CLERK. BOARD OF SUPERVISORS

Subject: Proposed Animal Shelter and Hospital
Application Number: AA3825

This letter is in response to the proposed animal shelter and hospital development located east of Grantland, north of Tenaya alignment, adjacent to Hwy 99. The District has reviewed the above referenced development, along with the mitigated negative declaration and the District takes a neutral position on the project. There are no foreseeable impacts to our facilities and the District takes no exception to the project. However, the District requests noise mitigation as proposed in the environmental analysis.

Developer impact fees from the proposed animal shelter and hospital will be classified under the commercial/industrial rate. The current Developer Fee Rates for commercial/industrial are \$.56 per square foot. Developer rates are evaluated annually and are subject to change. Please verify Developer Impact Fees prior to payment.

Should you need further information or have any questions, please contact me at (559) 274-4700 ext. 63100 or josephmartinez@centralusd.k12.ca.us

Sincerely,

Joseph Martinez

Dear supervisors

A baby. A baby dog was stolen. This baby was safe now it's in danger.

Fresno Humane Services does not have an actual SHELTER. The dogs under their care are not secure. They sit in cages. On a parking lot. This is shameful.

This is the second dog stolen. The other was a bull dog that needed medication. He was never found.

Please, for the love of God and everything that is right, PLEASE support the shelter.

Fresno Humane Services has to get off the parking lot of the condemned morgue.

You did the right thing by awarding FHS the county contract.

Please do the right thing and support them on September 11.

Sincerely

Tobey Bonaker R.N.

Dear Board of Supervisors,

I have been following the story of Fresno Humane Services from the very beginning.

I remember reading Brenda's post on Facebook. The first day Brenda Mitchell drove down the mortuary driveway towards the dogs.

"Here we go".

What a nightmare this woman faced.

The transformation from tragedy to hope and life-saving is nothing short of a Miracle. A

Miracle that Brenda and her staff made happen.

Sadly, there have been abductions from FHS. The most recent was a puppy. One was a bulldog in need of medication. FHS needs a secure building. Not the parking lot of the condemned morgue.

Please continue to help them achieve the goal of having a proper shelter for the animals. Help them to have comfort and shelter from the elements. Help them accept the property that was so generously donated. Fresno Humane Services will be the best thing that happens to this area. Good people. Good neighbors.

You, dear Supervisors, chose Fresno Humane Services to lead the way.

Please continue to help them on their way.

This is the right thing to do.

ACT in favor of continued support.

Sincerely,

Tobey Bonaker R.N.

Mr Pacheco,

I live in a neighborhood at Barstow and Grantland. I am writing to you to voice my opposition to the proposed animal shelter at Grantland near Hwy 99. The animal shelter we bring more vehicular traffic to a already congested area. Also the proximity to Hernon-Barstow elementary school make the site a poor choice for an animal shelter. Although the county is in need of an animal shelter, it should be built in an industrial part of the county.

Thank you,
David Holguin

Re: Letter of Opposition Amend Fresno County General Plan for Industrial Zoning in Residential Fresno

Dear Supervisor Pacheco:

There are a few reasons as to why I object to the proposed location for Mr. Riddenhour's private venture. I must state that the cause is not the issue, but rather the location. I worked for Madera County Animal Services for 5 1/2 years. The majority of that time was as an animal services officer and I was responsible for overseeing dog licensing for Madera County. I am also a graduate of the University of California, Davis with a Bachelor Degree in Animal Science. As a resident of Forgotten Fresno I have a daughter in kindergarten, and a son in second grade. They attend Herndon Barstow Elementary School.

Being in such close proximity to an elementary school there is a natural concern about stray animals gravitating toward the school. From my previous work experience as an animal control officer, I have picked up many stray dogs from school campuses, as well as trapped cats. We assumed that animals impounded at the shelter were not vaccinated, and so this brings up issues pertaining to environmental health and public safety. It is our responsibility as a community to protect our children and ensure their safety. Inevitably, animals will be abandoned during the timeframe of when the facility is closed. This is unfortunate but it is part of the animal control world. The community heavily travels this location and often many are excessively speeding down Grantland. Given this fact, I do foresee animals being injured or killed as a result.

This property was not intended for such a facility, as the original zoning was not designated for it. Allowing the modification to the zoning can open the door in the future to other unwanted businesses, and facilities. It should remain as it was originally intended. I am sure a more centralized location would better serve Fresno County residents rather than a location at the northern

border of a county that is approximately 6,000 plus square miles. I submitted an inquiry to your office regarding animal services for Fresno County. My inquiry was forwarded to Wayne Fox with the Environmental Health Department. A few of the questions pertained to which zip code the most service calls and animals were impounded from. The 93706 zip code was the answer for both. Coincidentally Kearney Park, also in the 93706 zip code is where livestock are housed when they are impounded with Fresno Humane Animal Services. The 93706 zip code is a more central location for Fresno County residents to travel to and certainly is something that administration should look into. If Animal Services is serious about dealing with the problem directly then they should target an area that is in desperate need of their services rather than a location where over two months out of the year they did not receive service calls from in 2017.

I have many former colleagues in the animal shelter and animal rescue sector that are displeased that I am "not on their side" when it comes to this particular location. Brenda Hill, a Fresno Humane Animal Services employee even attempted to confront me via Facebook Messenger in a vulgar fashion. They have even created an online petition to show there are many individuals that support them. Indeed, there are, but how many live in the neighborhood? How many don't have children attending the elementary school right across the street from the proposed location? How many of them do not commute through the area daily for work? The answer would probably be the majority of individuals that signed that petition. They are not within the jurisdiction, the neighborhood, or the community. Their passion is respected and understood; my objections come as a parent and homeowner in the community. I recognize that this is Fresno County's jurisdiction but a turn here or a turn there and you are in the City of Fresno limits

Here in the 93723 zip code we have multiple options for veterinary service as well. HOPE Animal Foundation is right down the street. Pamoist Pet Hospital is close and convenient in Highway City. HOPE and Pamoist offer walk-in shot clinics at convenient times. All Creatures Vet Hospital is recommended by many in the rescue community and is nearby. I did a search for veterinarians in 93706, which is the zip code where the most service calls and animals were impounded by Fresno Humane Animal Services in 2017. One veterinarian, Dr. Eib was located. He received great reviews, but appears to only be open for half days. A state of the art veterinary facility would be very appropriate in this area to help turn around the overpopulation problems of Fresno County.

During my employment with Madera County, we changed ordinances to streamline the dog licensing process with rabies vaccines. Veterinarians in the county were to report their rabies vaccine data so that our office could follow up with compliance. The ordinances also helped to synchronize the dog license expiration dates with those of the validity of the rabies vaccine. Part of the job of Animal Services is rabies enforcement, which in turn can generate revenue to help subsidize the county's expenses. My inquiry asked for 2017 dog license revenue and just under \$13,000.00 was received. In my last fiscal year with Madera County Animal Services approximately \$73,000.00 was received for dog and cat licenses. I would love to share my experiences with the board if they would like to speak further on the subject. There is so much that Fresno County can do administratively to support their Animal Services as it is my understanding that as of yet Fresno County does not contribute to the subsidizing of spay/neuter efforts of Fresno Humane Animal Services. While Mr. Riddenhour's gesture is generous, Animal Services should be generating their own residual income.

