DISCUSSION:

There has been an increasing number of controversies over specialty flags being flown at government facilities at both the local, state, and national level. Some agencies have been accused of promoting divisive and ideologically motivated speech on public property. Other agencies have been put in the unenviable role of picking and choosing winners among potential flag raising events.

An incident has yet to occur at a Fresno County facility, but the County does not have a formal flag policy in place. It is recommended that your Board update Title 13.24 (Grounds and Buildings) of the County Ordinance Code to include rules that limit permitted flags to those of the United States and the State of California. This ordinance would apply only to the official flag poles at County owned or leased facilities.

This item is a continuation of the first hearing from May 9, 2023. After the posting of the May 9 Board of Supervisors' meeting agenda, it was identified that there was older public nuisance language related to raising of flags (Chapter 10.28) in Title 10 (Public Peace, Morality, Welfare) of the Fresno County Ordinance Code that would conflict with the proposed new ordinance language. In addition to conflicting with the proposed ordinance, Chapter 10.28 includes exceptions to the restriction to US and California flags, as well as an unenforceable statement about government offices outside the jurisdiction of the County. Further, a County policy relating to use of its property belongs on Title 13, not Title 10, which is for public nuisances.

At the May 9 Board of Supervisors' meeting, the Board directed staff to return to the Board with an amended ordinance that includes language to delete Chapter 10.28 for a new first hearing on May 23.
