The commercial general liability insurance certificate must also state that the coverage shall apply as primary insurance and any other insurance, or self-insurance, maintained by the County shall be excess only and not contributing with insurance provided under the Contractor’s policy.

For cancellation of the policy for nonpayment of premium, the Contractor shall, or shall cause the insurer to, provide written notice to the County not less than 10 days in advance of cancellation. For cancellation of the policy for any other reason, and for any other change to the policy, the Contractor shall, or shall cause the insurer to, provide written notice to the County not less than 30 days in advance of cancellation or change. The County in its sole discretion may determine that the failure of the Contractor or its insurer to timely provide a written notice required by this paragraph is a breach of this Agreement.
- (D) **County's Entitlement to Greater Coverage.** If the Contractor has or obtains insurance with broader coverage, higher limits, or both, than what is required under this Agreement, then the County requires and is entitled to the broader coverage, higher limits, or both. If applicable, updates or patches are first introduced to the test environment and it is Customer's responsibility to perform testing and report any errors within ten (10) days. If Customer does not report any errors within ten (10) days, the new release or patch will then be discharged in the production environment. AssetWorks may use the test environment to troubleshoot or configure and test new functionalities or reports. A Reporting Database may be provided for an additional fee on a 24-hour refresh.
 - v. **Custom Reports.** For an additional fee, AssetWorks will certify a Customer-built report for scheduling execution from within the

Application directly against the production database, certifying that the report performs within appropriate performance guidelines and does not cause unacceptable response time issues. Once certified, AssetWorks will install the report into Customer's production environment to make it available for execution submission from within the Application.

- vi.** Backups. Hosted Environment database and incremental file Service backups are performed daily with local retention at fifteen (15) to thirty (30) days, local workloads enabled with cloud tiering to Microsoft Azure Blob storage for archive data from thirty-one (31) to ninety (90) days; target recovery time objective (RTO) is forty-eight (48) hours or maximum of four (4) business days; Recovery Point Objective (RPO) under one (1) minute.

AssetWorks will not be held responsible for inaccessibility arising from communications problems occurring beyond AssetWorks' external network interface nor will those hours of inaccessibility count as unavailable.
- viii.** Hosted Environment Maintenance. AssetWorks will complete routine maintenance, including application upgrades, on the Hosted Environment according to the published schedule. Upgrade/patch notifications are normally sent two (2) business days in advance and generally occur during off-hours. All routine, additional, and emergency maintenance will be considered a period of scheduled maintenance. If additional non-emergency maintenance outside of the scheduled maintenance window is required, AssetWorks will notify Customer in writing of and Parties will mutually agree on the downtime.
- ix.** Data Classification. The Hosted Environment maintains SSAE-16 SOC 2 certification/ISO27001 compliance as a facility housing CUI (Controlled Unclassified Information) data based on the DOJ assessment using NIST 800-53 guidelines for FISMA (Federal Information Standards Management Agency) standards. (SC Information Service = [(confidentiality, MODERATE), (integrity, LOW), (availability, LOW)].
- b.** Customer Responsibilities. The Service specifically excludes the following items which Customer agrees to be responsible for:

Customer is solely responsible for application-level security and for secure management of Customer Credentials.
- vii. **Customer's Site.** Installation, operation, and maintenance of all workstation software, existing data communications and configurations, LAN, hardware, or other application software required at Customer's site. For purposes of the Agreement, "Availability" during any quarter refers to Customer's Users' ability (i.e. documented inability) to log into the production environment during such quarter calculated as follows:

$$X = (Y - Z) / Y * 100$$

"X" is the Availability of the production environment during the quarter;

"Y" is the total number of hours in such quarter minus the number of hours during such quarter that the Customer is unable to log in because of: **(a)** regularly scheduled maintenance windows and other times for which Customer received reasonable notice in advance thereof; **(b)** Force Majeure, third-party integrations, and other circumstances outside AssetWorks' reasonable control; **(c)** non-performance of hardware, software, Customer's internet service provider (ISP) connections, and/or non-performance of equipment that is neither provided nor certified by AssetWorks except as such non-performance is directly caused by AssetWorks; and

"Z" is the number of hours in such quarter during which the Customer is unable to log into the production environment (other than for reasons set forth in the definition of "Y" above); provided that AssetWorks was notified or reasonably should be aware of Customer's inability to log into the production environment.

- ii. Service Credit. If Availability is less than ninety-nine percent (99%) during any two (2) consecutive quarters, Customer will receive a service credit (i.e. fee adjustment) of five percent (5%) of the Service fees paid or payable by Customer to AssetWorks subject to Customer delivering written notice detailing the alleged unavailability within fifteen (15) days of the relevant quarter's end physically to AssetWorks' office address identified herein. Upon receipt of such notice, AssetWorks shall have thirty (30) days to investigate the contention and, if it is determined that AssetWorks did in fact fail to meet the applicable Availability level, Customer will receive the appropriate service credit to its account during the next invoice cycle. THE SERVICE CREDIT SET FORTH ABOVE SHALL BE CUSTOMER'S SOLE REMEDY AND ASSETWORKS' ENTIRE LIABILITY IN THE EVENT OF A BREACH OF THESE SERVICE LEVEL OBJECTIVES.