I would also like to know if there are any California Environmental Quality Act concerns for the adjacent landowners or the surrounding neighborhood. The introduction of an animal shelter to this unoccupied land parcel could have significant negative environmental impacts. Animal shelters require a lot of water, ventilation, sewage, space, livestock pens, and more. Traffic is already congested and adding more stress to an already high traffic zone is concerning. I'm also concerned

that Central Unified School District did not provide any input to the Fresno County Planning Commission which could present more mitigating issues.

August 17, 2018 my car was broken into and for me the most tragic part was that my son's birthday gifts were stolen. Our neighborhoods are quiet, and they should be. No one really needs to head out here because we have nothing out here in Forgotten Fresno. We definitely do not need an animal shelter, nor another Derrel's Mini Storage. Part of my fear is that the shelter will introduce people to our neighborhood that are less than desirable and potentially commit crimes. I know that the clientele of impounded pets can at times not be upstanding citizens. Please consider if you would like to live next to this facility or if you would like to have an animal shelter across the street from your child or grandchild's school. I believe your response would be no.

In closing, I thank you for your time and consideration. Many of the supporters of this cause are good, hard working individuals. Their support identifies the fact that a facility is needed, but not in this neighborhood. They would support this facility no matter where it were proposed to be built in Fresno County. Many are not a part of our community and are clueless as to the lack of infrastructure we have out here and keeping our residential area residential is a high priority.

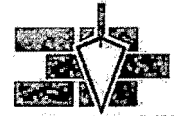

Sincerely,

Elisa Bilios

RE: Letter of *Opposition* for the proposed "Animal Shelter/Hospital Project" to be located at
APN 504-081-025/035

Dear Chairman Pacheco and Supervisors,

There is a re-zoning vote on September 11, 2018 to change the existing Rural Residential zoning to an M-1(c) use to build a new animal shelter/hospital for the Fresno Humane Society. I am vehemently opposed to the location, not the cause. While I am an animal advocate that believes in caring for animals is a responsibility of the human race, I don't think the location should be in a neighborhood which most of the neighbors here located to be away from commercial businesses. I live directly across 2 lots from the site in question and have been here for 18 years. I believe it should be in a location already zoned for that particular use.

There is a letter/petition being circulated on the internet right now which I believe most of the signatures are from non-neighborhood residents. I am petitioning my neighborhood who would be immediately impacted by the construction of this facility at this site and I can tell you by my conversations, most are against it.

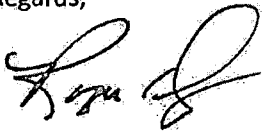

There is a school and 2 churches very close. There will be added traffic, people dropping dogs at all hours even if this facility is closed which then that threat of loose animals comes into my front yard. The ingress/egress will be catastrophic as it is on a one-way side of the street that is not easily accessible. I know because I live here and see the traffic every day at all hours. I understand that this scenario can happen anywhere, but the increase in odds are dramatic if you allow this facility to be built. Remember, it only passed the planning commission by one vote. John Lawson, one of the opposing commissioners, asked why not look across the freeway where M-1 zoning already exists? FHS did not even look at another potential site. I understand also that the land is being donated by Mr. Ridenour, but that does not make the zoning change right? This land was bought at a bargain Rural Residential price and now rolling it into a commercial zoning will only open the door for other owners to change their zoning in my neighborhood. I have battled the owner of the property of the two lots on Herndon and Parkway for years when he has tried a zone change and this approval would most certainly re-ignite that debate. We have enough to deal with having the 76 station customers breaking every traffic rule in the book! This proposed site is NOT centrally located in Fresno as some of the petition letters have stated. Its merely a mile from the Madera line!

Derrell Ridenour claims to be building a Derrel's Mini Storage directly on the property line of this proposed facility in 5 years. He wants a variance from the Board of Supervisors to allow a chain link fence for the property in lieu of a masonry fence which is more secure to house the animals. Being a contractor in the County of Fresno, I have to abide by rules and codes and I don't feel any special treatment would be warranted here just because he wants more storage space. The county code is written for a reason just as the zonings were placed when the tract maps were approved. Sometimes change is appropriate. This is not one of those times.

I have built several animal shelters in the state including Visalia's, Avenal and currently a very large one in Elk Grove. All of them are located in Industrial/Commercial areas and nowhere close to homes. Especially a neighborhood that has been developed and lived in for over 30 years!

The Planning Commission meeting had a room full of people that were proactive for this project, including myself, but everyone I saw lived in a different part of town. I never heard of a town hall that happened at the Dante Club where all the people who are for this site attended. None of my neighbors knew anything until the letter from the County was mailed to me the week prior to the Planning Commission meeting. I believe staff from the County may have been misled as the people who will be directly affected by its location do not want to hear, smell or see this project here in our neighborhood. Please vote NO on this re-zoning application! My neighbors and I are counting on the Board of Supervisors to do the right thing! Thank you.

Regards,

Roger Day

Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project
Filed by Fresno Humane Animal Services
Initial Study Application #7359; General Plan Amendment Application #552;
and Amendment Application #3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4 acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

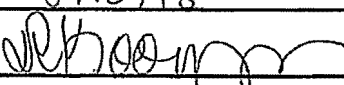

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project
Filed by Fresno Humane Animal Services
Initial Study Application No. 7359; General Plan Amendment Application No. 552; and
Amendment Application No. 3852

Mr. Quintero,

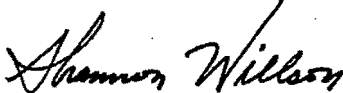

I am writing in support of the proposed animal shelter to be built at Grantland and Highway 99.

For far too long (over 5 years!) the County has allowed the animal control shelter to operate on the parking lot of a condemned morgue, which is far from ideal for both the animals and the staff trying to save lives out there. As you know, Darrell Ridenour has offered to donate both land and funds for the building. This is an amazing opportunity to provide the community with a shelter that they can be proud of. The work that FHAS has done with substandard accommodations is nothing short of miraculous and has already gained national attention. Just think what they could accomplish with an actual shelter.

The planning committee approved the site and I believe the Supervisors will have the final approval for the entire project. I implore the Supervisors to do whatever it takes to make this happen! You will hear some dissent among the neighbors, but this happens anytime there is a project anywhere in the city or county. There is a fairly common impulse to want these projects to go "somewhere else" and that the proposed location is "not a good place" for whatever the project might be. In this case, careful thought and consideration was put into every aspect of the plan to address any and all concerns of the neighborhood. The building will face the freeway, will actually block freeway noise, there will be adequate drainage, ventilation, fencing, equipment to hold deceased animals, staggered hours to lessen impact on the traffic, etc. I am convinced that the neighborhood will grow to appreciate this shelter, in much the same way that Fresno Bully Rescue has been accepted by the neighbors in Sanger that protested the construction of their rescue.

Fresno Humane only wants to continue save lives and to do so in a more efficient and compassionate manner with an actual shelter and a County that partners with them. This really is the opportunity to make Fresno stand out as it pertains to the care of shelter animals.

Thank you for your support.

