

Risk Management

The CalVCB will identify and mitigate risks to the confidentiality, availability, and integrity of CalVCB information assets. Information security risks must be reported to the owner of the information or the information system asset and the owner of that asset will ultimately determine the impact of the risk and the appropriate mitigation approach.

The ISO operates the Information Security Risk Management program. Under this program, the ISO participates in the development of new information systems and periodically assesses existing information systems to identify and mitigate information security risks. The ISO works with the appropriate CalVCB divisions and offices to determine the impact of the risk, identify the appropriate mitigation activities, and monitor the successful completion of the mitigation activities.

Life Cycle Planning

The CalVCB will address information security as part of new projects involving major business activities or significant enhancements to existing business.

Projects will comply with all applicable information security policies and practices, and include provisions for the effective implementation and administration of the information security processes required for compliance.

Awareness and Training

The CalVCB maintains a mandatory information security awareness program. The ISO will ensure that the appropriate information security awareness training is provided to all CalVCB employees, consultants, and contractors.

Physical Security

The CalVCB safeguards its business areas and resources to protect and preserve the availability, confidentiality, and integrity of the department's information assets. Only authorized individuals are granted physical access to sensitive CalVCB business areas.

Contingency and Disaster Preparedness

The CalVCB Business Services Section ensures that the CalVCB has sufficient plans, resources, and staff to keep critical CalVCB business functions operating in the event of disruptions.

Contingency plans must be tested at a frequency sufficient to ensure that they will work when needed.

Incident Handling

The CalVCB ISO implements practices to minimize the risk associated with violations of information security and ensure timely detection and reporting of actual or suspected incidents or violations.

All CalVCB employees, consultants, and contractors are responsible for reporting any suspected or confirmed security violations and incidents in a timely manner. The CalVCB investigates information security violations and incidents and refers them to state and federal authorities when appropriate.

Identification and Authentication

All users are individually identified to the information system(s) they use. Their identity is verified in the system by using information that is only known by the individual user and the system. The user and the system will protect this verification information with sufficient care to prevent its disclosure and ensure its integrity.

The identification and verification process must be strong enough to establish a user's accountability for their actions on the information system.

Access Control

Access to all CalVCB information systems and information assets is controlled and the owner of each system or information asset must approve all user access. Users are provided access to only those systems and information assets required to perform their current CalVCB duties.

The CalVCB information systems must have the capability to restrict a user's access to only information and/or functions necessary to perform their CalVCB duties.

Audit Trail

All information system activities are subject to recording and routine review. Audit trail records must be sufficient in detail to facilitate the reconstruction of events if a compromise or malfunction occurs.

Audit trail records must be provided whenever access to a CalVCB information system is either permitted or denied; or whenever confidential or sensitive information is created or modified.

Audit trail records are created and stored with sufficient integrity and duration to hold a user accountable for their actions on a CalVCB information system.

Data Ownership

All information assets have a Data Owner who is assigned by CalVCB management. The Data Owner is responsible for authorizing access to the information, assignment of custody for the information, classifying the information, and approving any contingency plans affecting the information.

Information Classification

All CalVCB information assets are classified by their Data Owner according to the confidentiality of the information and its importance to CalVCB operations. In addition to any classification of information required for business purposes, the classification identifies if the information is confidential or subject to release as a public record as required by law. It also identifies information critical to the continuance and success of CalVCB operations.

Information System Security Practices

All CalVCB information systems and information system infrastructure elements will have specific practices, guidelines, and procedures that govern their operation relative to information security. All CalVCB information systems and information system infrastructure elements will conform to these practices, guidelines, and procedures unless the ISO has approved a specific exception.

INSTRUCTIONS FOR COMPLETING MONTHLY INVOICES

All costs in the following categories/subcategories should be included if they were necessary to perform the services under this agreement and provided for in the budget. The total for each category/subcategory should be shown in the far right column.

Personnel Services - Salaries and Wages

List each employee by name and position classification and show the percentage of time devoted to the program. Example: If the person is employed full-time, show the following: \$2,500 per month at 100% time = \$2,500. If the person is employed part-time, show the hourly rate and the number of hours devoted to the program (e.g., \$25/hour for 10 hours per month = \$250) or the monthly salary and the percentage of time devoted to the program (e.g., 50% x \$2,500 = \$1,250).

Fringe Benefits

Elements that can be included in the fixed rate include employer contributions or expenses for social security, employee life and health insurance plans, unemployment insurance and/or pension plans. Other benefits, if negotiated as a part of the employee benefit package, also may be included in the fixed rate.

The description and amounts of fringe benefits can be displayed either by category, position or class. Please note that a line item can be used for each different position/class, if the benefits vary. If several people are employed full-time or part-time in the same position/class, provide the number of full-time equivalents.

Operating Expenses

The following items fall within this category: rent, utilities, insurance, equipment rental, equipment repair, office supplies, telephone, postage, expendable equipment, overhead, data processing, training and travel. All items submitted must include a description or explanation of the expense.

The following subcategories have special requirements as noted below.

