ASSESSMENT FOR FIRE PROTECTION AND EMERGENCY MEDICAL SERVICES, COUNTY SERVICE AREA No. 50

Under Subsection (b) of Section 4 of Article XIII D of the California Constitution, and Sections 50078 and following of the California Government Code (Benefit Assessment Act of 1982), I certify that I am a registered professional engineer certified by the State of California, and hereby respectfully submit the enclosed Engineer's Report.

6/21/26  
Date Signed

Design Engineer: [Signature]

FRESNO COUNTY  
Department of Public Works and Planning  
2220 Tulare Street, Seventh Floor

Steven E. White, PE 37402  
Lic. Expiration: 6/30/26

I Hereby Certify that the enclosed Engineer's Report and attached Assessment Roll were delivered and filed with me on \_\_\_\_\_, 2026.

Bernice E Siedel, Clerk to the Board  
County of Fresno, State of California

By \_\_\_\_\_

## Executive Summary

### Purpose

County Service Area No. 50 (CSA 50) was established in 2003 to provide a stable funding mechanism for fire protection and emergency medical services in the Auberry community. Services are delivered under contract with the Auberry Volunteer Fire Department (AVFD), which has served since 1957. This Engineer's Report is prepared in compliance with Proposition 218 to determine the annual benefit assessment methodology and rates.

### Current Challenges

CSA 50 faces rising operational and equipment replacement costs. While revenues have increased modestly in recent years, expenditures have grown faster, leading to annual operating deficits. These shortfalls have been covered by reserve drawdowns, threatening long-term stability.

### FY 2025–26 Financial Adjustments

In October 2025, the Board of Supervisors approved an additional \$25,000 appropriation to offset rising operational costs, including equipment purchases and adjustments to AVFD's reimbursement contract. The FY 2025–26 Adopted Budget includes \$129,900 in expenditures and \$102,499 in revenues, resulting in an annual deficit covered by reserves.

### FY 2026–27 Proposed Assessment

The baseline assessment rate is **\$113.84 per Equivalent Dwelling Unit (EDU)**, generating approximately \$124,427 in total revenue. This reflects the determination that approximately 20% of total service costs represent general benefit and are not assessable under Article XIII D.

This assessment revenue represents the proportional special benefit (approximately 80% of total service costs) attributable to assessed parcels. The remaining portion of total costs, attributable to general benefit, will be funded from CSA 50's available fund balance and other lawful non-assessment revenues. Beginning in FY 2027–28, the EDU rate may increase by up to 3% annually. Apportionment is based on EDU factors that reflect the proportional benefit each property type receives.

### Capital & Reserve Planning

CSA 50 maintains an operating reserve target of 50% of annual expenditures. The capital replacement reserve requires contributions of \$20,000 annually to prepare for apparatus and

equipment replacement. Priority needs include two 2001 vehicles, with Engine 64 (1998) requiring reserve planning before 2030.

### **Proposition 218 Compliance**

Property owners will receive mailed notice at least 45 days before the public hearing, including parcel-specific calculations. The assessment is subject to a majority protest test; protests are weighted by assessment amount. If approved, the levy will appear on the FY 2026–27 property tax roll, with escalators applied annually thereafter.

### **Conclusion**

The proposed \$113.84 per EDU assessment ensures CSA 50 can maintain essential fire and EMS services, sustain reserves, and plan timely equipment replacements. Adoption is recommended to preserve community safety and financial stability.

## 1. Introduction

### 1.1 Background

County Service Area No. 50 (CSA 50) was established on June 18, 2003, by the Fresno County Board of Supervisors to provide a stable revenue stream for fire protection and emergency medical services in the Auberry community. Services are provided through contract with the Auberry Volunteer Fire Department (AVFD), which has served the community since 1957.

The County of Fresno provides administrative support to the district, including budget preparation, fund accounting, and assessment administration, with the cost of these services funded by CSA 50.

This Engineer's Report is prepared in compliance with Article XIII D of the California Constitution (Proposition 218) to establish the methodology, rates, and justification for levying a continuing benefit assessment on properties receiving special benefit from fire and EMS services.