It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

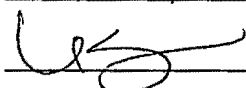

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project
Filed by Fresno Humane Animal Services
Initial Study Application No. 7359; General Plan Amendment Application
No. 552; and Amendment Application No. 3852

Dear Chairman Quintero,

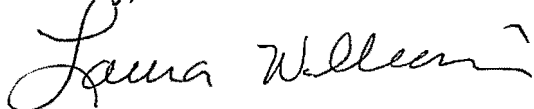

I have had the pleasure of volunteering in the rescue world in Fresno for over 5 years. I know what it was like when we had a county shelter that did not care about the welfare of the animals in Fresno, when Liberty Animal Services had the contract to serve the county. Then, a fabulous group of dedicated individuals took over the county shelter and it became Fresno Humane Animal Services. The difference was astounding. Euthanasia rates plummeted and rescue rates soared. Vaccine clinics were offered at many locations and microchips and spay/neuter help was offered to those in need. What a difference when people really care!

I personally know many of these incredible people at FHAS that work day and night to save homeless, helpless, abandoned and mistreated animals. They work in a parking lot of a condemned morgue in the 100 plus degree temperatures and the freezing cold winters, to save these precious animals and give them a chance to have a better life. They live and breathe this every single day. They are the best of the best and I know that they have searched, interviewed and visited successful shelters throughout California to make the new Fresno Humane a state of art facility. I know that it is something that is so needed and Fresno will be so proud of it when it is completed.

I am in 1,000 percent support of this new shelter and can not wait until I can take a tour and help volunteer.

Thank you for letting me share,

Sincerely, Laura Williams

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

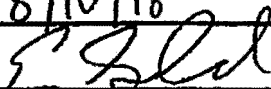

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project
Filed by Fresno Humane Animal Services
Initial Study Application #7359; General Plan Amendment Application #552;
and Amendment Application #3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4 acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project
Filed by Fresno Humane Animal Services
Initial Study Application No. 7359; General Plan Amendment Application No. 552; and Amendment Application No. 3852

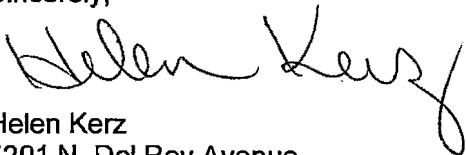

Dear Mr. Quintero,

The Fresno Humane Animal Services is in desperate need of a new facility. If the new proposed sight is approved it will allow homeless pets to have a humane place to live until they find a forever home. This new facility will not encourage a criminal element as stated because the shelter will do background searches and hire upstanding pet loving residents to care for the animals and will be a great additional to the neighborhood.

I adopted my toy poodle Suzy Q from Laura Villarrel-Williams at ACT rescue. ACT volunteers in the Fresno area have taken many of these shelter pets into their homes to find them loving homes. These volunteers have donated countless hours to give these homeless animals forever homes. They have increased the pet adoptions in the area by astounding numbers. Suzy Q is a loving member of our family and has brought so much joy to our lives.

It's imperative that we have a clean safe facility to provide the level of care that our county's homeless pets deserve. My husband and I lived in the Long Beach area for many years and they have an amazing Shelter and beautiful grounds that makes residents in the area look forward to visiting and adopting a new family pet to love and adore. In fact Long Beach had a huge increase in volunteers after their new facility was built. The volunteers have improved care and walked the animals daily to give them the time and attention they deserve. Fresno's current facility is very poor and uninviting. Please approve this amazing facility with its generous gift of donated land along with donations to construct the building. If this facility isn't approved it will be nothing less than a tragedy for the animals of Fresno.

Sincerely,

Helen Kerz

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter / Hospital" on 4 acres of land in the northwest area of the Community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11th, 2018. In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. In addition, the Planning Commission reviewed the proposed project on July 26th, 2018 and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future Impacts to the area (traffic, noise, etc.) are actually less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

The applicant has "conditioned" the County Applications to only allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project
Filed by Fresno Humane Animal Services
Initial Study Application #7359; General Plan Amendment Application #552;
and Amendment Application #3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4 acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Re: Letter of support for the proposed "Animal Shelter/Hospital" Project
Filed by Fresno Humane Animal Services
Initial Study Application #7359; General Plan Amendment Application #552;
And Amendment Application #3852

Dear Chairman Quintero,

It is with great enthusiasm that I give my support for the applications that will provide the necessary land use approvals for the proposed Animal Shelter/Hospital. My understanding is that the proposal will be brought to the Board of consideration of the Staff and Planning commission recommendations on September 11, 2018.

I personally think that this project has been attentively designed by the applicant and reviewed by your staff, who is recommending "Approval" for the project. The planning Commission also reviewed the proposed project on July 26, 2018, and listened to testimony both for and against the proposal. The commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up the Freeway 99 is an appropriate location for such use. The applicant has "conditioned" the County Applications to only allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (noise, traffic etc.) are less than if the site were to develop according to the City's plans.

If this letter was to be a part of the "Public Record", I would greatly appreciate it. I sincerely request your support for the proposed project.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

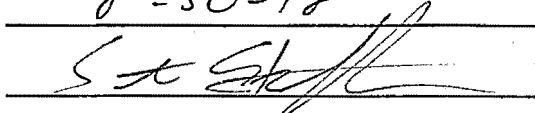

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project
Filed by Fresno Humane Animal Services
Initial Study Application #7359; General Plan Amendment Application #552;
and Amendment Application #3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4 acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project
Filed by Fresno Humane Animal Services
Initial Study Application #7359; General Plan Amendment Application #552;
and Amendment Application #3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4 acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project
Filed by Fresno Humane Animal Services
Initial Study Application #7359; General Plan Amendment Application #552;
and Amendment Application #3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4 acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project
Filed by Fresno Humane Animal Services
Initial Study Application #7359; General Plan Amendment Application #552;
and Amendment Application #3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4 acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

CLERK, BOARD OF SUPERVISORS

Dear Chairman Quintero –

We are writing you regarding the zoning for the proposed animal shelter. As a family of animal lovers and lifetime residents of Fresno County we pay close attention to how animals are dealt with here. After the fiasco with the city and the CCSPCA we didn't hold out much hope for the county. Quite honestly we have never felt like dealing with the animal issues in the area was a county priority and then there was Liberty, who was just awful.

But then the county went into the agreement with Fresno Humane and things started to look up. We have watched the folks at Fresno Humane work tirelessly and endlessly and make every effort to do right by the animals in the county. They are working under horrible conditions and they deserve a little consideration now. They have earned it. We are asking you to please vote to approve the zoning and get these people a decent working environment. Give the animals a humane place to be taken care of until they find a good home. The current "shelter" facility is an embarrassment. Please, give the county a facility we can be proud of.

Thank you for your time.

Respectfully,

The Wright Family

Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project
Filed by Fresno Humane Animal Services
Initial Study Application #7359; General Plan Amendment Application #552;
and Amendment Application #3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4 acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Subject: Letter of Support for the proposed "Animal Shelter / Hospital" project filed by Fresno Humane Animal Services: (Initial Study Application No. 7359; General Plan Amendment Application No. 552; Amendment Application No. 3852)

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter / Hospital" on 4 acres of land in the northwest area of the Community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11th, 2018. In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. In addition, the Planning Commission reviewed the proposed project on July 26th, 2018 and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are actually less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

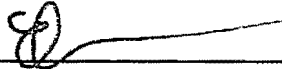

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

and Amendment Application No. 3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

The applicant has "conditioned" the County Applications to only allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project
Filed by Fresno Humane Animal Services
Initial Study Application No. 7359; General Plan Amendment Application No. 552;
and Amendment Application No. 3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project
Filed by Fresno Humane Animal Services
Initial Study Application No. 7359; General Plan Amendment Application No. 552;
and Amendment Application No. 3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project
Filed by Fresno Humane Animal Services
Initial Study Application No. 7359; General Plan Amendment Application No. 552;
and Amendment Application No. 3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4 acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project
Filed by Fresno Humane Animal Services
Initial Study Application #7359; General Plan Amendment Application #552;
and Amendment Application #3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4 acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Subject: Shelter vote

Dear Supervisor Quintero,

We are enthusiastically anticipating your vote on September 11 for a new and long-overdue, state-of-the-art county animal shelter. Our current facility is a blight on Fresno County, significantly compromising our reputation as a vital and progressive region. The use of an old morgue is indefensible in the midst of our legacy of outstanding universities, diverse industries, and an engaged and energized population.

