

County of Fresno

Rating Agency Scoring and Bonding Considerations

November 18, 2025

2001 Addison Street, Suite 100, Berkeley, CA 94704 phone 510-839-8200

A Limited Liability Company

Today's Presentation

- Provide overview of the County's currently outstanding debt, annual debt service and ratings.
- Present pro forma debt service numbers for a hypothetical financing generating \$50 million in proceeds for an Administration Building project.
- Provide high level summary of certain Fresno County rating metrics.
- Provide results of our analysis regarding the impact of additional debt on key rating agency debt metrics.
- Present conclusions about "affordability" of additional debt.

Role of the Municipal Advisor

- KNN has served as Municipal Advisor to Fresno County since 1993. We currently serve as Municipal Advisor to 35 California counties.
- As Municipal Advisor, we:
 - Provide independent financial analysis, advice and expertise to support informed decision making.
 - Help manage financings and protect our clients' interests throughout the financing process.
- Under SEC rules, KNN has a fiduciary duty, including duties of loyalty and care. By law, we must put our clients' interest ahead of our own.
- County staff asked KNN to analyze the impact of a potential \$50 million
 Administration Building Lease Revenue Bond financing upon the County's rating agency metrics.

Introduction to Municipal Bonds

WHAT:

A municipal bond is a form of loan from a lender to a municipality.

WHY:

- Accelerate delivery of a capital project vs. cash funding.
- Spread cost of capital project over useful life of the asset and ensure costs are paid by those who benefit from the project.
- Achieve savings when cost of borrowing is lower than construction inflation or rate of earnings on available cash reserves.

PURPOSES:

- Capital improvement projects
- Infrastructure
- Refinancing
- Cash Flow

Local Governments Benefit from Tax Exemption

- Most municipal bonds issued for infrastructure or capital improvements qualify to be issued on a tax-exempt basis.
- Bondholders do not pay Federal income tax on interest earnings.
 - As a result, bondholders typically will purchase tax-exempt bonds at lower yields than taxable bonds.
 - Allows a municipal issuer to raise capital at lower interest rates as compared to taxable/corporate bonds.
- Issuers must meet IRS requirements to qualify bonds as tax-exempt
 - For governmental purposes not for private use
 - Reasonable expectation that proceeds will be expended in 3 years from borrowing
 - Certain invested proceeds may not earn arbitrage (earnings rate > borrowing rate)
 - Certification required to be made by issuer at time of issuance –
 i.e., tax certificate

Types of Financings Commonly Used to Fund Capital Improvements and New Projects

| Type of Financing | Type of Issuer | Voter- Approved? | Repayment Source |
|--|--|---------------------|---|
| General Obligation Bonds | Cities, Counties, School Districts, Special Districts | Yes | Ad Valorem Property Taxes |
| Lease Revenue Bonds or Certificates of Participation | Cities, Counties, Joint Powers Authorities | No | General Fund of Local Government Issuer |
| Enterprise Revenue Bonds | Cities, Counties, Joint Powers Authorities | No | Enterprise Fund Revenues |
| Community Facilities District (Mello-Roos) and Assessment District Bonds | Multiple entities, Cities, Counties, and Special Districts | Yes | Special Taxes and Assessments Approved by Property Owners within the District |

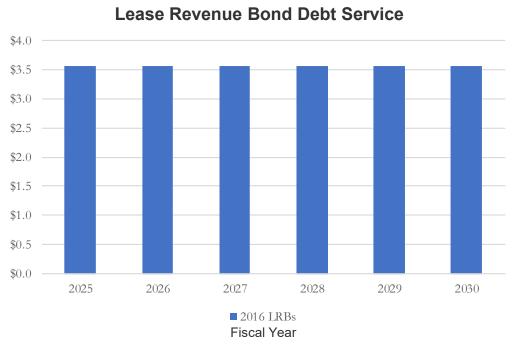

Overview of Fresno County General Fund Debt

| | | Original Par C | outstanding Par | Final | Optional Call | Credit |
|--|------------------------|----------------|---------------------|-----------|---------------|------------------|
| Transaction | Purpose | Amount | Amount ¹ | Maturity | Provision | Rating |
| General Fund Lease Revenue Bonds, Series 2016 | Refunding of 2007 LRBs | \$37,270,000 | \$18,740,000 | 4/1/2030 | 4/1/26 @ 100 | AA- (S&P) |
| Pension Obligation Bonds, Series 2004A | Pension system funding | \$327,897,749 | \$316,102,602 | 8/15/2032 | MWC Only | AA (S&P), A+ (F) |
| Pension Obligation Bonds, Series 2004B | Pension system funding | \$75,000,000 | \$75,000,000 | 8/15/2033 | None | AA (S&P), A+ (F) |

¹As of July 14, 2025. Outstanding par amount includes accreted interest on the 2004 Series A POB CABs.

