Projects for Assistance in Transition from Homelessness (PATH)
State Fiscal Year (SFY) 2026-27 Funding Allocation

Fresno

County Name

RUJLP1K3WWK9

 Entity Data Detail.pdf is included**SAM Unique Entity Identifier**

Total Allocation	\$329,402
-------------------------	-----------

The County requests the continuation of the PATH grant. These funds will be expended in accordance with all applicable federal and state requirements and will be used as stated in the enclosed PATH Funding Agreements with Federal Requirements on Use of Allotments, Certification Statements, and Compliance Assurances.

This estimate is the proposed total expenditure level for State Fiscal Year (SFY) 2026-27 and is subject to change based on the level of appropriation approved in the State Budget Act of 2026. In addition, this amount is subject to adjustments only for a net reimbursable amount to the county. The adjustments include, but are not limited to, Gramm-Rudmann-Hollings (Federal Deficit Reduction Act) reductions, prior year audit recoveries, federal legislative mandates applicable to categorical funding, augmentations, etc. The net amount reimbursable will be reflected in reimbursable payments as the specific dollar amounts of adjustments become known for each county.

The County will use this funding allocation worksheet to build the County's SFY 2026-27 budget for the provision of services to reduce or eliminate homelessness for individuals with serious mental illnesses (SMI), co-occurring substance use disorders, and who are experiencing homelessness or are at imminent risk of becoming homeless. DHCS recognizes that variances between approved budgets and actual expenditures can occur during the course of the fiscal year. In an effort to reduce administrative burden, DHCS is implementing a policy in which a county may internally, and without official DHCS approval, shift up to 10% of the total program budget between existing, approved line items within the same program budget for which it was originally approved.

The law also applies to children's services that are provided in indoor facilities that are constructed, operated, or maintained with such Federal funds. The law does not apply to children's services provided in private residence, portions of facilities used for inpatient drug or alcohol treatment, service providers whose sole source of applicable Federal funds is Medicare or Medicaid, or facilities where WIC coupons are redeemed.

Failure to comply with the provisions of the law may result in the imposition of a civil monetary penalty of up to \$1,000 for each violation and/or the imposition of an administrative compliance order on the responsible entity.

By signing the certification, the undersigned certifies that the applicant organization will comply with the requirements of the Act and will not allow smoking within any portion of any indoor facility used for the provision of services for children as defined by the Act.

The applicant organization agrees that it will require that the language of this certification be included in any subawards which contain provisions for children's services and that all subrecipients shall certify accordingly.

Description of the flow of federal PATH funds in California: PATH funding in California is allocated to the counties from the California State Department of Health Care Services. Each county has a Behavioral Health Department that provides services to the public in California; PATH funds are distributed at the county level to either county or contracted providers.

Directions – Provider Intended Use Plan: The Provider Intended Use Plan will provide specific information on each organization and program funded with PATH Federal and Match funds and should be answered at the provider level.

1. Provider Name (if different from the Legal Name of Business):
County of Fresno - Department of Behavioral Health
2. Total Federal PATH dollars allocated from county: \$329,402.00
3. **To be completed by the county:**
Total match dollars in budget: \$109,801.00
4. **To be completed by the county:**
What funding sources are used for the match? Behavioral Health Services Act (BHSA)
5. Please provide a brief overview of your organization’s history, current existing programs, regions served, and services provided.