Fresno Humane Animal Services took on the very challenging goal of revolutionizing what had been an utterly dismal enterprise. They vowed to revolutionize the welfare of county animals, and that is precisely what they have accomplished in a short time, with tireless work, and transparency about that work and its results.

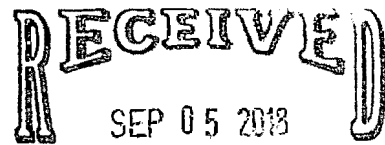

Our impressive county must embrace this opportunity to properly facilitate the lifesaving mission of the tireless FHAS staff and erase all remnants of this county's unacceptable animal control and care of the past.

We hope to see your support for the new facility. It will surely usher Fresno County into a great future of responsible and humane treatment of the lesser beings of our great community. Our reputation requires it.

Sincerely,

Cheryl and Charles Krauter

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4 acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project
Filed by Fresno Humane Animal Services
Initial Study Application No. 7359; General Plan Amendment Application No. 552;
and Amendment Application No. 3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

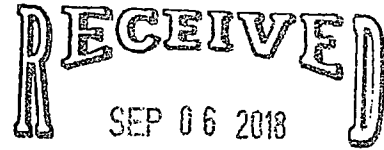

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project
Filed by Fresno Humane Animal Services
Initial Study Application #7359; General Plan Amendment Application #352;
and Amendment Application #3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4 acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grandd Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project
Filed by Fresno Humane Animal Services
Initial Study Application #7359; General Plan Amendment Application #552;
and Amendment Application #3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4 acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

and Amendment Application No. 3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Subject: IS 7359, Fresno Humane Animal Services

Dear Supervisor Magsig:

I'm writing in support of the proposed new site for the Fresno Humane Animal Services (FHAS) shelter. I have had personal experience with Fresno Humane (and also with the unethical, high-kill animal control contractor that operated previous to FHAS). Fresno Humane has made such a difference for the stray animals in Fresno County, and they (FHAS and the animals) are very deserving of a much improved, state of the art facility. Fresno Humane has reduced the kill rate of animals at their shelter significantly! They work tirelessly every day for the welfare of the animals, which also improves our communities.

I am unable to attend the Board meeting on September 11; however, wanted you to know that I am 100% in support of the new facility. A community that takes care of its animals also takes care its people.

Sincerely,

Christine Flannigan

Re: General Plan Amendment App. No. 552 and Amendment App. No. 3825
Application to rezone two parcels of land on N. Grantland Avenue, between N. Parkway Drive and W. Tenaya Avenue from Rural Residential to Limited Industrial to permit an animal hospital/shelter and associated uses.

Dear Supervisor Quintero:

I am writing in support of the rezoning of two parcels of land donated to Fresno Humane Animal Services. Due to work obligations, I am unable to attend the meeting on Sept. 11 but hope you will not consider that a reflection of my passion about this issue.

While listening to the meeting of the Planning Commission where this proposal was recommended for approval, it was obvious to me that there wasn't a person in attendance who was not in favor of the tremendous work being done by Fresno Humane. No one said or even inferred that the animals didn't deserve a better facility than the one they currently inhabit in the parking lot of the old Fresno County Morgue. So I won't waste your time trying to convince you of the need for a shelter.

However, I would like to acknowledge and address the concerns that were most often expressed: Noise, smell and traffic.

It is my understanding that Fresno Humane and their project partners have specifically designed the shelter to reduce noise and smell. Their design means all dogs will be indoors at night, putting multiple walls between them and the two homes directly on Grantland Avenue. Every other home in the area will have the additional protection of the homes and other buildings between them and the shelter. It would surprise me if the noise level, even at those two homes, was anything more than dogs in the distance. As for smell, I am routinely over at the current Fresno Humane shelter, and even as close as standing in the parking lot, there is no smell. It only becomes "doggy" over there when you're actually in the kennel area. And even then, it's not the smell of dog waste, it's just the smell of dogs. When you consider the affirmative steps the shelter planners are taking to seal and destroy waste, I can't imagine anyone outside the kennel area at the new shelter will smell anything.

It is worthwhile noting that these were the same concerns expressed when the Fresno Bully Rescue shelter plan was being considered. I'd invite you to search the County's records for complaints about those issues since the shelter opened. It is my understanding complaints have been few, or none.

As for traffic in the area, I understand it's becoming a real problem for residents in the area, especially considering new housing and the elementary school located just southwest of the project. However, the studies produced by the County negate the concern that this shelter will add significantly to the problem. The shelter's hours will be limited to avoid adding vehicles during busy hours. Furthermore, an animal shelter isn't a shopping mall: They don't ever have a huge amount of vehicular traffic. The current parking area at Fresno Humane has only a dozen parking spaces, and they are rarely full. Though we would hope for an increase in visitors at the new shelter, I can't believe it's going to increase enough to lead to traffic jams.

The members of the Planning Commission who voted against the rezoning expressed concerns that the location isn't right for a shelter. They spoke of it needing to be more rural, further out of town, not in an area that's zoned residential. Simply stated, they were wrong. The shelter needs to be where people can find it. It needs to be right where the people are, so as to increase awareness and improve the dogs' chances of finding their forever homes. Fresno Humane puts available cats at local PetSmart stores right in the middle of everything, so their chances of being adopted improve. They can't do the same for dogs, who require much more daily care than a retail store can provide. So they need to have a place that is equally accessible and easily found. Putting our homeless animals out of sight puts them out of mind. If we hide our stray animal population, say behind a condemned morgue, it is far easier to ignore them, pretend the problem doesn't exist. For the sake of the animals, and to keep us humans from forgetting their plight, the shelter needs to be front and center.

The bottom line is that Fresno Humane is responsible for the care and control of stray animals in our County, of which there are far too many. The County has seen fit not to provide a decent shelter for those animals awaiting rescue and adoption, leaving it to the non-profit to figure out. Fresno Humane has received this generous donation of land in a place that is well-suited to an animal shelter, and are ready to raise the funds necessary to build it. To deny them the opportunity to make use of this land and to greatly improve the lives of the animals who depend on us because of unfounded fears about noise, smell, and traffic would be unconscionable.

I look forward to hearing the Board approved this zoning amendment.

Sincerely,

A handwritten signature in black ink, appearing to read "J. K. Dockter".

Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project
Filed by Fresno Humane Animal Services
Initial Study Application #7359; General Plan Amendment Application #552;
and Amendment Application #3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4 acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Subject: Letter to Chairman Quintero

CLERK. BOARD OF SUPERVISORS

Dear Chairman Quintero,

I have been following the story of Fresno Humane Services from the very beginning.

