Re: APPLICATION #7359, GENERAL PLAN AMENDMENT APPLICATION #552, &  
APPLICATION #3825 filed by, FRESNO HUMANE ANIMAL SERVICES

Greetings: FRESNO COUNTY BOARD OF SUPERVISORS SERVICES

I am the owner of record at the above address, which is directly across Grantland Ave. from the proposed 4.15 acre site, seeking to amend the general plan, to allow M-1 zoning. May I respectfully ask that you vote NO on this application? Zoning laws have been working well for the community at large for some time now, and have established conditions of stability and trust for the system. When we consider spending a lot of money for an expensive home on 2 acres, in North West Fresno, it is important that we can expect the surrounding environment to remain free of unwelcome sights, smells, traffic, and unintended safety consequences, typically associated with industrial areas. This proposed animal shelter offers all of those problems, and many others as well to the people living in this neighborhood. Within 500 feet of a grammar school, a prominent social club, 2 churches, expensive homes, and a major north – south traffic artery carrying more than 7,500 cars a day, it will clearly be a detriment in the community for us all.

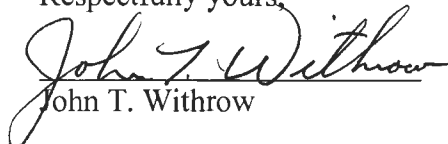

Environmental Health, Division Manager, Wayne Fox, has informed me that this animal shelter will be serving an area of 6,000, square miles, and will typically run through about 450, large and small animals every month. These are animals that have been neglected, abused, and some with serious health issues. The facility will be a 24/7, drop-off depot for dead caucuses, to be stored for pickup, once a week. My concern here was about the smell, and he could not guarantee that it would be free of foul order smells. “Then why would you support the project at this location,” I ask. He said, “They need more space, and a new facility to operate. His answer, clearly led me to believe that he had very little concern for the best interest of the neighborhood.

In the staff report, I discovered something even more provoking, which clearly doesn’t pass the smell test. Fresno County Public Works require that, all storm water run-off, be retained on site, and not dispersed into the sewer. Looking at the site plan, it appears that the applicant has neglected to design a pond basin, which would take up about a half acre to retain the water runoff. That leaves one acre or less to reside approximately a 100 large animals, in outside corrals. This sets up the likely possibility of storm water draining corral matter into the collection pond, and becoming a foul odor nuisance. During periods of natural emergencies, the migration of family pets to this site could easily overwhelm the shelter’s ability to maintain any reasonable level of quality health control, and the neighborhood would be its direct beneficiary.

There were four Planning Commissioners who could not support this amendment to the general plan, allowing M-1, zoning, simply because of its adverse effect on the neighborhood. Commissioner Lawson, had the best solution by far. He stated; "there is an ample amount of land on the east side of 99 freeway currently owned by the City of Fresno, and or the State, and high speed rail, which they will never use and, it is all zoned M-1. There could be a deal made there. I don't like to see this built in a residential area." The deciding vote came from a commissioner who agreed precisely with the four, No votes. His final statement was: "The shelter should be more centrally located. They could go across the freeway. This is a nonprofit, and they have a donor willing to give them free land, it makes some sense." I strongly disagree. It does not make sense. The site is too small, with no room for expansion. The operational narrative presented by Fresno Humane, clearly states that, "they plan to expand." If this facility is approved, and turns out to be a bad deal, it cannot be reversed. The site will forever be a public nuisance.

Supervisors will certainly be facing a lot of political pressure to support this amendment to change the general plan. Ironically, the promise of free stuff has attracted a lot of supporters to this animal shelter. They are people who would not want it built across the street from where they live, but will totally accept any level of discomfort, to the quality of life for those living in this area. Therefore, I hereby respectfully ask that you vote against this nonconforming use of land in Fresno County. If you can find the strength to do that, I can assure you that the neighborhood and at least 5 Planning Commissioners will agree with your decision.