### 1.2 Description of Lands Subject to Assessment

All parcels within the boundaries of County Service Area No. 50 (CSA 50), as established by the County of Fresno, are specially benefited by the availability of fire protection and emergency medical services, including the operation and maintenance of apparatus and equipment, and any related improvements or replacements. These parcels, identified by Assessor's Parcel Number in the Assessment Roll attached to this Report as Exhibit A, are subject to the annual benefit assessment described herein.

For a detailed boundary description of CSA 50, see Exhibit E to this Report. For a detailed description of the parcels subject to assessment, refer to the maps of record on file in the office of the Assessor of the County of Fresno. These official maps, together with the CSA 50 boundary map on file with the Department of Public Works and Planning, constitute the Assessment Diagram for the purposes of this Engineer's Report.

## 2. Estimate of Costs and Budget

### 2.1 Current Assessment & Revenue

As of Fiscal Year 2025-26, there are 1,229 assessed parcels in CSA 50, generating approximately \$101,500 in annual assessment revenue. A single-family residence is charged \$92.26 per year, representing one Equivalent Dwelling Unit (EDU), while other property categories are assessed at multiples or fractions of an EDU based on land use, including multi-unit dwellings, larger commercial properties, and vacant or agricultural parcels scaled by acreage

### 2.2 Financial History & Trend

#### CSA 50 Historical Operating Revenue and Expenditures (FY 2021–22 to 2024–25):

| Fiscal Year | Revenue   | Expenditures | Surplus / (Deficit) |
|-------------|-----------|--------------|---------------------|
| 2021–22     | \$90,475  | \$84,101     | \$6,373             |
| 2022–23     | \$93,466  | \$83,033     | \$10,433            |
| 2023–24     | \$97,099  | \$99,645     | (\$2,546)           |
| 2024–25     | \$100,350 | \$116,328    | (\$15,978)          |
| 2025–26     | \$102,499 | \$129,900    | (\$27,401)*         |

\*Projected deficit for FY 25-26.

### 2.3 Methodology for Estimated Costs

This report estimates the cost of providing services based on historical expenditure data and the needs of the AVFD to continue its regular fire suppression and emergency medical services. CSA 50 will be responsible for obtaining, furnishing, operating, and maintaining fire suppression and medical emergency services equipment or apparatus, the training and administration of volunteer personnel performing said fire suppression and emergency medical services, and the general costs for administrating the AVFD, its facilities and operations as they are currently administered. The AVFD provides fire suppression and emergency medical services to parcels, improvements or property in CSA 50, whether or not such services are actually used by or upon a parcel, improvement, or property. The AVFD provides a "first response" to fire and medical emergencies meaning the AVFD is the first to respond to such emergencies and to provide basic

life support services that mitigate the situation until cooperating agencies can arrive and provide transportation or additional services to those affected.

The AVFD does not propose an expansion of service beyond what the AVFD currently provides, and CSA 50 funds are proposed to support the AVFD's current level of service and future needs to maintain this current level of service.

The AVFD's primary service obligation is limited to parcels within CSA 50, although it may participate in mutual aid responses consistent with regional emergency protocols.

## 2.4 Reserve Policy

CSA 50 maintains a reserve policy designed to ensure both financial stability and long-term sustainability of fire protection and emergency medical services. The district's operating reserve is set at a target of 50 percent of annual operations and maintenance expenditures, which equals approximately \$65,000 for Fiscal Year 2025-26. This reserve provides stability against the timing of revenue receipts, supports continued service delivery during emergencies, and serves as a buffer against unanticipated cost increases.

CSA 50 is projected to have an ending fund balance of approximately \$94,534 at the close of Fiscal Year 2025-26. This balance exceeds the District's Operating Reserve Policy target (50% of annual O&M). Accordingly, no additional operating reserve contribution is included in the FY 2026-27 assessment budget. Future assessments will maintain reserve compliance through fund balance carryover and application of the annual escalator.

