Helm Ave, STE 102, Fresno, CA 93727, ("CONTRACTOR").

WITNESSETH:

WHEREAS, COUNTY has a need for Alarm System – Maintenance, Repair, Inspection, and Monitoring services for County facilities; and

WHEREAS, COUNTY issued Request for Quotation 18-061 ("the RFQ"), which solicited bids from qualified vendors to provide Alarm System – Maintenance, Repair, Inspection, and Monitoring services; and

WHEREAS, CONTRACTOR submitted the most responsive bid for providing the services requested in the "Section 3 – Intrusion Systems" sections of the RFQ and is qualified and willing to perform these services as described in the CONTRACTOR'S response to the RFQ ("the Response").

NOW, THEREFORE, in consideration of the mutual covenants, terms, and conditions herein contained, the parties agree as follows:

I. OBLIGATIONS OF CONTRACTOR

A. CONTRACTOR shall provide services to intrusion alarm systems at various County facilities, as described under the "Section 3 – Intrusion Systems" sections of the RFQ, in accordance with specifications, requirements, terms, and conditions of the RFQ and the Response, which are attached as Attachment "A" and Attachment "B", respectively and incorporated by this reference.

B. In accordance with Labor Code section 1770, et seq., the Director of the Department of Industrial Relations of the State of California has determined the general prevailing wages rates and employer payments for health and welfare pension, vacation, travel time and subsistence pay as provided for in Section 1773.1, apprenticeship or other training programs authorized by Section 3093, and similar purposes applicable to the work to be done.

Information pertaining to applicable Prevailing Wage Rates may be found on the

1 website for the State of California – Department of Industrial Relations:

2 <http://www.dir.ca.gov/oprl/PWD/index.htm>. Information pertaining to applicable prevailing wage
3 rates for apprentices may be found on the website for the State of California – Department of

5 It shall be mandatory upon the CONTRACTOR and upon any subcontractor to pay
6 not less than the prevailing wage rates, including overtime and holiday rates, to all workers,
7 laborers, or mechanics employed on this public work project, including those workers employed as
8 apprentices. Further, CONTRACTOR and each subcontractor shall comply with Labor Code
9 sections 1777.5 and 1777.6 concerning the employment of apprentices. A copy of the above-
10 mentioned prevailing wage rates shall be posted by the CONTRACTOR at the job site where it will
11 be available to any interested party.

12 CONTRACTOR shall comply with Labor Code section 1775 and shall forfeit as a

15 employed for any work done under this project by CONTRACTOR or by any subcontractor under
16 CONTRACTOR in violation of Labor Code section 1770, et seq. In addition to the penalty, the
17 difference between the prevailing wage rates and amount paid to each worker for each calendar
18 day or portion thereof for which each worker was paid less than the prevailing wage rate shall be
19 paid to each worker by the CONTRACTOR or subcontractor.

20 CONTRACTOR and each of their subcontractors shall keep an accurate record
21 showing the name, address, social security number, work classification, straight time and overtime
22 hours worked each day and week, and the actual per diem wages paid to each journeyman,
23 apprentice, worker, or other employee employed by him or her in connection with this public work
24 project. In accordance with Labor Code section 1776, each payroll record shall be certified and
25 verified by a written declaration under penalty of perjury stating that the information within the
26 payroll record is true and correct and that the CONTRACTOR or subcontractor has complied with
27 the requirements of Labor Code sections 1771, 1811 and 1815 for any work performed by its
28 employees on this public work project. These records shall be open at all reasonable hours to

11 designee is authorized to execute such written approval on behalf of COUNTY based on
12 CONTRACTOR's satisfactory performance.

13 IV. TERMINATION

14 A. Non-Allocation of Funds - the terms of this Agreement, and the services to be
15 provided thereunder, are contingent on the approval of funds by the appropriating government agency.
16 Should sufficient funds not be allocated, the services provided may be modified, or this Agreement
17 terminated, at any time by giving CONTRACTOR thirty (30) days advance written notice.

18 B. Breach of Contract - the COUNTY may immediately suspend or terminate this
19 Agreement in whole or in part, where in the determination of the COUNTY there is:

21 2. A failure to comply with any term of this Agreement;
22 3. A substantially incorrect or incomplete report submitted to the COUNTY;
23 4. Improperly performed service.

