CLERK, BOARD OF SUPERVISORS

I have had the pleasure of volunteering in the rescue world in Fresno for over 5 years. I know what it was like when we had a county shelter that did not care about the welfare of the animals in Fresno, when Liberty Animal Services had the contract to serve the county. Then, a fabulous group of dedicated individuals took over the county shelter and it became Fresno Humane Animal Services. The difference was astounding. Euthanasia rates plummeted and rescue rates soared. Vaccine clinics were offered at many locations and microchips and spay/neuter help was offered to those in need. What a difference when people really care!

I personally know many of these incredible people at FHAS that work day and night to save homeless, helpless, abandoned and mistreated animals. They work in a parking lot of a condemned morgue in the 100 plus degree temperatures and the freezing cold winters, to save these precious animals and give them a chance to have a better life. They live and breathe this every single day. They are the best of the best and I know that they have searched, interviewed and visited successful shelters throughout California to make the new Fresno Humane a state of art facility. I know that it is something that is so needed and Fresno will be so proud of it when it is completed.

I am in 1,000 percent support of this new shelter and can not wait until I can take a tour and help volunteer.

Thank you for letting me share,

Sincerely, Laura Williams

Dear Board of Supervisors,

I have been following the story of Fresno Humane Services from the very beginning.

I remember reading Brenda's post on Facebook. The first day Brenda Mitchell drove down the mortuary driveway towards the dogs.

"Here we go".

What a nightmare this woman faced.

The transformation from tragedy to hope and life-saving is nothing short of a Miracle. A Miracle that Brenda and her staff made happen.

Please continue to help them achieve the goal of having a proper shelter for the animals. Help them to have comfort and shelter from the elements. Help them accept the property that was so generously donated. Fresno Humane Services will be the best thing that happens to this area. Good people. Good neighbors.

You, dear Supervisors, chose Fresno Humane Services to lead the way.

Please continue to help them on their way.

This is the right thing to do.

ACT in favor of continued support.

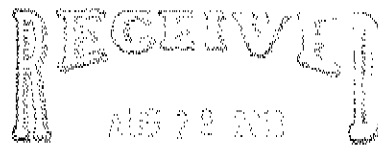

Sincerely,

Tobey Bonaker R.N.

Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project
Filed by Fresno Humane Animal Services
Initial Study Application No. 7359; General Plan Amendment Application No. 552;
and Amendment Application No. 3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

and Amendment Application No. 3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project
Filed by Fresno Humane Animal Services
Initial Study Application No. 7359; General Plan Amendment Application No. 552;
and Amendment Application No. 3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project
Filed by Fresno Humane Animal Services
Initial Study Application No. 7359; General Plan Amendment Application No. 552;
and Amendment Application No. 3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Initial Study Application No. 7359; General Plan Amendment Application No. 552;
and Amendment Application No. 3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project
Filed by Fresno Humane Animal Services
Initial Study Application No. 7359; General Plan Amendment Application No. 552;
and Amendment Application No. 3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project
Filed by Fresno Humane Animal Services
Initial Study Application No. 7359; General Plan Amendment Application No. 552;
and Amendment Application No. 3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project
Filed by Fresno Humane Animal Services
Initial Study Application No. 7359; General Plan Amendment Application No. 552;
and Amendment Application No. 3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project
Filed by Fresno Humane Animal Services
Initial Study Application No. 7359; General Plan Amendment Application No. 552;
and Amendment Application No. 3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project
Filed by Fresno Humane Animal Services
Initial Study Application No. 7359; General Plan Amendment Application No. 552;
and Amendment Application No. 3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Initial Study Application No. 7359; General Plan Amendment Application No. 552;
and Amendment Application No. 3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project
Filed by Fresno Humane Animal Services
Initial Study Application No. 7359; General Plan Amendment Application No. 552;
and Amendment Application No. 3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project
Filed by Fresno Humane Animal Services
Initial Study Application No. 7359; General Plan Amendment Application No. 552;
and Amendment Application No. 3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project
Filed by Fresno Humane Animal Services
Initial Study Application #7359; General Plan Amendment Application #552;
and Amendment Application #3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4 acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project
Filed by Fresno Humane Animal Services
Initial Study Application No. 7359; General Plan Amendment Application No. 552;
and Amendment Application No. 3852