Respectfully yours,

  
John T. Withrow

## Legal Description

1. **Introduction**

## Project Description

## Project Site Map

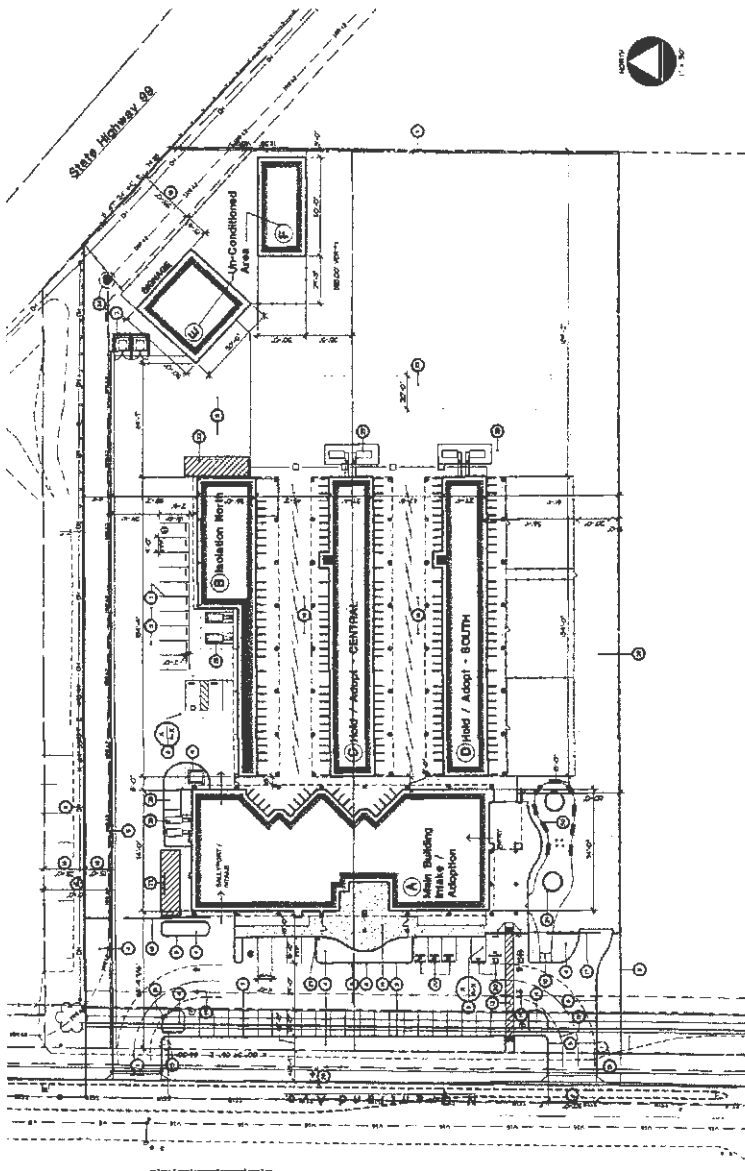

## Keyed Site Plan Notes

- |   |   |   |
|---|---|---|
| 1 | What is the purpose of the study?       | 1. To determine the effect of the new curriculum on the learning outcomes of the students in the primary schools. |
| 2 | What is the research design?            | 2. A quasi-experimental design was used.  |
| 3 | What is the sample size?                | 3. The sample size was 100 students from five primary schools.  |
| 4 | What is the data collection instrument? | 4. The data collection instrument was a questionnaire.  |
| 5 | What is the data analysis technique?    | 5. The data analysis technique was statistical analysis.  |
| 6 | What is the conclusion?                 | 6. The conclusion was that the new curriculum had a positive effect on the learning outcomes of the students.     |
| 7 | What is the recommendation?             | 7. The recommendation was that the new curriculum should be implemented in all primary schools.                   |
| 8 | What is the limitation of the study?    | 8. The limitation of the study was that the sample size was small.  |
| 9 | What is the future research?            | 9. The future research was to conduct a larger study to confirm the findings of this study.                       |

Subject: Letter of Support for the Proposed "Animal Shelter/Hospital" Project Filed by Fresno Humane Animal Services Initial Study Application No. 7359; General Plan Amendment Application No. 552;and Amendment Application No. 3852

To :

Chairman Sal Quintero  
Hall of Records, Room 301  
2281 Tulare Street  
Fresno, California 93721-2198