24 In no event shall any payment by the COUNTY constitute a waiver by the COUNTY of any
25 breach of this Agreement or any default which may then exist on the part of CONTRACTOR, nor shall
26 such payment impair or prejudice any remedy available to the COUNTY with respect to the breach or
27 default. The COUNTY shall have the right to demand of CONTRACTOR the repayment to the
28 COUNTY of any funds disbursed to CONTRACTOR under this Agreement, which in the judgment of

1 the COUNTY were not expended in accordance with the terms of this Agreement. CONTRACTOR
2 shall promptly refund any such funds upon demand.

3 C. Without Cause - Under circumstances other than those set forth above, this
4 Agreement may be terminated by COUNTY upon the giving of thirty (30) days advance written notice
5 of an intention to terminate to CONTRACTOR.

7 COUNTY agrees to pay CONTRACTOR and CONTRACTOR agrees to receive compensation
8 pursuant to the rates set forth in Attachment "B".

17 provided at the rates set forth in Attachment "B". The maximum expenditure under this Agreement for
18 the potential five (5) year term shall not exceed \$229,000. It is understood that all expenses incidental

22 ISDSecurityDivisionInvoices@fresnocountyca.gov. The terms of payment under this Agreement shall
23 be Net-forty-five (45) days commencing upon the receipt of an approved invoice by COUNTY.

24 VI. INDEPENDENT CONTRACTOR:

25 In performance of the work, duties and obligations assumed by CONTRACTOR under this
26 Agreement, it is mutually understood and agreed that CONTRACTOR, including any and all of the
27 CONTRACTOR'S officers, agents, employees and subcontractors will at all times be acting and
28 performing as an independent contractor, and shall act in an independent capacity and not as an

1 officer, agent, servant, employee, joint venturer, partner, or associate of the COUNTY. Furthermore,
2 COUNTY shall have no right to control or supervise or direct the manner or method by which
3 CONTRACTOR shall perform its work and function. However, COUNTY shall retain the right to
4 administer this Agreement so as to verify that CONTRACTOR is performing its obligations in
5 accordance with the terms and conditions thereof.

6 CONTRACTOR and COUNTY shall comply with all applicable provisions of law and the rules
7 and regulations, if any, of governmental authorities having jurisdiction over matters the subject thereof.

8 Because of its status as an independent contractor, CONTRACTOR shall have absolutely no
9 right to employment rights and benefits available to COUNTY employees. CONTRACTOR shall be
10 solely liable and responsible for providing to, or on behalf of, its employees all legally-required
11 employee benefits. In addition, CONTRACTOR shall be solely responsible and save COUNTY
12 harmless from all matters relating to payment of CONTRACTOR'S employees, including compliance
13 with Social Security withholding and all other regulations governing such matters. It is acknowledged
14 that during the term of this Agreement, CONTRACTOR may be providing services to others unrelated
15 to the COUNTY or to this Agreement.

18 the parties without, in any way, affecting the remainder.

COMPLY/NOT COMPLY

The importance of maintaining the identified equipment in a safe and efficient operating condition at all times demands that service be performed by a company who has satisfactorily maintained equipment of similar grade to the degree specified herein.

Compliance and understanding of the specification is to be noted by marking "COMPLY" on the line provided to the right of the specification. Non-compliance is to be indicated by marking "NOT COMPLY" on the line. A detailed statement explaining why they fail to meet the stated specification or requirement must accompany all non-compliant items.

Failure to mark this page could result in your quotation being non-responsive.

| 1. Satisfactorily performed other contracts, of similar nature and magnitude. Five (5) references must be provided. | <hr style="border: 0; border-top: 1px solid black;"/> |
| 2. Adequate capital to maintain business operations throughout the contract period and satisfactory business standing as required by the work. | <hr style="border: 0; border-top: 1px solid black;"/> |
| 3. The requisite organization of technicians thoroughly trained in the inspection, testing, maintenance and repair of fire/duress system and device repair under his direct employment and supervision. | <hr style="border: 0; border-top: 1px solid black;"/> |
| 4. The County has many NOTIFIER fire alarm systems. The bidding organization shall be authorized by NOTIFIER to perform maintenance, testing, inspection and repair services, and shall employ technicians who are authorized by NOTIFIER to perform maintenance, testing, inspection and repair services to NOTIFIER fire alarm systems. NOTIFIER certification is only required to work on NOTIFIER systems. | <hr style="border: 0; border-top: 1px solid black;"/> |
| 5. In addition to the NOTIFIER alarm systems emplaced in County facilities, the County utilizes OnyxWorks as a redundant monitoring system to identify troubles with those systems. The bidding organization must have technicians who are authorized by NOTIFIER to program and troubleshoot the OnyxWorks system where applicable. | <hr style="border: 0; border-top: 1px solid black;"/> |
| 6. The County utilizes a Bosch Connettix D6100i alarm receiver to monitor the intrusion alarms installed in County facilities. This receiver utilizes both standard copper telephone lines and IP communication protocols. Bidders wanting to bid on the intrusion alarm portion of this RFQ must have the ability to work with traditional systems utilizing standard copper pairs and the ability to program alarm systems utilizing IP communication. In addition, those bidders must have the ability to use the ReadyKey Pro software for the D6100i as well as Remote Programming Software (RPS) for the Bosch systems installed. | <hr style="border: 0; border-top: 1px solid black;"/> |
| 7. The necessary facilities and plant, including parts inventory located within a distance from the County sites involved, in order to adequately respond to emergency requests as defined in the section titled, "EMERGENCY WORK." | <hr style="border: 0; border-top: 1px solid black;"/> |

