
Additional Recommended Changes to 2019 Federal Platform
Item #5 - February 26, 2019

Economic Development

- Support legislation, policies and programs, including Opportunity Zones and other designations, that expand community revitalization and economic development tools.

Human Resources

- Support policies that address actual cost-drivers in the health care system by promoting legitimate value-based pricing throughout the healthcare system.
- Support the preservation of the employer and employee tax status of employee health insurance.
- Support legislative initiatives to eliminate the Cadillac tax, which unfairly penalizes and forces employers to offer less competitive and comprehensive plans.

Social Services

- Support policies and funding that support local county plans to address and meet the needs of individuals and families who are homeless or at-risk of homelessness.