Rent

The rent subcategory is for facility rental. Indicate the number of square feet specified in the agreement as well as the rental amount.

Office Supplies

A request for office supplies in excess of \$500 per PY requires a justification for the entire amount of expenditures.

Expendable Equipment (Non-capitalized assets)

Expendable equipment includes equipment with an acquisition cost of \$499 or less per unit (including tax, installation and freight) or with a useful life of less than five years. Provide a detailed description and indicate the number of pieces of equipment being purchased.

Note

Although equipment is included in the budget, **ALL** equipment for which the county requests reimbursement from the California Compensation Board (CalVCB) must be requested in writing by the county and approved in writing by CalVCB **prior to purchase**. All requests must be submitted on the **County Purchase Request Form**. Further, CalVCB reserves the option of not reimbursing for equipment that is not requested and approved in writing prior to purchase.

Overhead/Indirect Costs

Overhead costs are indirect costs which cannot be charged to a direct cost category because they are not readily itemized or assignable to a particular program. Overhead costs are costs necessary to the operations specified in the agreement. The costs of centralized county services such as personnel or accounting services are examples of indirect costs. For further information, please refer to Exhibit D 9.

Travel

The contractor may use either its own written travel and per diem policy or the state policy in accordance with State Administrative Manual Section 0700 but it cannot exceed reimbursement rate of the state's travel policy.

Allowable travel expenses are costs for transportation, lodging, meals and incidental items incurred by the contractor staff to attend training classes, conferences, meetings, workshops or hearings. Out-of-state travel is not authorized.

Describe the purpose of the trip and list all personnel who made the trip. If applicable, show any computation if mileage is being claimed. For example, if the Specialist attended a conference in Sacramento, 100 miles @ 0.34 per mile = \$34.00.

Equipment (Capitalized Assets)

Capitalized assets includes equipment with an acquisition of \$500 or more per unit (including tax, installation and freight) or with a useful life of five years or more. Examples of such equipment are copiers, personal computers (including the monitors and CPU) and "modular furniture". Provide a detailed description and indicate the number of pieces of equipment being purchased.

For information regarding authorization to purchase equipment, please see notation under Equipment (Non-capitalized assets).

Miscellaneous Expenses

Miscellaneous expenses are those charges that do not fall within the scope of the categories listed above. Provide a detailed description and breakdown of any expense identified as miscellaneous.

DOING BUSINESS WITH THE STATE OF CALIFORNIA

The following laws apply to persons or entities doing business with the State of California.

1. CONFLICT OF INTEREST: Contractor needs to be aware of the following provisions regarding current or former state employees. If Contractor has any questions on the status of any person rendering services or involved with the Agreement, the awarding agency must be contacted immediately for clarification.

Current State Employees (Pub. Contract Code §10410):

1). No officer or employee shall engage in any employment, activity or enterprise from which the officer or employee receives compensation or has a financial interest and which is sponsored or funded by any state agency, unless the employment, activity or enterprise is required as a condition of regular state employment.

2). No officer or employee shall contract on his or her own behalf as an independent contractor with any state agency to provide goods or services.

Former State Employees (Pub. Contract Code §10411):

1). For the two-year period from the date he or she left state employment, no former state officer or employee may enter into a contract in which he or she engaged in any of the negotiations, transactions, planning, arrangements or any part of the decision-making process relevant to the contract while employed in any capacity by any state agency.

2). For the twelve-month period from the date he or she left state employment, no former state officer or employee may enter into a contract with any state agency if he or she was employed by that state agency in a policy-making position in the same general subject area as the proposed contract within the 12-month period prior to his or her leaving state service.

If Contractor violates any provisions of above paragraphs, such action by Contractor shall render this Agreement void. (Pub. Contract Code §10420)

Members of boards and commissions are exempt from this section if they do not receive payment other than payment of each meeting of the board or commission, payment for preparatory time and payment for per diem. (Pub. Contract Code §10430 (e))

2. LABOR CODE/WORKERS' COMPENSATION: Contractor needs to be aware of the provisions which require every employer to be insured against liability for Worker's Compensation or to undertake self-insurance in accordance with the provisions, and Contractor affirms to comply with such provisions before commencing the performance of the work of this Agreement. (Labor Code Section 3700)

(42 U.S.C. 12101 et seq.)

4. CONTRACTOR NAME CHANGE: An amendment is required to change the Contractor's name as listed on this Agreement. Upon receipt of legal documentation of the name change the State will process the amendment. Payment of invoices presented with a new name cannot be paid prior to approval of said amendment.

5. CORPORATE QUALIFICATIONS TO DO BUSINESS IN CALIFORNIA:

a. When agreements are to be performed in the state by corporations, the contracting agencies will be verifying that the contractor is currently qualified to do business in California in order to ensure that all obligations due to the state are fulfilled.

b. "Doing business" is defined in R&TC Section 23101 as actively engaging in any transaction for the purpose of financial or pecuniary gain or profit. Although there are some statutory exceptions to taxation, rarely will a corporate contractor performing within the state not be subject to the franchise tax.