BIDDER TO COMPLETE THE FOLLOWING:**COMPLY/
NOT COMPLY**

8. Toll free communication facilities on a 24 hour-per-day, 365 days-per-year basis so vendor staff can be reached and will respond as specified herein. _____
9. All proprietary information and diagnostic tools necessary to properly maintain, troubleshoot, and adjust the County's systems. _____
10. The County understands that not every bidder will have expertise in every system installed in County facilities. However, bidders must address which subcontractors will be used for those systems where the expertise is not sufficient for repairs, maintenance, inspection, and programming. Systems that may be cause for a subcontractor for subcontractor work include, Gamewell, Edwards EST, Simplex-Grinnell, etc. as well as gas suppression systems such as Sapphire, FM-200, and Halon as listed in sections 1 and 2 of the quotation schedule.

Bidders that are planning on bidding on the NOTIFIER section of this RFQ must be authorized by NOTIFIER for repairs, maintenance, inspection, and programming. Due to the fact that a majority of NOTIFIER systems are installed in County facilities that are more critical in nature; subcontracted work on these systems is not acceptable.

In addition the County has several facilities that utilize legacy dual fire/intrusion systems. Bidders should be competent to address those systems or have the means to use a subcontractor in cases that the technical issues are outside the expertise of the bidder. Any subcontract work or agreements between the bidder and subcontractor will be subject to approval by the County and must meet all requirements contained within this RFQ. Prices indicated on the quotation schedule must take into account whether the bidder will be subcontracting the work and will be subject to the RFQ requirements and any contract resulting from this RFQ.

11. Listed in section 1 of the quotation schedule is building 700. Building 700 is the Juvenile Justice Campus located at 3333 E. American Ave. Fresno Ca. 93725. This campus consists of County facilities 701-712. A majority of these facilities are considered detention facilities and thus are labeled as no-hostage facilities; meaning that employees will not bargain for the release of hostages. In addition to the working environment, due to design and location of this facility, the Notifier system in these buildings experiences higher trouble rates with the smoke detectors in these facilities. Technicians assigned to this area will spend an inordinate amount of time cleaning and replacing smoke detectors. Technicians will be on call 24 hours per day due to the nature of this facility. _____

****Please Note:** Failure to comply to all services requested will not automatically disqualify any Bidder.

The County of Fresno is a member of the Central Valley Purchasing Group. This group consists of Fresno, Kern, Kings, and Tulare Counties and all governmental, tax supported agencies within these counties.

Whenever possible, these and other tax supported agencies co-op (piggyback) on contracts put in place by one of the other agencies.

Any agency choosing to avail itself of this opportunity, will make purchases in their own name, make payment directly to the contractor, be liable to the contractor and vice versa, per the terms of the original contract, all the while holding the County of Fresno harmless. If awarded this contract, please indicate whether you would extend the same terms and conditions to all tax supported agencies within this group as you are proposing to extend to Fresno County.

☐ Yes, we will extend contract terms and conditions to all qualified agencies within the Central Valley Purchasing Group and other tax supported agencies.

COMPLY/NOT COMPLY

The importance of maintaining the identified equipment in a safe and efficient operating condition at all times demands that service be performed by a company who has satisfactorily maintained equipment of similar grade to the degree specified herein.

Compliance and understanding of the specification is to be noted by marking "COMPLY" on the line provided to the right of the specification. Non-compliance is to be indicated by marking "NOT COMPLY" on the line. A detailed statement explaining why they fail to meet the stated specification or requirement must accompany all non-compliant items.