Dear Chairman Quintero,

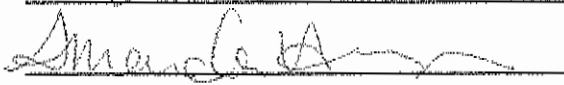

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

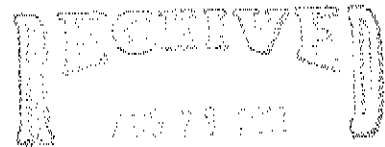

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project
Filed by Fresno Humane Animal Services
Initial Study Application No. 7359; General Plan Amendment Application No. 552;
and Amendment Application No. 3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project
Filed by Fresno Humane Animal Services
Initial Study Application No. 7359; General Plan Amendment Application No. 552;
and Amendment Application No. 3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project
Filed by Fresno Humane Animal Services
Initial Study Application No. 7359; General Plan Amendment Application No. 552;
and Amendment Application No. 3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. Subject: Letter of Support for the proposed "Animal Shelter / Hospital" project filed by Fresno Humane Animal Services: (Initial Study Application No. 7359; General Plan Amendment Application No. 552; Amendment Application No. 3852)

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter / Hospital" on 4 acres of land in the northwest area of the Community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11th, 2018. In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. In addition, the Planning Commission reviewed the proposed project on July 26th, 2018 and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are actually less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project
Filed by Fresno Humane Animal Services
Initial Study Application No. 7359; General Plan Amendment Application No. 552;
and Amendment Application No. 3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. Initial Study Application No. 7359; General Plan Amendment Application No. 552;
and Amendment Application No. 3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project
Filed by Fresno Humane Animal Services
Initial Study Application No. 7359; General Plan Amendment Application No. 552;
and Amendment Application No. 3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project
Filed by Fresno Humane Animal Services
Initial Study Application No. 7359; General Plan Amendment Application No. 552;
and Amendment Application No. 3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project
Filed by Fresno Humane Animal Services
Initial Study Application No. 7359; General Plan Amendment Application No. 552;
and Amendment Application No. 3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter / Hospital" on 4 acres of land in the northwest area of the Community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11th, 2018. In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. In addition, the Planning Commission reviewed the proposed project on July 26th, 2018 and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are actually less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Subject: Letter of Support for the proposed "Animal Shelter / Hospital" project filed by Fresno Humane Animal Services: (Initial Study Application No. 7359; General Plan Amendment Application No. 552; Amendment Application No. 3852)

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter / Hospital" on 4 acres of land in the northwest area of the Community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11th, 2018. In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. In addition, the Planning Commission reviewed the proposed project on July 26th, 2018 and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are actually less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

and Amendment Application No. 3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Subject: Letter of Support for the proposed "Animal Shelter / Hospital" project filed by Fresno Humane Animal Services: (Initial Study Application No. 7359; General Plan Amendment Application No. 552; Amendment Application No. 3852)

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter / Hospital" on 4 acres of land in the northwest area of the Community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11th, 2018. In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. In addition, the Planning Commission reviewed the proposed project on July 26th, 2018 and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are actually less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project
Filed by Fresno Humane Animal Services
Initial Study Application No. 7359; General Plan Amendment Application No. 552;
and Amendment Application No. 3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

and Amendment Application No. 3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

This type of use is very much needed in the community and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are actually less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Subject: Letter of Support for the proposed "Animal Shelter / Hospital" project filed by Fresno Humane Animal Services: (Initial Study Application No. 7359; General Plan Amendment Application No. 552; Amendment Application No. 3852)

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter / Hospital" on 4 acres of land in the northwest area of the Community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11th, 2018. In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. In addition, the Planning Commission reviewed the proposed project on July 26th, 2018 and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are actually less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. In addition, the Planning Commission reviewed the proposed project on July 26th, 2018 and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are actually less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Subject: Letter of Support for the proposed "Animal Shelter / Hospital" project filed by Fresno Humane Animal Services: (Initial Study Application No. 7359; General Plan Amendment Application No. 552; Amendment Application No. 3852)