Pension Obligation Bond Debt Service

Fiscal Year

Credit Ratings

- Higher credit ratings generally result in lower borrowing costs for issuers.
- A rating agency will assign an "issuer credit rating" which is equivalent to the rating that a hypothetical General Obligation Bond would carry.
 - In addition, a rating agency will assign a rating specific to a bond issue.
 - S&P's LRB/COP rating generally is one notch below the issuer credit rating.
- Fresno County has a current Lease
 Revenue Bond rating of "AA-" from S&P.

| | Lo | ng-Term | Ratings |
|----------------------|------|---------|---------|
| | S&P | Fitch | Moody's |
| | AAA | AAA | Aaa |

Summary of Administration Building Lease Revenue Bond Scenarios

- KNN's analysis
 assume the issuance
 of public Lease
 Revenue Bonds.
- Each scenario
 assumes an "asset
 transfer" structure
 where the County
 would lease an
 existing facility to
 avoid capitalizing
 interest and deferring
 principal amortization.

| Scenario: | Scenario 1 | Scenario 2 | Scenario 3 |
|-------------------------------------|--------------|--------------|--------------|
| Amortization: | 20-Years | 25-Years | 30-Years |
| Final Maturity: | 4/1/2046 | 4/1/2051 | 4/1/2056 |
| Sources: | | | |
| Par Amount | \$47,685,000 | \$48,745,000 | \$49,680,000 |
| Premium | 2,854,331 | 1,802,296 | 870,128 |
| Total Sources: | \$50,539,331 | \$50,547,296 | \$50,550,128 |
| Uses: | | | |
| Project Fund ¹ | \$50,000,000 | \$50,000,000 | \$50,000,000 |
| Cost of Issuance ² | 300,906 | 303,571 | 301,728 |
| Underwriter's Discount ³ | 238,425 | 243,725 | 248,400 |
| Total Uses: | \$50,539,331 | \$50,547,296 | \$50,550,128 |
| True Interest Cost:4 | 4.38% | 4.69% | 4.89% |
| Average Annual Debt Service: | \$3,826,450 | \$3,458,640 | \$3,231,62 |
| Total Debt Service: | \$76,529,000 | \$86,466,000 | \$96,948,750 |

See appendix for footnotes to this analysis.

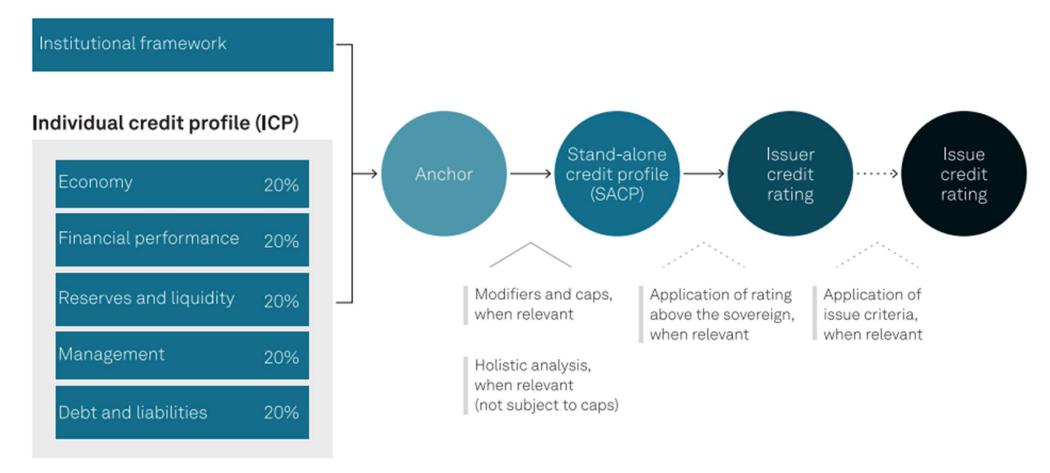

Rating Agency Metrics Scoring

S&P Rating Criteria Overview

 Standard & Poor's released new methodology for rating U.S. Governments on September 9, 2024. This was S&P's first major revision of their criteria since 2013.