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project  
Filed by Fresno Humane Animal Services  
Initial Study Application #7259; General Plan Amendment Application #552;  
and Amendment Application #3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4 acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission

agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

---

Fresno Humane Animal Services is wanting to build a brand new state of the art animal shelter for Fresno County. It's entirely private funded construction, so no new or bigger taxes or tax money going towards this construction. This issue has already gone before the Fresno County Planning Commission with full support of Planning Commission staff and passed. The next hurdle is when it goes before the County Board of Supervisors on 9/11/18. This shelter is desperately needed and we need the County to approve construction.

Right now FHAS is working out of the parking lot of the old abandoned morgue! It was supposed to be temporary but has gone on for three or more years using that location. FHAS has been highly successful bringing the 80% euthanasia rate down to 10% or less and an astounding 5.2% last month.

Attached is a letter of support for your signatures if you are willing. An artist's rendering of the project is also attached. If you are in support of this brand new shelter, please sign the letter and return it to me. Thank you so much.

Fresno Humane Animal Services is the facility that assists with our Old Fig Garden County Island area.

If you would like to sign the letter, you can email it back to me and I will see that it gets processed.

Thank you  
Louise

agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of Fresno. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project. Thank you for your time.

Sincerely,

Randeem Walter

CLERK. BOARD OF SUPERVISORS

Dear Chairman Sal Quintero,

I have written to you in regard to the proposed Animal Shelter Project filed by Fresno Humane Animal Services and to state my support for this project because I strongly believe it will help our community to better care for the large population of homeless animals that go into Fresno's shelter system each year. Currently, the Central California Society for the Prevention of Cruelty to Animals (CCSPCA) is the largest provider of animal control and animal care services for animals in Fresno and it is falling severely short in performing its duties responsibly and effectively. The CCSPCA's current euthanasia rate is a shocking over 62%. Furthermore, my loved ones and I have called the CCSPCA on several occasions over the years to report either a loose animal in traffic or a potential case involving animal cruelty and every time we have had over a 20-minute wait on the phone and situations involving animal neglect or abuse that we reported were completely ignored until we called nearly three to four times for the same issue because it was not looked into. Fresno Humane's track record and transparency far exceeds that of the CCSPCA's.

It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018. I strongly believe that this project has been carefully designed by the applicant and has received review by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project  
Filed by Fresno Humane Animal Services  
Initial Study Application No. 7359; General Plan Amendment Application No. 552;  
and Amendment Application No. 3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project  
Filed by Fresno Humane Animal Services  
Initial Study Application #7359; General Plan Amendment Application #552;  
and Amendment Application #3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4 acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project  
Filed by Fresno Humane Animal Services  
Initial Study Application No. 7359; General Plan Amendment Application No. 552;  
and Amendment Application No. 3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project  
Filed by Fresno Humane Animal Services  
Initial Study Application No. 7359; General Plan Amendment Application No. 552;  
and Amendment Application No. 3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project  
Filed by Fresno Humane Animal Services  
Initial Study Application #7359; General Plan Amendment Application #552;  
and Amendment Application #3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4 acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project  
Filed by Fresno Humane Animal Services  
Initial Study Application No. 7359; General Plan Amendment Application No. 552;  
and Amendment Application No. 3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

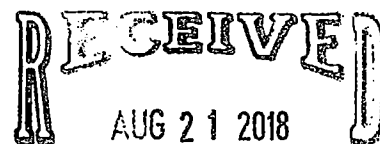

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project  
Filed by Fresno Humane Animal Services  
Initial Study Application #7359; General Plan Amendment Application #552;  
and Amendment Application #3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4 acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project  
Filed by Fresno Humane Animal Services  
Initial Study Application No. 7359; General Plan Amendment Application No. 552;  
and Amendment Application No. 3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

and Amendment Application No. 3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project  
Filed by Fresno Humane Animal Services  
Initial Study Application No. 7359; General Plan Amendment Application No. 552;  
and Amendment Application No. 3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. and Amendment Application No. 3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Subject: Letter of Support for the proposed "Animal Shelter / Hospital" project filed by Fresno Humane Animal Services: ( Initial Study Application No. 7359; General Plan Amendment Application No. 552; Amendment Application No. 3852 )