I remember reading Brenda Mitchell's Facebook post on the first day she drove down the mortuary driveway towards the dogs.

"Here we go".

What a nightmare this woman faced.

The transformation from tragedy and death to hope and saving lives is nothing short of a Miracle. A Miracle that Brenda and her staff made happen.

But due to the vulnerability of sitting on a parking lot and not having an actual shelter, there have been break-ins and abductions. The most recent was a puppy. This story made the news. The other was a bulldog in need of medication. He has not been found.

Please continue to help Fresno Humane Services achieve the goal of having a proper shelter for the animals. Help the animals to have comfort and shelter from the searing heat and freezing cold.

Help Fresno Humane Services accept the property that was so generously donated to them. Fresno Humane Services will be the best thing that happens for our county. Good people. Good neighbors.

A shining star for Fresno!

Please, Mr. Chairman, chose Fresno Humane Services to lead the way in animal control and re-homing.

Please continue to help them on their way.

This is the right thing to do.

A.C.T. in favor of continued support.

Sincerely,

A handwritten signature in cursive script that reads "Tobey Bonaker R.N.". The ink is dark and the signature is fluid.

Tobey Bonaker R.N.

and Amendment Application #3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4 acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

RE: Letter of Support for the Proposed "Animal Shelter/Hospital Project" – Bullard/Grantland Area
Study Application No. 7359; General Plan Amendment Application No. 552/Amendment Application
No. 3852

Dear Chairman Quintero and All the Members of the Board of Supervisors:

My family and I are very much in support of this possible new shelter/hospital to be located off of
Herndon/99 (Bullard/Grantland).

To have some place here in this very fast growing part of Fresno where we can take stray dogs and cats
would be an absolute blessing!

In our neighborhood alone, my family and I have taken in approximately 12 stray dogs and after putting
their pictures on Facebook's "559 Lost and Found Pets", etc., and taking them to our veterinarian at All
Creatures Pet Clinic on Herndon and Milburn to be checked for a chip, we have successfully placed them
back into their homes. This has not been easy because we have three dogs of our own!

I also know of several other neighbors who have helped stray dogs and cats in our neighborhood and
surrounding neighborhoods.

We need another shelter badly which would be closer and not so crowded! We need somewhere to be
able to take these wonderful animals so they can be placed back into their own homes or possibly into a
new one and someplace where they could receive medical help, if needed

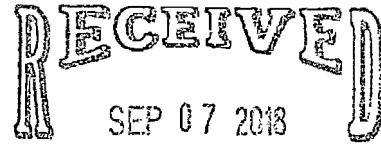

My whole family would be very willing to volunteer our time at this new shelter, if it does indeed get
built!

Thank you for considering this and please know that this would be a wonderful and much needed
addition to this part of town and to Fresno!

Sincerely,

A handwritten signature in cursive script that reads "Donna".

Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project
Filed by Fresno Humane Animal Services
Initial Study Application No. 7359; General Plan Amendment Application No. 552;
and Amendment Application No. 3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project
Filed by Fresno Humane Animal Services
Initial Study Application #7359; General Plan Amendment Application #552;
and Amendment Application #3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4 acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

FW: Support for Fresno Humane's New Shelter

From: Megan Mahoney <mahoneymegan@ymail.com>

Sent: Monday, September 10, 2018 2:46 PM

To: District 3 <district3@fresnocountyca.gov>

Subject: Support for Fresno Humane's New Shelter

Good afternoon Mr. Quintero.

I am writing this email to voice my support for the advancement of Fresno Humane's Shelter proposal. See Initial Study Application No. 7359, General Plan Amendment Application No. 552 and Amendment Application No. 3852.

Fresno Humane has raised the bar when it comes to caring for animals in the city of Fresno. Day in and day out they exceed expectations and defy the odds. Fresno Human is the voice of our community when it comes to the care of our animals. It is my belief that the way a city treats its animals, is a reflection of the city itself. Please let Fresno Humane represent Fresno as the leader in animal care and receiving. The staff and volunteers at Fresno Humane are some of the kindest, most decent people in this fine city.

Without Fresno Humane, we would only have the SPCA to look to. The SPCA cannot be the voice of animals in Fresno. The SPCA has failed to protect and help the animals of the city. Fresno Humane has done what the SPCA has failed to do. They have lowered the euthanasia rate, have provided education to communities, and have provided medical care including spay and neuter services throughout Fresno.

Mr. Quintero, I urge you to approve Fresno Humane's request. This approval will mean the animals of Fresno have a voice. This approval will mean that Fresno will lead the way in animal care. This approval will mean that Fresno is a community that uses its voice to help those who cannot help themselves. Fresno Humane is that voice and together with the leaders of this city, Fresno will be the voice for all of Central California.

Respectfully,

Megan Mahoney.

Subject: FW: Vote Yes to rezone land for Fresno Humane Animal Services
Attachments: Vote YES

From: Mike & Kristin Weatherson <weatherson@sbcglobal.net>
Sent: Sunday, September 9, 2018 4:16 PM
To: District 3 <district3@fresnocountyca.gov>
Subject: Vote Yes to rezone land for Fresno Humane Animal Services

Dear Chairman Sal Quintero,

I am writing this letter in support of a "Yes" vote to change the zoning and approve the building of a state of the art animal shelter for Fresno Humane. First, I want to thank the county of Fresno for standing up to the status quo of SPCA 6 years ago and voting for transparency and protecting our homeless animals from a 70-80% chance of being euthanized and saying no to closed board meetings and yes to saving animals and transparency.

My reasons and questions for a Yes vote to you are as follows:

Fresno Humane works endless hours to uphold their less than 10% euthanizing rate. This is done by networking, educating, reuniting, and transporting our homeless animals. As a citizen of Fresno County, I value their commitment to change and transparency with publicizing statistics each month.

As a teacher, I know we try to teach and model perseverance, honesty, collaboration, and compassion. Your Yes vote and the Fresno Humane Animal Shelter in our community will show our children and society that Fresno values and upholds these character traits. A "No" vote will show an SPCA mentality that Fresno lacks compassion and condemns their animals to hide in a condemned parking lot morgue.

As you know, Fresno Humane has researched their plans. They do not make empty promises. The shelter will be everything they have promised. As a tax payer, I appreciate Derrel Ridenour's passion which is backed up with his own money. A No vote will be a huge loss for tax payers and animals. What message does this send to other communities that we provide animal services in a condemned Morgue parking lot? A No vote will lose Derrel's support and cost our city millions of dollars and will not provide a state of the art shelter for our county.

Have you seen Miss Winkles shelter in Clovis? I'd love to be a neighbor to that shelter. It is beautiful and there is zero smell or noise. A shelter/hospital in a neighborhood will provide an opportunity for families to volunteer and get educated. Both are qualities looked for by employers and colleges.

Please look at the studies that were done for noise, traffic, and smell. Fresno Humane has gone beyond the county's expectations and they will continue to do this with a "YES" vote.

Ghandi has two quotes I'd like to remind you of.

"Be the change you wish to see in the world."

"The greatness of a nation can be judged by the way its animals are treated." - Mahatma Gandhi

Please be our change when you vote on Tuesday!