S&P Individual Credit Profile Scoring Overview

The below metrics are utilized to establish the initial assessment:

| | Economy (20%) (Scoring 1 – 6) | Financial Performance (20%) (Scoring 1 – 4) | Reserve and Liquidity (20%) (Scoring 1 – 5) | Management (20%) (Scoring 1 – 4) | Debt and Liabilities (20%) (Scoring 1 – 6) | | | | |
|---|--|---|--|--|---|---|------------------------------------|-----------------------------|--|
| | Gross County Product (GCP) per capita % of US GDP per capita | | | Budgeting practices (35%) | Current cost for debt service and liabilities (50%) | | | | |
| Step 1: Establish Initial Assessment (Local Government) | (50%) County Per Capita | Three-year average operating result (%) | , | | 1 | Three-year average operating result (%) | Available reserves (%) of revenues | Long-term planning (35%) | Net direct debt per capita (25%) |
| | Personal Income (PCPI) % of U.S PCPI (50%) | onal Income % of U.S PCPI | | Policies (30%) | Net pension liabilities per capita (25%) | | | | |

 After determining the initial assessment, S&P then applies certain qualitative adjustments to arrive at the Individual Credit Profile (ICP), which determines the Anchor score.

Initial Assessment Scoring: Summary of Estimated Scoring

| Economy | | | | | | | |
|-----------------------------------|--------------|--------------|--|--|--|--|--|
| <u>Metric</u> | <u>Score</u> | <u>Scale</u> | | | | | |
| County PCPI as % of US PCPI (50%) | 4 | 1-6 | | | | | |
| County GDP as % of US GDP (50%) | 5 | 1-6 | | | | | |
| Total Economy Score | 4.5 | | | | | | |

| Financial Performance | | | | | | |
|------------------------------------|--------------|--------------|--|--|--|--|
| <u>Metric</u> | <u>Score</u> | <u>Scale</u> | | | | |
| 3-year Average of Operating Result | 3 | 1-4 | | | | |
| Total Financial Performance Score | 3 | | | | | |

| Reserves and Liquidity | | | | | | | |
|------------------------------------|--------------|--------------|--|--|--|--|--|
| <u>Metric</u> | <u>Score</u> | <u>Scale</u> | | | | | |
| Available Reserves as a % of | 2 | 1-5 | | | | | |
| Revenues | | 1-5 | | | | | |
| Total Reserves and Liquidity Score | 2 | | | | | | |

| Debt and Liabilities | | | | | | |
|--|--------------|--------------|--|--|--|--|
| <u>Metric</u> | <u>Score</u> | <u>Scale</u> | | | | |
| Current Costs for Debt Service and | 2 | 1-6 | | | | |
| Liabilities as a % of Revenues (50%) | | 1-0 | | | | |
| Net Direct Debt per Capita (25%) | 2 | 1-6 | | | | |
| Net Pension Liability per Capita (25%) | 2 | 1-6 | | | | |
| Total Debt and Liabilities Score | 2 | | | | | |

Impact of New Debt Scenarios

The Debt Affordability Model and Rating Agency Criteria

- KNN has created a Fresno County Debt Affordability Model (DAM).
- The DAM uses various inputs from the County's financial statements to calculate key ratios that are derived from Standard & Poor's (S&P) analytical framework for determining a U.S. local government credit rating.
- Specifically, inputs to the DAM are used to calculate economic and financial measures within the S&P rating criteria for:
 - Economy
 - Financial Performance
 - Reserves and Liquidity
 - Debt and Liabilities
- The DAM also models the impacts of potential <u>new debt</u> on the scoring of key debt ratios.
- Note that KNN's scoring of rating agency metrics is for general planning purposes only and is not intended to be predictive of particular rating agency outcomes. We are not rating agency analysts.