The County of Fresno (Fresno County)- Department of Behavioral Health (DBH) serves as the primary government agency for mental health and substance use disorder services in Fresno County. Fresno County's formal public behavioral health operations grew out of the broader California county mental health system. Under state law, counties operate Mental Health Plans (MHPs) that coordinate specialty mental health services, especially for Medi-Cal beneficiaries. Throughout the late 2000s and 2010s, Fresno County expanded community-based services, crisis response programs, and culturally responsive initiatives funded through BHSA planning processes. These efforts included innovation projects like the California Reducing Disparities Project, which focused on culturally specific services for African American, Hmong, and Latino communities. In the mid-2010s, the county also invested in physical infrastructure, such as planning for crisis residential treatment centers to provide short-term care as alternatives to hospitalization. Fresno County DBH provides initial screening, crisis support, and urgent intervention for people of all ages. 24/7 Behavioral Health Access Line – A statewide toll-free line for screening, referral to appropriate services, and information about care options. Mobile Crisis Response Team – Clinicians and first responders dispatched to support individuals experiencing a behavioral health crisis. Urgent Care Wellness Center – Drop-in site for immediate help, assessment, and linkage to services. Crisis Stabilization Centers (Adult & Youth) – Short-term stabilization and care for individuals in crisis. Central Valley Suicide Prevention Lifeline (988) – Free, confidential support for anyone in emotional distress or suicidal crisis. Adult System of Care Services – Access to outpatient therapy, case management, and wellness support. Assisted Outpatient Treatment (AOT) – Court-linked community treatment for adults with serious mental illness (SMI). Crisis Residential Treatment for Adults – Temporary residential support as an alternative to hospitalization. Perinatal Wellness Program – Behavioral health care for pregnant and postpartum individuals and families. The County of Fresno, Department of Behavioral Health, also has ongoing projects including FMCoC Access Sites, permanent supportive housing for individuals/families experiencing homelessness or at risk of homelessness living with serious mental illness or co-occurring substance use disorder. Projects also include licensed board and care homes for individuals that require additional supports specific to mitigating barriers for persons with SMI to prevent recidivism and/or homelessness. County also has projects including Master Leasing Program and has provided oversight to former PATH awardees providing Street Outreach.

6. The purpose of this section is to provide a description of your organization’s plan to provide coordinated and comprehensive services to eligible PATH Clients. Please provide the following information as it relates to activities for SFY 2026-27.
- a. The projected number of adult clients to be contacted using PATH funds.

400
 - b. The projected number of adult clients to be enrolled using PATH funds.

275
 - c. The projected percentage of adult clients contacted using PATH funds who are “literally” homeless (i.e., living outdoors or in an emergency shelter rather than at imminent risk of homelessness.)

90%
 - d. Identify activities that will occur to maximize the use of PATH funds to serve adults who are literally homeless as a priority population.

Street outreach and encampment outreach will be primary source of referrals, with a designated team of case managers, substance abuse specialists, and clinicians making contact with those individuals/families residing at known encampment sites and/or locations that are often frequented by Fresno County's unhoused community including Access Sites, outside of shelters, BlueSky Wellness Center, and other community partners that provide services to persons that are literally homeless. The eligibility requirements will be less stringent for those individuals and families that are literally homeless compared to referrals sources for persons that are at risk for homelessness. Adults that are meeting definition of "literally homeless" will not require SMI diagnosis or severe co-occurring substance use disorder to receive targeted case management and outreach services. In addition to field-based outreach, there will be a mobile outreach vehicle that will provide ongoing visibility and predictability for the community to be able to anticipate ways to connect to services. Funds provided will go towards providing basic needs for the "literally homeless" population including food, clothing, and hygiene items that will support immediate needs of this population in addition to establishing rapport to maintain connection to services.

- e. Describe how services provided using PATH funds will align with PATH goals to target outreach and case management as priority services, including serving the most vulnerable adults who are literally and chronically homeless and individuals with a history of incarceration.

The Fresno County DBH's PATH funded Housing Outreach program will prioritize serving adults who are literally homeless or at risk of

homelessness by focusing outreach efforts at unhoused encampments located within the metro areas of Fresno. Ninety percent of clients served are projected to be literally homeless. By having evidence-based practice (EBP) trained and recovery experienced staff, clients are more likely to be engaged and reveal PATH eligibility to start program services. Outreach services include assistance with housing services, providing snacks, clothing, transportation, and linkage to housing programs, County Mental Health, social service programs and community-based organizations as needed. Additional services include on-site safety planning, assessments, case management, individual and group support groups, mental health rehabilitation, Telepsychiatry, medication monitoring, and supportive and stable housing services

- i. Describe services and community supports to be provided to assure long-term housing for veterans with serious mental illness that are experiencing homelessness.

