

THANK YOU

BOARD OF SUPERVISORS

Fairs are a temporary beauty. A simple pleasure that causes no harm and unites and improves a community. When we kill strangers it's called war. When we kill friends or neighbors it's called murder and justice must be served. Fairs unite communities turning strangers into neighbors and friends, and make our communities, our State and our Nation stronger. Better.

- Abe Lincoln

This powerful message was delivered at the Illinois Society of Agricultural Fairs before he became President.