As part of this updated assessment, the district also proposes to establish a new capital replacement reserve dedicated to the future replacement of fire apparatus and critical equipment. If approved, CSA 50 would begin setting aside funds annually beginning in FY 2026-27 based on the estimated cost and useful life of its engines, vehicles, radios, and other major equipment. The near-term goal is to contribute \$20,000 annually to begin preparing for upcoming priority replacements, with the long-term objective of building the reserve to a level sufficient to meet replacement needs as the fleet turns over

## 2.5 Capital Replacement Plan

| Apparatus | Make/Model (Year)        | Type                   | Service Life | Est. Replacement | Notes                      |
|-----------|--------------------------|------------------------|--------------|------------------|----------------------------|
| Bush 64   | International (2007)     | Type 3 Wildland Engine | 25-30 yrs    | 2032-37          | Replaced former Engine 264 |
| Engine 64 | Freightliner FL70 (1998) | Type 2                 | 25-30 yrs    | 2030             | Build reserves             |

**Engineer's Report  
Assessment CSA 50**

|                  |                   |         |           |         |         |
|------------------|-------------------|---------|-----------|---------|---------|
| Water Tender 264 | Kenworth (2020)   | Tender  | 25 yrs    | 2045    |         |
| Squad 64         | Ford F-550 (2022) | Rescue  | 15-20 yrs | 2037-42 |         |
| Chief 264        | Ford F-150 (2001) | Command | 15 yrs    | 2026    | Overdue |
| Chief 64         | Ford F-250 (2017) | Command | 15 yrs    | 2032    |         |
| Utility 64       | Ford F-150 (2001) | Utility | 15 yrs    | 2026    | Overdue |

**Priority replacements:** 2001 vehicles within 2-3 years. Build reserves for Engine 64 before 2030, followed by Bush 64 after 2032. Continue 10-year rolling replacements for SCBAs, extrication tools, and radios.

## 2.6 Estimated Costs and Assessment Requirement

The following budget details the proposed expenditures funded by CSA 50 for Fiscal Year 2026-27 if the proposed assessments are approved by the property owners in the ballot proceeding.

| Category  | Item  | Amount           |
|---|---|------------------|
| Operations & Maintenance                        | Estimated Contracted Fire & EMS Services (AVFD) | \$122,895        |
|   | Administrative/PeopleSoft/County Charges        | \$650            |
|   | Professional & Specialized Services             | \$12,000         |
|   | <b>Subtotal Operations &amp; Maintenance</b>    | <b>\$135,545</b> |
| Capital Replacement Reserve                     | Annual Contribution                             | \$20,000         |
| <b>Estimated Annual Total Cost of Service</b>   |   | <b>\$155,545</b> |
| General Benefit (20%)                           |   | (\$31,109)       |
| Special Benefit (approx. amount to be assessed) |   | \$124,436        |
| Total EDU Units                                 |   | 1,093            |
| Assessment Rate (Per EDU)                       |   | \$113.84         |
|   | <b>Total Assessment Revenue</b>                 | <b>\$124,427</b> |

**Note:** The estimated contracted services amount reflects AVFD's projected operating costs for Fiscal Year 2026-27 and is used for purposes of estimating the reasonable cost of providing fire and emergency medical services within CSA 50. The final reimbursement amount will be governed by the terms of the approved service agreement.

The total annual cost of fire protection and emergency medical services for Fiscal Year 2026-27 is estimated at \$155,545. The identification and quantification of general benefit (and resulting assessable special benefit) is presented in Section 3.2. The assessment revenue proposed herein reflects only the proportional special benefit conferred on assessed parcels and does not exceed the reasonable cost of such special benefit.

## 3. Assessment

### 3.1 Description of Proposed Assessment

The proposed Assessment is to provide a method for all parcels that receive a benefit to pay their proportional share of the cost of providing fire protection and emergency medical services.

The proposed Assessment will be collected annually at the same time, and in the same manner, and subject to the same penalties, as the general taxes of the County. The County's reasonable cost to collect the Assessment each year is included in the CSA 50 operations and maintenance budget attached as Exhibit B.

Penalties may be collected for late payment of the Assessment, or unpaid amount, in the manner and at the same rates as that applicable for late payment or the amount thereof unpaid of County general taxes.