Veterans are eligible for all PATH funded program services, including mental health, substance use, and housing services. The PATH Program provides transportation to veterans' services. Persons served are also referred to programs available through the Veterans Administration (VA) and San Joaquin Valley Veterans (SJVV). County DBH will coordinate with the VA to provide services to Veterans. SPECIALTY MENTAL HEALTH SERVICES (SMHS) will be provided to residents based on need, by DBH staff or contracted SMHS providers, to include but is not limited to: 1) Assessment, 2) Care planning/Goal setting, 3) Psychiatry/Medication Support – if applicable, 4) Individual/Family therapy, 5) Group therapy, 6) Targeted Case Management, 7) Peer Support Services, 8) Rehabilitation, 9) Intensive Care Coordination – if applicable, 10) Intensive Home-Based Services – if applicable, 11) Linkage to additional services and supports including medication services, 12) Hospitalization/Post Hospitalization Support, 13) Crisis Intervention HOUSING SUPPORTIVE SERVICES will be provided to residents based on identified need, and will be provided by DBH staff, contracted SMHS providers, or through referral to community providers, to include but is not limited to: 1) Case Management, 2) Peer Support Activities, 3) Mental health Care, 4) Substance Use Services, 5) Support in linking to physical health care, 6) Benefits counseling and advocacy, 7) Basic housing retention skills, 8)

Supportive Services for persons with co-occurring mental and physical disabilities or co-occurring mental and substance use disorders, 9) Recreational and social activities, 10) Educational services, 11) Employment services, 12) Reasonable access to other needed services, such as legal services, or access to food and clothing, 13) Physical health care, 14) Potential out-placements, 15) Representative payee, 16) Legal assistance, 17) Attendant care, 18) Adult day care, 19) Parenting education, childcare, and family legal and counseling services including, but not limited to, family reunification, 20) Financial counseling, and 21) Domestic violence support

f. Identify the evidence-based practices (EBPs) currently used for the target population.

g. Provide a brief description of partnerships and activities with local community organizations that provide key services (e.g. outreach teams, primary health, mental health, substance use disorder, housing, employment) to PATH-eligible clients and describe the coordination of activities and policies with those organizations. Provide specific information about how coordination with other outreach teams will be achieved.

Fresno County Housing Outreach Team collaborates with various

community organizations to provide key services to homeless adults who are mentally ill. Initial contact and stabilization of PATH grant eligible clients will be done through clinical assessment by a licensed therapist via the Housing Outreach program. Homeless mentally ill clients with a substance abuse disorder who receive case management services and require additional support will be referred to the Fresno County Department of Behavioral Health and its other contracted providers specializing in treatment services for co-occurring disorders such as WestCare. For primary health care, linkage will be made to Federally Qualified Health Care clinics, other health care facilities such as the Fresno Community Hospitals, Clinica Sierra Vista and local private doctors. PATH encourages and assists clients to register through the Affordable Health Care Act Programs within California. Social services and employment service linkages will be made to the Fresno County Department of Social Services, Social Security Administration, California DMV, and West Fresno Family Resource Center. Additional organizations that may provide services or resources include Fresno County Superior Court, Poverello House, Fresno Rescue Mission, Centro La Familia, Marjaree Mason Center, Veteran's Administration, Kings View Behavioral Health Services, MAP, WestCare, SOS, NAMI, Fresno Housing Authority, Turning Point Triage Shelters and faith-based organizations.

- h. Explain the gaps in current service systems that pertain to your PATH client population and briefly describe how the PATH services you provide aim to fill them.

The PATH funded services will fill the gaps related to our target population's limited ability to make it to an "access site" to obtain services. Fresno County's target population are scattered throughout the region, with limited access to access points to obtain shelter and services. Emergency Shelter and Permanent Supportive Housing is still scarce for the homeless population in Fresno County. Permanent supportive housing through the Coordinated Entry System (CES) is even more limited and has strict guidelines on which homeless individuals with mental illness and or co-occurring disorder may qualify. Fresno County DBH works with a large population of clients with substance use disorders and the lack of available residential treatment facilities such as room and boards and transitional housing. There continues to be a high volume of homeless people that live in unhoused encampments within the Metro Fresno area who lack the ability to access basic services for housing, transportation, emergency shelter and mental health due to limited availability and transportation barriers. Fresno

County DBH's PATH funded Housing Outreach program, will bring a mobile "access site" to where the target population resides, and deliver services directly to persons served at their encampment on a weekly schedule.

- i. Provide a description of the current services available to clients who have both a serious mental illness and substance use disorder.

