The Department will execute the November 2020 Presidential General Election in the face of the COVID-19 Public Health Emergency. The Department has been actively planning and preparing since March 2020 to administer a successful election in this environment. The Federal funding included in the grant agreement will assist the Department in defraying pandemic related costs for the November 2020 Presidential General Election. Eligible costs include equipment, vote-by-mail related costs, staffing, security, training, supplies, facilities, and outreach.

Department efforts to date have included the acquisition of new equipment to efficiently process larger volumes of mailed ballots, twenty additional secure ballot drop boxes, purchase of personal protective equipment for staff and voters, and modifications to our facilities and vote centers to provide adequate social distancing. The Department will be providing in-person voting opportunities at 53 Vote Centers starting the Saturday before Election Day in accordance with health and safety parameters. The Department has been

working closely with the Department of Public Health to ensure a safe voting experience for the public.