If there is no majority protest, the Assessment will be imposed beginning in tax year 2026-27 and each year after in accordance with the Assessment Roll attached as Exhibit A to this Report, until the Board, at the Board's discretion, reduces or terminates the Assessment, or until a proposed increase in the Assessment, if any, is approved in another Proposition 218 proceeding.

The revenue derived from the Assessment shall not be used to pay the cost of any service other than fire protection and emergency medical services. The annual aggregate amount of the Assessment shall not exceed the estimated annual cost of providing the fire protection and emergency medical services.

### 3.2 Method of Apportionment

The Assessment District consists of all Assessor Parcels within the boundaries of CSA 50, as established by the County of Fresno and shown on the official boundary map and Assessor's parcel maps on file with the County. The method used for apportioning the assessment is based upon the proportional special benefits conferred on the properties in the Assessment District over and above general benefits conferred on real property in the District or on the public at large. The apportionment of special benefit is a multi-step process: (1) identify the total cost of services; (2) identify and quantify the general benefits that must be excluded from assessment;

(3) identify and describe the special benefits conferred on assessed parcels and (4) allocate the assessable special benefit costs to property based on the estimated relative special benefit for each type of property.

#### a. Identification of Services and Total Cost

The services funded by CSA 50 include fire suppression, emergency medical first response, and related emergency services. These services cover the operation, maintenance, and replacement of fire protection equipment and emergency equipment; the training and coordination of volunteer personnel; dispatch services; and administrative support. The total annual cost of providing these services for Fiscal Year 2026-27 is estimated at \$155,545, as detailed in Exhibit B.

#### b. Identification and Quantification of General Benefits

1. **Benefits to Persons Rather Than Property:** A significant portion of fire protection and emergency medical services benefits people (residents, visitors, employees, and travelers) rather than real property. Based on AVFD call data, approximately 80% of emergency responses are medical calls that primarily benefit persons through life-safety intervention, injury treatment, and health crisis response. However, the cost of providing fire and emergency medical services is driven largely by maintaining apparatus, facilities, training, and response readiness, which must be available regardless of call type. Medical responses utilize the same personnel, equipment, and infrastructure required for structural fire suppression and wildland response. While these services indirectly benefit property by preserving the lives of occupants, the direct benefit flows to individuals regardless of property ownership. After accounting for the readiness-based nature of service costs and the indirect property impact of medical services, the Engineer estimates that 15% of total service costs represent benefits to persons rather than property.
2. **Community-Wide and Regional Benefits:** Fire suppression services provide regional benefits by preventing the spread of fire beyond the Assessment District boundaries and by participating in mutual aid agreements with neighboring jurisdictions. The AVFD may respond to mutual aid calls outside CSA 50 and receives mutual aid from CAL FIRE and neighboring departments. Additionally, fire services contribute to the general safety and economic vitality of the broader Auberry community in ways that benefit non-property interests. The Engineer estimates that 4% of total service costs represent community-wide and regional benefits.
3. **Benefits to Property Outside the District:** Properties adjacent to the Assessment District boundaries receive an incidental benefit from the reduced risk of fire

spreading from within the District. The Engineer estimates that 1% of total service costs represent benefits to properties outside the Assessment District.

Based on the foregoing analysis, the Engineer determines that 20% of the total cost of services constitutes general benefit that is not assessable under Proposition 218. This general benefit component (approximately \$31,109) must be funded from sources other than the special assessment, including fund balance, interest earnings, and other non-assessment revenues.

### c. Identification and Description of Special Benefits

Special benefits are particular and distinct benefits conferred directly upon identified parcels over and above any general benefits. A special benefit must be particular and distinct to assessed parcels. The following special benefits are conferred on parcels within CSA 50:

1. **Reduced Property Damage Risk Through Dedicated Local Response:** Parcels within CSA 50 receive the particular benefit of having dedicated fire suppression resources positioned to respond within the District. The AVFD station is located within the District at 29849 Auberry Road, providing response times significantly shorter than would be available from the nearest alternative resources. Fire damage increases exponentially with response time; the National Fire Protection Association reports that structure fires can double in size every 60 seconds during the growth phase. The difference between a 5-minute and 15-minute response can mean the difference between a contained room fire and total structural loss. This benefit is particular and distinct because it depends on the parcel's location within the AVFD service area. Properties outside CSA 50 do not receive this localized response capability.
2. **Enhanced Property Value Through Risk Reduction:** Real property values are directly affected by the availability of fire protection services. Properties in areas with established fire protection command higher market values than comparable properties without such protection. The Auberry community is located in a wildland-urban interface area with elevated fire risk; the presence of local fire protection resources provides specific risk mitigation that directly supports property values. This benefit is particular and distinct because it is tied to the specific risk profile of parcels within CSA 50 and the availability of dedicated local response resources.
3. **Direct Protection of Structures and Improvements:** Improved parcels receive the direct benefit of having trained personnel and appropriate apparatus available to suppress fires affecting structures on those parcels. This includes interior firefighting capabilities (Engine 64), wildland-urban interface protection (Bush 64), water supply for extended operations (Water Tender 264), and rescue/extrication capabilities (Squad 64). This benefit is particular and distinct because it is delivered directly to

the parcel experiencing the emergency through direct, active fire suppression intervention.

4. **Protection Against Fire Spread from Adjacent Properties:** Each parcel within CSA 50 benefits from fire suppression services provided to neighboring parcels. When AVFD suppresses a fire on Parcel A, the action directly prevents that fire from spreading to adjacent Parcels B, C, and D within the District. This benefit is particular and distinct because it arises from the geographic proximity of parcels within the Assessment District.
5. **Protection of Unimproved Land Value and Development Potential:** Unimproved parcels receive special benefit through protection of land value and preservation of development potential. Fire suppression services protect vegetation, trees, fencing, and other land assets. Additionally, the availability of established fire protection services supports future development approvals in wildland-urban interface areas. This benefit is particular and distinct because it only attaches to the specific development potential of parcels within CSA 50.

| <b>Benefit Category</b>                | <b>Percentage</b> | <b>Approximate Amount</b> |
|--|-------------------|---------------------------|
| Benefit to Persons                     | 15%               | \$23,332                  |
| Community Wide/Regional                | 4%                | \$6,222                   |
| Benefit to Outside Property            | 1%                | \$1,555                   |
| Total General Benefit (Not Assessable) | 20%               | \$31,109                  |
| Total Special Benefit                  | 80%               | \$124,436                 |

### 3.3 Method of Assessment

The second step in apportioning assessments is to determine the relative special benefit for each property. This process involves determining the relative benefit received by each property in relation to a single-family home, or, in other words, on the basis of Equivalent Dwelling Units (EDUs). This EDU methodology is commonly used to distribute assessments in proportion to estimated special benefit and is generally recognized as providing the basis for a fair and appropriate distribution of assessments. For the purposes of this Engineer's Report, all properties are designated an EDU value, which represents each property's relative benefit in relation to a single-family home on one parcel. In this case, the "benchmark" property is the single-family detached dwelling, which is defined as one Equivalent Dwelling Unit or one EDU.

#### a. EDU Assignment - Rates by Land Use Type

The annual benefit assessment shall be levied according to the following methodology. Each parcel's assessment is determined by multiplying its EDU factor by the baseline EDU rate.

| EDU Assignments – Rate by Land Use Type |            |
|---|------------|
| Land Use Type                           | EDU Factor |
| Single-Family Residence (SFR)           | 1.00       |
| Multi-Unit Residential (per unit)       | 0.79       |
| Commercial <1 acre                      | 1.00       |
| Commercial 1–5 acres                    | 1.50       |
| Commercial >5 acres                     | 2.00       |
| Mobile Home Park (per pad)              | 0.20       |
| Vacant Land <15 acres                   | 0.30       |
| Vacant Land 15–25 acres                 | 0.60       |
| Vacant Land >25 acres                   | 1.00       |
| Churches, Schools, Misc.                | 1.00       |

Note: Parcels held in trust by the United States for a federally recognized tribe, or otherwise subject to federal restrictions against local taxation, are not subject to Proposition 218 assessments. Tribal-owned parcels held in fee and not subject to such restrictions are assessed if they receive special benefit. Where assessments cannot be levied due to federal restrictions, services may continue to be provided, and cost recovery may be pursued through separate agreements where legally permissible.

