Clerk of the Board of Supervisors  
2281 Tulare Street Fresno, CA 93721

Subject: WWD 40 Protest Hearing - June 24, 2025

Dear Members of the Fresno County Board of Supervisors.

This is our official protest to the fee increase regarding the excessive debt payback that is being proposed, as a loan to the homeowners, which it is NOT a legal loan. This is a Fresno County financial mismanagement problem, that the County is trying to force the homeowners of Shaver Springs to pay for their mismanagement problems.

We have not seen proof that these costs were for our subdivision, but it's my understanding that they occurred primarily during the COVID years. So based on our knowledge of how things worked during COVID, the County sent everyone home to work, and they weren't doing their job. They weren't monitoring or balancing our account and didn't properly notifying the County supervisors or the homeowners of Shaver Springs that we were in the red. This is NOT the fault of the homeowners, this is the fault of the County's mismanagement.

Another County financial mismanagement is not increasing our water bill since 2007 (what the heck) and from not collecting from homeowners who didn't pay their bills. Some of the homeowners who didn't pay are no longer living in Shaver Springs, and you want everyone else to pay their debt? This is absurd.

We do agree with a yearly increase going forward and building up money in our account for future expenses.

We are retired and living on a fixed income. We have recently had to return to work, just to make ends meet. It's time for the County to admit to their mismanagement and do what is right and just for the homeowners in the Shaver Springs Community.

Thank you

*Joe Romero*