Failure to mark this page could result in your quotation being non-responsive.

BIDDER TO COMPLETE THE FOLLOWING:

**COMPLY/
NOT COMPLY**

- | | |
|--|-------------------|
| <p>1. Satisfactorily performed other contracts, of similar nature and magnitude. Five (5) references must be provided.</p> | <u>Comply</u> |
| <p>2. Adequate capital to maintain business operations throughout the contract period and satisfactory business standing as required by the work.</p> | <u>Comply</u> |
| <p>3. The requisite organization of technicians thoroughly trained in the inspection, testing, maintenance and repair of fire/duress system and device repair under his direct employment and supervision.</p> | <u>Comply</u> |
| <p>4. The County has many NOTIFIER fire alarm systems. The bidding organization shall be authorized by NOTIFIER to perform maintenance, testing, inspection and repair services, and shall employ technicians who are authorized by NOTIFIER to perform maintenance, testing, inspection and repair services to NOTIFIER fire alarm systems. NOTIFIER certification is only required to work on NOTIFIER systems.</p> | <u>Not Comply</u> |
| <p>5. In addition to the NOTIFIER alarm systems emplaced in County facilities, the County utilizes OnyxWorks as a redundant monitoring system to identify troubles with those systems. The bidding organization must have technicians who are authorized by NOTIFIER to program and troubleshoot the OnyxWorks system where applicable.</p> | <u>Not Comply</u> |
| <p>6. The County utilizes a Bosch Connettix D6100i alarm receiver to monitor the intrusion alarms installed in County facilities. This receiver utilizes both standard copper telephone lines and IP communication protocols. Bidders wanting to bid on the intrusion alarm portion of this RFQ must have the ability to work with traditional systems utilizing standard copper pairs and the ability to program alarm systems utilizing IP communication. In addition, those bidders must have the ability to use the ReadyKey Pro software for the D6100i as well as Remote Programming Software (RPS) for the Bosch systems installed.</p> | <u>Comply</u> |
| <p>7. The necessary facilities and plant, including parts inventory located within a distance from the County sites involved, in order to adequately respond to emergency requests as defined in the section titled, "EMERGENCY WORK."</p> | <u>Comply</u> |

BIDDER TO COMPLETE THE FOLLOWING:**COMPLY/
NOT COMPLY**

8. Toll free communication facilities on a 24 hour-per-day, 365 days-per-year basis so vendor staff can be reached and will respond as specified herein.
9. All proprietary information and diagnostic tools necessary to properly maintain, troubleshoot, and adjust the County's systems.
10. The County understands that not every bidder will have expertise in every system installed in County facilities. However, bidders must address which subcontractors will be used for those systems where the expertise is not sufficient for repairs, maintenance, inspection, and programming. Systems that may be cause for a subcontractor for subcontractor work include, Gamewell, Edwards EST, Simplex-Grinnell, etc. as well as gas suppression systems such as Sapphire, FM-200, and Halon as listed in sections 1 and 2 of the quotation schedule.

ComplyComply

Bidders that are planning on bidding on the NOTIFIER section of this RFQ must be authorized by NOTIFIER for repairs, maintenance, inspection, and programming. Due to the fact that a majority of NOTIFIER systems are installed in County facilities that are more critical in nature; subcontracted work on these systems is not acceptable.

In addition the County has several facilities that utilize legacy dual fire/intrusion systems. Bidders should be competent to address those systems or have the means to use a subcontractor in cases that the technical issues are outside the expertise of the bidder. Any subcontract work or agreements between the bidder and subcontractor will be subject to approval by the County and must meet all requirements contained within this RFQ. Prices indicated on the quotation schedule must take into account whether the bidder will be subcontracting the work and will be subject to the RFQ requirements and any contract resulting from this RFQ.

Not Comply

11. Listed in section 1 of the quotation schedule is building 700. Building 700 is the Juvenile Justice Campus located at 3333 E. American Ave. Fresno Ca. 93725. This campus consists of County facilities 701-712. A majority of these facilities are considered detention facilities and thus are labeled as no-hostage facilities; meaning that employees will not bargain for the release of hostages. In addition to the working environment, due to design and location of this facility, the Notifier system in these buildings experiences higher trouble rates with the smoke detectors in these facilities. Technicians assigned to this area will spend an inordinate amount of time cleaning and replacing smoke detectors. Technicians will be on call 24 hours per day due to the nature of this facility.

Not Comply

****Please Note:** Failure to comply to all services requested will not automatically disqualify any Bidder.