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter / Hospital" on 4 acres of land in the northwest area of the Community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11th, 2018. In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. In addition, the Planning Commission reviewed the proposed project on July 26th, 2018 and heard testimony both for and against the proposal. Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project
Filed by Fresno Humane Animal Services
Initial Study Application No. 7359; General Plan Amendment Application No. 552;
and Amendment Application No. 3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project
Filed by Fresno Humane Animal Services
Initial Study Application No. 7359; General Plan Amendment Application No. 552;
and Amendment Application No. 3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project
Filed by Fresno Humane Animal Services
Initial Study Application No. 7359; General Plan Amendment Application No. 552;
and Amendment Application No. 3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project
Filed by Fresno Humane Animal Services
Initial Study Application No. 7359; General Plan Amendment Application No. 552;
and Amendment Application No. 3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

and Amendment Application No. 3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project
Filed by Fresno Humane Animal Services
Initial Study Application No. 7359; General Plan Amendment Application No. 552;
and Amendment Application No. 3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project
Filed by Fresno Humane Animal Services
Initial Study Application No. 7359; General Plan Amendment Application No. 552;
and Amendment Application No. 3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

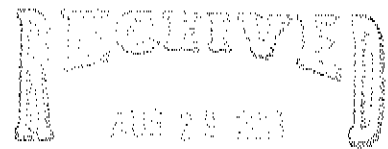

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project
Filed by Fresno Humane Animal Services
Initial Study Application No. 7359; General Plan Amendment Application No. 552;
and Amendment Application No. 3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project
Filed by Fresno Humane Animal Services
Initial Study Application No. 7359; General Plan Amendment Application No. 552;
and Amendment Application No. 3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project
Filed by Fresno Humane Animal Services
Initial Study Application No. 7359; General Plan Amendment Application No. 552;
and Amendment Application No. 3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project
Filed by Fresno Humane Animal Services
Initial Study Application No. 7359; General Plan Amendment Application No. 552;
and Amendment Application No. 3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

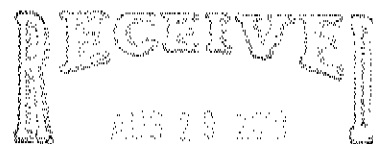

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project
Filed by Fresno Humane Animal Services
Initial Study Application No. 7359; General Plan Amendment Application No. 552;
and Amendment Application No. 3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project
Filed by Fresno Humane Animal Services
Initial Study Application No. 7359; General Plan Amendment Application No. 552;
and Amendment Application No. 3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Filed by Fresno Humane Animal Services
Initial Study Application No. 7359; General Plan Amendment Application No. 552;
and Amendment Application No. 3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project
Filed by Fresno Humane Animal Services
Initial Study Application No. 7359; General Plan Amendment Application No. 552;
and Amendment Application No. 3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

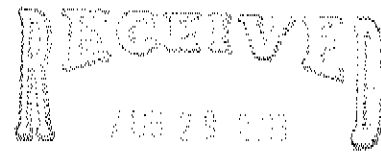

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project
Filed by Fresno Humane Animal Services
Initial Study Application No. 7359; General Plan Amendment Application No. 552;
and Amendment Application No. 3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

CLERK, BOARD OF SUPERVISORS

Subject: Letter of Support for the proposed "Animal Shelter / Hospital" project filed by Fresno Humane Animal Services: (Initial Study Application No. 7359; General Plan Amendment Application No. 552; Amendment Application No. 3852)

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter / Hospital" on 4 acres of land in the northwest area of the Community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11th, 2018. In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. In addition, the Planning Commission reviewed the proposed project on July 26th, 2018 and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

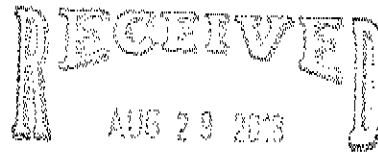

This type of use is very much needed in the community and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are actually less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project
Filed by Fresno Humane Animal Services
Initial Study Application No. 7359; General Plan Amendment Application No. 552;
and Amendment Application No. 3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project
Filed by Fresno Humane Animal Services
Initial Study Application No. 7359; General Plan Amendment Application No. 552;
and Amendment Application No. 3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project
Filed by Fresno Humane Animal Services
Initial Study Application No. 7359; General Plan Amendment Application No. 552;
and Amendment Application No. 3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project
Filed by Fresno Humane Animal Services
Initial Study Application No. 7359; General Plan Amendment Application No. 552;
and Amendment Application No. 3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project
Filed by Fresno Humane Animal Services
Initial Study Application No. 7359; General Plan Amendment Application No. 552;
and Amendment Application No. 3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project
Filed by Fresno Humane Animal Services
Initial Study Application No. 7359; General Plan Amendment Application No. 552;
and Amendment Application No. 3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.