The number of Equivalent Dwelling Units (EDUs) in CSA 50 is based on the parcel-level EDU assignments shown in the Assessment Roll (Exhibit A), which reflect land use and proportional special benefit. For reference and verification purposes, the total EDUs were cross-checked by dividing the total assessment revenue collected in Fiscal Year 2025–26 by the assessment rate per EDU in that year. In FY 2025-26, a total of \$100,816.87 in assessments was levied at a rate of \$92.26 per EDU, yielding approximately 1,093 EDUs. This calculated total is consistent with the sum of the parcel-level EDU assignments in the Assessment Roll and is used for the updated assessment calculations.

### 3.4. Assessment Apportionment

In establishing the method of apportionment, the Engineer considered several alternatives. One alternative is a fixed or flat assessment. However, a fixed or flat assessment for all properties of similar type was deemed to be inappropriate because larger properties with larger sized improvements receive a higher degree of benefit than other similarly used properties that are significantly smaller. (For two properties used for commercial purposes, there is clearly a higher benefit provided to the larger property in comparison to a smaller commercial property because the larger property generally supports a larger building and would experience a higher value of loss from fire destruction. This benefit ultimately flows to the property.) Larger parcels, therefore, receive an increased benefit from the assessments.

Therefore, the special benefits derived from the Assessment District are conferred on property and can be measured by the type and size of property. The Engineer determined that the appropriate method of assessment should be based on the type of property and the relative size of the property. This method is further described below.

#### a. Residential Properties

All improved residential properties that represent a single residential dwelling unit are assigned one Single Family Equivalent or 1.0 EDU. Traditional houses, zero-lot line houses, townhomes, and mobile homes are included in this category.

Properties with more than one residential unit are designated as multi-family residential properties. These properties, along with condominiums, benefit from the services and improvements in proportion to the number of dwelling units that occupy each property, the average number of people who reside in each property, and the average size of each property in relation to a single-family home in the Assessment District. This Report determines that an EDU equivalent of 0.79 per unit is appropriate for Condominiums or Multi-family properties.

Trailer and Mobile Home parks in the Assessment District also depend on density factors and number of units in the park. Mobile homes and trailers in mobile home parks tend to be considerably small in size and have lower population densities than Single Family Homes. Furthermore, mobile home parks are in many ways equivalent to other commercial property types and have fluctuating vacancy rates throughout the year. Given these considerations, EDUs are assigned based on the range of total spaces in a mobile home park. In this respect, mobile home parks are assigned 0.20 EDUs per mobile home pad.

#### b. Commercial and Industrial Properties

Commercial and industrial properties receive all five of the special benefit factors described previously from the Services at generally equivalent levels as residential properties. However, some commercial and industrial properties have the distinction of being materially larger than the single-family homes in the Assessment District. Such larger properties tend to have more improvements that receive special benefits from the Services. Therefore, it is reasonable to assign more benefit to larger commercial and industrial properties.

Accordingly, commercial and industrial properties less than 1 acre in size are assigned 1.0 EDU. Commercial and Industrial properties greater than 1 acre in size are typically larger than single family homes and have more improved areas that benefits from the Services. Accordingly, commercial and industrial properties greater than 1 acre and less than 5 acres in size are assigned 1.5 EDU. Commercial and industrial properties more than 5 acres are assigned 2 EDUs.

### c. Vacant and Agriculture Properties

The benefits received from the fire suppression and emergency medical services throughout the Assessment District include active benefits, which are related to the use and enjoyment of property in the Assessment District, and passive benefits, which are related to the underlying land. An example of a passive benefit is enhancement of property value that will accrue to a vacant or agriculture parcel from the fire suppression and emergency medical services based on its future potential use. Another example of a passive benefit factor is reduced risk of fire because all properties in areas with reduced fire risk are generally more valuable and the cost of insurance is lower. Undeveloped property also benefits from the Services because when the property is developed, the Services will be available to the developed property.