Initial Assessment Scoring: Debt and Liabilities No New Debt (Status Quo)

Two of the Debt and Liabilities subfactors are directly impacted by the issuance of new debt:

Scoring: Current Costs for Debt Service and Liabilities % of Revenues (50%)

| Status Quo | Actual | Projected | Projected | Projected | Projected | Projected |
|---|-------------|-------------|-------------|-------------|-------------|-------------|
| FY Ending 6/30_ | 2024 | 2025 | 2026 | 2027 | 2028 | 2029 |
| Existing Debt Service ¹ (\$000s) | \$77,053 | \$72,669 | \$70,632 | \$69,777 | \$69,846 | \$71,256 |
| Pension (FCERA) Contributions ² (\$000s) | \$225,119 | \$231,873 | \$238,829 | \$245,994 | \$253,373 | \$260,975 |
| Total Gov. Funds Rev³ (\$000s) | \$2,373,267 | \$2,444,465 | \$2,517,799 | \$2,593,333 | \$2,671,133 | \$2,751,267 |
| Current Costs for Debt Service and Liabilities as a % of Revenues | 12.73% | 12.46% | 12.29% | 12.18% | 12.10% | 12.08% |
| Score | 2 | 2 | 2 | 2 | 2 | 2 |

Scoring: Net Direct Debt per Capita (25%)

| FY Ending 6/30_ | 2024 | 2025 | 2026 | 2027 | 2028 | 2029 |
|------------------------------------|-----------|-----------|-----------|-----------|-----------|-----------|
| Existing Par Outstanding¹ (\$000s) | \$651,010 | \$604,155 | \$557,588 | \$510,011 | \$460,318 | \$406,966 |
| Population ⁴ | 1,017,162 | 1,017,162 | 1,017,162 | 1,017,162 | 1,017,162 | 1,017,162 |
| Net Direct Debt per Capita | \$640 | \$594 | \$548 | \$501 | \$453 | \$400 |
| Score | 2 | 2 | 2 | 2 | 1 | 1 |
| | | | | | | |

¹Includes POBs, LRBs, subscription liabilities and leases payable.

⁴Population is assumed to remain constant. Source: Bureau of Economic Analysis, 2023.

²Pension contributions assumed to grow at 3% each year.

³Total Governmental Funds Revenues assumed to grow at 3% each year.

Initial Assessment Scoring: Debt and Liabilities With Proposed 2026 Lease Revenue Bonds (20-yr)

- Addition of the 2026 LRBs (20-yr Term) does NOT impact initial assessment scores:
 - Current cost for debt service and liabilities as a % of revenues: Remains a "2" (8-14%).
 - Net direct debt per capita: Remains a "2" (\$500 1,500).

Scoring: Current Costs for Debt Service and Liabilities % of Revenues (50%)

| Status Quo + 2026 LRB (20yr) | Actual | Projected | Projected | Projected | Projected | Projected |
|---|-------------|-------------|-------------|-------------|-------------|-------------|
| FY Ending 6/30_ | 2024 | 2025 | 2026 | 2027 | 2028 | 2029 |
| Existing Debt Service ¹ (\$000s) | \$77,053 | \$72,669 | \$70,632 | \$69,777 | \$69,846 | \$71,256 |

¹Includes POBs, LRBs, subscription liabilities and leases payable.

⁴Population is assumed to remain constant. Source: Bureau of Economic Analysis, 2023.

²Pension contributions assumed to grow at 3% each year.

³Total Governmental Funds Revenues assumed to grow at 3% each year.

Conclusion

- The County's outstanding debt consists of a single series of Lease Revenue Bonds maturing in FY 2029-30 and Pension Obligation Bonds maturing in FY 2033-34.
- Based on the scoring of S&P's Debt and Liabilities metrics, the County could reasonably expect to maintain its current scoring of "2" for Current Cost for DS and Liabilities as % of Revenues and current scoring of "2" for Net Direct Debt per Capita with the issuance of the 2026 LRBs, assuming current projections of pension contributions, revenues, and population.
 - Note that the County scores a "2" in the Net Pension Liability Per Capita ratio, reflecting the County's net pension liabilities. Future increases in pension liabilities and annual costs could negatively impact the scoring results.
- When considering undertaking additional debt, it is important to consider other aspects of the County's credit worthiness, including Financial Performance and Reserves and Liquidity, among others.