Thank you,

Kristin Weatherson

Subject: Fwd: Letter of Opposition Amend Fresno County General Plan for Industrial Zoning in Residnetial Fresno

Good Morning,

I wanted to forward your offices an email I send to Supervisor Pacheco regarding my opposition to General Plan Amendment Application No. 552 and Amendment Application No. 3825. I do intend to speak at tomorrow's meeting but knowing that a limited amount of time will be available I'd like all of you to be aware of my concerns as a resident of the neighborhood and a mother of three young children. I'm also providing a link to an online petition which has been signed my many in our neighborhood that were not aware of this item. Mr. Riddenhour did not hand deliver 1,700 flyers/letters to residents as has been claimed. It is disappointing that this issue has not been presented to the neighborhood immediately surrounding the land of the proposed amendment.

<https://www.thepetitionsite.com/548/391/198/say-no-to-industrial-zoning-in-residential-nw-fresno-area/>

I do thank you for your time and consideration.

Sincerely,

Re: Letter of Opposition Amend Fresno County General Plan for Industrial Zoning in Residential Fresno

Dear Supervisor Pacheco:

There are a few reasons as to why I object to the proposed location for Mr. Riddenhour's private venture. I must state that the cause is not the issue, but rather the location. I worked for Madera County Animal Services for 5 1/2 years. The majority of that time was as an animal services officer and I was responsible for overseeing dog licensing for Madera County. I am also a graduate of the University of California, Davis with a Bachelor Degree in Animal Science. As a resident of Forgotten Fresno I have a daughter in kindergarten, and a son in second grade. They attend Herndon Barstow Elementary School.

Being in such close proximity to an elementary school there is a natural concern about stray animals gravitating toward the school. From my previous work experience as an animal control officer, I have picked up many stray dogs from school campuses, as well as trapped cats. We assumed that animals impounded at the shelter were not vaccinated, and so this brings up issues pertaining to environmental health and public safety. It is our responsibility as a community to protect our children and ensure their safety. Inevitably, animals will be abandoned during the timeframe of when the facility is closed. This is unfortunate but it is part of the animal control world. The community heavily travels this location and often many are excessively speeding down Grantland. Given this fact, I do foresee animals being injured or killed as a result.

This property was not intended for such a facility, as the original zoning was not designated for it. Allowing the modification to the zoning can open the door in the future to other unwanted businesses, and facilities. It should remain as it was originally intended. I am sure a more centralized location would better serve Fresno County residents rather than a location at the northern border of a county that is approximately 6,000 plus square miles. I submitted an inquiry to your office regarding animal services for Fresno County. My inquiry was forwarded to Wayne Fox with the Environmental Health Department. A few of the questions pertained to which zip code the most service calls and animals were impounded from. The 93706 zip code was the answer for both. Coincidentally Kearney Park, also in the 93706 zip code is where livestock are housed when they are impounded with Fresno Humane Animal Services. The 93706 zip code is a more central location for Fresno County residents to travel to and certainly is something that administration should look into. If Animal Services is serious about dealing with the problem directly then they should target an area that is in desperate need of their services rather than a location where over two months out of the year they did not receive service calls from in 2017.

I have many former colleagues in the animal shelter and animal rescue sector that are displeased that I am "not on their side" when it comes to this particular location. Brenda Hill, a Fresno Humane Animal Services employee even attempted to confront me via Facebook Messenger in a vulgar fashion. They have even created an online petition to show there are many individuals that support them. Indeed, there are, but how many live in the neighborhood? How many don't have children attending the elementary school right across the street from the proposed location? How many of them do not commute through the area daily for work? The answer would probably be the majority of individuals that signed that petition. They are not within the jurisdiction, the neighborhood, or the community. Their passion is respected and understood; my objections come as a parent and homeowner in the community. I recognize that this is Fresno County's jurisdiction but a turn here or a turn there and you are in the City of Fresno limits

Here in the 93723 zip code we have multiple options for veterinary service as well. HOPE Animal Foundation is right down the street. Pamoist Pet Hospital is close and convenient in Highway City. HOPE and Pamoist offer walk-in shot clinics at convenient times. All Creatures Vet Hospital is recommended by many in the rescue community and is nearby. I did a search for veterinarians in 93706, which is the zip code where the most service calls and animals were impounded by Fresno Humane Animal Services in 2017. One veterinarian, Dr. Eib was located. He received great reviews, but appears to only be open for half days. A state of the art veterinary facility would be very appropriate in this area to help turn around the overpopulation problems of Fresno County.

During my employment with Madera County, we changed ordinances to streamline the dog licensing process with rabies vaccines. Veterinarians in the county were to report their rabies vaccine data so that our office could follow up with compliance. The ordinances also helped to synchronize the dog license expiration dates with those of the validity of the rabies vaccine. Part of the job of Animal Services is rabies enforcement, which in turn can generate revenue to help subsidize the county's expenses. My inquiry asked for 2017 dog license revenue and just under \$13,000.00 was received. In my last fiscal year with Madera County Animal Services approximately \$73,000.00 was received for dog and cat licenses. I would love to share my experiences with the board if they would like to speak further on the subject. There is so much that Fresno County can do administratively to support their Animal Services as it is my understanding that as of yet Fresno County does not contribute to the subsidizing of spay/neuter efforts of Fresno Humane Animal Services. While Mr. Riddenhour's gesture is generous, Animal Services should be generating their own residual income.

I would also like to know if there are any California Environmental Quality Act concerns for the adjacent landowners or the surrounding neighborhood. The introduction of an animal shelter to this unoccupied land parcel could have significant negative environmental impacts. Animal shelters require a lot of water, ventilation, sewage, space, livestock pens, and more. Traffic is already congested and adding more stress to an already high traffic zone is concerning. I'm also concerned that Central Unified School District did not provide any input to the Fresno County Planning Commission which could present more mitigating issues.

August 17, 2018 my car was broken into and for me the most tragic part was that my son's birthday gifts were stolen. Our neighborhoods are quiet, and they should be. No one really needs to head out here because we have nothing out here in Forgotten Fresno. We definitely do not need an animal shelter, nor another Derrel's Mini Storage. Part of my fear is that the shelter will introduce people to our neighborhood that are less than desirable and potentially commit crimes. I know that the clientele of impounded pets can at times not be upstanding citizens. Please consider if you would like to live next to this facility or if you would like to have an animal shelter across the street from your child or grandchild's school. I believe your response would be no.

In closing, I thank you for your time and consideration. Many of the supporters of this cause are good, hard working individuals. Their support identifies the fact that a facility is needed, but not in this neighborhood. They would support this facility no matter where it were proposed to be built in Fresno County. Many are not a part of our community and are clueless as to the lack of infrastructure we have out here and keeping our residential area residential is a high priority.

Sincerely,

Elisa Bilios

Subject: Animal Housing vote

Sir, I strongly object to locating the animal housing in the Grantland and 99 Fressway. This area is residential area. Introducing the animal housing will increase the traffic already congetested due to the construction and poor planning of the roads. I am concerned with the smell it will bring.

Please vote no.

Subject: Vote Yes to support Fresno County Animals

Dear Brian Pacheco,

I am writing this letter in support of a "Yes" vote to change the zoning and approve the building of a state of the art animal shelter for Fresno Humane. First, I want to thank the county of Fresno for standing up to the status quo of SPCA 6 years ago and voting for transparency and protecting our homeless animals from a 70-80% chance of being euthanized and saying no to closed board meetings and yes to saving animals and transparency.