The benefit to vacant and agriculture properties is determined to be proportional to the corresponding benefits for similar type developed properties; however, at a lower rate due to the lack of active benefits. Using Fresno County Assessor data, the average value of improvements on developed properties is approximately 70% of the total value, with land value comprising the remaining 30%. Because fire suppression services to vacant or agriculture properties benefit those properties through the protection of landscaping, trees and reducing the threat of fire spreading to adjoining parcels with improved structures, the EDU benefit factor to each vacant parcel should equate to the land value analysis. Furthermore, because larger parcels would incur more service and attention, the size of the vacant lot must also be considered. The average lot size of improved residential structures in the Assessment District is 15 acres. It is therefore determined that vacant and agriculture lands less than 15 acres receive 0.30 EDU; vacant and agriculture lands between 15 and 25 acres receive 0.60 EDU; and vacant or agriculture lands in excess of 25 acres receive 1.0 EDU.

### d. Other Properties

Article XIII stipulates that publicly owned properties must be assessed unless there is clear and convincing evidence that those properties receive no special benefit from the assessment.

All properties that are specially benefited by the availability of fire protection and emergency medical services are assessed. Public right-of-way parcels, wells, reservoirs, or other utility parcels that cannot be developed into improved uses, as well as limited-access open space parcels, may receive incidental or minimal benefit from the services provided. Any such benefit is considered offset by the general benefit provided to the public at large and is therefore not subject to assessment under this Engineer's Report

Other publicly owned property that is used for purposes similar to private residential, commercial, industrial or institutional uses is benefited and assessed at the same rate as such privately owned property.

Church parcels and property used for educational purposes typically generate employees on a less consistent basis than other non-residential parcels. Such public use tends to have the same chance as residential parcels in using the services. Therefore, these parcels are assessed an EDU factor of 1.

#### e. State Responsibility Area

The boundaries of CSA 50 lie within a State Responsibility Area (SRA). The Auberry Volunteer Fire Department responds to all calls within the District boundaries regardless of a parcel's designation within the SRA. Government Code Section 50078.2(b) provides that:

*"A benefit assessment shall not be levied for wildland or watershed fire suppression on land located in a state responsibility area as defined in Section 4102 of the Public Resources Code."*

Accordingly, parcels within the SRA that are zoned for residential, commercial, or other development and receive a direct special benefit from fire protection and emergency medical services will be assessed in proportion to that benefit. Parcels designated solely as wildland or watershed are not assessed, since any incidental benefits they receive are considered general benefits to the public at large and not subject to assessment under this Engineer's Report.

#### f. Assessment Calculation

$$\text{Parcel Assessment} = \text{EDU Factor} \times \text{EDU Rate}$$

If the proposed assessment is approved, in FY 2026-27 the EDU Rate will be \$113.84. Beginning in FY 2027-28, the rate may increase up to 3% annually.

## 4. Summary

### 4.1 Summary of Procedures

The Assessment methodology utilized is as described in the text of this Report. Based on this methodology, the Assessment for each parcel was calculated, and is as shown on the Assessment Roll attached as Exhibit A to this Report.

Each parcel of land within CSA 50 has been identified by Assessor's Parcel Number. A Noticing List containing parcel ownership and mailing address information has been prepared and is shown in Exhibit D of this Report.

Upon preliminary approval of this Report, the Clerk will give notice of the public hearing and proposed Assessment by mailing an official notice to all persons owning real property subject to the proposed Assessment. A ballot will be mailed with the official notice. The ballot will make provision for casting an affirmative or protest vote.

**Engineer's Report  
Assessment CSA 50**

---

As required by Section 4 of Article XIII D of the California Constitution, a property owner ballot must be enclosed with the notice, along with a self-addressed, return envelope by which the ballot may be returned to the Clerk of the Board. This ballot may be used by the owner or owners of any parcel to express either support for or opposition to the proposed Assessment. The ballot instructions will describe the alternative methods for submitting the ballot either by mail or by personal delivery, either prior to or at the time of the public hearing of protests.

Immediately following the close of the public hearing of protests, the returned ballots will be tabulated, both in support of and in opposition to the proposed Assessment, with each ballot being weighted in accordance with the amount of the proposed Assessment, and the results will be announced; provided that, in the event that the Clerk of the Board requires opportunity to determine whether any ballot has been properly signed by an owner or authorized representative of any owner, the Board, at their discretion, could continue the matter of announcing results to provide the Clerk with such opportunity.

