Work Plan Overview Years Two-Five

Strategy 1: Implement Food Service Guidelines: Building on the findings and success of year one activities, work plans for years two through five will include strategies and activities that extend services to additional counties, settings (healthcare, food banks/pantries) and small retail markets as possible. Years two and three will focus on supports for local government agency healthy meeting policy adoption, assisting small grocers to improve healthy food access, and deepened evaluation efforts. In years three to five, we will promote new resources statewide and work with partners to develop trainings and TA to help inform and drive the approaches. The Cal SPAN team will host convenings, webinars, and/or teleconferences to support communities of practice. As organizations implement food service guidelines and policies, the team will develop success stories to highlight achievements, challenges, and lessons learned.

Strategy 2: Implement Interventions Supportive of BF: Building on the findings and success of year one activities, work plans for years two through five will extend services to additional LHDs, FQHCs, and WIC clinics. Years two and three will focus on existing BF policies in these sites, and assessing training and TA needs of the second wave of LHDs and clinics as they begin to develop and implement BF supports. In years three-five, CDPH will promote new resources statewide, and work with partners to develop trainings and TA as per the assessment. we will host convenings, webinars, and/or teleconferences to support communities of practice. Also in years two-five, as organizations implement policies, the Cal SPAN team will work with them to measure progress and impact and to develop success stories.

Strategies 3 & 5: Implement & Integrate Nutrition & PA Standards into Statewide ECE Systems: Building on successes in year one, we will develop partnerships to assist assessing ECE centers' readiness to implement nutrition and PA standards. The responses from county R&Rs and individual ECE sites will inform and drive the approach for statewide ECE systems, including the state's child care licensing agency, California's quality rating and improvement systems (QRIS), and a proposal for an ECE recognition program. CDPH will host convenings, webinars, and/or teleconferences to support communities of practice. In years four and five, staff will work with the CA child care licensing to strengthen its PA and nutrition-related requirements for certification. This may include increasing requirements for continuing education credits and optional trainings in obesity prevention strategies, including PA, CACFP meal pattern implementation and nutrition best practices. Also in years four and five, staff will work with CDE to propose revisions to the existing ECE learning standards and frameworks to include stronger PA and nutrition content and on integrating enhanced PA and nutrition criteria into QRIS for ECE sites to achieve a higher performance rating. Finally, CDPH will grow evaluation efforts, and communicate lessons learned and promising practices.

Strategy 4: Establish New or Improved Pedestrian, Bicycle, and Transit Transportation Systems: The Cal SPAN team will build upon the success of year one to include promotion and adoption of the CA-based Healthy Places Index tool (Southern CA Public Health Alliance) and the CDC's Health and Transportation Tool, and databases into program guidance, tools, and resources. We will promote incorporating health equity in AT through creation of infographics and messaging in collaboration with partners (e.g., Safe Routes to School Partnership, ChangeLab Solutions, PolicyLink, etc.). We will host convenings, webinars,

and/or teleconferences to support communities of practice. In years three to five, we will promote new resources statewide through the SNAP-Ed LHD network. Finally, we will increase our role as a contributor in the state's AT policy and program work, providing sustainability for these efforts in the future.
