

Board Agenda Item 54

DATE: June 18, 2019

TO: Board of Supervisors

SUBMITTED BY: Steven E. White, Director
Department of Public Works and Planning

SUBJECT: FY 2019-20 Special Districts Budgets

RECOMMENDED ACTION(S):

Sitting as the Board of Directors for Waterworks District Nos. 37, 38, 40, 41, and 42:

Adopt Resolution approving FY 2019-20 Special Districts budgets based on previously approved fees, assessments, charges, State or Federal grants, and recovered costs for County Service Areas, a Highway Lighting District, Maintenance Districts, and Waterworks Districts; and direct the Department of Public Works and Planning staff to include the rates on the Master Schedule of Fees, Charges, and Recovered Costs for administrative purposes.

Sitting as the Fresno County Board of Supervisors:

Adopt Resolution approving FY 2019-20 Special Districts budgets based on previously approved fees, assessments, charges, State or Federal grants, and recovered costs for County Service Areas, a Highway Lighting District, Maintenance Districts, and Waterworks Districts; and direct the Department of Public Works and Planning staff to include the rates on the Master Schedule of Fees, Charges, and Recovered Costs for administrative purposes.

Approval of the recommended action will adopt the FY 2019-20 budgets for County Service Areas (CSAs), a Highway Lighting District (HLD), Maintenance Districts (MDs), and Waterworks Districts (WWDs), which are based on previously approved rates in engineer's reports and Proposition 218 hearings. This item pertains to locations in Districts 1, 2, 4 and 5.

ALTERNATIVE ACTION(S):

There are no viable alternative actions.

FISCAL IMPACT:

There is no Net County Cost associated with the recommended action. All costs associated with each district are paid by the benefitting properties. The carryover funds, interest, annual assessments, fees, State or Federal grants, and charges to each district provide the necessary funding for each district. Sufficient appropriations and estimated revenues for administrative costs (salaries and benefits, services and supplies, etc.) will be included in the Department of Public Works and Planning - Special Districts Administration Org 9140 FY 2019-20 Recommended Budget. These costs are then reimbursed to the County by each Special District.

DISCUSSION:

The recommended action seeks the adoption of budgets for 39 CSAs, 1 HLD, 5 MDs, 6 WWDs, and 78 road zones in CSA 35 based on previously approved fees, assessments, and engineer's reports. The 129 special district budgets serve an excess of 30,000 residents throughout the unincorporated area of Fresno County. Services provided include one or more of the following: community water, community sewer, street lighting, snow removal, storm drainage, structural fire protection, first responder medical services, landscaping, refuse collection, park maintenance, wetlands monitoring, open space maintenance, and road maintenance.

The proposed operating budgets and capital assets are based on the revenues from fees and assessments for services, interest, and in some cases a portion of property taxes. All budgets are projected using existing fee structures, historic expenditures, and anticipated capital expenditures. If additional appropriations are required for unanticipated circumstances, such as increased project costs, additional State required monitoring, equipment replacement, major emergencies, or future projects recommended by the property owners, then some of these budgets may return to your Board for an adjustment during FY 2019-20.

Various proposed Special Districts budgets also include capital projects, which are expected to be commenced or continued in FY 2019-20. These capital projects are funded through district reserves, donations accepted by the County on a district's behalf, State Revolving Fund loans which have been previously approved by the property owners and will be repaid through assessments adopted by your Board through the Proposition 218 process, or through State or Federal grants awarded to the districts and accepted on their behalf by the County. The districts with planned capital projects in FY 2019-20 include: CSA 1 - Tamarack Estates, CSA 5 - Wildwood Island, CSA 30 - El Porvenir, CSA 32 - Cantua Creek, CSA 34 - Millerton New Town, CSA 44D - Monte Verdi Estates, CSA 49 - Community of J.E. O'Neill, WWD 38 - Millerton Lake Estates, WWD 40 - Shaver Springs, and WWD 41 - South Shaver.

Department staff anticipates nine Proposition 218 proceedings in FY 2019-20. Exhibit A contains a list of the districts that may require a Proposition 218 hearing and a description of the services provided. These districts have experienced increases in operation and maintenance expenses, require buildup of reserves for capital replacement projects, or need rate increases to adjust for inflation.

On September 27, 2016, the Board adopted Resolution No. 16-389 that established a policy for cash-flow loans to CSAs and WWDs. At this time, there are no active cash-flow loans to report on.

On February 7, 2017, the Board adopted Resolution No. 17-121 that established a policy for a CSA Revolving Fund Loan. On June 20, 2017, CSA 34A received a Revolving Fund Loan from the General Fund in the amount of \$300,000. The repayment was structured for CSA 34A to make 40 quarterly payments of \$7,500 plus the current pooled interest rate with the first payment made in October 2017. As of April 30, 2019, the outstanding loan balance is \$255,000.

A copy of all Special Districts budgets are on file with the Clerk of the Board and posted on the Department's website. The Citizens Advisory Committee (CAC) members with an e-mail address on file were notified of their budget and some CACs reviewed their budgets at one of their regularly scheduled meetings prior to this agenda item. Upon approval of the recommended action, each District's budget will be posted on the Department's website.

It is recommended that your Board adopt the resolution approving the Special Districts budgets for FY 2019-20 based on the fees, charges, assessments, and recovered costs, and direct Department staff to include the rates in the Master Schedule of Fees, Charges and Recovered Costs, with the charges in the budget effective July 1, 2019.
