Legislation Text

File #: 18-0996, **Version:** 1

DATE: October 9, 2018

TO: Board of Supervisors

SUBMITTED BY: Jean M. Rousseau, County Administrative Officer

SUBJECT: Retroactive Fire Protection Reimbursement Agreement (Amador Plan) with Cal Fire for FY 2018-19

RECOMMENDED ACTION(S):

- 1. Approve and authorize the Chairman to execute retroactive Fire Protection Reimbursement Agreement with California Department of Forestry and Fire Protection for the period July 1, 2018 through June 30, 2019 (\$1,132,993).**
- 2. Direct the County Administrative Officer to provide written notice to California Department of Forestry and Fire Protection that the County will extend or enter into a new fire protection reimbursement agreement for the 2019-2020 fiscal year with at least the same level of services as the recommended agreement.**

The recommended Fire Protection Reimbursement Agreement (Amador Plan) with the California Department of Forestry and Fire Protection (Cal Fire) provides funding to keep four fire stations (located in the eastern foothill and mountain region of Fresno County) open during the winter months when Cal Fire would normally close those stations due to the end of the fire season.

The recommended Agreement has an advance notice requirement for renewal, non-renewal or change in the level of funding (i.e., the County must give such notice at the time the recommended Agreement is signed). Therefore, staff is seeking the Board's confirmation that the County intends to pursue a fire protection reimbursement agreement with Cal Fire for FY 2019-20. Based on current information, Staff believes the current level of services provided by Cal Fire will remain necessary for FY 2019-20, and that a new fire protection reimbursement agreement with Cal Fire will be needed for that fiscal year.

ALTERNATIVE ACTION(S):

Your Board may choose to consider a different number of stations to be staffed during the upcoming non-fire season. Your Board may choose to change the level of service for FY 2019-20, in which case, the County Administrative Officer should be directed to so notify Cal Fire if and when this executed Agreement is returned to Cal Fire.

RETROACTIVE AGREEMENT:

The recommended agreement is retroactive as the documents were not received from Cal Fire until after the start date of the Agreement. Performance under the recommended Agreement and incurrence of cost are generally limited to the winter and spring months each year.

FISCAL IMPACT:

There is no increase in Net County Cost associated with the recommended actions. Actual expenditures will be based on actual costs incurred by the State during the non-fire season as declared by the State. Sufficient appropriations are included in the Interest and Miscellaneous Expenditures Org 2540 FY 2018-19 Adopted Budget.

DISCUSSION:

The County has contracted with Cal Fire for these services since 1982. The recommended Agreement provides for structural fire protection and other emergency responses in foothill and mountain areas on the east side of Fresno County. While the recommended Agreement will cover all of FY 2018-19, the service period is for those months outside of the “fire season” which typically ends in the late fall and picks up again sometime between early and late spring. During this time, Cal Fire has historically operated the fire stations located in Squaw Valley, Piedra, Blasingame, Shaver Lake and Hurley, 24 hours/7 days per week.

On October 8, 2013, your Board directed staff to choose the four-station option for FY 2013-14. Of the five stations covered prior to FY 2013-14, Fresno County Fire Protection District (“District”) is now providing for the Hurley station, leaving the County’s agreement with Cal Fire to cover the Squaw Valley, Piedra, Blasingame and Shaver Lake stations. Staff will continue talks with the District to transition a second station to the District in coming years. Staff notes that the recommended Agreement with Cal Fire is separate and apart from the recent discussions with the District regarding options for expanded District coverage in the eastern foothills.

The recommended Agreement reimburses the State for personnel, equipment and operating costs connected with staffing their stations during the non-fire season when they would otherwise be closed. Historically, the projected end of the non-fire season has been sufficiently close that Cal Fire has submitted the fourth quarter billing as a final billing as all costs associated with that year’s agreement have been identified. However, the recommended Agreement provides that for the last quarter of the fiscal year, Cal Fire will invoice the County for the “estimated” cost of services on or after March 1 and require payment from the County within 30 days of receipt of such invoice. A reconciliation invoice (credit or additional billing) will then be prepared and submitted to the County by October 1.

Payment on all quarterly invoices shall be due in 30 days, a deviation from the standard County payment term of 45 days.

The recommended Agreement requires the County to notify Cal Fire one year in advance of whether County will extend or enter into a new agreement for the next fiscal year or wishes to change the level of service provided in that fiscal year. If the recommended Agreement is entered into with less than a year remaining on the term (as is the case here), the County must give such notice at the time the recommended Agreement is signed, in which event the one-year requirement shall not apply. If the County fails to provide this notice, under the proposed Agreement, Cal Fire has the option to extend the Agreement for up to one year and to continue providing services at the same or reduced level as it determines would be appropriate during the extended term of the Agreement.

The County Administrative Officer should be directed to provide written notice to Cal Fire whether the County will extend or enter into a new agreement for the next fiscal year or wishes to change the level of service for FY 2019-20 when this executed agreement is returned to Cal Fire. Based on current information, Staff believes the current level of services provided by Cal Fire will remain necessary, and that this Agreement will need to be renewed for FY 2019-20.