The Fresno County Housing Outreach program provides co-occurring rehabilitation and support services embedded in a variety of behavioral health services including assistance in permanent housing, targeted case management, psychiatric services, referrals to other program services and providing transportation for such services. Groups with rehabilitation interventions are provided to support decompensation/relapses, stabilization and maintenance. Co-occurring clients also receive substance use disorder psychoeducation and counseling. Appropriate referrals are made to substance use disorder treatment providers when a higher level of care is needed and the clients see a need for more support

- j. Indicate the strategies that will be used for making suitable housing available for PATH clients (e.g. indicate the type of housing provided and the name of the agency).

Fresno County DBH continuously supports the development of housing with community organizations such as the Fresno Housing Authority and the County by participating in weekly outreach committees and collaboratives. Fresno County provides housing opportunities through MHSA Housing programs and Housing Authorities. Fresno County also currently provides supported independent living through several housing projects including Renaissance sites (Alta Monte, Trinity, and Santa Clara), and No Place Like Home sites (currently Villages at Paragon, Villages at Broadway, Butterfly Gardens, Alegre Commons, Arthur at Blackstone, and Avalon Commons) that are dedicated to the mentally ill and homeless. These projects exist through the Memorandum of Understanding between Fresno County, Fresno Housing Authority, UPholdings, and other property developers/managers. In addition to the various placement facilities available within the County, Fresno County DBH's PATH funded Housing Outreach program will provide ongoing supportive housing services to assist clients to attain and maintain housing. The Housing Outreach program will utilize less than 20% of the available PATH grant funding to support assisted housing, security deposits, and one-time payments to

prevent eviction. Housing Outreach program staff also work with different room and board providers (Clovis Christian Sober Living, Quality Homes Inc., BK House of Hope and Jeremiah's Home) to assist clients in getting off the streets as soon as possible while still waiting for permanent housing. PATH funding provides technical assistance to individuals navigating and advocating for clients with programs like STASIS, Fresno County DBH Permanent Supportive Housing, Fresno Housing Authority, low-income housing apartments through the county. The Housing Outreach program also links clients to the emergency triage shelters that are managed by Turning Point, Fresno City and the Fresno Housing Authority as a temporary placement until obtaining permanent housing. Additionally, staff are committed to assisting and supporting clients in staying connected to their local support, who may also be able to provide them with housing (e.g. family members, friends, church members, churches and other organizations).

- k. Describe how PATH eligibility is determined, when enrollment occurs, and how eligibility is documented for PATH-enrolled clients.

The Fresno County DBH's PATH funded Housing Outreach program will prioritize serving adults who are literally homeless that have serious mental illness (SMI) by focusing street outreach efforts in places such as homeless encampments and places not meant for human habitation within Metro Fresno Area. Eligibility is determined by a standard clinical assessment conducted by a licensed professional to determine if a client meets eligibility for a (SMI) diagnosis and minimum HUD criteria for homelessness. Enrollment on the same day occurs by entering the client in SmartCare and HMIS. In addition, intake documentation forms approved by Fresno County are also reviewed and filled out with the client during the assessment session as part of the enrollment process.

7. Describe your organization's participation with local Housing and Urban Development Continuum of Care (CoC) recipient(s) and other local planning activities and program coordination initiatives, such as coordinated entry activities. If the organization is not currently working with the CoC(s), briefly explain the approaches to be taken by the organization to collaborate with the CoC(s) in the areas where PATH operates.

Fresno County DBH is a voting member of the Fresno Madera Continuum of Care (FMCoC). The Housing Outreach program does not receive any HUD funds and so FMCoC full membership is not required. Fresno County DBH participates in weekly FMCoC collaborative meetings and activities to better serve the homeless

youth, adults and families in the Fresno area including the Point in Time (PIT) homeless count. Fresno County DBH also attends Coordinated Entry System (CES) Meetings and planning sessions monthly.

8. Describe your Coordinated Entry/Assessment Program and roles of key partners.

The FMCoC has created a Coordinated Entry System (CES), which Fresno County DBH has been participating in since the planning stage. The system includes the use of an initial screening to determine the client's needs, the use of a shared database, weekly shifts at Multi Agency Access Program (MAP), outreach referrals taken regularly for new coordinated entry clients and navigation through the housing referral process. Close collaboration is necessary with the Multi Agency Access Program (MAP) Community Coordinator, RH Community Builders, Turning Point, Clinica Sierra Vista, San Joaquin Veterans, WINGS Advocacy Fresno, Poverello House, DBH, WestCare, Marjoree Mason Center and the Department of Social Services, who all participate in the FMCoC and may provide the needed services or resources identified upon completion of the initial screening.

