DISCUSSION:

The mission of the Cradle to Career (C2C) Partnership of Fresno County is to strengthen education and community support systems through collaboration and build the capacity for all children and families to achieve success. The Cradle to Career brings together institutional leaders and synchronizes the community's collective resources mobilizing them toward improvement strategies. The partnership includes representatives from every applicable public and private organization including educational, health, civic, philanthropic, business, nonprofit and justice leaders (see Attachment A).

For the next three years the C2C Partnership has identified three immediate goals:

- Kindergarten readiness will increase by 10 percentage points each year;
- Third grade reading proficiency will increase by 10 percentage points each year; and
- High school graduation will be 100% countywide by 2020.

Members guide the development, implementation, and evaluation of a collective, coordinated community effort

that will lead to increases in social and educational outcomes for our young people, ultimately resulting in increased graduation rates from high school and post-secondary institutions that leads to a more prosperous community.