My reasons and questions for a Yes vote to you are as follows:

Fresno Humane works endless hours to uphold their less than 10% euthanizing rate. This is done by networking, educating, reuniting, and transporting our homeless animals. As a citizen of Fresno County, I value their commitment to change and transparency with publicizing statistics each month.

As a teacher, I know we try to teach and model perseverance, honesty, collaboration, and compassion. Your Yes vote and the Fresno Humane Animal Shelter in our community will show our children and society that Fresno values and upholds these character traits. A "No" vote will show an SPCA mentality that Fresno lacks compassion and condemns their animals to hide in a condemned parking lot morgue.

As you know, Fresno Humane has researched their plans. They do not make empty promises. The shelter will be everything they have promised. As a tax payer, I appreciate Derrel Ridenour's passion which is backed up with his own money. A No vote will be a huge loss for tax payers and animals. What message does this send to other communities that we provide animal services in a condemned Morgue parking lot? A No vote will lose Derrel's support and cost our city millions of dollars and will not provide a state of the art shelter for our county.

Have you seen Miss Winkles shelter in Clovis? I'd love to be a neighbor to that shelter. It is beautiful and there is zero smell or noise. A shelter/hospital in a neighborhood will provide an opportunity for families to volunteer and get educated. Both are qualities looked for by employers and colleges.

Please look at the studies that were done for noise, traffic, and smell. Fresno Humane has gone beyond the county's expectations and they will continue to do this with a "YES" vote.

Ghandi has two quotes I'd like to remind you of.

"Be the change you wish to see in the world."

"The greatness of a nation can be judged by the way its animals are treated." - Mahatma Gandhi

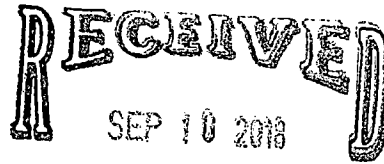

Please be our change when you vote on Tuesday!

Thank you,

Kristin Weatherson

Re: General Plan Amendment App. No. 552 and Amendment App. No. 3825
Application to rezone two parcels of land on N. Grantland Avenue, between N. Parkway Drive and W. Tenaya Avenue from Rural Residential to Limited Industrial to permit an animal hospital/shelter and associated uses.

Dear Supervisor Quintero:

I am writing in support of the rezoning of two parcels of land donated to Fresno Humane Animal Services. Due to work obligations, I am unable to attend the meeting on Sept. 11 but hope you will not consider that a reflection of my passion about this issue.

While listening to the meeting of the Planning Commission where this proposal was recommended for approval, it was obvious to me that there wasn't a person in attendance who was not in favor of the tremendous work being done by Fresno Humane. No one said or even inferred that the animals didn't deserve a better facility than the one they currently inhabit in the parking lot of the old Fresno County Morgue. So I won't waste your time trying to convince you of the need for a shelter.

However, I would like to acknowledge and address the concerns that were most often expressed: Noise, smell and traffic.

It is my understanding that Fresno Humane and their project partners have specifically designed the shelter to reduce noise and smell. Their design means all dogs will be indoors at night, putting multiple walls between them and the two homes directly on Grantland Avenue. Every other home in the area will have the additional protection of the homes and other buildings between them and the shelter. It would surprise me if the noise level, even at those two homes, was anything more than dogs in the distance. As for smell, I am routinely over at the current Fresno Humane shelter, and even as close as standing in the parking lot, there is no smell. It only becomes "doggy" over there when you're actually in the kennel area. And even then, it's not the smell of dog waste, it's just the smell of dogs. When you consider the affirmative steps the shelter planners are taking to seal and destroy waste, I can't imagine anyone outside the kennel area at the new shelter will smell anything.

It is worthwhile noting that these were the same concerns expressed when the Fresno Bully Rescue shelter plan was being considered. I'd invite you to search the County's records for complaints about those issues since the shelter opened. It is my understanding complaints have been few, or none.

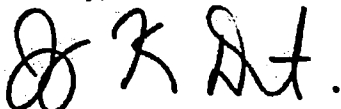

As for traffic in the area, I understand it's becoming a real problem for residents in the area, especially considering new housing and the elementary school located just southwest of the project. However, the studies produced by the County negate the concern that this shelter will add significantly to the problem. The shelter's hours will be limited to avoid adding vehicles during busy hours. Furthermore, an animal shelter isn't a shopping mall. They don't ever have a huge amount of vehicular traffic. The current parking area at Fresno Humane has only a dozen parking spaces, and they are rarely full. Though we would hope for an increase in visitors at the new shelter, I can't believe it's going to increase enough to lead to traffic jams.

The members of the Planning Commission who voted against the rezoning expressed concerns that the location isn't right for a shelter. They spoke of it needing to be more rural, further out of town, not in an area that's zoned residential. Simply stated, they were wrong. The shelter needs to be where people can find it. It needs to be right where the people are, so as to increase awareness and improve the dogs' chances of finding their forever homes. Fresno Humane puts available cats at local PetSmart stores right in the middle of everything, so their chances of being adopted improve. They can't do the same for dogs, who require much more daily care than a retail store can provide. So they need to have a place that is equally accessible and easily found. Putting our homeless animals out of sight puts them out of mind. If we hide our stray animal population, say behind a condemned morgue, it is far easier to ignore them, pretend the problem doesn't exist. For the sake of the animals, and to keep us humans from forgetting their plight, the shelter needs to be front and center.

The bottom line is that Fresno Humane is responsible for the care and control of stray animals in our County, of which there are far too many. The County has seen fit not to provide a decent shelter for those animals awaiting rescue and adoption, leaving it to the non-profit to figure out. Fresno Humane has received this generous donation of land in a place that is well-suited to an animal shelter, and are ready to raise the funds necessary to build it. To deny them the opportunity to make use of this land and to greatly improve the lives of the animals who depend on us because of unfounded fears about noise, smell, and traffic would be unconscionable.

I look forward to hearing the Board approved this zoning amendment.

Sincerely,

Joy K. Dockter

Subject: FHAS Shelter Project (Tour of Current Shelter)

Attachment available until October 10, 2018.

To the Fresno County Board of Supervisors,

On behalf of Fresno Humane Animal Services, I'd like to thank you for taking the time to carefully consider rezoning the property on Grantland near Highway 99 to allow for construction of a new shelter. Many of you have visited our current site at 760 W. Nielsen and have an appreciation for how urgent the need is for a proper facility. In case some of you haven't had a chance to tour the temporary County shelter, I've attached a short slideshow presentation to highlight the current conditions, and how the new shelter (at that specific location) will provide much-needed improvements.

Thank you for your time!

Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project
Filed by Fresno Humane Animal Services
Initial Study Application No. 7359; General Plan Amendment Application No. 552;
and Amendment Application No. 3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Subject: Support of Proposed New Animal Shelter Project

Dear Supervisor Quintero,

I am writing to you to voice my opinion as a near lifetime resident of Fresno County. I am in complete support of the new animal shelter proposed to be built near Herndon Avenue and Freeway 99. The opportunity to provide a state of the art shelter to all residents of our County cannot be missed.

I understand that at this time the area is zoned as residential. However, the potential site is in a perfect location. The site has adequate streets that could handle an increased traffic flow. I understand numerous studies have been done regarding the impact to the residents in this area and it would be minimal to none.