Conclusion

- The County currently scores a "3" in Financial Performance though we highlight an improvement in operating result for FY 2022-23 and 2023-24.
 - A continuation of this trend can improve the Financial Performance scoring and would be a credit positive for the issuance of new debt.
- The County scores a "2" in Reserves and Liquidity. Budgetary balance and maintenance of strong fund balances are of particular importance when considering whether to incur additional fixed obligations in the form of debt.
- Ultimately, we believe that decisions about incurring additional debt should be made in the context of budgetary affordability rather than the potential impact on rating agency metrics, which are not intended to be prescriptive. The County should be thoughtful about the budgetary tradeoffs that it will need to make to incur additional debt service without stressing the County's budget and reserves.

Limiting Conditions

- KNN has relied on the accuracy of information received from the County, published in the County's financial statements or otherwise available publicly and has not independently verified the accuracy or completeness of such information. We assume no liability for errors in such information.
- KNN personnel are not rating agency or credit analysts and this analysis does not constitute a formal credit report for the County nor a prediction or assurance of any future ratings. Moreover, KNN's estimated scoring of various credit metrics excludes scoring of certain qualitative adjustments applied by the rating agency to arrive at the Individual Credit Profile (ICP), which determines the Anchor score. Further, KNN does not score the "Management" category (20%).
- This analysis is prepared exclusively for use by the County of Fresno and shall be used only for the purposes for which it was prepared as an informational tool to assist the County with its capital and debt planning. It is not intended to be used in conjunction with, or relied upon, for any specific financing transaction, nor may it be published, in whole or in part, in any offering or other documents related to a specific financing transaction.
- The information and analyses presented in this report apply only as of the date hereof.

Appendix

Footnotes to Lease Revenue Bond Scenarios

- 1. Assumes gross deposit to project fund; no interest earnings.
- Cost of issuance includes estimated fees for bond counsel, disclosure counsel, municipal advisor, credit rating, title insurance, trustee, printer, bond rounding, etc.
- 3. Underwriter's discount assumes fee of \$5.00 per \$1,000 of bond par amount.
- 4. True Interest Cost based upon market for "AA-" category Lease Revenue Bonds as of July 18, 2025. Preliminary and subject to credit rating and market conditions.

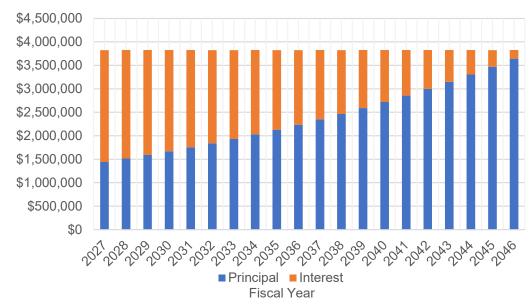

Key Features of Lease Revenue Bonds

- Contingent Obligation

 does not require voter approval.
- General fund credit covenant to annually budget and appropriate lease payments.
- Pledged asset(s) real property pledged for term of the financing.
 - Existing asset or project to be financed by LRB proceeds. The latter may necessitate funding capitalized interest.
 - Key factors of asset pledge relevant to investors: essentiality, value and useful life.
- Subject to Abatement –Payments are subject to the use and occupancy of pledged asset(s) and can be "abated" if asset is damaged or unable to be occupied.

Current Tax-exempt Municipal Market

Source: The Bond Buyer.

Factors impacting direction of rates:

- Federal Reserve policy and Treasury yields
- Inflation expectations
- Economic conditions growth vs recession
- Supply and demand
- Tax policy changes
- State and local fiscal health and stability

^{*}General obligation bonds maturing in 20 years are used in compiling the indexes. The 20-bond index has an average rating equivalent to Moody's Aa2 and S&P's AA.

Debt and Liabilities (20% of ICP)

- For local governments such as the County, the initial assessment considers the following subfactors:
 - Current cost for debt service and liabilities % of revenues (50%)
 - Net direct debt per capita (25%)
 - Net pension liability per capita (25%)

Current cost for debt service and liabilities % of revenues = The sum of annual governmental funds' debt service (principal and interest), actual employer pension contributions, and actual employer OPEB contributions, relative to total governmental revenue.

Net direct debt = Total government debt burden less offsetting/self-supporting debt.

Net pension liability = Measure of pension liability based on GASB reporting standards. NPL is calculated by subtracting the fund's plan fiduciary net position from the TPL.

Initial Assessment Scoring: Debt and Liabilities

Debt and Liabilities (20%)