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter / Hospital" on 4 acres of land in the northwest area of the Community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11<sup>th</sup>, 2018. In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. In addition, the Planning Commission reviewed the proposed project on July 26<sup>th</sup>, 2018 and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc. ) are actually less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project  
Filed by Fresno Humane Animal Services  
Initial Study Application No. 7359; General Plan Amendment Application No. 552;  
and Amendment Application No. 3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project  
Filed by Fresno Humane Animal Services  
Initial Study Application No. 7359; General Plan Amendment Application No. 552;  
and Amendment Application No. 3852

Dear Chairman Quintero,

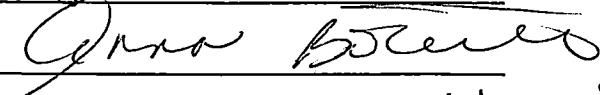

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

and Amendment Application No. 3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Subject: Letter of Support for the proposed "Animal Shelter / Hospital" project filed by Fresno Humane Animal Services: ( Initial Study Application No. 7359; General Plan Amendment Application No. 552; Amendment Application No. 3852 )

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter / Hospital" on 4 acres of land in the northwest area of the Community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11<sup>th</sup>, 2018. In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. In addition, the Planning Commission reviewed the proposed project on July 26<sup>th</sup>, 2018 and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc. ) are actually less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

CLERK. BOARD OF SUPERVISORS

Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project  
Filed by Fresno Humane Animal Services  
Initial Study Application No. 7359; General Plan Amendment Application No. 552;  
and Amendment Application No. 3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Subject: Letter of Support for the proposed "Animal Shelter / Hospital" project filed by Fresno Humane Animal Services: ( Initial Study Application No. 7359; General Plan Amendment Application No. 552; Amendment Application No. 3852 )

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter / Hospital" on 4 acres of land in the northwest area of the Community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11<sup>th</sup>, 2018. In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. In addition, the Planning Commission reviewed the proposed project on July 26<sup>th</sup>, 2018 and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc. ) are actually less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project  
Filed by Fresno Humane Animal Services  
Initial Study Application No. 7359; General Plan Amendment Application No. 552;  
and Amendment Application No. 3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Filed by Fresno Humane Animal Services  
Initial Study Application No. 7359; General Plan Amendment Application No. 552;  
and Amendment Application No. 3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

and Amendment Application No. 3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Subject: Letter of Support for the proposed "Animal Shelter / Hospital" project filed by Fresno Humane Animal Services: ( Initial Study Application No. 7359; General Plan Amendment Application No. 552; Amendment Application No. 3852 )

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter / Hospital" on 4 acres of land in the northwest area of the Community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11<sup>th</sup>, 2018. In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. In addition, the Planning Commission reviewed the proposed project on July 26<sup>th</sup>, 2018 and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc. ) are actually less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project  
Filed by Fresno Humane Animal Services  
Initial Study Application No. 7359; General Plan Amendment Application No. 552;  
and Amendment Application No. 3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project  
Filed by Fresno Humane Animal Services  
Initial Study Application No. 7359; General Plan Amendment Application No. 552;  
and Amendment Application No. 3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project  
Filed by Fresno Humane Animal Services  
Initial Study Application #7359; General Plan Amendment Application #552;  
and Amendment Application #3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4 acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4 acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

The applicant has "conditioned" the County Applications to only allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project  
Filed by Fresno Humane Animal Services  
Initial Study Application No. 7359; General Plan Amendment Application No. 552;  
and Amendment Application No. 3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

and Amendment Application #3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4 acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

and Amendment Application No. 3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

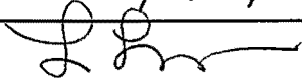

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project  
Filed by Fresno Humane Animal Services  
Initial Study Application #7359; General Plan Amendment Application #552;  
and Amendment Application #3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4 acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Initial Study Application #7359; General Plan Amendment Application #552;  
and Amendment Application #3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4 acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.