If ballots in opposition exceed ballots in support, there will be a "majority protest" and the Board will be precluded from proceeding with the proposed Assessment.

If a weighted simple majority of ballots cast by parcel owners (weighted according to each parcel's proportional financial obligation) are affirmative, the Board will proceed to confirm the Assessment and order the Assessment to be levied as proposed in this Report. If a weighted majority of the ballots cast protest the proposed Assessment, the proposed Assessment must be abandoned.

## 4.2 Declarations

In my professional judgment as Engineer of Record, the assessments are levied in proportion to the special benefit received, and the EDU-based allocation methodology remains valid and equitable. The proposed rates and escalator are necessary to maintain financial stability, adequately fund reserves, and ensure timely apparatus replacement.

This written Report, pursuant to Article XIII D, Section 4 of the Constitution, contains all of the following:

- A. Exhibit A contains the Assessment Roll for CSA 50, which lists all parcels subject to the annual assessment and their respective charges.
- B. Section 1.2 of this Report identifies and describes parcels on which the Assessment will be imposed.
- C. It is my determination pursuant to Sections 2.3 and 3.2 of this Report that no Assessment proposed to be levied on any parcel exceeds the reasonable cost of the proportional special benefit conferred on that parcel.
- D. It is my determination that the only benefits assessed are special.

## Exhibits

### Exhibit A – Assessment Roll

The Assessment Roll is made part of this report and is available for public inspection during normal office hours. Each lot or parcel listed on the Assessment Roll is shown and illustrated on the latest County Assessor records and these records are, by reference, made part of this report. These records shall govern for all details concerning the description of the lots or parcels.

The following Assessment Roll (Exhibit A) lists the parcels and corresponding assessments for CSA 50. Because the Fiscal Year 2026-27 tax roll has not yet been generated, this exhibit reflects the most recent certified roll for Fiscal Year 2025-26. The Fiscal Year 2026-27 roll will be prepared by the County Auditor-Controller/Treasurer-Tax Collector following adoption of this Engineer's Report and will apply the updated assessment rate to current parcel data.

The assessment amount shown for each parcel in the Assessment Roll reflects the parcel's assigned Equivalent Dwelling Units (EDUs) multiplied by the adopted EDU rate, as described in Section 3 of this Report.

## Exhibit B – Estimated Costs and Assessment Requirement

The following budget details the proposed expenditures funded by CSA 50 for Fiscal Year 2026-27 if the proposed assessments are approved by the property owners in the ballot proceeding.

| Category                                      | Item  | Amount           |
|---|---|------------------|
| Operations & Maintenance                      | Estimated Contracted Fire & EMS Services (AVFD) | \$122,895        |
|   | Administrative/PeopleSoft/County Charges        | \$650            |
|   | Professional & Specialized Services             | \$12,000         |
|   | <b>Subtotal Operations &amp; Maintenance</b>    | <b>\$135,545</b> |
| Capital Replacement Reserve                   | Annual Contribution                             | \$20,000         |
| <b>Estimated Annual Total Cost of Service</b> |   | <b>\$155,545</b> |
| General Benefit (20%)                         |   | (\$31,109)       |
| Special Benefit (80 %)                        |   | \$124,436        |
| Total EDU Units                               |   | 1,093            |
| Assessment Rate (Per EDU)                     |   | \$113.84         |
|   | <b>Total Assessment Revenue</b>                 | <b>\$124,427</b> |

Note: Based on the Engineer's determination that 20% of total costs represent general benefit (approximately \$31,109), the proportional special benefit to assessed parcels is estimated to be approximately \$124,436. The proposed assessment revenue of \$124,427 does not exceed the reasonable cost of the proportional special benefit.

Exhibit C – AVFD Annual Budget

| EXPENSES   | MONTHLY          | ANNUAL            |
|--|------------------|-------------------|
| Squad payment  | 1,385.00         | 16,620.00         |
| Fuel   | 350.00           | 4,200.00          |