The current location of the County animal services is completely unacceptable. The animals are in make shift accommodations with inadequate shelter. Frankly, no one wants to go to the area that the "shelter" is at currently. Families do not want to go to the parking lot of an old condemned morgue to look for a new pet. The current accommodations are an embarrassment to our community.

The residents of our entire community deserve a decent place to adopt a new pet. The animals deserve a safe, clean, comfortable place to wait for their owners to retrieve them when they are lost, or wait for a new family to find them. The agency that contracts with the County deserves a working environment that is safe and clean where they can properly care for the animals.

If this opportunity is missed because of a few people that do not understand the desperate need for Fresno County to modernize and provide proper animal services to the entire community it will truly be a shame and disgrace. Please support the building of this new facility in an area that will benefit all of the County.

Thank you for providing me the opportunity to express my opinion regarding the present and future needs of all residents and animals in our County.

Sincerely,

A handwritten signature in black ink, appearing to read "Bonnie Jones", with a stylized, flowing script.

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4 acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4 acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

Re: Letter of Support for the Proposed "Animal Shelter/Hospital" Project
Filed by Fresno Humane Animal Services
Initial Study Application No. 7359; General Plan Amendment Application No. 552;
and Amendment Application No. 3852

Dear Chairman Quintero,

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

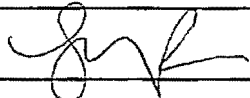

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

I am writing to you to express my support for the applications that will provide the necessary land use approvals for a proposed "Animal Shelter/Hospital" on 4-acres of land in the northwest area of the community. It is my understanding that the proposal will be coming to your Board for consideration of both the Staff and Planning Commission recommendations on September 11, 2018.

In my opinion, this project has been carefully designed by the applicant and reviewed by your staff, who is recommending "Approval" of the project. Also, the Planning Commission reviewed the proposed project on July 26, 2018, and heard testimony both for and against the proposal. The Commission agreed with the County staff and is recommending approval of the General Plan Amendment and the Amendment Application to rezone the 4-acre project site to the M-1(c) zone district.

This type of use is very much needed in the community, and the location on Grantland Avenue backing up to Freeway 99 seems like a very appropriate location for such a use. The applicant has "conditioned" the County Applications to only allow for one specific use to occur on the site even though the City of Fresno General Plan would allow for a variety of "Non-Residential" uses to occur on the same site. The result of this "Conditioning" is that the future impacts to the area (traffic, noise, etc.) are less than if the site were to develop according to the City's plans.

I would appreciate this letter being made a part of the "Public Record" and sincerely request your support for the proposed project.

Thank you for your time.

CLERK. BOARD OF SUPERVISORS

**TO: MEMBERS OF FRESNO COUNTY BOARD OF SUPERVISORS
MEMBERS OF FRESNO CITY COUNCIL**

**RE: CONSIDERATION OF CHANGE OF ZONING TO COMMERCIAL
IN AN AREA CURRENTLY DESIGNATED AS RESIDENTIAL**

**SUBJECT: CONCERNS OF CURRENT RESIDENTS OF THE
IDENTIFIED AREA, I.E., THE AREA (ISLAND) BORDERED BY SHAW
AVENUE ON THE SOUTH, HERNDON AVENUE ON THE NORTH AND
SANDWICHED BETWEEN GRANTLAND AVENUE AND GARFIELD
AVENUE**

PLEASE NOTE: The current traffic flow is already constricted by only having utilization of Herndon Ave and Shaw Ave to get onto and this land Island. The approval to change the zoning from residential to commercial to merely accommodate addition of a commercial building, (namely an animal shelter) on the south side of Grantland and Freeway 99 South off ramp. Please consider that small corner area is next to the DANTE Club on Grantland, and the Jehovah's Witnesses Church also on Grantland next to the Herndon Barstow School. The addition of an Animal Shelter along with the additional traffic is not something the residents of our area can agree to.

Consider please that there is only one North and One South lane on Grantland Ave that serves the South off ramp to Highway 99.

The school, Herndon Barstow already has a traffic flow and congestion problem. The problem exists not only for parents arriving by private vehicle to drop off and pick up children but also the school bus transportation systems ability to navigate the congestion to pick up children.

The current residents of the area are not against animals or a shelter for them but AGAINST CONSIDERATION OF THE BOARD OF SUPERVISORS to put one in such an already traffic congested area. Most of our residents have pets and love animals but do not want zoning changed in the area in which they reside which will only add to the traffic congestion on a daily basis.

To add to the concerns of the residents the following questions were posited to Supervisor Pacheco re: our area and public health. The answers that concern our residents are as follows:

Issue 1: Since there is a school within walking distance to the proposed animal shelter, the “Fresno Humane Animal Services does not perform background checks on their volunteers.” (This is a concern in an area where children are easily accessible).

Issue 2: The number of animals impounded by the Fresno Humand Servies in 2017 is reported as 6,340.” This brings into question the increased noise levels from animals, air quality impact in a high traffic level and congestion and water usage in an already densley populated area, which will soon by maximized by the new homes yet to be built in the area.

It is also our understanding that an accurate count of daily traffic has not been done since 2016 and the city has not considered, as of yet, the traffic impact on current numbers that have not yet been accrued.

According to information received from Jacob Gentile from the traffic census division for Fresno County “the traffic count at the intersection of Parkway Dr and Grantland Ave has not been done for some time.” A study from 2015, more than 3 years ago indicated an ADT of 4900.” This is now 2018 and there has been explosive growth and development in this area since then and per Mr. Gentile, “the study data may be obsolete.”

It is our understanding that the County thinks doing a new ADT count would be too expensive, however, the expense that would be involved in creating new turn access and perhaps new lights or removal of current medians would also seem to be expensive and could be avoided by simply having an accurate review of costs and impact on traffic flow and access to highway 99 South off ramp.

These reports and figures are requested by current residents who already feel that the city and county are not interested in helping them alleviate the current congestion. This is another reason to not add an animal services shelter.

The other factor to note is that during peak hours, train schedules that block both Herndon and Shaw Avenues can back up traffic on Shaw Avenue from the tracks to freeway 99 overpass and to the East to brawley. Herndon will back up past the new Market shopping center and on both the on and off ramps from 99 freeway to Herndon and on North Parkway drive.

WE, the current residents also worry about the impact of traffic and increased congestion by adding a commercial zoning to our area will impact ability of first responders in emergencies or mass casualty situation. These are issues we're constantly made aware of daily in the news and now realize these situations can happen anywhere.

If any of the Council or Board members would like to try getting to or off our island during peak hours and when there is a train, we would welcome them and then question whether they enjoy sitting in the heat or cold waiting just to get home or to work or to pick up a child or attend back to school night, due to poor city planning when development and residential zoning were incorporated into the plan. Not to mention when there is a function at the school or just trying to find parking for the school.

Please be advised: OUR RESIDENTS DO NOT NEED OR WANT A COMMERCIAL ZONING IN OUR TRAFFIC CONGESTED AREA AND PROTEST THE CHANGING OF THE ZONING TO COMMERCIAL FROM RESIDENTIAL FOR ANY COMMERCIALY IDENTIFIED BUSINESS.

We would like to know that at least, just this once, the City and County could work together to show they care about our interests and issues on this Island of land between the City and County land.

Elections do come around, no one is on the Council or Board forever. We will in the future, vote, campaign and donate to those who seem to care and are

proactive for us and not interested only in putting politics or monetary influence by developers or land owners ahead of interests of your constituents.
