1. PROBLEM STATEMENT

Fresno County is one of California's largest and most diverse counties. It covers over 6,000 square miles. Fresno County has an estimated population of 1,007,229 as of January 1, 2018. Fresno County is the sixth largest county in California. [CA Dept. of Finance, May 1, 2018 statistics report] Fresno is the county seat and the largest city in the county. It is the fifth largest city in California with a population of 533,670 [2016 OTS rankings] At 25.5%, Fresno County has a much higher number of its population below the federal poverty level than the State of California which is at 16.4%.

Fresno County remains one of the most agriculturally productive counties in the nation, producing several crops which are commercially grown only in Fresno County. [Fresno County Farm Bureau, 2017]. As such, there are over 7,000 miles of maintained roads in Fresno County and approximately 2,500 miles of paved roadway in the city of Fresno. Fresno County is comprised of fifteen cities, twelve of which are included in the Office of Traffic Safety's traffic collision rankings. There are 28 census-designated places (communities) and another seven unincorporated communities for a total of 50 communities within Fresno County. [Census Bureau, 2010 Census]

In addition to the vast miles of country roads, there are twelve major highways in Fresno County, which include Interstate 5 and State Routes 33, 41, 43, 63, 99, 145, 168, 180, 198, 201 and 269. However, nearly 75% of travel on Fresno County's maintained roads takes place on rural two-lane undivided roads. [Fresno County Department of Public Works and Planning].

The agricultural make-up of Fresno County has created a large number of agricultural industry jobs available throughout the county. [US Census Bureau "Quick Facts" 2016] This then creates extensive traffic on our rural two-lane undivided roads. Fresno County drivers are at a higher risk of being involved in a collision with a DUI/DUID driver with higher risk of serious or fatal injuries on those rural roads. The agricultural industry jobs bring more potential DUI/DUID drivers into Fresno County who are not familiar with the county's roads.

A growing problem facing Fresno County is the effective education, enforcement and successful prosecution of DUID marijuana and combo cases. With the legalization of marijuana use by adults, the rise in marijuana-related DUID's continues to be evident in Fresno County, especially among younger drivers between the ages of 18 and 35.

As evidenced in other states that have legalized recreational marijuana, Fresno County anticipates DUID drug and combo filings to continue to increase at an alarming rate. In the State of Colorado, traffic fatalities decreased 14.8% from 2007 to 2012, however, traffic fatalities involving drivers who tested positive for marijuana increased 100%.

Fresno County's worst ranking is in the number of DUI drivers under 35, followed by the overall number of alcohol related collisions. Clearly, Fresno County has a serious traffic safety problem with impaired drivers between the ages of 18 and 35. Many of the fatal collisions in 2018 in Fresno County involved impaired drivers between 18 and 35 years of age.

DUI recidivism is also a problem in Fresno County with first offenders reoffending within one year at a rate of 6.2% compared to 2.6% in Los Angeles for 2014. Among the larger counties, Fresno County had the highest rate of a second DUI offender receiving a 3rd DUI arrest within one year. Fresno County was at 7.6% compared with Orange County at 2.4%. [2017 Annual report of the California DUI Management Information System, p. 52.]

Fresno County law enforcement is comprised of three CHP offices countywide, the Fresno Sheriff's Department, fourteen city Police Departments and Fresno State College campus police. With the various smaller police departments continually undergoing personnel changes, it is extremely challenging to keep all of our local law enforcement current on important DUI legal updates and on call-out protocol regarding DUI collisions involving serious injuries or death.

With these problem areas in mind, the IVPP team will be focusing on education, continuing to provide legal updates for local law enforcement, with an emphasis on the smaller agencies, as well as keeping the general public informed, with an emphasis on the younger population between the ages of 18 to 35.

BUY AMERICA ACT

(applies to subrecipients as well as States)

The State and each subrecipient will comply with the Buy America requirement (23 U.S.C. 313) when purchasing items using Federal funds. Buy America requires a State, or subrecipient, to purchase with Federal funds only steel, iron and manufactured products produced in the United States, unless the Secretary of Transportation determines that such domestically produced items would be inconsistent with the public interest, that such materials are not reasonably available and of a satisfactory quality, or that inclusion of domestic materials will increase the cost of the overall project contract by more than 25 percent. In order to use Federal funds to purchase foreign produced items, the State must submit a waiver request that provides an adequate basis and justification for approval by the Secretary of Transportation.

PROHIBITION ON USING GRANT FUNDS TO CHECK FOR HELMET USAGE

(applies to subrecipients as well as States)

The State and each subrecipient will not use 23 U.S.C. Chapter 4 grant funds for programs to check helmet usage or to create checkpoints that specifically target motorcyclists.

LAW ENFORCEMENT AGENCIES

All subrecipient law enforcement agencies shall comply with California law regarding profiling. Penal Code section 13519.4, subdivision (e), defines "racial profiling" as the "practice of detaining a suspect based on a broad set of criteria which casts suspicion on an entire class of people without any individualized suspicion of the particular person being stopped." Then, subdivision (f) of that section goes on to provide, "A law enforcement officer shall not engage in racial profiling."
