Licensed and unlicensed medical staff (Registered Nurses, Licensed Vocational Nurses and Medical Assistants or Certified Nursing Assistants with valid licensure and/or certification in the State of California) and clerical staff will need to organize and conduct clinics that will provide communicable disease and chronic disease screenings, immunizations, preventative care, treatment, and linkage for patients to a primary care clinic. Clinics will be held through employers or through community medical clinic/vaccination events that may be open to the general public.

The vendor will assist County with identifying mobile clinic locations, dates, times, and sizes of the clinic request. Lead time to clinic scheduling will be 5 days - 4 weeks.

For the period of December 13, 2022 through November 12, 2025, the County anticipates 10 to 12 clinics per month in Fresno County disadvantaged communities, focused in rural and/or agricultural communities. Mobile clinics are intended to operate a minimum of 2 days per week, any day of the week, including weekends and evenings.

For the period of November 13, 2025 through December 31, 2026, the County anticipates 2 to 4 clinics per month in Fresno County disadvantaged communities. Vendor is expected to provide mobile clinics through December 2026.

- Approximately 100 patients reached per day (may be over multiple locations).
- Events may be held inside, outside or as a drive thru.
- Events may be located anywhere within Fresno County rural areas and disadvantaged communities.
- Vendor will assist County with promoting mobile clinic events via social media and with community partners.
- Vendor will be required to work with the venue host to determine if the vendor will need to provide tables, chairs, popup tents, etc.
- Optional: Vendor may make direct payment to venue for any rental costs.

The County will provide the following:

- Venue and direct payment to venue for any rental costs.
- Clinic date, time, location and venue contact information.
- Promote mobile clinic events by sharing event information on DPH's social media platforms and with community partners.

Revised Exhibit A

- County will work with the vendor to develop an aggregate monthly report that demonstrates the type of services provided, patient demographics, location, and number of unique patients per event.
- County will work with the vendor to identify the appropriate reporting mechanism and access to data to assess emergency room utilization and primary care access for rural mobile health patients.

The Vendor will be responsible for the following:

- Vendor may provide refills of certain medications to prevent emergency room utilization.
- Vendor will provide immunizations and follow all applicable storage, handling and reporting requirements.
- Vendor will provide treatment of minor injuries.
- Vendor shall offer referral services in connecting patients to a primary care clinic.
- In addition to billing County for services, if vendor has the opportunity to bill patients' private medical insurance and/or other governmental programs for services, including, but not limited to Medicare, Medicaid, Medi-Cal, and/or the Health Resources and Services Administration (HRSA), County expects that vendor will explore such opportunities.
- Vendor shall provide monthly aggregate data as required by County.
- Vendor will collaborate with County to collect data of its rural mobile health patients to assess emergency room utilization and primary care access throughout duration of the agreement.