9. Describe your organization's participation in the Homeless Management Information System (HMIS) and describe plans for continued training and how providers will support new staff. For any providers not fully participating in HMIS, please describe the other system approved by SAMHSA that supports interoperability with the local HMIS.

Since FY 2021, Fresno County DBH has been fully implementing HMIS for PATH services. All program staff Case Managers, Clinicians, and Clinical Supervisor have been trained in HMIS data collection and DBH program technicians have access to Clarity for data entry. Staff currently input and maintain universal data elements and PATH project specific data elements in HMIS for all clients. Fresno County DBH has established a long-standing relationship with the Fresno Housing Authority, designated by the FMCoC as the HMIS Lead Administrator to resolve data collection and entry issues, specifically the setup of appropriate PATH data element fields and to ensure data quality through the creation of specialized monthly and annual reports. The PATH project setup in HMIS will continue to be maintained to meet all PATH Annual Reporting guidelines. HMIS training and data systems maintenance will be financed through PATH and County MHSA funds. The PATH program will continue to support all HMIS training and system use licenses for staff involved in outreach and case management services to maintain data accuracy for clients served in the Continuum of Care.

10. Describe the demographics of the client population.

Fresno County BDH serves all demographic client populations which include: all ethnicities, ages 18 through 65 and over, all gender types, all sexual orientations, and both veterans and non-veterans. Generally, there is a higher percentage of

Mexican/Mexican Americans and Other Non-Hispanic or Non-Latinos served.

11. Describe how individuals who experience homelessness and have serious mental illness and their family members will be meaningfully involved at the organization level in the planning, implementation, and evaluation of PATH-funded services. For example, indicate whether individuals who are PATH-eligible are employed as staff or volunteers or serve on governing or formal advisory boards (see Enclosure “Guidelines for Consumer and Family Participation”).

Clients and their families are encouraged to participate at the organizational level in the planning, implementation, and evaluation of PATH-funded services through the Fresno County Behavioral Health Board (BHB). The BHB is a public advisory board on adult, children, and justice system mental health and substance use disorder issues. Although at least 50% of the members of the Behavioral Health Board are mental health clients and or family members, none of the PATH eligible clients have chosen to participate. Additionally, Fresno County DBH conducts a Community Planning Process to collect stakeholder input for the County's BHSA Three-Year Plan and Annual Updates, which report on the status of current and future planned BHSA-funded programs. Fresno County DBH encourages clients to attend Behavioral Health Board and Community Planning Process meetings to provide input and feedback.

12. Describe veteran-specific services your organization provides or identify community organizations that provide veteran-specific services with which the PATH program collaborates.

Fresno County DBH's PATH funded Housing Outreach program is proactive in encouraging veterans to seek services. Clients who self-identify as a veteran are eligible for all PATH program services regarding mental health, substance use, and housing services. In addition, veterans are referred to programs available through the Veterans Administration (VA) and San Joaquin Valley Veterans (SJVV). Veterans who have been Other than Honorable (OTH) discharged or do not qualify for VA services are linked to other County Programs or community agencies. Fresno County DBH has partnered with different agencies to identify and link veterans to appropriate services. Specific services also include transportation to veteran's services. The Housing Outreach team works closely with agencies that work with veterans, especially those that are members of the FMCoC to help promote successful assistance, referral and linkage for continuity of care.

13. Provide a detailed budget narrative that provides specifics and calculations used for PATH funds. The narrative should describe the corresponding Federal Grant Detailed

Program Budget tab in Enclosure 7/8.

Enclosure 7/8 The Fresno County DBH PATH funded Housing Outreach program budget and summary, (\$329,402) will be used by Fresno County to fund a new county staffed and managed program called Housing Outreach Team. *Limited Housing Expenses: the workbook automatically totals certain housing-related expenses across all program tabs to ensure compliance with a federal limit of 20% of the county's total PATH allocation being expended on these categories (for more information on these specific expenses, see the Enclosure Instructions tab). If the combined limited housing expenses exceed 20% of the county's total PATH allocation, the applicable fields will automatically highlight. This is for county awareness and review only; no action is required within the workbook other than correcting the data entered to ensure these expenses remain less than 20% of the total PATH allocation.
