

Board Agenda Item 34

DATE: February 12, 2019

TO: Board of Supervisors

SUBMITTED BY: Steven E. White, Director
Department of Public Works and Planning

SUBJECT: Resolution to Schedule a Resolution of Necessity Public Hearing

RECOMMENDED ACTION(S):

Adopt Resolution to Schedule a Resolution of Necessity Public Hearing for March 12, 2019 at 9:00 a.m. and Notice Affected Property Owners supporting the condemnation of necessary right-of-way to facilitate the Travers Creek Bridge Replacement Project on Lincoln Avenue, Federal Project ID No. BRLO-5942 (226) (4/5 vote)

Approval of the recommended action will schedule a Resolution of Necessity Public Hearing for March 12, 2019, at 9:00 a.m. and authorize Department of Public Works and Planning staff to give notice of the public hearing to the affected property owners within the limits of the Travers Creek Bridge Replacement Project (Project) on Lincoln Avenue. The public hearing will determine whether a Resolution of Necessity should be adopted to begin eminent domain proceedings to acquire the property rights through the court action. This item pertains to a location in District 4.

ALTERNATIVE ACTION(S):

Not approving the recommended action will result in cancellation of the Project and de-obligation of the allocated Federal funding. Any funds received by the County for this project to date would require reimbursement to the Federal Highway Administration from the Road Fund.

FISCAL IMPACT:

There is no increase in Net County Cost associated with the recommended action. If a Public Hearing for a Resolution of Necessity is scheduled and adopted, the total estimated cost for real property interests is \$7,100. This project is eligible for 100% reimbursement under the Federal Highway Bridge Program. Funds for the necessary acquisition are included in the Road Fund 0010. Sufficient appropriations are included in the Department's Org 4510 FY 2018-19 Adopted Budget.

DISCUSSION:

The Project would allow replacement of the Travers Creek Bridge, a structurally deficient wooden two-lane bridge on Lincoln Avenue, with a new two-lane concrete box culvert bridge that meets current standards.

The Project requires the acquisition of real property interests from portions of five parcels, of which, four have been acquired through negotiations with a Department on-call Real Property Consultant.

On May 10, 2018, the parcel owners of the remaining partial acquisition (0.072-acres) were presented a written offer of \$7,100 based on an independent appraisal. The Department's on-call Real Property Consultants made several follow-up efforts to settle with the property owners without success. The property owners have made a counteroffer of \$65,000 without justification or a supporting appraisal. The property owners were advised verbally, and in writing that the County, as required by California Code, Code of Civil Procedure, Section 1263.025, will reimburse them up to \$5,000 to obtain their own independent appraisal, prepared by a licensed and qualified appraiser of their choice. To date the property owners have not presented Department staff with an appraisal for consideration and still insist they should be compensated \$65,000 for the subject partial acquisition. If a Public Hearing for a Resolution of Necessity is scheduled and adopted, Department Real Property staff will continue efforts to reach a mutually satisfactory settlement with the property owners during eminent domain proceedings.

The Board is authorized to acquire certain real property interests by eminent domain pursuant to California Government Code, Section 25350.5, California Streets and Highways Code, Section 943, and California Code of Civil Procedure, Section 1230.010, et seq.

It is necessary to schedule a Public Hearing for your Board to consider a Resolution of Necessity, and for Department staff to mail notice of the Public Hearing to the affected property owners at the most recent Assessor's Tax Roll Mailing Address, as required by California Code of Civil Procedure, Section 1245.235, precedent to the commencement of eminent domain proceedings. Approval of the recommended action is necessary in order to meet construction commitments for the Project.

It is anticipated that construction will commence in the spring 2020; however, the Project will be delayed until possession can be obtained.

The property owner's names, appraised value offered as just compensation, property address subject to the recommended resolution, and the most recent Assessor's tax roll mailing address are listed on Exhibit A. The location of the property subject to the recommended Resolution is shown on Exhibit B.
